OCEAN PASSENGER SHIPS.

Ocean passenger ships, Jan. 1, 1920, numbered 566, of 5,076,392 gross tons, as follows:

NATIONALITY.	Vessels.	Gross Tons.	NATIONALITY.	Vessels.	Gross Tons.	NATIONALITY.	Vessels.	Gross Tons.
British	291	2,778,547	Spanish	13	83,188	Peruvian	1	4,403
United States	73	625,776	Russian	9	51,312	Grecian	1	4,390
French	58	468,954	Danish	5	47,299	Chinese	1	4,284
Italian	37	264,826	Brazilian	4	34,071	Norwegian	2	23,644
Dutch	27	228,343	Belgian	4	32,847			
Japanese	27	213,143	Swedish	1	12,522	Total	566	5,076,392
German	11	193,072	Portuguese	1	5,771			

Of the ocean passenger ships, 20 were of a speed of 20 knots or over an hour; 10 were 19 to 20 knots; 35 were 18 to 19 knots; 61 were 17 to 18 knots; 91 were 16 to 17 knots; 125 were 15 to 16 knots; 224 were 14 to 15 knots.

In the table above, the ocean passenger ships credited to Germany were those not divided by the treaty among the Allies. Those so divided are credited in the table to the nations that received them.

The "net ton" equals 100 cubic feet of carrying capacity, exclusive of cabins, machinery, etc.

REQUIREMENTS FOR MERCHANT MARINE SERVICE.

THE United States Shipping Board maintains free navigation schools at the following ports: San Francisco, Cal.; Chicago, Ill.; New Orleans, La.; Portland, and Rockland, Me.; Baltimore, Md.; Boston Mass.; Jersey City, N. J.; New York, and Brooklyn, N. Y.; Cleveland, Ohio; Philadelphia, Pa.; Norfolk, Va.; Seattle, Wash.

MINIMUM QUALIFICATIONS FOR ENTERING SCHOOLS.

Deck Officers.

(1) Two years' service in the deck department of ocean or coastwise steam vessels; or (2) A graduate of the seamanship class of a State nautical schoolship who shall have made two ocean or coastwise cruises during his period of training; or (3) Three years' service in the deck department of ocean or coastwise sail vessels of 100 gross tons or over. Service on such sail vessels engaged in the ocean or coastwise fisheries shall be accepted as meeting the requirements of this paragraph; or (4) One year's service as master or pilot of lake, bay, sound or river steam vessels of 150 gross tons or over, together with six months' service in the deck department of ocean or coastwise steam vessels; or (5) Twenty-four months' service as a licensed first-class pilot of steam vessels of 2,500 gross tons or over on the Great Lakes and other lakes, bays, or sounds; or (6) Three years' service in the deck department of ocean or coastwise steam or sail vessels of less than 100 gross tons, together with one year's service in the deck department of ocean or coastwise steam vessels, or (7) Three years' service in the deck department of lake, bay, or sound steam vessels, together with one year's service in the deck department of ocean or coastwise steam vessels; or (8) Three years' service in the deck department of steam vessels of 100 gross tons or over engaged in the ocean or coastwise fisheries. (9) Any person who has attained the age of nineteen years and who has graduated from a regular established high school or college, may, upon the recommendation of the master or masters under whom he has served be examined for third mate of ocean or coastwise steamers after having served not less than fifteen months in the deck department of ocean or coastwise steamers of 200 gross tons or over. (10) Any person who has completed the intensive training course prescribed by the United States Navy, and who has been commissioned as ensign in the United States Naval Reserve Force, may, upon the recommendation of the master or masters or naval officer or officers under whom he has served, be examined for third mate of ocean or coastwise steamers, after having actually served not less than four months at sea, after being commissioned as officer of the watch or as extra watch officer in company with the officer in charge of the bridge.

Engineer Officers.

(1) Three years' service as fireman on ocean or coastwise steam vessels; or (2) Two years' service as oiler or watertender, or combined service of two years in these positions, on ocean or coastwise steam vessels; or (3) One year's service as second assistant engineer on Great Lakes and all other lake, bay, or sound steam vessels; or (4) One year's service as chief or assistant Engineer of river steam vessels together with six months' service in the engine department of ocean or coastwise steam vessels; or (5) A graduate from the engineering class of a nautical schoolship, the term of such engineering class to be based upon a period of two years; or (6) A journeyman machinist who has been engaged in the construction of repair of marine steam engines for two years, together with one year's service in the engine department of ocean or coastwise steam vessels. (7) Two years' service as a locomotive or stationary engineer, together with one year's service in the engine department of ocean or coastwise steam vessels, or (8) A graduate in mechanical engineering from a duly recognized school of technology, together with one year's service in the engine department of an ocean or coastwise steam vessel. (9) A graduate of the intensive training course prescribed by the United States Navy and who has been commissioned as ensign in the United States Naval Reserve Force, may, upon the recommendation of the engineer officer or officers under whom he has served, be examined for third assistant engineer of ocean or coastwise steamers after having actually served at sea, after being commissioned, not less than twelve months as junior engineer officer. (10) Engineers of lake, bay and sound steamers who have actually performed the duties of engineer for a period of three year shall be entitled to examination for engineer of ocean steamers.

TONNAGE EXPLAINED.

(By the U. S. Shipping Board.)

Deadweight Tonnage expresses the number of tons of 2,240 pounds that a vessel can transport of cargo, stores, and bunker fuel. It is the difference between the number of tons of water a vessel displaces "light" and the number of tons it displaces when submerged to the "load water line." Deadweight tonnage is used interchangeably with deadweight carrying capacity. A vessel's capacity for weight cargo is less than its total deadweight tonnage.

Cargo Tonnage is either "weight" or "measurement." The weight ton in the United States and in British countries is the English long or gross ton of 2,240 pounds. In France and other countries having the metric system a weight ton is 2,204.6 pounds. A "measurement" ton is usually 40 cubic feet, but in some instances a larger number of cubic feet is taken for a ton. Most ocean package freight is taken at weight or measurement (W|M), ship's option.

Gross Tonnage applies to vessels, not to cargo. It is determined by dividing by 100 the contents, in cubic feet, of the vessel's closed-in spaces. A vessel ton is 100 cubic feet. The register of a vessel states both gross and net tonnage.

Net Tonnage is a vessel's gross tonnage minus deductions of space occupied by accommodations for crew, by machinery for navigation, by the engine room and fuel. A vessel's net tonnage expresses the space available for the accommodation of passengers and the stowage of cargo. A ton of cargo, in most instances, occupies less than 100 cubic feet: hence the vessel's cargo tonnage may exceed its net tonnage, and, indeed, the tonnage of cargo carried is usually greater than the gross tonnage.

Displacement of a vessel is the weight, in tons of 2,240 pounds, of the vessel and its contents. Displacement "light" is the weight of the vessel without stores, bunker fuel, or cargo. Displacement "loaded" is the weight of the vessel, plus cargo, fuel, and stores.

For a modern freight steamer the following relative tonnage figures would ordinarily be approximately true: net tonnage, 4,000; gross tonnage, 6,000; deadweight carrying capacity, 10,000; displacement loaded, about 13,350.

Above data cover entire port district, including Newark and Perth Amboy.

ENTRANCES AND CLEARANCES VIA OTHER PORTS.

Including vessels that reached and left the United States via other domestic ports, the total entrances in year ended June 30, 1920, were: Steam, 4,963 (15,367,775 tons); sail, 405 (369,277 tons). Cleared: 4,792 vessels, including steam and sail of 15 189,182 tons net.

NEW YORK HARBOR TRAFFIC.

(From a Chamber of Commerce Bulletin.)

Inquiry is frequently made at the Chamber regarding marine shipping in and about New York Harbor. The latest estimates upon water shipments for New York ne for the calendar year 1916. The figures for the Hudson River Channel from Ellis Island to the Northe city limits, place the freight handled at 68,377,558 short tons, which had a value of $7,339,340,857. The total number of passengers carried in this channel are estimated at 84,470,659. The number of American vessels engaged in this trade, both register and unregistered, equalled 5,866. Of this number 4,655 vessels were canal boats, lighters, barges, etc.

Divisions.	Short tons	Value.	Divisions.	Short tons	Value.
Port Chester Harbor	208,897	$18,159,717	Bronx River	767,938	1,801,999

The statistics since 1913 represent the commerce of the districts named as rearranged July 1, 1913. The former limits in almost all cases were more restricted, and the statistics are accordingly not strictly comparable. Prior to 1914 the statistics given in this table for Massachusetts and Maryland were returned as for the (former) districts of Boston and Baltimore, respectively.

The statistics since 1913 represent the commerce of the districts named as rearranged July 1, 1913. The former limits in almost all cases were more restricted, and the statistics are accordingly not strictly comparable. Prior to 1914 the statistics given in this table for Massachusetts and Maryland were returned as for the (former) districts of Boston and Baltimore, respectively.

VALUE OF IMPORTS FOR CONSUMPTION AND DUTIES SINCE 1847.

Prior to 1866 the figures of import values represent net general imports, the amount of duty collected being the annual amounts collected on merchandise only. For 1867 and later years the figures of import values represent imports for consumption, the average ad valorem rates on dutiable merchandise being based on ordinary duties, and those on free and dutiable merchandise being based on total duties collected. The total duties collected include duty equivalent to internal revenue tax, and drawback on articles exported from the United States returned.

Imports entered for consumption are imports on which duties are paid (or which are registered as entered free), within a named period. Thus, goods may be imported to the value of $2,000,000,000 in a given period, but 75 per cent. of them go into bonded warehouses, to be held until needed for consumption. When such goods come out of storage they are recorded as imported and not till then

UNITED STATES IMPORTS, BY GRAND DIVISIONS.

The phrase documented vessel is used to describe a vessel which has official documents on board to establish her identity and her rights in trade. In the case of a vessel trading with foreign countries and engaging in the whale fisheries, this document is called a certificate of registry, and such a vessel is properly known as a registered vessel. Sometimes the expression, registered vessel, is loosely applied to all documented vessels but more particularly, in this country, it relates to vessels going foreign.

Above figures cover commercial traffic, and do not include materials handled by Government vessels.

Each stretch is treated as a separate river, and tonnage carried between ports on different stretches will appear in the statistics of all intervening stretches; consequently the sum of the tonnage carried in the four stretches does not represent the total traffic on the river as a whole.

PORTO RICO.

Governor, Arthur Yager; *Executive Secretary*, Ramón Siaca Pacheco; *Treasurer*, José E. Benedicto; *Auditor*, J. W. Bonner; *Acting Attorney-General*, Salvador Mestre; *Commissioner of Education*, Paul G. Miller; *Commissioner of the Interior*, Guillermo Esteves; *Commissioner of Agriculture and Labor*, Manuel Camuñas; *Commissioner of Health*, Alejandro Ruiz Soler.

Judiciary—Chief Justice, José C. Hernández; Justices, Emilio del Toro, Adolph G. Wolf, Pedro de Aldrey, and Harvey M. Hutchinson; Secretary-Reporter, Joaquín Lopez Cruz; U. S. District Judge, Peter J. Hamilton; U. S. District Attorney, Miles M. Martin.

Under the new Organic Act of March 2, 1917, the legislative power in Porto Rico is vested in a Legislature consisting of two Houses. The Senate consists of nineteen members elected for four years. The House of Representatives consists of thirty-nine members elected for a term of four years. The members of the Senate and House of Representatives receive $7.00 per day for ninety days of each session. Sessions are held biennially. The next session will be held the second Monday in February, 1921.

The island of Porto Rico, over which the flag of the United States was raised in token of formal possession on October 18, 1898, is the most eastern of the Greater Antilles in the West Indies and is separated on the east from the island of St. Thomas by a distance of about fifty miles, and from Hayti on the west by the Mona passage, seventy miles wide. Distances from San Juan, the capital, to important points are as follows: New York, 1,411 miles; Charleston, S. C., 1,200 miles; Key West, Fla., 1,050 miles; Havana, 1,000 miles. Population (U. S. Census), January 1, 1920, was 1,295,826.

Porto Rico is unusually fertile, and its dominant industries are agriculture and lumbering. In elevated regions the vegetation of the temperate zone is not unknown. There are more than 500 varieties of trees found in the forests, and the plains are full of palm, orange, and other trees.

carbonates, and sulphides of copper and magnetic oxide of iron in large quantities. Lignite is found at Utuado and Moca, and also yellow amber. A large variety of marbles, limestones, and other building stones are deposited on the island. There are salt works on the south coast, and at Cape Rojo on the west.

By a vote of the people Prohibition won in Porto Rico, July 16, 1917, by a majority of 38,000 in a total vote of 160,000, and took effect March 2, 1918.

A belt line of railways runs from San Juan to Guayama. Numerous short lines are used largely for transportation of sugar cane and its products. San Juan, Ponce and Mayagüez have electric trolley systems. There are 1,241.3 kilometres of macadamized highway and 4,769 licensed automobiles in Porto Rico.

Education.—At the end of the fourth school month, December 21, 1919, the total enrolment in public schools of all grades had reached 176,689. During the fiscal year ended June 30, 1919, there were enrolled in schools of all grades 166,516 pupils, of whom 5,722 were enrolled in private schools. There were 2,984 teachers, of whom 948 were men and 2,036 were women. In addition, there were 219 teachers in private schools. The total enrolment was 36.4 per cent. of the total population of school age. The schools were conducted in 1,742 different school buildings, representing 2,923 different classrooms. The total expenditure for education from insular and school board funds, including the erection of school buildings, was $2,467,703.29. The University of Porto Rico with departments in Liberal Arts, Pharmacy, Law, and a Normal School, is located at Rio Piedras. The College of Agriculture and Mechanic Arts is located at Mayagüez.

The Institute of Tropical Medicine and Hygiene is devoted to research work on tropical diseases and hygienic conditions.

There are no local police. The Insular Police, consisting of 711 men, is the great law-enforcing body of Porto Rico.

The years 1898 and 1899 are calendar; 1900 covers January 1 to June 30; 1901 and succeeding years are fiscal. Imports from the United States in 1899 included coin and bullion.
The 1919 total imports and exports are official approximations.

CUBA.

The island of Cuba is 760 miles long, and its width varies from about 25 miles to 100 miles. Its area comprises 45,881 square miles, or about that of Pennsylvania. It has numerous safe and commodious harbors, that of Havana being one of the largest and finest in the world. Measuring from points of nearest approach to its neighbors, Cuba is about 100 miles from Key West, Fla., north; 54 miles from Hayti, east; 130 miles from Yucatan, west, and 85 miles from Jamaica, south. There are 2,600 miles of railway line and 250 miles of electric railways. Population, over 2,800,000; average yearly immigration, 45,000. There are 5,000 primary schools.

The two principal agricultural staples of the island are sugar and tobacco. It also produces in considerable quantities fruits, vegetables, timber and metals, mainly iron, manganese and copper ore, and is adapted to coffee and cotton raising. It has 1,246 miles of shaded roads. The average fluctuation of the temperature is 12 degrees. The average in January is 70.3; July, 82.4; extremes, 60 to 92.

The Government is republican in form. The President, who is chosen by popular suffrage, serves four years and appoints his own Cabinet. The Congress consists of a Senate and House of Representatives, one Representative being chosen for every 25,000 inhabitants, as nearly as possible. The provinces, of which there are six, corresponding to the American States, elect their own Governors and control their own internal affairs. The Cuban Senate has 24 members; the House, 91.

The Isle of Pines, which, under the generally accepted survey, is supposed to have an area of 614.34 square marine miles, or about 521,381 acres, is situated off the south coast of Western Cuba, its nearest point to the larger island being about 34½ statute miles distant, while the island itself and its adjacent keys form the southern barrier of the Gulf of Batabano, a bight which extends northward to an extent sufficient to make Habana Province, to which the Isle of Pines is officially attached, the narrowest part of Cuba. The Isle of Pines is practically the only land southward of Cuba to Panama, from which it is distant about 850 miles; it is 230 miles almost due east of Cape Cartuche, Yucatan, and 370 miles northwest of the island of Jamaica.

For Cuban foreign trade see index.

THE PHILIPPINE ISLANDS.

The land area of the Philippine Islands lies between 21° 10′ and 4° 40′ north latitude and between 116° 40′ and 126° 34′ east longitude. There are 7,083 islands, extending 1,152 statute miles from north to south and 632 from east to west. Of this number 462 have an area of 1 square mile or over; 2,441 are named and 4,642 unnamed. The northernmost is Y'Ami Island, 65 miles from Formosa; the southernmost, Saluag, 4° 40′ from the equator and 30 miles east of Borneo. The total land area is 114,400 square miles. The largest, Luzon, contains 40,814 square miles, and Mindanao, the next in size, 36,906. Panay has 4,448, Cebu, 1,695; Palawan, 4,500; Mindoro, 3,794; Bohol, 1,534; Masbate, 1,255. Between and about lie the other groups, including the Sulu or Jolo Islands in the south, the Babuyanes and Batanes in the north, the Catanduanes in the east, and Cuion in the west. The total land and water area is 119,542 square miles.

The archipelago has a coast line of 11,444 statute miles, which exceeds that of the entire United States. There are 21 fine harbors and 8 landlocked straits, the principal being Manila, Subic, Batangas, Tayabas and Hondagua, Iligan, Illana, Nasipit, Sibuguey, Sarangani Bays; the Gulfs of Lingayen, Ragay, Lagonoy and Davao, and the San Bernardino, San Juanico, Surigao and Basilan Straits and the Verde Passage. Manila Bay, with an area of 770 square miles, and a circumference of 120, is the finest in the entire Far East. It is a roadstead in all parts of which vessels can anchor, but a breakwater has been constructed for vessels to shelter behind in bad weather. Manila, Cebu, Iloilo, Zamboanga, and Jolo are the ports of entry. The interisland waters are rather shallow, averaging between 75 and 500 fathoms

The extensive mountain system of the Philippines belongs to the succession of volcanic ranges of the Pacific system of the world's surface. The Cordilleras, Urdaneta, Surigao, Caraballos Sur and Caraballos Occidentales, Caraballos del Baler and Sierra Madra are the principal ranges Three are 20 more or less active volcanoes. Mount Apo (Apo means master), 9,610 feet, in Mindanao; Mayan Volcano, 7,943 feet, in Albay; Taal, 984 feet, in Batangas; Canlaon, 7,995 feet, in Negros; Banajao, or Majayjay, 7,144, are the most famous of these. Other high mountains are Pulog, 9,580 feet; Halcon, 8,481 feet; Malinugdang, 8,560 feet; Santo Tomas, 7,400 feet.

Nearly all the principal islands have important river systems. In Luzon are the Rio Grand de Cagayan, 220 miles long, which drains 16,000 square miles of territory; the Rio Grande de Pampanga, emptying into Manila Bay through a dozen mouths; the Agno, the Abra, Bued, and the more familiar Pasig. The Rio Grand de Mindanao, 330 miles long, is the largest in the islands, and the Agusan, also in Mindanao, the third in size. Mindoro has 60 rivers and Samar 26. In Panay are the Jalaur and Panay, and in Negros the Danao and the Lanao. Interisland steamers berth in the Pasig as far as the Bridge of Spain.

November, December, January and February are the temperate months. The mean average temperature at this season is about 77° to 79° Fahrenheit. In April, May and June, the hot months, the mean average is between 83° and 84°. In the other months it is about 80°. The nights are seldom unpleasantly hot even in the hot season, and a temperature of 100° is a rarity in Manila. The mountain regions of the north are cool as September in the temperate zone. There are two seasons the rainy and the dry. The rains are heaviest in July, August and September; lightest in February and March. The lowest average rainfall for the last twelve years for the whole archipelago was 60 73 inches in the driest region, the highest 125.68 in the wettest. Manila's average was 75.46.

Manila surrendered to the Americans Aug. 13, 1898. Meanwhile a Filipino Government had been established. This Government till late in 1899 was in control of the archipelago with the exception of Manila, Cavite and a few other places where Spanish garrisons still maintained themselves. American civil government was established over the Philippines in 1901.

On July 1, 1902, Congress passed (chapter 1369): "An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands and for other purposes." Under this act complete civil government was established in the archipelago, except that portion inhabited by Moros, comprising part of Mindanao and the Sulu Islands, and the office of Military Governor was terminated. William H. Taft was appointed Civil Governor by the President, the title being subsequently changed to that of Governor-General. Gov. Taft was succeeded by Luke E. Wright in December, 1903, by Henry Clay Ide in 1905, James F. Smith in 1906, W. Cameron Forbes in 1909, and Francis Burton Harrison in 1913. The Government was arranged of a Civil Governor and seven Commissioners, of whom four were Americans and three Filipinos. By act of Congress approved May 11, 1903, the Commission was increased by one member, appointed by the President, making the commission nine members in all, including the Governor-General, who was President of the commission.

By the act of Congress approved Aug. 29, 1916, the Philippine Commission was abolished, there being substituted as the Upper House of the Legislature a Senate composed of 24 members, and instead of the Assembly, a House of Representatives of 91 members, elected triennially. The Governor-General, who remains as the head of the islands, is appointed by the President. All of the Cabinet heads, except Education, are Filipinos.

The Philippine Archipelago is divided into 46 provinces, 34 of which are designated as regular provinces and the remaining 12 as special provinces. The Chief Executive of a regular province is the Provincial Governor, who is an elective official. He, together with two other elective members, form the provincial board which constitutes the legislative branch of the Provincial Government. In the special provinces, with the exception of Mindoro, Palawan and Bataines, the Provincial Governors are appointed officials.

Of the 24 Senators only two—those from the Twelfth District, which is composed of the Mountain Province, the City of Baguio, the Province of Nueva Vizcaya and the Department of Mindanao and Sulu—are appointed by the Governor-General; all the others are elected by popular vote; as are also the 91 Representatives, excepting the nine who represent the Mountain Province, the Province of Nueva Vizcaya and the Department of Mindanao and Sulu.

The administration of justice in the Philippines is intrusted to the Supreme Court, the Courts of First Instance, the Municipal Court of the City of Manila and the Courts of the Justices of the Peace.

There are 99 school districts in the islands. Among the special Government institutions are the Normal School, the School of Arts and Trades, the Nautical School, and the Central Luzon Agricultural School. There are provincial trade schools and shops. In 1919, in the public schools, there were scholars as follows: Primary, 347,839 males, 253,501 females; intermediate, 55,082 males, 27,935 females; secondary, 12,025 males, 3,942 females. There are 300 private schools, with 38,500 pupils.

The 1919 crop values of the islands were: Rice, $94,300,000; cocoanuts and products of, $37,200,000; sugar and products of, $57,200,000; abaca (hemp), $32,500,000; corn and products of, $18,800,000; tobacco leaf, $8,700,000; other and total, $230,800,000. Fruits and vegotables are not included in above. In 1918 there were 603,000 cattle and 1,271,000 water buffalo (carabao). Virgin forests cover 40,000 square miles. There are 73,000,000 acres of public lands.

Under the act of 1919 any citizen of the Philippine Islands or of the United States, over the age of 18 years, or the head of a family who does not own more than 59 acres of land in the Philippines may enter a homestead of not exceeding 59 acres of agricultural land of the public domain. Total homestead fee, $10. Any citizen of lawful age of the Philippine Islands or of the United States, and any corporation or association of which at least 61 per centum of the capital stock or of any interest in said capital stock belongs wholly to citizens of the Philippine Islands or of the United States, may purchase any tract of public agricultural land of not to exceed 247 acres in the case of an individual and 2,530 acres in that of a corporation or association. Citizens of countries the laws of which grant to citizens of the Philippine Islands the same right to acquire public land as to their own citizens may, while such laws are in force, but not thereafter, with the express authorization of the Legislature, purchase any parcel of agricultural land not in excess of 247 acres.

There are over 800 miles of railways and 6,000 miles of public roads. Silver, lead, zinc, copper, iron, coal, petroleum, asbestos and manganese are mined, as well as clay, marble, salt, etc. Mineral production exceeds $3,000,000 a year

The people of the Philippines are still commonly grouped under the heading Christian and non-Christian. Classifying the Igorotes as mountaineers and the Moros as southerners would be better. The census of 1918 shows there were 9,495,272 Christian people and 855,368 non-Christians in the Philippines, making a total population of 10,350,640. (In this 8.2 per cent. are included all the Moros, Igorotes and the most backward peoples of the Philippines.)

According to Dr. Merton Miller, former Chief Ethnologist, Philippine Bureau of Sciences, from the extreme northern end of the archipelago to its southernmost limits, with the exception of the few scattered Negritos, the people of the Philippines, pagan, Moro and Christian, are one racially. There is some reason for believing that they migrated into the islands at two different times. But in all probability they came from the same general region and have a common ancestry. There are many different languages or dialects in the Philippines, but all are closely related one to another, the pronunciation and mode of speech vary but little from one section of the Philippines to another, and the majority of the words are common to two or more of the Philippine languages. These languages, whether spoken by pagan, Moro or Christian, belong to the great Malayo-Polynesian family, branches of which are found in Sumatra, the Hawaiian Islands, Madagascar and on many islands between. The early immigrants into the Philippines were the Indonesians and the Malays and the blend of these two races characterizes the people of the Philippines to-day. This admixture of the Indonesians and the Malays has become so thorough that it is difficult to distinguish one group from another

PHILIPPINE COMMERCE SINCE 1905.

Philippine imports from the United States in the year ended June 30, 1920, were valued at $59,261,621, as against $43,572,794 in the previous fiscal year; exports to the United States totalled in value $142,246,003, as against $93,018,404 in 1919.

AMERICAN SAMOA.

AMERICAN Samoa, composed of the islands of Tutuila, Aunuu, Ofu, Olosega and Ta'u, and the uninhabited coral atoll of Rose Island, became a possession of the United States by virtue of the tripartite treaty with Great Britain and Germany in 1899. The census of January, 1920, gives it a total population of 8,324. Pago Pago is the most valuable harbor in the South Pacific, and possibly in the entire Pacific Ocean. For 1919 the exports were valued at $82,268.94 and the imports amounted to $182,959. American Samoa is extremely valuable in its relation to the expansion of American trade in the Pacific Recently the Pacific Development Corporation of New York City, the largest trading concern in the world, has established a business there taking over the holdings of the Deutschen Handels und Plantagen Gesellschaft der Südsee Inseln zu Hamburg.

American Samoa is 4,160 miles from San Francisco, 2,263 miles from Hawaii, 1,589 miles from Auckland, 2,354 miles from Sydney and 4,200 miles from Manila. The natives can all read and write and are all Christians of different denominations. They are the highest type of the Polynesian race, and are greatly on the increase due to the laws forbidding foreigners buying their land.

HAWAII.

HAWAII was annexed to the United States by joint resolution of Congress July 7, 1898. A bill to create Hawaii a Territory of the United States was passed by Congress and approved April 30, 1900.

The chief executive officer of the Territory of Hawaii is the Governor, who is appointed by the President with the approval of the Senate for a four-year term, and who must be a resident of the Islands in order to be eligible for appointment. The Territorial Secretary is appointed in the same manner, but the heads of the Territorial Departments are appointed by the Governor, with the approval of the Territorial Senate.

The Legislature of Hawaii consists of the Senate, of 15 members, elected for four-year terms; and the House of Representatives, of 30 members, elected for two-year terms. The Delegate to Congress is elected every two years, and has floor privileges in the House, but no vote.

The judiciary consists of a Supreme Court, four Circuit Courts and numerous District Courts. The Justices of the Supreme Court and Circuit Courts are appointed by the President, with the approval of the United States Senate.

The areas of the several islands of the Hawaiian group are as follows: Hawaii, 4,015.6 square miles; Oahu, 598; Maui, 728.1; Kauai, 546.9; Molokai, 260.9; Lanai, 139.5; Niihau, 72.8; Kahoolawe, 44.2; Molokini, .2.

Honolulu, the capital of the Territory, is situated on the Island of Oahu, and is the largest and most important city in the group. The City and County of Honolulu include all of the Island of Oahu

At the time of the discovery of the islands by Capt. Cook, in 1778, the native population was about 200,000. This has steadily decreased. The whole population (U. S. Census), January 1, 1920, was 255,912, of which number Honolulu had 83,327, and Hilo, 10,431.

THE VIRGIN ISLANDS.

The principal exports of merchandise from the United States to the Virgin Islands are breadstuffs, cereals, etc.; bituminous coal, iron and steel products, boots and shoes, meat and dairy products, oils, lumber and refined sugar. The principal imports to the United States from the Virgin Islands are sugar and rum, hides and skins and cabinet woods.

The Virgin Islands were discovered by Columbus, 1493, on his second voyage. St. Thomas was first colonized, 1666, by the Danes, who planted a permanent settlement in 1672, and who held on until the United States bought the islands for $25,000,000 and took possession March 31, 1917 (except that the English kept them, by force, April, 1801, to February, 1802, and from 1807 to 1815). St. Croix was occupied by Dutch and English settlers in 1625, Denmark not getting it till 1733.

The population of the Virgin Islands by the first United States Census, November 1, 1917, was 26,051, as against 27,086 on February 1, 1911; 43,178 in 1835, and 38,231 in 1860. Of the 1917 population St. Croix had 14,901, St. Thomas 10,191 and St. John 959. The 1835 census gave St. Croix 26,681, St. Thomas 14,022 and St. John 2,475. The 1917 population of the cities was: (St. Croix), Christiansted, 4,574; Frederiksted, 3,144. (St. Thomas), Charlotte Amalie, 7,747. Of the total population of the Virgin Islands in 1917, 1,922, or 7.4 per cent., were whites; 19,523, or 74.9 per cent., were negroes; 4,563, or 17.5 per cent., were of mixed white and negro blood; and 43, or two-tenths of 1 per cent., were of other races.

Virgin Isles exports in 1919 were valued at $1,919,525; imports, at $2,276,512.

GUAM.

The island of Guam, the largest of the Marianas, was ceded by Spain by article 2 of the Treaty of Paris, December 10, 1898. It lies between latitudes 13° 13′ and 13° 39′ north and longitudes 144° 37′ and 144° 58′ east. Area estimated, 225 square miles. Distance from Manila, 1,506 miles; from San Francisco, 5,044 miles. The inhabitants call themselves Chamorros, but the present generation are a mixed race with the Malay strain predominating. Their language, a Polynesian tongue, is also called Chamorro. About 10 per cent speak English. Instruction in the English language is compulsory in the public schools. The northern half of the island is a plateau from 400 to 600 feet in height and is, except where cleared for cultivation, wooded. The southern half is broken by hills from 1,200 to 1,300 feet high.

The total population, July 1, 1918, exclusive of officers and enlisted men of the Navy and Marine Corps and their families was 14,344, of whom 14,124 were classed as "natives." Of the foreign born population only 69 were Americans. Death rate per thousand was 17.6; birth rate, 47.2. Guam is under the Navy Department, as a naval station. The Governor is a naval officer, designated by the President, Capt. Roy C. Smith, named May 30, 1916. A marine barracks, naval hospital and station ship are maintained. The Commercial Pacific Cable Company has a cable station in Guam, and cables from Manila, Yokohama, Midway and Yap Islands are landed here. The United States Department of Agriculture has an experiment station here. The port of entry is Apra, which is closed to foreign vessels, except by permit from the United States Government. Apra is commodious, but unimproved. Capital, Agana, in the north central part, on the western coast; population (estimated), 9,000.

WAKE AND OTHER SMALL PACIFIC ISLANDS.

The United States flag was hoisted over Wake Island on July 4, 1898, by Gen. F. V. Greene, commanding Second Detachment Philippine expedition. It is a small island in the direct route from Hawaii to Hongkong, about 2,000 miles from the first and 3,000 miles from the second.

The United States possesses a number of scattered small islands in the Pacific. The largest are Christmas, Gallego, Starbuck, Penrhyn, Phoenix, Palmyra, Howland, Baker, Johnston, Gardner, Midway, Morell, and Marcus Islands. The Midway Islands are occupied by a colony of telegraphers.

The Santa Barbara group is a part of California, and the Aleutian chain, extending from the peninsula of Kamchatka in Asiatic Russia to the promontory in North America which separates Bering Sea from the North Pacific, is a part of Alaska.

PULPWOOD CONSUMPTION IN THE UNITED STATES.

According to the Federal Trade Commission, the production of wood pulp in the United States in 1919, totalled 3,207,952 net tons.

The Federal Trade Commission's statement of production of paper in the United States in 1919, is as follows, in net tons—news print, 1,374,517; book, 914,823; paper board, 1,950,037; wrapping, 694,207; fine, 343,762.

Total cost of the pulpwood at the mills—(1918), $73,167,118; (1917), $60,815,057; (1916), $45,785,682; (1909), $34,477,540.

Of the pulpwood consumed in 1918, the reduction to pulp by the various processes was, in cords—Mechanical, 1,345,435; sulphite, 2,860,172; soda, 748,638; sulphate, 296,549.

Number of mills—250 in 1918, 246 in 1917, 235 in 1916, 253 in 1909.

Average cost per cord at the mills, of the wood consumed—(1918), $13.93; (1917), $11.10; (1916), $8.76; (1909), $8.62. In 1918 the cost ranged from $18.10 in New Hampshire and $17.89 in New York to $5.43 in West Virginia.

The cut, by States, in cords, in 1918, was—Maine, 1,234,969; New York, 1,003,742; Wisconsin, 860,857; Pennsylvania, 383,699; New Hampshire, 345,272; Michigan, 203,516; North Carolina, 186,168; Minnesota, 182,002; Virginia, 129,637; West Virginia, 109,885; Vermont, 99,687; Massachusetts, 45,754; California, Oregon and Washington, 239,774; all other States, 225,832.

Of the pulpwood bought in 1918 by the mills, 2,467,745 cords were rough, and cost $11.78 a cord; 2,402,393 cords were peeled, and cost $15.18 a cord; and 380,656 cords were rossed, and cost $20.07 a cord.

Production of wood pulp in United States, in tons—(1918), 3,313,861; (1917), 3,509,939; (1916), 3,425,001; (1909), 2,495,523.

Imports of pulp wood, by fiscal years, in cords—(1917), 1,016,814; (1918), 1,172,033; (1919), 1,390,334.

Value of pulpwood imports—(1919), $13,708,447; (1918), $11,088,422; (1917), $6,889,123.

Exports of wood pulp long tons—(1918), 20,399; (1917), 34,982.

The special census of the Prairie Provinces (1916) showed—Manitoba, 553,860; Saskatchewan, 647,835, Alberta, 496,525. Estimated total population (1918), 8,593,000.

Of the population in 1911 there were 3,821,995 males and 3,384,648 females; population per square mile, 1.93. The densest average per square mile was 141.47, in Beauharnois, Quebec. Of the males, 2,369,766 were single, 1,331,853 were married, 89,154 were widowed, 839 were divorced, and 1,286 were legally separated. Of the females, 1,941,886 were single, 1,251,468 were married, 179,656 were widowed, 691 were divorced, and 1,584 were legally separated.

Foreign-born population of Canada (1911), 752,732; males, 470,927; females, 281,805. Of the foreign-born 303,680 were from the United States, 121,430 from Austria-Hungary, 89,984 from Russia, 49,194 from Norway and Sweden, 39,577 from Germany, 34,739 from Italy, 27,083 from China, 8,425 from Japan.

THE NAME OF CANADA.

The Rev. Isaac Taylor, in *Words and Places* (1864), has the following: "The names of the West Indies and of the Red Indians of North America are due to the sanguine supposition of Columbus that his daring enterprise had in truth been rewarded by the discovery of a new passage to the shores of India. The name of Canada is due to a mistake of another kind. 'Canada' was the native Indian word for a 'village.' When the French explorers first sailed up the St. Lawrence, pointing to the land, they asked its name, while the natives thought they required the name given to the collected wigwams on the shore, and replied 'Canada.' "

Figures 1918-19 and 1919-20 are official estimates.

The yen for all practical calculations equals 50 cents.

The financial years from 1876-77 to 1884-85 consist of 12 months each, from July 1 to June 30; the financial year 1885-86 comprises 9 months, from July 1 to March 31; and those subsequent to 1886-87 inclusive consist of 12 months each, from April 1 to March 31. The figures for the financial years from 1875-76 to 1917-18 represent the settled accounts, those for the financial year 1915-16 the actual account on October 31, 1916, and those for the following years are budget estimates.

Population (Government estimate, 1918)—Japan proper, males, 28,843,439, females, 28,227,495; Chosen (Korea), males, 8,969,070, females, 8,443,801; Taiwan (Formosa), males, 1,919,701, females, 1,779,217; Karafuto (Japanese Saghalien), males, 44,460, females, 34,671—Total for the Empire, 78,261,856.

National debt (March 31, 1919), $1,289,973,239.

Imports of printing paper valued at not above five cents per pound are derived chiefly from Canada. Shipments from that country in 1919 averaged 104,079,823 pounds, in quantity, and $3,623,360 in value monthly, or a total of $43,480,329 for the year as compared with the entire imports valued at $43,674,294. Imports from Newfoundland and Labrador reached $190,413, and from Mexico $3,145.

Canada was the chief source of all classes of pulp wood and wood pulp imported into the United States in 1919. Imports of pulp wood of 1,047,299 cords, valued at $10,458,753, declined by 322,728 cords in quantity and $2,903,813 in value as compared with 1918. Imports of wood pulp aggregated 567,872 tons, valued at $37,048,381, in 1919, gaining 51,614 tons in quantity and $5,571,206 in value over totals for the previous year of 516,258 tons, worth $31,477,175.

OTHER IMPORTANT TRUNK LINE ROUTES.

ALBERT PIKE HIGHWAY
From Hot Springs, Ark., to Colorado Springs, Col.

ALTON WAY
White, black and white bands.
From Chicago to St. Louis, 295 miles.

ARROWHEAD TRAIL
Marked with arrowhead in circle.
From Salt Lake City, Utah, to Los Angeles, Cal., 853 miles.

BIG FOUR ROUTE
Yellow, black and yellow bands.
From Terre Haute to St. Louis, 211 miles, and Hannibal, Mo., 343 miles.

BLACK AND YELLOW TRAIL
Black and yellow bands.
From Chicago, Ill., to Yellowstone National Park, Wyo., 1610 miles.

BLACK DIAMOND TRAIL
Black diamond on white band.
In Illinois from Springfield to Nashville.

BLACKHAWK TRAIL
Black head on white band.
From Dixon, Ill., to Beloit, Wis., 60 miles.

BLACK HILLS — DENVER DIAMOND HIGHWAY
From Denver, Col., to Deadwood, S. D., 460 miles.

BLUE GRASS TRAIL
White, blue and white bands.
Across Illinois from Momence, Ill., to Burlington, Iowa.
Across Iowa from Burlington to Omaha.

BLUE TRAIL
Marked with blue bands.
From Glacier Park Station, Montana to Banff, Canada, 327 miles.

BOONE WAY
From Lexington, N. C., to Louisville, Ky.

BUFFALO TRAIL
From Great Falls to Billings, Mont., 253 miles.

CALIFORNIA — BANFF BEE LINE HIGHWAY
From Los Angeles, Cal., to Banff, Canada, via Spokane, Wash.

CANNON BALL TRAIL
Black ball on white band.
From Chicago, Ill., to Hannibal, Mo., 341 miles.

CATERPILLAR TRAIL
Green name on orange band.
From Peoria to Pontiac, Ill., 60 miles.

CHICAGO, KANSAS CITY AND GULF HIGHWAY
Black letters C K C G within red cross on white band.
From Chicago to Galveston.

CORN BELT ROUTE
White band with yellow ear of corn.
From Effner, Ind., to Burlington, Ia.

CROSS-STATE HIGHWAY
White cross on black band.
From Hannibal to St. Joseph, Mo., 218 miles.

CUSTER BATTLEFIELD HIGHWAY
Red, white and red bands.
From Omaha, Neb., to Glacier National Park, Mont.

DENVER-YELLOWSTONE HIGHWAY
From Denver to South Entrance of Yellowstone Park.

DIAMOND TRAIL
From Freeport, Ill., to Galesburg, Ill., 124 miles.

DIXIE BEE LINE
Yellow letters on black band.
From Danville, Ill., to Louisville, Ky.

EGYPTIAN TRAIL
Black figure on yellow band.
From Chicago to Cairo, Ill., 497 miles.

F. F. F. HIGHWAY
Letters F F F and arrows.
From Fort Worth, Texas, to Las Vegas, N. M., 639 miles.

FORT SMITH, PAUL'S VALLEY & WICHITA FALLS HIGHWAY
Fort Smith, Ark., to Wichita Falls, Texas, 331 miles.

GEYSER-TO-GLACIER HIGHWAY
From Yellowstone to Glacier National Park, 546 miles

GRANT HIGHWAY
From Chicago, Ill., to Portland, Ore., via South Entrance to Yellowstone Park.

GREAT WHITE WAY
Wide white band.
Across Iowa from Davenport to Omaha, 337 miles.

HAWKEYE HIGHWAY
Blue letter H on white band.
Across Iowa from Dubuque to Sioux City, 340 miles.

INDIAN HEAD TRAIL
From Galesburg, Ill., to Minneapolis, Minn., 413 miles.

KANSAS-OKLAHOMA-TEXAS AND GULF HIGHWAY
From Florence, Kan., to Dallas, Tex., 514 miles.

KICKAPOO TRAIL
White, red and white bands.
From Peoria to Muscatine, Ill.

LAKES-TO-GULF HIGHWAY
Black letters L G on white bands.
From Duluth, Minn., to Galveston, Tex., 1826 miles.

LEE HIGHWAY
From Gettysburg to New Orleans.

LEWIS AND CLARK TRAIL
Lewiston, Idaho, to Missoula, Mont.

LIBERTY HIGHWAY
Red bands.
From New York to Erie, Pa., 496 miles.

LOGAN-LEE HIGHWAY
Red, white and blue bands with L L H on white.
Across Illinois from Rock Island, Ill., to Paducah, Ky., 441 miles.

MACKINAW INDIAN TRAIL
Black figures on white band.
From Peoria to Bloomington, Ill., 42 miles.

MARK TWAIN ROUTE
From Chicago to Kansas City, 555 miles.

MOHAWK TRAIL
Red bands.
From Albany to Boston, 182 miles.

NORTH IOWA PIKE
Across Iowa from McGregor to Sioux Falls.

OMAHA-LINCOLN-DENVER HIGHWAY
Black letters O L D on white bands.
From Omaha to Denver, 627 miles.

OMAHA-ST. LOUIS HIGHWAY
Red, white and red bands.
From Omaha to St. Louis, 475 miles.

OZARK TRAIL
From St. Louis, Mo., to Las Vegas, N. M.

PERRY HIGHWAY
From Pittsburgh to Erie, Pa., 136 miles.

PARK-TO-PARK HIGHWAY
From Yellowstone to Glacier National Park, via Missoula.

POTASH HIGHWAY
From Grand Island to Alliance, Neb.

RAINBOW TRAIL
From Pueblo to Grand Junction, Col., 238 miles.

RED BALL ROUTE
Marked with red ball
From St. Paul, Minn., to St. Louis, Mo., 487 miles.

RIVER-TO-RIVER ROAD
White, black and letter R.
Across Iowa from Davenport to Omaha, 349 miles.

ROBT. E. LEE HIGHWAY
From New Orleans to San Diego.

SCOTT HIGHWAY
From Duluth, Minn., to Fort William and Port Arthur, 210 miles.

SOUTHWEST TRAIL
Black letters S W on white bands.
From Chicago to Laredo, Tex., 1706 miles.

UTAH-IDAHO-YELLOWSTONE HIGHWAY
From Salt Lake City to West Entrance of Yellowstone Park, 360 miles.

WAUBONSIE TRAIL
Black, white and black bands.
Across Iowa from Keokuk to Lincoln, Neb.

YELLOWSTONE HIGHWAY
Yellow and gray bands, black letters Y H.
From Denver to East Entrance of Yellowstone Park, 638 miles.

Y-G BEE LINE HIGHWAY
From Yellowstone to Glacier National Park via Great Falls, 355 miles.

NOTE—Expenditures on good highways in the United States in the year ended June 30, 1919, totaled $61,628,466, according to returns made to the Department of Agriculture. New York spent $11,543,589; Pennsylvania, $7,345,378; Michigan, $3,475,360; New Jersey, $3,819,926; State of Washington, $3,448,753; Massachusetts, $2,812,414; Connecticut, $2,263,500; Ohio, $2,240,476; Wisconsin, $2,233,871

The number of telephones in use in the United States at the close of the calendar year 1917 was 11,713,228—one to every nine persons, or every two families; and the number of calls made during the year is estimated at 21,842,000,000, an average of more than 200 for every man, woman, and child in the country, according to a report by Director Sam. L. Rogers, of the Bureau of the Census, Department of Commerce.

"Bell Connected Stations," according to the Chief Statistician of the American Telephone & Telegraph Company, are independently owned; "average daily messages" includes local, toll, and long distance messages. In 1919, figures for employees are as of July 31, 1918; figures for messages are for first seven months of 1918. In 1920, figures for messages are for last five months of 1919. In 1915 and thereafter all incompleted calls were excluded from the statistics. In the latter part of 1918 and the early part of 1919, the number of calls was diminished by war restrictions and other conditions arising out of the war. Recovery began in the latter part of 1919 and continued during 1920.

Figures for employees, miles of wire and daily messages do not include statistics for the independently owned companies which connect with the Bell Telephone System.

Gravity	5.74	.....	.....	.....	.....
Cost of road equipment	$5,136,441,599	$4,596,563,292	$3,637,668,708	$2,167,634,077	$389,357,289
Number of employés	294,826	282,461	221,429	140,769	70,764
Number of passenger cars	79,914	76,162	70,016	60,290	32,505
Number of revenue passengers	11,304,660,462	9,545,554,667	7,441,114,508	4,774,211,904	2,023,010,202
No. rev. pas. per mi. track (all tk)	252,323	232,556	216,522	212,217	249,047
Operating revenues	$709,825,092	$567,511,704	$418,187,858	$247,553,999	$90,617,211
Operating expenses	$452,594,654	$332,896,356	$251,309,252	$142,312,597	$62,011,185
Ratio op. exp. to op. rev. (per cent)	63.8	58.7	60.1	57.5	68.4

The above table includes leased companies in 1917, which had a separate organization, which were not included in 1907 and 1912. The table does not include miles not operated, or miles leased to steam roads. The censuses of 1890 and 1902 were for year ending June 30. The later censuses are for the calendar year. For 1902 and 1907 the number of persons employed was the average for the year; for the later censuses, the number employed on a given date—in 1912, September 16, and in 1917, September 29, or the nearest representative or normal day. The electrification of street railways was essentially complete in 1902, the trackage operated by other power in that year constituting but 3 per cent. of the total, and this decreased to 1 per cent in 1907, to 0.62 per cent. in 1912, and in 1917 to 0.35 per cent.

Other 1917 data: "L" tracks, 497.29 miles, subway and tube tracks, 218.79 miles. "L" and subway capital, $653,277,287; surface trolley capital, $4,878,946,531.

According to the Electric Railway Journal, there were, in 1919, in the United States, 841 electric railway companies, with 48,326 miles of single track, 79,655 motor cars, 4,447 trailers, 869 electric locomotives, 866 motor express and freight cars, 5,622 express and freight trailers, 3,672 service cars, and 10,114 other cars. There were 10 cable roads, 7 storage battery roads, 11 gas-electric roads, and 15 electrified steam roads.

In the above table (as to the last four columns), figures for Connecticut, include Rhode Island; those for South Dakota, include North Dakota; those for Maryland, include Delaware, and the District of Columbia; those for Wyoming, include Idaho; those for Utah, include Nevada; those for New Mexico, include Arizona. Totals under the first three columns of figures include District of Columbia.

The total for salaries and wages was, $267,240,362—an average of $906 per man per year. Of the 294,826 employés, 267,675 were wage earners, and their total wages were $233,330,688—an average of $871 per man per year.

Of the 14,506,914,573 passengers, 11,304,660,462 were revenue, 3,021,137,935 were transfer, and 181,116,176 were free. Revenue car miles totaled 2,139,801,530, of which 2,087,818,534 were revenue passenger car miles covering 199,052,633 revenue passenger car hours. Average number of revenue passengers per mile of active track was 260,868, and 5.41 per revenue passenger car mile, and 53.69 per revenue passenger car hour.

Killed or fatally injured totaled 2,573, of which 311 were employés; injured not fatally, 141,854, of which 20,561 were employés.

Of the capitalization, $2,012,189,294 was common stock, $461,657,357 was preferred stock, and $3,058,377,167 was funded debt, including $7,197,895 in realty mortgages.

IMPORTANT TUNNELS OF THE WORLD.

Alberg—Under the Alps at the Arl Mountain, and extends from Langen to St. Anton, 6¾ miles; opened 1884.
Andes Mountains—See "Trans-Andine."
Big Bend—Drains the Feather River in California, 2 miles; opened 1886.
Bitter Root Mountains (Montana and Idaho)—10,100 feet long.
Blackwell—Under River Thames, England, 1½ miles, opened 1897.
Busk-Ivanhoe Tunnel on the Colorado Midland R. R., 9,600 feet long, single track, under the Continental Divide, in Lake and Pitkin Counties.
Cascade Mountain—Through the Cascade Mountains in Washington, 3 miles.
Catskill Aqueduct—92 miles to N. Y. City, and 35 miles of distributing tunnels deep down under the city itself; partly opened in 1915, completely in 1917.
Connaught—Through Selkirk Mountains, Canada; on Canadian Pacific Railroad, double track, about 5 miles long; completed 1916.
Continental Divide, for the Denver and Salt Lake R. R., 6.4 miles long (under survey).
Croton Aqueduct—33⅓ miles to N. Y. City; opened 1888.
Cumberland—Under Cumberland Mountains, Tennessee, 8,000 feet long.
Detroit (Mich. Central Ry.)—Under Detroit River.
Gunnison—Southwestern Colorado, 6 miles; opened 1909.
Hoosac—Through Hoosac Mountains, Mass., 4¾ miles; opened 1873.
Khojak Pass—India, Quetta to Kandahar, 2 miles.
Loetschberg—Through the Alps, in Oberland, Switzerland, 9¼ miles; opened June 20, 1913, costing nearly $10,000,000.
Mont Cenis—Italy to France, under the Col d Frejus, 8 miles; opened 1871.
Mont d'Or—Between France and Switzerlan was bored through October 2, 1913 Th tunnel pierces the Jura Mountains from Fresn to Vallorbe, and is 3¾ miles long.
Mt. Roberts—From the shore of Gastineau Chan nel at Juneau, Alaska, into Silver Bow Basin 1 1-3 miles.
Otira—In New Zealand, 5 1-3 miles.
Roger Pass—British Columbia, 5 miles.
Rove—Northwest from l'Estaque, France, part o canal connecting Marseilles with Rhône River 4½ miles, 72 feet wide, 47 feet high; opened 1916
Rothschönberg—Drains the Felberg mines Saxony, 31½ miles; opened 1877.
St. Clair—Under St Clair River from Sarnia Ont., to Port Huron, Mich., 2 miles, opene 1891.
St. Gothard—Through the Alps, connect Goschenen with Airolo, in Switzerland, 9 1-2 miles; opened 1881.
Severn—From Monmouthshire to Gloucester shire, England, 4½ miles, opened 1886
Simplon—Through the Alps, 12½ miles, opene 1905
Strawberry—Through the Wasatch Mountains
Sutro—Drains the Comstock lode in Nevada 4½ miles; opened 1879.
Totley—England, 3¼ miles
Trans-Andine Ry. Tunnel—5 miles long, 10,48 feet above sea level and affords direct com munication between Valparaiso and Bueno Ayres; opened April 5, 1910.
Wasserfluh—In the Alps, between Bunnaden and Lichtensteig, Switz., 2 miles, opened 190
Woodhead—Manchester to Sheffield, Eng., 3 miles

THE ALASKA RAILROAD.

(Data furnished by the Alaska Engineering Commission)

On April 10, 1915, President Wilson announced the selection of the route for the Alaska Railroad to be built by the Government. The route adopted is known as the Susitna route and extends from Seward on Resurrection Bay, to Fairbanks, on the Tanana River, a distance of 471 miles. This route includes the existing Alaska Northern Railway, which runs from Seward through the Kenai Peninsula for a distance of seventy-one miles to Turnagain Arm, and has been purchased from its owners by the Government for $1,150,000.

From Turnagain Arm the route extends through the Susitna Valley and across Broad Pass to the Tanana River, and from there to Happy Station at Mile 463, where it connects with the Tanana Valley Railroad and from there on to Fairbanks. A side line extends from Matanuska Junction into the Matanuska coal fields, a distance of thirty-eight miles. A spur three miles in length extends from this branch up Eska Creek to the Eska coal mine.

The Tanana Valley Railroad has been purchased by the Government for $300,000. It is a narrow gauge line extending from Fairbanks to Chatanika, a distance of 39 miles, with a five-mile branch from Chena Junction to Chena. This road will be connected with the main line, and will be used as a feeder and permits of the delivery of coal to mines that are being developed northeast of Fairbanks

While the complete rehabilitation of the Alaska Northern Railway—the portion of the line extending from Seward to Kern Creek, a distance of 71 miles—has not yet been accomplished, great progress has been made in that direction. It is not yet ready for heavy traffic, but light trains now operate in safety many of the decaying trestles and bridges having been eliminated. Snowsheds have been erected on that portion of the line where needed, with the result that traffic sustained but very little interruption during the past winter. The uncompleted gap along Turnagain Arm, between Seward and Anchorage, was closed by the connecting of steel on the afternoon of September 10, 1918, and train schedule established between the two points. On the main line north of Anchorage the track has been extended to Mile 242 from Seward As stated, the branch line to the Matanuska coal fields, which with its spurs totals forty-one miles is in operation. On the coastal section it is, therefore, possible now to travel or ship freight via the Government Railroad from Seward north, a distance of 242 miles, and to Chickaloon and Eska in the coal fields North of Mile 264, twenty-two miles have been graded and are ready for track.

Work on the wharf facilities at Anchorage, to permit ships of deepest draught now in the Alaska trade to dock, was continued last season, and steamships are now able to dock. On the interior, or Fairbanks division of the system a line change of some miles was necessitated by the rampage of Lost Slough, which broke from its old-established channel and damaged a stretch of the grade. This line change has been accomplished and the track extended southward from Nenana, a distance of fifty-six miles, to Mile 358 at which point coal is being taken out in considerable quantities. Between Nenana and Fairbanks the narrow gauge line to be operated temporarily in connection with the Tanana Valley Railroad and then converted into standard gauge has been completed. Considerable reconstruction work has been done on the Tanana Valley Railroad.

Mileage in operation: Main line Seward to Talkeetna, 242, branch line to Matanuska coal fields with spurs, forty-one; main line Mile 358 to Nenana, fifty-six; main line between Nenana and Fairbanks (narrow gauge), fifty-six; Tanana Valley R. R. branches to Chatanika and Chena (narrow gauge), thirty six. Total, 395 miles.

Development and prospecting work has been continued by the Government in the Matanuska coal fields on a small scale, the output from the two mines at Eska and Chickaloon approximating 5,300 tons of coal per month.

The coal-carrying railroads in the eastern part of the United States carried (in the calendar year 1919) 243,667,464 short tons of coal, and 18,100,939 short tons of coke. Of the coal, 23,869,692 tons were anthracite Of the bituminous coal, 26,561,533 tons were for railroad fuel.

Feb. 13, 1920. cCredit item.

FEDERAL CONTROL OF RAILROADS IN UNITED STATES.

The railroads were under Federal control from Jan. 1, 1918, to March 1, 1920. In that period the loss sustained by the Government, in excess of operating expenses and rentals over operating revenues, was approximately $900,478,766. The Government bought for the roads 1,930 locomotives and 100,000 freight cars. The total appropriations by Congress for the railroads was $1,450,000,000, during Federal control, including $200,000,000 in the Transportation Act of 1920. Under that act, the Government guaranteed the roads an average return on their capital for six months (March 1 to Sept. 1, 1920). In the six months named, the Government lost $600,000,000, the roads' revenues having fallen that much below the guaranteed return.

PASSENGER TRAFFIC ON AMERICAN RAILWAYS, JANUARY-JUNE, 1920.

Average miles per revenue ton per railroad—184.17, as against 180.23.

RAILWAY WAGE INCREASES.

Under Government ownership the wages of the railway employees were raised approximately $965,000,000; and there was another boost on July 20, 1920, by the United States Railroad Labor Board amounting to about $626,000,000 a year. The increases under Government ownership, with the dates when effective and the classes affected, were as follows: Jan. 1, 1918—all employees receiving less than $250 a month, $360,000,000; shop employees, $209,000,000. Sept. 1, 1918—maintenance of way employees, and clerks, $190,000,000. Oct. 1, 1918—agents and telegraph operators, $25,000,000. Jan. 1, 1919—policemen, dining and sleeping car employees, $8,000,000; enginemen and trainmen, $60,000,000. May 1, 1919—shop employees, $50,000,000. Dec. 1, 1919—equalization, adjustment, $38,000,000. Dec. 16, 1919—time and a half for overtime, enginemen and trainmen, amount not estimated. Jan. 1, 1920—time and a half for overtime, and other adjustments, maintenance of way employees and clerks, $25,000,000.

The July 20, 1920 award jumped wages as follows:

Class.	Number.	Old wage.	New wage.	Class	Number.	Old wage.	New wage.
Engineers:				Yard Workers:			
Passenger	12,761	$256 41	$276 21	Switchmen	47,815	$141.51	$168 48
Freight	30,405	223 86	250 90	Switch tenders	6,129	120.76	131 04
Yard	19,153	175.14	213.58	Road freight (flag and brake) men	6,527	145.70	171.74
Firemen:				Baggagemen	5,669	126.33	146.33
Passenger	12,413	184.19	204 99	Machinists	59,067	142.18	173 72
Freight	31,608	156.72	183.77	Clerks	216,764	111.83	137 80
Yard	19,559	126.03	164.47	Brakemen	...	108.00	139.20
Conductors:							
Passenger	10,619	226.20	256.20				
Freight	24,501	194 73	221 77				
Yard	18,785	159.09	196.13				

Shopmen, who are graded by the hour, got 18 per cent. increase

According to Railroad Director General W. D. Hines, the total yearly wages of railway employees was as follows: (1916) $1,468,576,394; (1917) $1,730,057,342; (1918) $2,581,884,559; (1919) $2,744,000,000.

Number of railway employees: (1915) 1,366,316; (1916) 1,650,000; (1917) 1,703,748; (1918) 1,848,774; (1919) 1,977,616.

FREIGHT AND PASSENGER RATE INCREASES.

The Interstate Commerce Commission, July 29, 1920, gave the roads increases in freight and passenger rates estimated at approximately $1,500,000,000 a year. The boosts were as follows:

Freight Rates—Forty per cent. in the East, 25 per cent. in the South, 35 per cent. in the West, and 25 per cent. in the Mountain-Pacific territory.

Passenger Rates—Twenty per cent., the amount asked by the railroads, which figures out at about six-tenths of a cent. additional per mile. This brought passenger fares up to about 3 6-10 cents a mile, not including the 8 per cent. war tax. The raise also applied to commutation and trip tickets.

Pullman Rates—A surcharge of 50 per cent. on rates. This meant that wherever a Pullman reservation is bought one-half of the cost of the Pullman ticket must be paid as a surcharge on the passenger fare

Excess Baggage Rates—Twenty per cent advance

RATE INCREASES ON RAILWAYS (*Continued*).

MILK TARIFFS—Twenty per cent. advance.

Coastwise and inland steamship lines and electric railway companies are also granted permission to increase their freight rates in proportion to the increases granted to the railroads serving the same territory. No estimate of the aggregate amount to result from these advances has been made.

The Transportation Act provided that rates be fixed to give as near as might be a 6 per cent. return on the property of the carriers devoted to the uses of transportation. The railroads offered the property investment accounts of the carriers as the basis for the increase. The property investment accounts as carried by the commission, Jan. 1, 1920, aggregated $20,014,000,000. The commission did not allow these figures. Instead in the decision it fixed an arbitrary value of $18,900,000,000 on the railroad property of the country actually used in transportation. This course gave a 6 per cent. return on the latter figure. The roads were valued by groups as follows: Eastern, $8,800,000,000; Southern, $2,000,000,000; Western and Mountain-Pacific, $8,100,000,000. These groups are, in detail:

EASTERN GROUP—The Atlantic Seaboard from the Canadian border to Norfolk, Va.; the main line of the Norfolk and Western Railway from Norfolk, Va., to Kenova, W. Va.; the main line of the Chesapeake and Ohio Railway from Kenova, W. Va., to Cincinnati, Ohio, the Ohio River to Cairo, Ill., the Mississippi River to the mouth of the Illinois River, at or near Grafton, Ill., the Illinois River from Grafton, Ill., to Pekin, Ill.; a line south and east of the Atchison, Topeka and Santa Fe Railway, from Pekin, Ill., through Joliet and Streator, Ill., to Chicago, Ill.; a line drawn from Chicago, Ill., to include the Southern Peninsula of Michigan, and thence following the international boundary to the Atlantic Seaboard; including that portion of the Virginian Railway extending south of the southern boundary, and excluding those portions of the Southern Railway, Louisville and Nashville Railroad, Mobile and Ohio Railroad, Atlantic Coast Line Railroad, and Seaboard Air Line extending north of the southern boundary.

SOUTHERN GROUP—The territory commonly known as the Southern Classification Territory, embracing that section of the United States lying west of the Atlantic Ocean; south of the main line of the Norfolk and Western Railway from Norfolk, Va., to Kenova, W. Va., thence south of the Chesapeake and Ohio Railway to Cincinnati, and thence south of the Ohio River to Cairo, Ill.; thence east of the Mississippi River to New Orleans, La., and the mouth of the Mississippi River, and north of the Gulf of Mexico from the Mississippi River to the Atlantic Ocean, including also all those portions of the Southern Railway, Louisville and Nashville Railroad, Mobile and Ohio Railroad, Atlantic Coast Line Railroad, and Seaboard Air Line Railway extending north of the northern boundary and excluding that portion of the Virginian Railway extending south of the northern boundary.

WESTERN GROUP—The territory lying west of the western boundaries of the eastern and southern groups as above described: south of Lake Superior and of the international boundary line; north of the Gulf of Mexico and the Rio Grande, and on and east of a north and south line running as follows: following the boundary line between the State of North Dakota and the State of Montana and the boundary line between the States of South Dakota and Wyoming and Nebraska and Wyoming to the line of the Union Pacific extending east of Cheyenne, Wyo., then following the line of the Union Pacific westward to Cheyenne and from Cheyenne running southward through Denver, Colorado Springs, Pueblo and Trinidad, Col., then following the line of the Atchison, Topeka and Santa Fe Railway through Raton and Las Vegas, N. M. Albuquerque, N. M.: then south along the line of the Atchison, Topeka and Santa Fe Railway to El Paso, Tex.

MOUNTAIN-PACIFIC GROUP—All that territory lying between the line last described and the Pacific Coast, not including Alaska.

RAILROAD TAXES AND ASSESSMENTS IN 1918.

Railroad taxes and assessments in 1918 totalled $223,595,268, excluding $668,686 Canadian taxes; $2 Hawaiian taxes; and $335,159 not localized by States. These amounts were charged to income. The taxes and assessments in New York were $14,241,440, or $1,787 per mile of line. For the United States the total averaged $998 per mile of line.

MISCELLANEOUS 1919 RAILWAY DATA.

Net ton miles, 394,804,349; net ton miles per mile of road per day, 4,688; train miles, 573,981,000; net ton miles per train mile, 688; freight car miles (loaded), 14,225,829, (empty) 6,478,749,000; average number of freight cars on line daily (serviceable), 2,276,607, (unserviceable), 2,451,825; net ton miles per loaded car mile, 27.8; per cent. loaded to total car miles, 68.7; car miles per day, 23.1; net ton miles per car day, 441.

Roumania	1905	32,167	14,829	Total, 36 countries		15,071,209	1,313,832

Total area includes, besides cultivated land, also natural meadows and pastures, forests, woodlots, and lands devoted to cultivated trees and shrubs. Cultivated land includes fallow lands; also artificial grass lands. The figure for "cultivated land" in Switzerland excludes artificial meadows and pastures.

WHEAT HARVEST SEASONS OF THE WORLD.

(Compiled by the Chicago Board of Trade.)

January—Australia, New Zealand and Chili.
February and March—East India, Upper Egypt.
April—Lower Egypt, Syria, Cyprus, Persia, Asia Minor, India, Mexico and Cuba.
May—Algeria, Central Asia, China, Japan, Morocco, Texas and Florida.
June—Turkey, Greece, Italy, Spain, Portugal, South of France, California, Louisiana, Mississippi, Alabama, Georgia, Carolinas, Tennessee, Virginia, Kentucky, Kansas, Arkansas, Utah, Missouri.
July—Roumania, Bulgaria, Austria-Hungary, South of Russia, Germany, Switzerland, France, South of England, Oregon, Nebraska, Minnesota, Wisconsin, Colorado, Washington, Iowa, Illinois, Indiana, Michigan, Ohio, New York, New England and Upper Canada.
August—Belgium, Holland, Great Britain, Denmark, Poland, Lower Canada, Columbia, Manitoba, North and South Dakota.
September and October—Scotland, Sweden, Norway and North of Russia.
November—Peru, South Africa and Argentina.
December—Burmah and Argentina.

CORN HARVEST TIME.

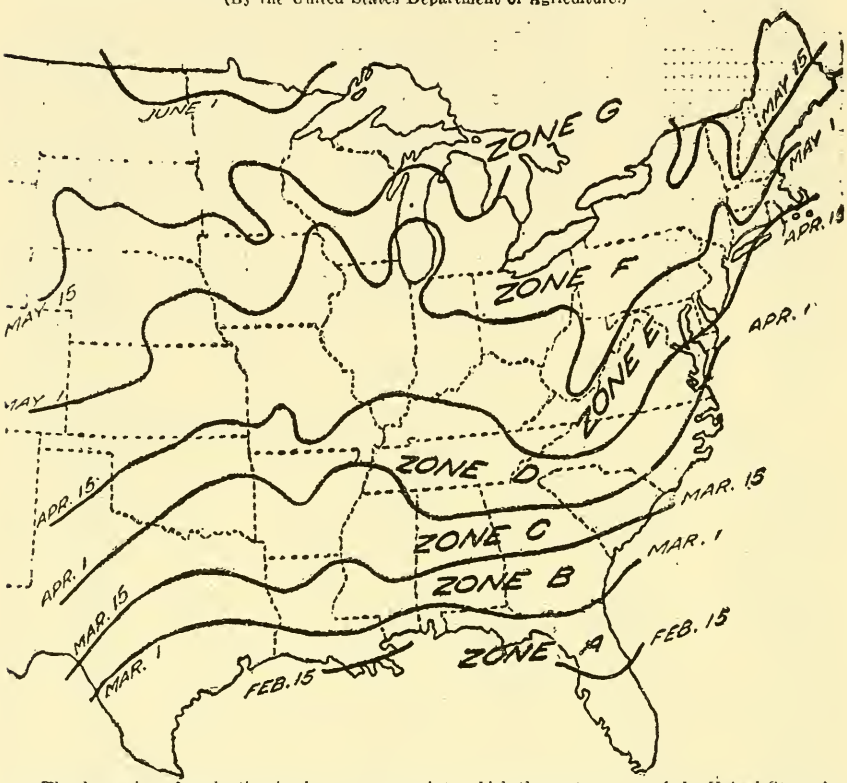
January—New South Wales.
March and April—Argentina.
September and October—All European countries.
October—The crop of the United States is harvested principally in this month.

WORLD PRODUCTION OF FLAX.

Of the yearly total of 500,000 tons of flax produced for manufacturing purposes, Russia raises 400,000 tons; France and Belgium, 50,000; Ireland, 10,000; Netherlands, 10,000; Germany and Austria, 30,000. The relative values in normal times are: Courtrai flax, £80 ($389) to £100 ($486) per ton; Irish, £60 ($292); Russian, £40 ($194). In these countries the output of the linen industry, which is chiefly centred in the north of Ireland, is worth about £15,000,000 ($72,997,500) a year, of which £9,500,000 ($46,231,750) represents the export trade. The Irish industry is largely dependent on foreign sources for its supply of raw material; only about one-eighth of its consumption of raw flax is produced at home.

GARDEN PLANTING MAP FOR EASTERN UNITED STATES.

(By the United States Department of Agriculture.)



The dates given for planting in the seven zones into which the eastern part of the United States has been divided are considered to be the best for planting. Earlier and later plantings often can be made, however, with fair chances of success.

PLANTING DATES BY VEGETABLE GROUPS.

ZONE.	Group 1.	Group 2.	Group 3.	Group 4.
A	Jan 1 to Feb. 1	Feb. 1 to Feb. 15	Feb. 15 to Mar. 1	Mar. 1 to Mar. 15
B	Feb. 1 to Feb. 15	Feb. 15 to Mar. 1	Mar. 1 to Mar. 15	Mar. 15 to Apr. 1
C	Feb. 15 to Mar. 1	Mar. 1 to Mar. 15	Mar. 15 to Apr. 1	Apr. 1 to Apr. 15
D	Mar. 1 to Mar. 15	Mar. 15 to Apr. 15	Apr. 1 to May 1	May 1 to May 15
E	Mar. 15 to Apr. 15	Apr. 15 to May 1	May 1 to May 15	May 15 to June 1
F*	Apr. 15 to May 1	May 1 to May 15	May 15 to June 1	May 15 to June 15
G*	May 1 to May 15	May 15 to June 1	May 15 to June 15	(†)

* For the crops grown. † Season too short for this group. Group 1 (may be planted two weeks before last killing frost)—Early cabbage plants from hot bed or seed box, radishes, collards, onion sets, early smooth peas, kale, early potatoes, turnips, and mustard. Group 2 (may be planted about the date of the last killing frost)—Beets, parsnips, carrots, lettuce, salsify, spinach, wrinkled peas, cauliflower plants, celery seed, onion seed, parsley, sweet corn, and Chinese cabbage. Group 3 (should be planted two weeks after last killing frost)—Snap beans, okra, and tomato plants. Group 4 (cannot be planted until ground is well warmed up, about a month after last hard frosts)—Lima beans, pepper plants, eggplant, cucumbers, melons, squash, and sweet potatoes.

Because of the greatly varying altitudes in the Western States this portion of the country cannot be divided into definite zones. The best planting dates can be indicated only by the average date of the last killing frost in each section, as is done on the accompanying map. Planting of the vegetable groups given below should be governed by the frost dates indicated. Group 1 (may be planted two weeks before last killing frost)—Early cabbage plants from hot bed or seed box, radishes, collards, onion sets, early smooth peas, kale, early potatoes, turnips, and mustard. Group 2 (may be planted about the date of the last killing frost)—Beets, parsnips, carrots, lettuce, salsify, spinach, wrinkled peas, cauliflower plants, celery seed, onion seed, parsley, sweet corn, and Chinese cabbage. Group 3 (should be planted two weeks after last killing frost)—Snap beans, okra, and tomato plants. Group 4 (cannot be planted until ground is well warmed up, about a month after last hard frosts)—Lima beans, pepper plants, eggplant, cucumbers, melons, squash, and sweet potatoes.

EARLIEST SAFE DATE FOR OPEN PLANTING, EASTERN ZONES.

Crop.	Zone A.	Zone B.	Zone C.	Zone D.	Zone E.
Asparagus	Not grown	Feb. 15-Mar. 1	Mar. 1-15	Mar. 15-Apr. 15	Apr. 15-May 1
Beans, Lima	Mar. 1-15	Mar. 15-Apr. 1	Apr. 1-15	May 1-15	May 15-June 1
Beets	Feb. 1-15	Feb. 15-Mar. 1	Mar. 1-15	Mar. 15-Apr. 15	Apr. 15-May 1
Brussels sprouts	Feb. 1-15	Feb. 15-Mar. 1	Mar. 1-15	Mar. 15-Apr. 15	Apr. 15-May 1
Cabbage	Jan. 1-Feb. 1	Jan. 15-Feb. 15	Feb. 15-Mar. 1	Mar. 1-15	Mar. 15-Apr. 15
Carrots	Feb. 1-15	Feb. 15-Mar. 1	Mar. 1-15	Mar. 15-Apr. 15	Apr. 15-May 1

Onion sets	Apr. 15-May 1	May 1-15			

The dates given on this sheet are general averages. The nearest station of the United States Weather Bureau will be glad to give more specific information regarding the frost-free date in any particular community.

DISTANCE TO PLANT TREES, ETC.

The convenient and common distances are given herewith:

	Feet.		Feet.		Feet.
Apples	30 to 50	Peaches	16 to 20	Currants	4 to 5
Apples, dwarf (Pdse. stk.)	8 to 10	Cherries	16 to 25	Gooseberries	4 to 5
Apples, dwarf (D'cin stk.)	12 to 25	Apricots	16 to 20	Raspberries, black	3 to 6
Pears	20 to 30	Quinces	8 to 14	Raspberries, red	3 to 5
Pears, dwarf	10 to 15	Pecans	35 to 40	Blackberries	4 to 7
Plums	16 to 20	Grapes	8 to 10	Strawberries	1 to 2

NUMBER OF TREES PER ACRE AT DIFFERENT DISTANCES.

1½ feet apart each way	19,360	5 feet apart each way	1,742	25 feet apart each way	70
1½ feet by 2 feet	14,520	6 feet apart each way	1,210	30 feet apart each way	50
2 feet apart each way	10,890	8 feet apart each way	680		
2 feet by 3 feet	7,260	10 feet apart each way	435	Rows 6 ft. apart and trees 1 ft. apart in the row	7,260
2 feet by 4 feet	5,445	12 feet apart each way	302	Rows 8 ft. apart and trees 1 ft. apart in the row	5,445
3 feet apart each way	4,840	15 feet apart each way	200	Rows 10 ft. apart and trees 1 ft. apart in the row	4,356
3 feet by 4 feet	3,630	18 feet apart each way	135		
4 feet apart each way	2,722	20 feet apart each way	110		
		22 feet apart each way	90		

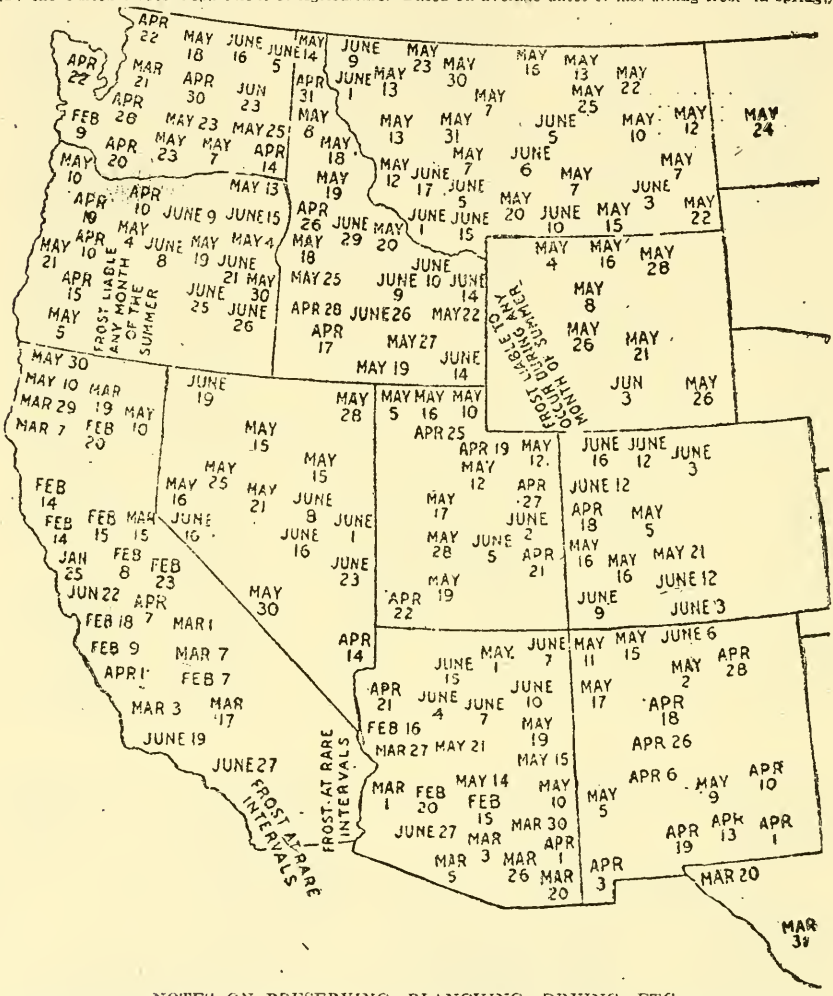
CUT OVER AND SWAMP LANDS IN THE UNITED STATES.

State.	Acres.	State.	Acres.	State.	Acres.	State.	Acres.
Alabama	14,785,000	Maine	6,135,000	New Jersey	1,151,000	Vermont	2,070,000
Arkansas	13,893,000	Maryland	1,848,000	New York	5,997,000	Virginia	9,929,000
California	3,031,000	Michigan	11,686,000	No. Carolina	12,745,000	Washington	3,330,000
Florida	10,109,000	Minnesota	14,022,000	Oregon	3,537,000	W. Virginia	4,634,000
Georgia	20,141,000	Mississippi	13,203,000	Pennsylv'ia	5,297,000	Wisconsin	13,246,000
Idaho	676,000	Missouri	8,900,000	So. Carolina	8,994,000		
Kentucky	3,222,000	Montana	674,000	Tennessee	7,833,000	Total	223,509,000
Louisiana	11,877,000	N. Hamp.	2,608,000	Texas	12,936,000		

Swamp lands included in above total 79,000,000 acres.

GARDEN PLANTING MAP FOR WESTERN UNITED STATES.

(By the United States Department of Agriculture. Based on average dates of last killing frost in spring.)



NOTES ON PRESERVING, BLANCHING, DRYING, ETC.

Minutes required for blanching vegetables—Asparagus, 10 to 15. Greens, 15. Brussels Sprouts, Cabbage, Corn, Lima Beans, Okra, Peppers, Peas, String Beans, 5 to 10. Beets, Carrots, Parsnips, Salsify, 5. Cauliflower, 3. Tomatoes, till skins loosen.

Minutes required for sterilizing in hot water—Tomatoes, 22. Cauliflower, 60. Beets, Carrots, Parsnips and Salsify, 90. Asparagus, Brussels Sprouts, Cabbage, Greens, Okra, Peppers, Pumpkin, Sauerkraut, String Beans, Squash, 120. Corn, Lima Beans, Peas, 180.

Fruits require scarcely any time for blanching—Berries and Cherries, none; Pineapples, 3 to 5 minutes. Apricots, 1 to 2 min. Apples, 1½ min. Gooseberries, Oranges and Pears, 1½ min. Rhubarb, 1 to 3 min.

Minutes required for sterilizing fruits in hot water—Apricots, Berries, Cherries, Currants Peaches, Plums, 16. Oranges, 12. Apples, Pears, Quinces, Rhubarb, 20. Pineapples and fruits without sugar, 30.

Some peaches do not peel readily even if dipped in boiling water. In such cases omit dipping in boiling water and pare them.

The time given is for quart jars. For pint jars, deduct 5 minutes. For 2 quart jars, add 30 minutes.

Home-made and commercial hot-water bath outfits are not satisfactory for canning at high altitudes, as the temperature for water in them does not reach 212° F. In such localities water-seal and steam pressure outfits give better results, as much higher temperatures can be maintained.

SEED PLANTING IN THE UNITED STATES.

(Compiled from reports of the Department of Agriculture.)

KIND OF CROP.	Date of Planting.	Best Soil.	Amount of Manure per Acre.	Amount of Seed per Acre (1).	Weeks to Maturity.
NEW ENGLAND.					
Corn	May 10 to 30	Sandy or clay loam	8 to 12 tons	8 to 12 qts	14-17

Cabbage	Oct., Mar. to May	Light loam	6 to 10 tons	¼ to ½ lb	14
Watermelons	Mar. 1 to May 10	Rich, light loam	5 tons; 300 lbs. fer	2 to 7 lbs	16-20
Onions	Feb. 1 to Apr 10	Loam or muck			16-24
Potatoes	Jan., Feb. to Apr	Light, loose loam	8 to 12 tons	8 to 10 bush	11-15
Sweet potatoes	May to June	Sandy loam		10 to 12 bush	12-15
Pumpkins	Apr. 1 to May 1	Rich, light loam		4 to 7 lbs	17-20
Tomatoes	Jan. 1 to Feb. 19	Rich, sandy loam		4 to 9 oz	14-20
Turnips	Feb., Aug., Apr	Rich, light loam		2 to 6 lbs	8-12
Tobacco	Seed bed, Mar	Sandy loam	8 to 15 tons	oz. to 6 sq. rd	18-20
Cow peas	May 1 to July 15	Sandy loam	200 to 300 lbs. phos.	2 to 5 pecks	6-8

(1) The standard varieties of seed planted in the several sections of the United States are as follows: Corn—New England, leaming, sanford, flint; Middle States, leaming, white dent, yellow dent; Central and Western States, leaming, sanford, flint, white dent; Southern States, hickory king, gourd-seed, Cox prolific. Wheat—Middle States, fultz; Central and Western States, fultz, poole, fife; Southern States, fulcaster. Oats—New England, Clydesdale and Welcome; Middle States, white, black; Central and Western States, Sixty-day, Swedish Select and Silver mine; Southern States, Red rustproof. Barley—New England and Middle States, Manchuria and Oderbrucker; Western States, coast; Southern States, Tennessee Winter. Rye—New England, white; Middle States, white, Winter; Central and Western States, Winter; Southern States, excelsior Winter. Buckwheat—Middle States, silver hull; Central and Western States, silver hull. Potatoes—New England, green mountain, carmen 3, rose; Middle States, rose, carmen 3, rural 2; Central and Western States, hebron, rural, early rose, early Ohio. Tobacco—Central and Western States, yellow prior, Spanish, white burley. Hay, clover—Middle States, medium red. Sweet Potatoes—Middle States, yellow Jersey; Southern States, yellow Jersey. Cotton—Southern States, Texas stormproof. Spring wheat is to some extent grown in Ohio, Indiana, Illinois and many other States. It matures in eighteen to twenty weeks.

(2) In Texas the black loam is a good soil for cotton, corn, wheat and most other field crops.

VEGETABLE PLANTING TABLE.

Vegetable.	Quantity for 100 Foot Row.	Distance Apart in Inches. Rows.	Distance Apart in Inches. In Row.	Depth of Planting, Inches	Time of Planting.	Mature (in Days, Except as Noted).
Asparagus, seed	1 oz.	12 to 24	3 to 5	½ to 1	Early spring	3 to 4 yrs.
Asparagus, plants	60 to 80	36 to 48	15 to 20	8 to 10	Early spring	1 to 3 yrs.
Beans, snap	½ to 1 pt.	20 to 24	4 to 6	1	April to August	40 to 65
Beans, pole	½ pt.	36 to 48	Hills 24 to 36	1	May and June	50 to 80
Beans, Lima, bush	½ to 1 pt.	18 to 24	4 to 6	1	May and June	60 to 90
Beans, Lima, pole	½ pt.	36 to 48	Hills 24 to 36	1	April to June	60 to 80
Beets	2 oz.	12 to 18	5 or 6 to ft.	1 to 2	April to July	60 to 80
Brussels sprouts	¼ oz.	24 to 30	16 to 24	½	April to August	60 to 80
Cabbage, early	¼ oz.	24 to 30	12 to 18	½	March and April (Start in hotbed during February)	90 to 130
Cabbage, late	¼ oz.	24 to 36	16 to 24	½	May and June	90 to 130
Carrot	1 oz.	18 to 24	6 or 7 to ft.	½	April to June	75 to 110
Cauliflower	1 packet	24 to 30	14 to 18	½	April to June (Start in hotbed during February or March)	100 to 130
Celery	¼ oz.	18 to 36	4 to 8	⅛	May and June. (Start in hotbed during March or April)	120 to 150
Chard	½ oz.	18 to 24	4 to 6 to ft.	½	April to July	60 to 80
Corn, sweet	½ pt.	30 to 36	30 to 36	1 to 2	May to July	60 to 100
Cress, upland	½ oz.	12 to 18	4 to 5 to ft.	½ to 1	March to May	30 to 40
Cucumber	½ oz.	48 to 72	48 to 72	1	April to July	60 to 80
Eggplant	⅓ oz.	24 to 36	18 to 24	½ to 1	April and May. (Start in hotbed during March	100 to 140
Endive	1 oz.	18	8 to 10	½	Midsummer	90 to 180
Horseradish	70 roots	24 to 30	4 to 6	3 to 4	Early spring	1 to 2 yrs.
Kale	½ oz.	18 to 24	6 to 8	½	Early spring, Aug. and Sept.	90 to 120
Kohlrabi	¼ oz.	18 to 24	4 to 6	½	April to August	60 to 80
Lettuce	½ oz.	12 to 18	4 to 6	½	March to September	60 to 90
Muskmelon	½ oz.	72 to 96	Hills 72	1	April to June. (Start in hotbed during March)	120 to 150
Okra, or gumbo	2 oz.	36 to 48	24 to 30	1 to 2	May and June	60 to 90
Onion, seed	1 oz.	12 to 18	5 or 10 to ft.	½ to 1	April and May	130 to 150
Onion, sets	1 qt.	12 to 18	4 or 5 to ft.	1 to 2	Autumn and March to May	90 to 120
Parsley	¼ oz.	12 to 18	3 to 6	⅛	Early spring and September	90 to 120
Parsnip	½ oz.	18 to 24	4 or 6 to ft.	½ to 1	April and May	125 to 160
Peas	1 to 2 pts.	36 to 48	15 to ft.	3 to 4	March to June	40 to 80
Pepper	⅓ oz.	18 to 24	15 to 18	½	May and June. (Start in hotbed during March)	100 to 140
Potato, Irish	5 lbs.	24 to 36	14 to 18	3 to 5	March to June	80 to 140
Potato, sweet	75 slips	36 to 60	14	2 to 3	March to June	100 to 130
Pumpkin	½ oz.	96 to 144	96 to 144	1	May	100 to 140
Radish	1 oz.	12 to 18	8 or 12 to ft.	½	March to September	20 to 40
Rhubarb, plants	33	36 to 60	36 to 48		Early spring	1 to 3 yrs.
Rutabaga	¼ oz.	18 to 24	6 to 8	½ to 1	May and June	60 to 80
Salsify	½ oz.	18 to 24	2 to 4	½	Early spring	120 to 180
Spinach	1 oz.	12 to 18	7 or 8 to ft.	1 to 2	September or early spring	30 to 60
Squash, bush	½ oz.	36 to 48	Hills 36 to 48	1	April to June	60 to 80
Squash, late	½ oz.	84 to 120	Hills 84 to 108	1	April to June	120 to 160
Tomato, seed	⅓ oz.	36 to 48	30 to 36	½ to 1	May and June. (Start in hotbed dur'g Feb. and March)	100 to 140
Tomato, plants	33 to 40	36 to 48	30 to 36		May and June. (Start in hotbed dur'g Feb. and March)	80 to 100
Turnip	¼ oz.	18 to 24	6 or 7 to ft.	¼ to ½	April and August	60 to 80
Vegetable marrow	½ oz.	96 to 144	Hills 96 to 108	1 to 2	April to June	110 to 140
Watermelon	½ oz.	96 to 120	96 to 120	1	May	100 to 120

NOTE—Set rhubarb plants so that growing tips are at surface of ground.

HOW MUCH SEED TO BUY: The following amounts of seed will plant in each case a garden row 100 ft. long:

String Beans	½ to 1 pint	Lettuce	½ ounce	Onion Sets (bulbs)	1 quart
Lima Beans	½ to 1 pint	Muskmelon	½ ounce	Onion Seed	1 ounce
Cabbage	¼ ounce	Cucumber	½ ounce	Peas	1 to 2 pints
Carrot	1 ounce	Eggplant	½ ounce	Radish	1 ounce
Cauliflower	1 packet	Kale or Swiss Chard	½ ounce	Spinach	1 ounce
Celery	¼ ounce	Parsley	¼ ounce	Tomatoes	¼ ounce
All Squash	½ ounce	Parsnip	½ ounce	Turnip	½ ounce
Beets	2 ounces	Vegetable Oyster (Salsify)	½ ounce		
Sweet Corn	½ pint				

1 or 2 pecks of early potatoes and ½ to 1 bushel of late potatoes are enough to plant to supply four persons.

QUANTITY OF SEED USUALLY SOWN PER ACRE.

Barley, broad	2 to 3 bus.	Grass, Ky. blue	3 bus.	Potato (cut tubers)	7 bus.
Beans, dwarf, drills	1½ bus.	" Orchard	3 bus.	Pumpkin, hills	4 to 6 lbs.
Beans, pole, hills	10 to 12 qts.	" Red Top	3 bus.	Radish, drills	8 to 10 lbs.
Beets, hills	5 to 6 lbs.	" Timothy	½ bus.	Rye, broadcast	1½ to 2 bus.
Broom corn, hills	8 to 10 qts.	" Hung	¾ to 1 bus.	Sage, drills	8 to 10 lbs.
Buckwheat	1 bus.	" Mixed Lawn	3 bus.	Spinach, drills	10 to 12 lbs.
Cabbage transp	¼ lb.	Melon, musk	2 to 3 lbs.	Squash, bush, hills	4 to 6 lbs.
Carrot drills	3 to 4 lbs.	Melon, water, hills	4 to 5 lbs.	Salsify, drills	8 to 10 lbs.
Clover, red, alone	12 to 20 lbs.	Millet, common	¾ to 1 bus.	Squash (run.), hills	3 to 4 lbs.
" white, alone	12 to 15 lbs.	Oats, broadcast	2 to 3 bus.	Tomato, to transp.	¼ lb.
" Lucerne or Alfalfa	20 lbs.	Onion, drills	5 to 6 lbs.	Turnip, drills	1 lb.
Corn, hills	12 to 16 qts.	" for sets, drills	30 lbs.	" broadcast	1 lb.
" solling	3 bus.	" sets, drills	6 to 12 bus.	Wheat	1½ to 2 bus.
Cucumber, hills	2 lbs.	Parsnips, drills	4 to 6 lbs.	8 lbs. Clover, ½ bu. Timothy and 1 bus. Red Top for 1 acre, mixed, for general seeding.	
Flax, broadcast	1½ bus.	Peas, drills	3 bus.		
		" broadcast	3¼ bus.

AMOUNT OF FAT IN VARIOUS FOODS.

Food material.	Quantity.	Fat content.	Food material.	Quantity.	Fat content.
Whole milk.....	1 cup....	About 2 level teaspoons.	Cheese (grated)..	1 cup, or 4 ounces.	2½ level tablespoons.
Ordinary cream (18 per cent).	1 cup....	About 3 level tablespoons.	Egg.....	1.....	A little more than 1 level teaspoon.
Double or whipping cream (40 per cent).	1 cup....	About 6 level tablespoons.	Egg yolk.....	1.....	Do.
Butter.....	1 cup....	14 level tablespoons.	Egg white.....	1.....	only a trace.
English walnut meats (finely chopped).	1 cup, or 8 ounces.	Nearly ⅔ cup.	Egg yolks.....	1 cup....	About 5 level tablespoons.
Peanuts (finely chopped).	1 cup, or 8 ounces.	A little more than ½ cup.	Egg whites.....	1 cup....	¼ level teaspoon.
Chocolate.....	1 square, or 1 ounce.	1 scant tablespoon.	Vegetable oil or lard or drippings from which all water has been driven off by heat.	1 cup....	1 cup

In making these estimates it is assumed that 3 level teaspoons make 1 level tablespoon, and 16 level tablespoons 1 cup.

Heat calories in various cereals—Wheat, 1 bushel, 60 pounds, 89,340; Corn, 1 bushel, 56 pounds, 88,032; Rye, 1 bushel, 56 pounds, 84,448; Barley, 1 bushel, 48 pounds, 70,796; Oats, 1 bushel, 32 pounds, 41,920.

The average man needs in his food, daily, 2¼ ounces of protein, ¼ ounce of iron, and 10 grains of calcium, besides several thousand heat calories. The following table shows the amounts of various foods required to give the necessary amounts of protein, iron and calcium.

Proteins							
Beans.....11.7 oz.	Peanut Butter.9 oz.	Lettuce.....2 oz.	Spinach.....7 oz.	Chocolate....2 oz.

WEIGHTS OF MILK AND CREAM.

(From the Milk Reporter.)

In general the specific gravity of milk and cream depends on the percentage and relation of solids; the temperature at which the determinations are made; and the age of the milk. The weight of one gallon of water at 68 degrees F. (20 degrees C.) according to the Bureau of Standards is approximately 8.32162 pounds. Using this figure as the weight of water and using the specific gravities of milk and cream of various percentages as given in U. S. Department of Agriculture Bulletin 98, the following table has been worked out as to the weights per gallon, at a temperature of 68 degrees F.

	Pct. of Fat	Spec. Grav.	Gal. (lbs.)		Pct. of Fat	Spec. Grav.	Gal. (lbs.)		Pct. of Fat	Spec. Grav.	Gal. (lbs.)
Water		1.000	8.32162	Mixed milk cream	10.	1.025	8.5297	Cream	25.	1.008	8.3882
Skim	.025	1.037	8.6295					Cream	28.	1.006	8.3715
Milk	3.	1.034	8.6045	Mixed milk cream	15.	1.018	8.4714	Cream	30.	1.004	8.3549
Milk	3.5	1.033	8.5962					Cream	32.	1.002	8.3383
Milk	4.	1.032	8.5879	Cream	18.	1.015	8.4564	Cream	35.	.999	8.3133
Milk	5.	1.031	8.5796	Cream	20.	1.013	8.4298	Cream	38.	.997	8.2966
Milk	6.	1.030	8.5713	Cream	22.	1.011	8.4132	Cream	40.	.995	8.2800

Weights are given at 68 degrees because this is the temperature that was used in determining the specific gravity (20 C. being the temperature generally used for such work). There would be a slight difference for milk at 50 degrees to 60 degrees, the temperature at which milk is usually received at the plant.

For all practical purposes, the weight of milk testing from three to five per cent. may be figured at 8.6 pounds per gallon.

THE CEREAL QUARTER IN THE UNITED KINGDOM.

(Compiled for the Chicago Board of Trade by G. J. S. Broomhall of the British Royal Statistical Society.)

In the United Kingdom the quarter comprises among others the following conventional weights:

	Lbs.		Lbs.		Lbs.
Wheat and corn from the Atlantic and Gulf ports of America, from Argentina, Australia, and New Zealand	480	Russian barley from Black Sea and Azoff	400	Chilian barley	448
American and Canadian oats	320	Russian oats	304	Chilian wheat	500
Wheat from Pacific Coast of U. S. A.	500		320	New Zealand oats cif. 320 lbs.; on Mark Lane	320
Californian and Oregon barley	448	Russian rye	480		336
Russian wheat from Black Sea and Azoff, always	492	Danubian wheat	480	Argentine oats	304
Russian wheat from Baltic	496	Danubian corn—large berry	480	Linseed, American	424
*Russian corn from Black Sea	492	Danubian corn—small berry	492	Linseed, Russian	424
		Danubian barley	400	Linseed, Argentine	416
		Danubian rye	480	Linseed, Bombay	416
		German wheat—from Dantzig, 500 lbs.; all others	504	Linseed, Calcutta	410

* If shipped from Poti, 480 pounds.

VALUE OF FARM PROPERTY IN THE U. S.—1850-1910.

(By the Census Bureau.)

CENSUS YEAR.	All Farm Property.	Land.	Buildings.	Implements and Machinery.	Live Stock.
1850	$3,967,343,580	$3,271,575,426	.....	$151,587,638	$544,180,516
1860	7,980,493,063	6,645,045,007	.....	246,118,141	1,089,329,915
1870	8,944,857,749	7,444,054,462	.....	270,913,678	1,229,889,609
1880	12,180,501,538	10,197,096,776	.....	406,520,055	1,576,884,707
1890	16,082,267,689	13,279,252,649	.....	494,247,467	2,308,767,573
1900	20,439,901,164	13,058,007,995	$3,556,639,496	749,775,970	3,075,477,703
1910	40,991,449,090	28,475,674,169	6,325,451,528	1,265,149,783	4,925,173,610

Until 1900 land and buildings were not separately stated; including only the reported value of live stock on farms until 1870; including estimated value of live stock on ranges; exclusive of Alaska and Hawaii after 1890; including value of live stock on ranges as well as on farms until 1900; exclusive of Porto Rico in 1910.

CENSUS YEAR.	No. of Farms.	Improved.	Unimproved.	Total.	CENSUS YEAR.	No. of Farms.	Improved.	Unimproved.	Total
		Acres.	*Acres.*	*Acres.*			*Acres.*	*Acres.*	*Acres.*
1850	1,449,073	113,032,614	180,528,000	293,560,614	1890	4,564,641	357,616,755	265,601,864	623,218,619
1860	2,044,077	163,110,720	244,101,818	407,212,538	1900	5,737,372	414,498,487	424,093,287	838,591,774
1870	2,659,985	188,921,099	218,813,942	407,735,041	1910	6,361,502	478,451,750	400,346,575	878,798,325
1880	4,008,907	284,771,042	251,310,793	536,081,835					

Not including farms of less than three acres which reported the sale of less than $500 worth of products in the census years since 1860; exclusive of Alaska and Hawaii since 1890; exclusive of Porto Rico since 1910.

Poultry on Farms—The total value of poultry was estimated by the Department of Agriculture to be $501,992,000 in 1916. This includes both poultry kept as breeding stock and poultry raised and marketed during the year. The estimated number of poultry on farms on Jan. 1, 1919, was 325,000,000 head, a decrease of approximately 39,000,000 head since 1916, though an increase of 29,000,000 head since 1910. Production statistics for the same period show an increase from 567,000,000 head in 1916 to 589,000,000 head in 1918, though receipts at the New York market have been on the decrease for several years with the exception of 1916.

LIVE STOCK IN THE UNITED STATES—JANUARY 1, 1920.

(000 omitted for both numbers and values.)

Data compiled by the Department of Agriculture at Washington.

		16,290,710,000	2,639,016,000		120,372,003	24,884,289,711	3,969,299,493

NOTE—The basis of this table is the number of head slaughtered in inspected houses. From this is estimated the total number slaughtered by applying the percentage of total slaughtered in inspected houses in 1909, as shown below. The number of pounds is found by multiplying the number of head by average dressed weights of carcasses, also shown below. "Other edible portions" include such things as hearts, livers, edible fats, etc., the number of pounds of which per head is shown in following statement:

	Pct. of Total in Inspected Houses.	Average Weight Dressed.	Oth. Edible Port'ns Per Animal.		Pct. of Total in Inspected Houses.	Average Weight Dressed.	Oth. Edible Port'ns Per Animal.
		Pounds.	*Pounds.*			*Pounds.*	*Pounds.*
Cattle	56.39	543	98.	Sheep	76.95	41	2
Calves	35.46	105	9.7	Hogs	58.86	164	25

The average weight, dressed, of hogs, was estimated for 1919 at 164 pounds, according to the Drovers Journal; 1917 hogs averaged 208 pounds, and 1918 hogs averaged 219 pounds: 75 per cent. of this gross weight gives 156 pounds for 1917, and 164 pounds for 1918 and 1919, as the dressed weight.

Using the figures of total meat production in this table and the census figures of population, the per capita production of meats for each year from 1909 to 1918 was as follows:

YEAR.	Pounds.	YEAR.	Pounds.	YEAR.	Pounds.	YEAR.	Pounds.
1909	217.2	1912	208.2	1915	210.0	1917	227.4
1910	197.7	1913	206.5	1916	238.7	1918	266.7
1911	219.1	1914	191.9				

The United States Department of Agriculture's estimate of meat production and consumption in this country is as follows: The figures include not only meat, but the other edible food parts.

MEAT PRODUCTION AND CONSUMPTION IN U. S., IN 1919.

(By the U. S. Department of Agriculture.)

[000 omitted, except from ratios and percentages.]

KINDS OF MEAT.	Production. Dressed Weight.	Production. Dressed Weight and Edible Offal.	Domestic Exports	Gross Imports Less Re-exports	Net Exports	Consumption, Dressed Weight and Edible Offal. Total	215.9	201.1	176.0	186.1	165.4	193.5

The national surplus of all kinds of meat was 2,458,000,000 pounds in 1900 and only 718,000,000 pounds in 1914; but in 1916 it was 1,811,000,000 pounds, in 1917 it was 1,695,000,000 pounds, and this was nearly doubled in 1918, when the previous highest record was far exceeded and the surplus was 3,027,000,000 pounds, three-quarters of which was pork and pork products.

PORK PACKING IN THE UNITED STATES.

The following shows the number of hogs packed during winter season at the large cities.
(Chicago Board of Trade Figures.)

1907 figures cover nine months from October 1, 1906, to June 30, 1907.

OFFICIALS FROM WHOM GAMING AND FISHING LAWS MAY BE OBTAINED.

Alabama—State Game and Fish Commissioner, Montgomery.
Alaska—The Governor, Juneau; Secretary of Commerce, Washington, D. C.
Arizona—State Game Warden, Phoenix.
Arkansas—Secretary, Game and Fish Commission, Little Rock.
California—Executive Officer, Fish and Game Commission, New Call Building, San Francisco.
Colorado—State Game and Fish Commissioner, Denver.
Connecticut—Secretary, Commission of Fisheries and Game, Hartford.
Secretary, Shell Fish Commission, New Haven.
Delaware—Secretary, Game and Fish Commission, Dover.
District of Columbia—Superintendent Metropolitan Police, Washington.
Florida—Secretary of State, Tallahassee.
Georgia—Game and Fish Commissioner, Atlanta.
Idaho—Fish and Game Warden, Boise.
Illinois—Chief Game and Fish Warden, Springfield.
Indiana—Director, Department of Conservation, Indianapolis.
Iowa—State Fish and Game Warden, Lansing.
Kansas—State Fish and Game Warden, Pratt.
Kentucky—Executive Agent, Game and Fish Commission, Frankfort.
Louisiana—Commissioner of Conservation, Court Building, New Orleans.
Maine—Commissioner of Inland Fisheries and Game, Augusta.
Maryland—Conservation Commission, 512 Munsey Building, Baltimore.
Massachusetts—Chairman, Commissioners of Fisheries and Game, State House, Boston.
Michigan—Commissioner Game, Fish, and Forest-Fire Department, Lansing.
Minnesota—Game and Fish Commissioner, St. Paul.
Mississippi—Department of Game and Fish, Jackson.
Missouri—Game and Fish Commissioner, Jefferson City.
Montana—Game and Fish Commission, Helena.
Nebraska—Chief Deputy, Game and Fish Commission, Lincoln.
Nevada—State Fish and Game Warden, Carson City.
New Hampshire—Fish and Game Commissioner, Sunapee.
New Jersey—Secretary, Board of Fish and Game Commissioners, Trenton.
New Mexico—Game and Fish Warden, Santa Fé.
New York—Secretary of Conservation Commission, Albany.
North Carolina—Secretary, Audubon Society of North Carolina, Raleigh.
North Dakota—Secretary, Game and Fish Board, Steele.
Ohio—Chief Game Warden, Board of Agriculture, Columbus.
Oklahoma—Secretary, Game and Fish Commission, Oklahoma City.
Oregon—Secretary, Fish and Game Commission, Salem.
Pennsylvania—Secretary, Board of Game and Fish Commissioners, Harrisburg.
Rhode Island—Secretary, Fish Commission, Providence.
South Carolina—Chief Game and Fish Warden, Columbia.
South Dakota—State Game and Fish Warden, Pierre.
Tennessee—State Game and Fish Warden, Nashville.
Texas—Game, Fish, and Oyster Commissioner, Austin.
Utah—Fish and Game Commissioner, Salt Lake City.
Vermont—Fish and Game Commissioner, Cambridge.
Virginia—Commissioner of Game and Inland Fisheries, Richmond.
Washington—Chief Game Warden and State Fish Commissioner, Seattle; Chief Deputy Game Warden, Spokane.
West Virginia—Forest, Game, and Fish Warden, Philippi.
Wisconsin—Secretary, Conservation Commission, Madison.
Wyoming—State Game Warden, Lander.

CANADA.

Alberta—Chief Game Guardian, Edmonton.
British Columbia—Secretary, Game Conservation Board, Victoria.
Manitoba—Chief Game Guardian, Winnipeg.
New Brunswick—Chief Game and Fire Warden, Richibucto.
Northwest Territories—Commissioner of Parks, Ottawa.
Nova Scotia—Chief Game Commissioner, Halifax.
Ontario—Superintendent Game and Fisheries, Toronto.
Prince Edward Island—Game Inspector, Charlottetown.
Quebec—General Inspector of Fisheries and Game, Quebec.
Saskatchewan—Chief Game Guardian, Regina.
Yukon—Gold Commissioner, Dawson.
Colony of Newfoundland—Secretary, Department of Marine and Fisheries, St. John's.

AVERAGE PRICES RECEIVED BY PRODUCERS OF THE UNITED STATES.

JAN. 15.	Hogs.	Beef Cattle.	Veal Calves.	Sheep.	Lamb.	Wool.	Milch Cows.	Horses.	Onions.	Beans.	Clover Seed.	Timothy Seed.	Alfalfa Seed.	Cotton Seed.	Bran.	Cotton Seed Meal.

Peas, malt and meal are not included in above table. In the total column, flour is reduced to its equivalent in wheat, on the basis of 4½ bushels per barrel.

Of the New York Port grain receipts (in 1919), 6,323,100 bushels came by canal, and 4,192,088 bushels by river and coastwise boats. The rest came by rail.

Tobacco exports and imports are of the fiscal years ending in year after year named in stub.

The 1919 tobacco crop yields, in pounds, by States, was: Mass., 15,400,000; Conn., 39,000,000; N. Y., 7,483,000; Penn., 54,120,000; Md., 19,575,000; Va., 131,100,000; W. Va., 10,500,000 N. C., 310,240,000; S. C., 81,000,000; Ga., 16,430; Fla., 3,990,000; Ohio, 77,400,000; Ind., 15,215,000; Ill., 525,000; Wis., 60,000; Mo., 3,500; Ky., 456,500,000; Tenn., 88,000,000; Ala., 1,890,000; La., 174,000; Ark., 456,000.

In the year ended June 30, 1920, *imports of tobacco* were: Leaf, from Philippines, 642,248 lbs. ($121,861); wrappers from elsewhere, 7,328,719 lbs. ($10,011,008); other leaf, not from Philippines, 86,034,215 lbs ($68,031,421); cigars and cigarettes, 4,664,876 lbs. ($13,111,839); all other tobacco, 182,108 lbs. ($162,468) Total unmanufactured, 94,005,182 lbs. ($78,164,290).. Total manufactured, $13,274,307. Total imports manufactured and unmanufactured, $91,438,597.

Tobacco exports from United States in year ended June 30, 1920, were: Leaf, 632,773,620 lbs. ($271,940,888); stems and trimmings, 15,264,035 lbs. ($786,272); cigarettes, 17,547,371,000 ($43,248,768); cigars and cheroots, 66,874,000 ($1,425,740); plug, 4,730,822 lbs. ($2,534,637); smoking, 4,371,925 lbs. ($2,521,541). Total exports, $51,551,794.

Cotton production in the calendar year 1920 was estimated at 12,123,000 (Oct. est) bales

Consumption, quantity of domestic exports, and net imports represent the commercial year; value of domestic exports represents fiscal year ending June 30.

Production covers nearly as possible the crop grown during the preceding calendar year and picked mainly during the cotton year specified in the stub.

Value of exports of domestic cotton goods—(1914), $51,467,233; (1915), $71,973,497; (1916), $112,053,235; (1917), $136,299,842; (1918), $169.378 223; (1919), $232,206,566; (1920), $364,036,786.

COTTON PRODUCTION, 1919, BY STATES.

Cotton production, exclusive of linters, in 1919 (bales), by chief growing States, was as follows: Ala., 713,236; Ariz., 57,276; Ark., 846,317, Calif. 53,507; Fla., 15,227; Ga. 1,585,680; La., 284,374; Miss., 960,886; Mo., 64,031; N. C., 830,293; Okla., 1,016,129; S. C., 1,426,146; Tenn., 310,044; Tex., 3,098,967; Va., 22,523; all others, 4,935.

WORLD COTTON STATISTICS.

The world's production of commercial cotton, exclusive of linters, is as follows, in 500-lb. bales: (1919), 20,250,000; (1918), 17,769,000; (1917), 17,410,000. (1916), 18,095,000; (1915), 17,609,000; (1914), 23,866,000. The United States produces about two-thirds of the world total, the other chief growers being India, Russia, and Egypt. Considerable quantities are grown in China Brazil, Mexico and Peru.

World's consumption of cotton, in 500-lb. bales: (1919), 15,970,000; (1918), 17,701,000. The United States consumes about one-third, the other large users being Great Britain, India and Japan.

WHAT A FARM FAMILY EATS IN A YEAR.

The following table, showing average consumption of food by a farmer and his family (4.8 adults or equivalent per family) in a year, has been compiled by the Government from a survey of 950 farm families in fourteen different States.

Coffee consumption per capita per year expressed in pounds—(1830), 2.98; (1840), 5.06; (1850), 5.60; (1860), 5.79, (1870), 6.00; (1880), 8.78; (1890), 7 83; (1900), 9.81, (1910), 9.33; (1913), 8.85, (1914) 10.06 (1915), 10.52; (1916), 10 97; (1917), 12.22, (1918), 10.29, (1919), 8.99

The coffee figures after 1900 include imports into continental United States and shipments thereto from non-contiguous customs districts. Coffee consumption per capita is based on net coffee coming to and remaining in continental United States

The United States has exported Brazilian and other foreign coffees, in pounds, as follows—(1914), 13,811,301; (1915), 70,952.754; (1916), 75,817,516; (1917), 57,502,893; (1918), 60,410,267; (1919) 77,731,606; (1920), 38,947,996. The value of the coffee exported in 1917 was $7,936,082; (1918), $7,023,872, (1919), $13,910,964; (1920), $10 605 840

United States imports of coffee in the year ended June 30, 1920, included 852,289,222 pounds from Brazil, 147,750,324 pounds from Central America, and 180,934,461 pounds from Colombia.

1877.....	58,347,112	16,181,467	1899.. ...	74 089,899	9,675,081			

Tea consumption per capita per year expressed in pounds—(1830) 0.53, (1840), 0 99; (1850), 1 22; (1860), 0.84; (1870), 1.10; (1880), 1.39; (1890) 1.33, (1900), 1.10, (1910) 0.89, (1913), 0 95; (1914), 0.90; (1915), 0.91; (1916), 1.07; (1917), 0.98 (1918) 1.38 (1919), 1.00. Tea consumption figures are based on net imports.

Of the tea imports in year ended June 30, 1919 China sent 10,322,467 pounds, and Japan sent 57,600,251 pounds. Up to 1906 China sent more than Japan The China tea came to New York by way of Europe.

Foreign tea exported from the United States in pounds—(1913) 901,745, (1914) 983,222; (1915), 4,813,878; (1916), 790,474; (1917), 625,315; (1918) 3,935,967, (1919), 15,114,805, (1920), 6 654 616 These exports were valued at $157,736 in 1916 at $196,803 in 1917 $1 419,571 in 1918 $5,293 554 in 1919 and $2,144,594 in 1920

The East India Co. in 1678 carried to England 4 713 pounds of Chinese tea on speculation. It was considered a drug on the market. British imports subsequently increased to nearly 200,000,000 pounds, half of which was for British consumption. China's high-water mark in the tea trade was reached by 1886, when its exports were 300,000,000 pounds In 1838 the first Indian tea reached the London market By 1860 this had developed into a trade of 1,000,000 pounds prior to that China supplied the world.

WORLD'S COCOA PRODUCTION

The *Corrtere Economico* publishes the following official statistics for the world's cocoa crop for the year 1917:

COUNTRY.	Pounds	COUNTRY	Pounds.	COUNTRY	Pounds	COUNTRY.	Pounds.
English colonies	320,020,000	Venezuela	41,887,000	Java	2,546,000	German colon's.	8,818,000
Ecuador.	88.184.000	San Domingo	54,674 000	Surinam .. .	4.248,000	Other countries.	1,239,000
Brazil	121 253,000	Hayti	3,102,000	French colonies.	3,527,000		
San Tomaso...	67,999,000	Cuba . . .	3,307,000	Belgian Congo.	1,724,000	Total.....	731,089,000
Fernando Po ..	8,261,000						

In the year 1916 the total was 656,971,000 pounds, and in 1914, 611,836,000 pounds.

WHAT AMERICANS DRINK.

[SOURCE—The production of domestic wines has been estimated by the Department of Agriculture, by J. W. Schopp of Bonfort's Wine and Spirit Circular (Inc.), New York, and others. The production of domestic spirituous and malt liquors has been derived from the reports of the Commissioner of Internal Revenue. The table does not include for any year withdrawals of distilled spirits for scientific purposes and for use of the United States, or since 1906 withdrawals for denaturation, free of tax.]

NOTE—Owing to changes in the internal revenue laws, spirits distilled from fruits cannot be separately stated since 1918.

Consumption per capita in gallons: Distilled spirits (1850) 2.24; (1900) 1.28; (1917) 1.60; (1918) 0 88; (1919) 0.79. Wines (1850) 0 27; (1900) 0.39; (1917) 0 41; (1918) 0.48; (1919) 0.50. Malt liquors (1850) 1.58; (1900) 16.09; (1917) 17.95; (1918) 14.59; (1919) 7 38. Total for all kinds (1850) 4.08; (1900) 17.76; (1917) 19 95; (1918) 15.95; (1919) 9.17.

According to Section 3,249, United States Revised Statutes, "proof spirits shall be held to be that alcoholic liquor which contains one-half its volume of alcohol of a specific gravity of 0.7939 at 60° Fahrenheit." The official gallon prescribed is one containing 231 cubic inches, or 58,372.2 grains, equal to 8.3389 pounds of distilled water at its maximum density, weighed in air of temperature of 62° Fahrenheit and barometric pressure of 30 inches. The taxable gallon differs from the proof gallon by reason of the fact that in computing taxable gallons under Section 3,251, Revised Statutes, all fractional parts of a gallon less than one-tenth are excluded.

"Other materials" (1919) includes 10,936 bushels of barley, 714 bushels of oats, and 73,974 bushels of other materials.

"Other materials" (1918) includes 94,331 bushels of barley, 2,395 bushels of oats, and 75,313 bushels of other materials.

GRAIN, ETC., USED FOR SPIRITS—*Continued.*

"D. S. L." means dilute saccharine liquid.

The estimated average yield per bushel of grain used for the production of spirits was 4.45+gallons of spirits. The estimated average yield per gallon of commercial molasses used for the production of spirits was 0.615+ of a gallon. The average yield per gallon of commercial molasses used for the production of rum was 0.815+ of a gallon. The average yield per gallon of dilute liquid containing small quantities of saccharine matter used for the production of spirits was 0.023+ of a gallon.

FINAL FOREIGN TRADE OF UNITED STATES IN LIQUORS.

The prospective enforcement of the Eighteenth Amendment to the Constitution of the United States, and the final order from the Commissioner of Internal Revenue that "all ships carrying intoxicating liquors must have cleared customs by midnight of Jan. 16, otherwise spirits forfeitable," resulted in the exportation of $14,178,793 worth of domestic spirituous liquors during the first sixteen days of January, 1920. This is only $5,270,691 less than the domestic exports for the entire calendar year 1919, amounting to $19,449,484; and $4,278,193 in excess of the 1918 shipments, valued at $9,900,600. The January, 1920, exports included 10,451,382 proof gallons of spirits, 4,266,551 gallons of American wines, and 3,395 gallons of beer.

Total spirits, wines, and liquors remaining in bonded custom warehouses at the end of Jan. 31, 1920, were valued at $350,241, consisting of $4,005 worth of malt liquors; 21,286 proof gallons of brandy, worth $108,911; 19,184 proof gallons of cordials, liqueurs, etc., valued at $15,018; 4,555 proof gallons of gin, at $7,324; 8,447 proof gallons of whiskey at $35,685; 68,046 proof gallons all other distilled spirits, at $35,928 (total distilled spirits amounting to 121,518 proof gallons, worth $202,866); 70,790 gallons of still wines, valued at $126,551; and 796 dozen quart[illegible] wines, worth $16,819. No champagne was left in warehouses.

The American production is of the season preceding the fiscal year. The export figures relate to continental United States after 1900. The beet sugar production figures, 1865-1872 and 1875-1879, are averages.

Estimates of the total sugar crop of the world vary considerably, according to the sources of the data. Willett & Gray figure the 1919-20 crop at 15,154,179 tons, of which 11,808,673 tons was cane sugar. Of the cane sugar, 108,035 tons was produced in Louisiana; 433,825 tons in Porto Rico; 505,500 tons in Hawaii; 3,750,000 tons in Cuba; 6,195,938 in the Ameriea (including the foregoing); 4,823,245 tons in Asia; 235,000 tons in Australasia; 551,490 tons in Africa. The total beet sugar crop was 3,345,506 tons, of which 2,676,019 tons was grown in Europe; 652,957 tons in the United States; and 16,500 tons in Canada. The United States Department of Agriculture estimates the 1920 beet sugar production of the United States at 726,451 tons, including the product of 850 acres in Ontario, Canada. The United States Department of Agriculture estimates the 1919-20 cane sugar crop of the world at 13,000,000 tons.

By the same authority, the 1919-20 cane sugar production of Louisiana is estimated at 242,000,000 pounds, and the cane syrup production there in 1919 was 3,672,000 gallons.

The 1920 United States maple sugar production was 7,528,640 pounds; and the maple syrup, 3,605,-555 gallons.

As to the sugar crop of the world for 1920-21, the amount will depend on weather conditions between December, 1920, and June or July, 1921. The prospect in December, 1920, was for a crop of 3,870,000 tons of beet sugar in Europe, as against 2,678,000 tons in 1919-20, according to Willett & Gray.

UNITED STATES CANE SUGAR IMPORTS FROM AMERICAN COLONIES.

(Expressed in pounds; in years ending June 30.)

Hawaii—(1918) 1,019,462; (1919) 631,812; (1920) 916,220. Porto Rico—(1918) 672,937,334; (1919) 703,286,023; (1920) 837,735,200. Philippines—(1918) 173,600,941; (1919) 210,950,670; (1920) 45,387,719.

SUMMARY OF COD CATCH.

The following table gives a complete summary of all the codfish secured in the vessel and shore fisheries from the inception of the industry and carried to the home ports in Washington and California. No effort has been made to include the cod consumed locally in Alaska, which, in the aggregate, amounts to considerable, as it forms the principal article of diet.

The Pacific Coast salmon pack in 1919 was 8,023,503 cases, of which 4,793,895 cases was of pink, humpback, and chum, and 1,646,646 cases was sockeye. Of the total pack 4,592,201 cases came from Alaska, 1,393,156 from British Columbia, 1,295,626 from Puget Sound, and 580,028 from Columbia River.

The Alaska salmon pack of 1919 was valued at $43,265,349. It weighed 220,425,648 pounds

Halibut catch (pounds) 1919—Puget Sound, 16,968,639; British Columbia, 19,198,565.

Canned shad pack (cases) 1919—Columbia River, 8,990; Oregon Coast, 3,300; Sacramento River, 4,721.

California canned salmon pack, 1919—22,766 cases; 1918—25,136 cases.

THE CATCH OF COD ON THE PACIFIC COAST, 1916-1919.

The original forests of the United States covered about 822,000,000 acres and contained 5,200,000,000,000 board feet of timber. There are left (June 30, 1920) 463,000,000 acres of forest land, containing 2,214,000,000,000 board feet. Of this, 137,000,000 acres is in virgin timber, 112,000,000 acres in culled and second growth timber large enough for sawing. 133,000,000 acres are partially stocked with smaller growth, and 81,000,000 acres are devastated and practically waste land. The present rate of timber consumption is more than four times the annual growth of the forests. Of the standing timber, 349,000,000,000 feet is in the New England, Mid-Atlantic, Central and Lake States; 1,141,000,000,000 feet is in the Pacific Coast States. The leading species cut is yellow pine, with Douglas fir second, and white pine third. About 1,000,000 tons of United States timber a year is used for wood pulp for paper.

The national forests include 189,299,775 acres, with annual revenues of about $4,793,000. Cost of administration averages $4,000,000 a year. Thirty-five States have their own forestry departments, with nearly 2,000,000 acres in New York, and over 1,000,000 acres in Pennsylvania.

THE NATIONAL PARKS AT A GLANCE.

(Number, 19; total area, 10,859 square miles.)

NATIONAL PARKS IN ORDER OF CREATION.	Location.	Area in Sq. Miles	Distinctive Characteristics.
Hot Springs, 1832...	Middle Arkansas.....	1½	46 hot springs possessing curative properties.
Yellowstone, 1872...	No'western Wyoming.	3,348	Geysers; boiling springs; mud volcanoes; petrified forests; Grand Canyon of the Yellowstone.
Sequoia, 1890.....	Middle eastern California.	252	12,000 sequoia trees over 10 feet in diameter, some 25 to 36 feet in diameter; cave.
Yosemite, 1890.....	Middle eastern California.	1,125	Valley of world-famed beauty; lofty cliffs; many waterfalls of extraord'y height; 3 groves of big trees.
General Grant, 1890.	Mid. east'n California.	4	Created to preserve Gen. Grant Tree, 35 ft. in diam.
Mount Rainier, 1899	W. central Washington	324	28 glaciers; 48 sq. miles of glacier, 50 to 500 ft. thick.
Crater Lake, 1902...	Southwestern Oregon..	249	Lake of extraordinary blue in crater of extinct volcano; sides 1,000 feet high; lava; fishing.
Wind Cave, 1903....	South Dakota.....	17	Miles of galleries and chambers containing peculiar formations.
Platt, 1904.....	Southern Oklahoma...	1⅛	Many sulph. and oth. springs possess. medicinal value.
Sullys Hill, 1904....	North Dakota.....	1⅛	An important wild animal preserve.
Mesa Verde, 1906...	So'western Colorado..	77	Most notable, best preserved prehistoric cliff dwell'gs.
Glacier, 1910.....	No'western Montana..	1,534	250 glacier-fed lakes; 60 small glaciers; precipices thousands of feet deep.
Rocky Mount'n, 1915	North middle Colorado	397½	Heart of the Rockies; snowy range, peaks 11,000 to 14,250 feet altitude.
Hawaii, 1916.....	Hawaii.....	118	Kilauea & Mauna Loa on Hawaii; Haleakala on Maui
Lassen Volcano, 1916	Northern California...	124	Only active volcano in U. S. proper; hot springs; mud geysers.
Mt. McKinley, 1917	South central Alaska..	2,200	Highest mountain in North America.
Grand Canyon, 1919	North central Arizona.	958	Greatest example of erosion in the world.
Lafayette, 1919.....	Maine coast.....	8	Group of granite mountains on Mt. Desert Isl.
Zion, 1919.....	Southwestern Utah...	120	Zion Canyon, 800 to 2,000 feet deep.

Hot Springs Reservation, Arkansas, has an area of 911.63 acres. There are 46 of the hot springs. They are used for gout, rheumatism, malaria, alcoholism, drug addiction, etc.

There are also seven National Military and other parks under the jurisdiction of the Secretary of War. They are as follows: Chickamauga and Chattanooga, Georgia and Tennessee; Shiloh, Tennessee; Gettysburg, Pennsylvania; Vicksburg, Mississippi; Antietam Battlefield, Maryland; Lincoln's birthplace, Kentucky; Guilford Court House, North Carolina.

The Casa Grande Ruin, area 480 acres, is reached by the Southern Pacific Railroad, and by stage from Florence, Arizona.

The National parks and reservations mentioned are under the supervision of the Secretary of the Interior. Congress, by act of August 25, 1916, created a National Park Service, and placed the administration of the national parks and monuments under the Department of the Interior in charge of a director of such service. General information, the annual administrative reports, copies of the rules and regulations, and compilations of the laws relating to the parks may be obtained from the Secretary of the Interior, the Director of the National Park Service, Washington, D. C., or the superintendents of the parks.

OTHER NATIONAL MONUMENTS.

Under the Act of Congress, approved June 8, 1906, interdepartmental regulations governing the excavation, appropriation, etc., of prehistoric ruins or objects of antiquity have been promulgated by the Secretaries of the Interior, Agriculture, and War. Applications for permits to make excavations on the public lands, Indian reservations, or the national monuments named below should be addressed to the Secretary of the Interior. The following have been preserved from entry and set aside as national monuments: Devils Tower, Wyoming; Montezuma Castle, Arizona; Petrified Forest, Arizona; El Morro, New Mexico; Chaco Canyon, New Mexico; Muir Woods, California; Natural Bridges, Utah; Lewis and Clark Cavern, Montana; Tumacacori, Arizona; Navajo, Arizona; Shoshone Cavern, Wyoming; Gran Quivira, New Mexico; Sitka, Alaska; Rainbow Bridge, Utah; Pinnacles, California; Colorado, Colorado; Papago Saguaro, Arizona; Capulin Mountain, New Mexico; Dinosaur, Utah; Verendrye, North Dakota; Casa Grande, Arizona; Katmai, Alaska; Scott's Bluff, Nebraska; Yucca House, Colorado.

Ten other national monuments within national forests have also been set aside under this act and placed under the jurisdiction of the Secretary of Agriculture, to whom inquiries in regard thereto should be addressed. Two other national monuments (Big Hole Battlefield, in Montana, and Cabrillo, in California) are under the jurisdiction of the Secretary of War.

THE AMERICAN FORESTRY ASSOCIATION.

THE American Forestry Association, with headquarters at 1410 H Street Northwest, Washington, D. C., was organized in 1882 and incorporated in January, 1897. It is devoted to the conservation of private, State and National forests and to public education in the knowledge of trees, their care and development. It is a voluntary organization for the inculcation and spread of a forest policy on a scale adequate for economic needs, and any person is eligible for membership. It is independent, has no official connection with any Federal or State Department or policy, and is devoted to a public service conducive to National prosperity. It asserts that forestry means the propagation and care of forests for the production of timber as a crop; protection of watersheds; utilization of non-agricultural soil; use of forests for public recreation. It declares that forestry is of immense importance to the people; that the latest available figures show that the forests annually supply over $1,500,000,000 worth of products; employ 830,000 people; pay $440,000,000 in wages, and that they cover 550,000,000 acres of land unsuited for agriculture; regulate the distribution of water; prevent erosion of lands, and are essential to the beauty of the country and the health of the Nation. It recognizes that forestry is an industry limited by economic conditions; that private owners should be aided and encouraged by investigations, demonstrations, and educational work, since they cannot be expected to practise forestry at a financial loss; that Federal and State Governments should undertake scientific forestry upon National and State forest reserves for the benefit of the public. It devotes its influence and educational facilities to the development of public thought and knowledge along these practical lines.

The membership of the association is 25,000 in every State in the Union, in Canada and all over the world. The subscribing membership is $3 a year; contributing membership $10 a year; sustaining membership $25 a year, and life membership $100. Members receive each month the *American Forestry Magazine*, which contains articles pertaining to trees, forests, and birds.

President—Charles Lathrop Pack, Lakewood, N. J. *Treasurer*—Chas. F. Quincy, New York. *Executive Secretary and Editor-in-Chief*—Percival S Ridsdale, Washington, D. C.

Redwood is cut only in Cal. *Douglas Fir* production (1918), board-feet—Wash., 3,578,831,000; Ore., 1,898,080; Cal., 219,267,000; Idaho, 72,658,000; Mont., 34,906,000. *Sugar Pine* almost all comes from Cal.; *Lodge Pole Pine* from Col., and Wyo.

According to the reports of lumber manufacturers' associations, the production of pine lumber in the United States in 1919 was in board feet as follows: Southern pine, 4,256,933,000; Western pine, 1,367,481,000; Douglas fir, 3,608,297,000; Eastern white pine, 172,197,000; North Carolina pine, 269,744,000

In 1918 there was produced in the United States, 1,362,187,000 laths, and 5,690,182,000 shingles.

Average value of lumber in 1918 was $24.79 per 1,000 board feet.

WORKMEN'S COMPENSATION LAWS OF STATES AND TERRITORIES.

Note—Injuries covered as a rule are personal injuries arising out of and in course of employment **not due to wilful intention to injure self or another, or to intoxication.** Maine adds unless habit of intoxication was known to the employer. Colorado, Massachusetts, Michigan, Oregon, Pennsylvania, Washington, Wisconsin, and Wyoming do not specify intoxication as an exception. Illinois, Montana, and Ohio make no exception, neither wilful injury nor intoxication. Delaware, Indiana, Kansas, Louisiana, South Dakota, Oklahoma, Virginia, and Vermont make an exception also of employee's failure to use reasonable safety appliances. Delaware, Hawaii, Idaho, and New York include diseases contracted as insured against. Kentucky excepts results of pre-existing diseases. Arizona covers injuries caused by failure of employer or his agents to exercise due care or to comply with any law affecting the employment. Utah includes injuries occurring outside of the State, and injuries caused by the wilful act of a third person directed against an employee because of his employment. Oklahoma does not cover fatal injuries.

ALASKA, 1915.

Administrative System—The courts. **Security for Compensation**—Attachment pending action, or employer may deposit cash or bond with court. **Employments Covered**—Elective, as to mining operations having five or more employees. **Waiting Period**—Two weeks. **Medical and Surgical Provisions**—Only in fatal cases involving no dependents, maximum, $150. **Compensation for Disability; Total, (a) Temporary: (b) Permanent**—(a) 50% of wages during disability, maximum, 6 months. (b) $3,600; $1,200 additional for wife, and $600 for each child under 16; if single, $600 for each dependent parent, maximum $6,000. **Partial.** (a) **Temporary**—(a) 50% of wages; maximum period, 6 months; maximum amount, $4,800. If permanent, lump sums proportioned to number of dependents, ranging from $120 to $3,000, less payments for temporary disability. **Death Benefits; (a) Dependents, (b) No Dependents**—(a) $3,000 to widow or minor orphan; $600 to each child under 16 and to dependent parents, maximum, $6,000; if single, $1 200 to each dependent parent. (b) $150 for burial; $150 for other expenses between death and burial.

ALABAMA, 1919.

(To take effect January 1, 1920.)

Adm. Sys.—Circuit Courts with appeal to Supreme Court, and Insurance and Compensation Commissioners. **Sec. for Comp.**—Right to compensation, and award has same preference as other unpaid wages. **Employ**—Where sixteen or more are regularly employed, excluding casuals, domestic servants, farm laborers, common carriers engaged in interstate commerce, and municipalities (cities, towns, villages, school districts) but municipalities and employers of less than sixteen may elect to come under provisions of act. **Wait.**—Five days. **Med and Surg.**—Reasonably necessary medical and surgical treatment and attention, medicine, supplies, and apparatus during first sixty days of disability, not to exceed $100. **Comp. for Dis: Temp. Total**—Fifty per cent. of average weekly wages, not less than $5, nor more than $12; during disability not more than 300 weeks. **Temp. Partial**—Fifty per cent. of difference between amount earned before injury and after; during disability not more than 300 weeks. **Perm. Partial**—Schedule of rates of payment according to extent and character of injury. **Perm. Total**—Fifty per cent. of average weekly wages ($5 to $12) for 550 weeks, reduced to $5 after 400 weeks; increased 5% for each totally dependent child, not over 60%, and per week to not over $15. **Death Ben.**—To dependent widow or husband and no child, 30%, widow or husband and one child, 40%; widow or husband and 2 or 3 children, 50%; 4 or more children, 60%; to dependent orphan, 30%, 10% added for each additional orphan, not to exceed 60%; dependent husband and no child, 25%; if no husband, widow or child, to one parent, 25%; to two, 35%; grandparent, brother sister, mother-in-law, or father-in-law, to one, 20%; more than one, 25%. Total compensation not to exceed $5,000. Expenses of last illness and burial not to exceed $100.

ARIZONA, 1912.

Adm. Sys.—Agreement; arbitration; reference to Attorney-General; courts. **Sec. for Comp.**—A judgment is collectible without relief from valuation or appraisement laws, and has same preference as unpaid wages or claim for personal services. **Employ.**—All especially dangerous employments. Elective as to other industries. Especially dangerous" as specified in law include building and running of railroads, mining, using, making or working near explosives; places where power machinery is used, working on derricks and scaffolds, etc. **Wait.**—Two weeks. **Med. and Surg.**—In fatal cases where there are no dependents the reasonable expenses of medical attendance and burial. **Comp. for Dis.; Total**—A semi-monthly payment equal to one-half the wage decrease. Fifty per cent. of semi-monthly earnings during time unable to work at any gainful occupation. The total for partial or total disability caused by a single injury not to exceed $4,000. **Death Ben.**: (a) **Depen.**—(a) To persons wholly dependent, a lump sum equal to 2,400 times one-half the daily wages or earnings of the deceased, not to exceed $4,000. payments to children to cease at 18 years of age. See under column for medical and surgical provisions for death cases where there are no dependents.

CALIFORNIA, 1918.

Adm. Sys.—State Industrial Accident Commission. Subject to limited review by the courts. **Sec. for Comp.**—Insurance is required. Policies inure directly to benefit of employee, who also has first lien on amounts due employer. Self-insurers may be required to give bond or deposit securities. Claims or awards have same preference as those for wages. **Employ.**—All excepting agriculture and domestic service, which may come under the act by joint election. **Wait.**—Ten days. **Med. and Surg.**—Such medical, surgical, and hospital treatment as may reasonably be required to cure and relieve. In case of death, the reasonable expense of burial, not exceeding $100. **Compen. for Dis.; Total, (a) Temp.: (b) Perm.**—(a) 65% of average weekly earnings during such disability. (b) When the degree of disability reaches or exceeds 70%, after the expiration of 240 weeks, a further benefit varying from 10 to 40% of the weekly earnings is payable during the remainder of life. **Part., (a) Temp.: (b) Perm.**—(a) 65% of weekly loss of wages during such disability. (b) 55% of average weekly earnings, for periods varying from 4 to 240 weeks, according to the degree of the disability. In case of permanent incapacity or death a lump sum may be substituted for benefits, to equal the present value of the benefits computed at 6%. Average weekly earnings shall be considered as not less than $6.41, nor more than $32.05. **Death Ben.**: To persons wholly dependent, three times the annual earnings of the deceased; not less than $1,000, nor more than $5,000, payable at least monthly in instalments equal to 65% of the wages. Payments to children to cease at 18 years of age unless mentally or physically incapacitated. If only partial dependents survive, three times the annual contribution of the deceased to their support, subject to same limitations as above. If there are no dependents, payment to State Treasury of $350 is made by the employer. Disability payments and burial expenses to be considered as parts of above totals.

COLORADO, 1917.

Adm. Sys.—Industrial Commission, with limited appeal to the courts. **Sec. for Comp.**—Insurance is required. Insurers are primarily liable to a workman or his beneficiaries. Notice to employer is notice to insurer. Claims are not assignable, and payments are exempt from attachment or execution. **Employ.**—All except interstate commerce and domestic and agricultural labor in which four or more are employed

in which employers elect to come under the act, but lose no defences if they do not. Public service under State, municipalities, school or irrigation district, etc. **Wait.**—Two weeks. **Med. and Surg.**—Medical and surgical assistance for first 30 days not more than $100 in value. In death cases where there are no dependents, $75 for funeral expenses. **Compen. for Dis.; Total**—Fifty per cent. of weekly wages during continuance, $5 minimum, $8 maximum; full wages if less than $5. **Part.**—Fifty per cent. of the weekly wage decrease, $8 maximum. Total not to exceed $2,080. Special schedule for specified injuries, 50% of weekly wages for periods ranging from 4 to 208 weeks. Facial disfigurements may be compensated for in an amount not exceeding $500. Payments may be commuted to a lump sum after 6 months. **Death Ben.**—To persons wholly dependent 50% of the weekly wages for 6 years, $8 maximum; total not to exceed $2,500, nor to be less than $1,000. If death occurs during receipt of disability benefits any unaccrued and unpaid remainder goes to dependents; if only partial, dependents.

CONNECTICUT, 1914.

Adm. Sys.—Compensation Commissioners. Appeals from findings and awards to the Superior Court of the county. **Sec. for Comp.**—Employer must furnish proof of solvency and financial disability, file security, or insure in approved stock or mutual companies or associations. Payments are not assignable, are exempt from execution, and have same preference as wage debts. **Employ.**—All industries in which five or more persons are employed, in absence of contrary election by employer. **Wait.**—Seven days. **Med. and Surg.**—Medical and surgical aid and hospital service during such time as needed. $100 for burial expenses. **Compen. for Dis.: Total**—For total disability a weekly compensation equal to one-half the employee's earnings, not more than $14 nor less than $5 weekly, or for longer than 520 weeks. **Part.: (a) Temp.; (b) Perm.**—(a) A weekly compensation equal to one-half the wage loss, but not more than $14 per week or for longer than 312 weeks. (b) For specified injuries one-half the average weekly earnings for fixed periods in lieu of all other payments. Lump sum payments may be approved by the commissioner, provided they equal the value of the compensations. **Death Ben.**—To persons wholly dependent, a weekly compensation equal to one-half the earnings of the deceased employee. If only partial dependents survive, a weekly compensation determined according to the measure of dependence, not exceeding one-half the earnings of the deceased employee. Compensation shall in no case be more than $14, nor less than $5 weekly, and shall not continue longer than 312 weeks. A widow's or widower's dependence ceases upon remarriage, and a child's upon reaching 18 years of age, unless physically or mentally incapacitated. If a widow or dependent widower dies during the term of benefit payments, subsequent payments go to other dependents, if any.

DELAWARE. 1918.

Adm. Sys.—Industrial Accident Commission of three, whose award is final, unless appeal is taken to the Supreme Court of the county within 10 days. **Sec. for Comp.**—Insurance in a stock or mutual company, or deposit of security, indemnity or bond. **Employ.**—All except domestic servants, farm and casual laborers, outworkers. State officers, and servants and employees in interstate or foreign commerce. **Wait.**—Fourteen days. **Med. and Surg.**—Medical care up to $25 during waiting period; $100 for burial. **Compen. for Dis.; Total**—Fifty per cent. of wages for 270 weeks, and thereafter 20%. **Death Ben.**—For a dependent widow or widower, 25% of wages, with additional percentages up to 60%, in proportion to the number of dependents and children under 16.

HAWAII, 1917.

Adm. Sys.—Industrial Accident Boards for each county; appeals to courts. **Sec. for Comp.**—Payments are preferred the same as wage claims. Employees have direct recourse to insuring company. Insolvency of employer does not release insurer. **Employ.**—All public and all industrial employment for pecuniary gain. **Wait.**—Seven days. **Med. and Surg.**—Reasonable surgical medical and hospital services during disability, not exceeding $150; $100 funeral expenses if death within 6 months. **Compen. for Dis.; Total**—Sixty per cent. of weekly wages, $3 minimum, $18 maximum, for not longer than 312 weeks; total not to exceed $5,000. If wages are less than $3, full wages will be paid unless disability is permanent, when $3 will be paid. **Partial**—Fifty per cent. of wage decrease, $12 maximum, not over 312 weeks; total not to exceed $5,000. Fixed awards for specified injuries in lieu of all other benefits. Payments may be commuted to one or more lump sums in any case. **Death Ben.**—To widow or dependent widower alone, 40% of average weekly wages; if one or two dependent children, 50%; if three or more, 60%; 30% to one or two orphans; 10% additional for each child in excess of two; total not to exceed 50%. If no consort or child, but other dependents, 25% to 40%. Payments to widow to cease on death or remarriage, and to widower on termination of disability or remarriage; to children reaching 16 unless incapable of self-support, then to 18; to other beneficiaries on termination of disability. No payments except to children for more than 312 weeks. Wages not less than $5 nor over $36

IDAHO, 1918.

Adm. Sys.—Industrial Accident Board of three. Awards final, unless appeal is taken to the District Court within 30 days. **Sec. for Comp.**—Private employers must either insure in the State Insurance Fund or deposit security in form of a surety fund or guaranty contract. **Employ.**—All public and private carried on for pecuniary gain. Employees injured outside the State are covered, as well as those hired outside the State if they would be entitled under law of State where hired. Agricultural, domestic and casual employees, outworkers, employees of charitable organizations and members of employer's family, although excluded, may be included by agreement. **Wait.**—Seven days. **Med. and Surg.**—Medical care for a reasonable time, charges being limited to those which prevail in community for similar treatment of persons of a like standard of living. In death case, $100 for burial, and if there are no dependents employer must pay $1,000 to Industrial Administration Fund. **Compen. for Dis.: Total**—Fifty-five per cent. of average weekly wages for 400 weeks, and $6 per week thereafter. **Death Ben.**—To dependent widow or widower, 45% of average weekly wages, with additional percentages up to 55%, in proportion to the number of dependents and children under 18.

ILLINOIS, 1917.

Adm. Sys.—Disputes determined by the Industrial Board through an arbitrator or arbitration committee, subject to review by the board. Questions of law may be reviewed by the courts. **Sec. for Comp.**—Awards constitute liens on all property of employer within the county paramount to all other claims, except wages, taxes, mortgages or trust deeds. Injured employees are subrogated to right of insolvent employer to insurance. **Employ.**—Building trades; construction, excavating and electrical work; transportation; mining and quarrying; work with or about explosives, molten metals, injurious gases or vapors or corrosive acids, and all enterprises in which the law requires protective devices. Other employers may elect, but forfeit no defenses if they do not. **Wait.**—Six days. **Med. and Surg.**—Medical and surgical aid for not over 8 weeks, not over $200. If no dependents, a burial benefit not over $150. **Compen. for Dis.; Total**—Fifty per cent. of employee's weekly earnings, $6 minimum, $12 maximum, during disability, or until payments equal a death benefit: thereafter, if the disability is permanent, a sum annually equal to 8% of a death benefit, not less than $10 per month. **Partial, (b) Perm.**—(b) 50% of loss of earning capacity, not more than $12 per week. For certain specific injuries (mutilations, etc.), a benefit of 50% of weekly wages for fixed periods, in addition to temporary total disability. The basis of 50% is to be increased 5% for each child under 16 years of age, maximum 65%. The minimum of $6 per week is to be increased for each such child, the total not to exceed $750. The maximum of $12 is to be increased $1

for each child, the total not to exceed $15. For serious and permanent disfigurement, not causing incapacity and not otherwise compensated, a sum not exceeding one-fourth the death benefits. No payments are to extend beyond 8 years, except in case of permanent total incapacity. **Death Ben.**—To persons wholly dependent, a sum equal to 4 years' earnings, not less than $1,650 (to a widow with one child under 16, $1,750, if two or more children, $1,850), nor more than $3,500 (to a widow with one child under 16, $3,750, and if two or more children, $4,000). If only dependent collateral heirs survive, such a percentage of the above sum as the support rendered the last two years was of the earnings of deceased. Lump sum payments for either death or disability may be substituted by the Industrial Board for periodic payments. Provision also for education and rehabilitation is made.

INDIANA, 1917.

Adm. Sys.—Industrial Board, with appeals to courts on questions of law. **Sec. for Comp.**—Contracts of insurance must enure directly to benefit of persons entitled to payments under an award. Payments have same preference and priority as unpaid wages, and are exempt from claims of creditors. Insurance required, or proof of financial ability to meet payments. **Employ.**—All except interstate and foreign commerce, for which Federal laws make provision; railroad employees engaged in train service, and domestic and agricultural labor, unless employer makes contrary election; compulsory as to State and its municipalities. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital services for first 30 days, and longer at option of employer; employee must accept unless otherwise ordered by Industrial Board; $100 for funeral expenses, if death from the injury occurs within 300 weeks. **Compen. for Dis.: Total**—Fifty-five per cent. of wages for not more than 500 weeks. **Partial**—Fifty per cent. of wage loss for not more than 300 weeks. For certain specified injuries, 55% of wages for designated periods ranging from 15 to 200 weeks. Wage basis and total amounts are limited as for death benefits. Any payments may be commuted to a lump sum after 26 weeks. **Death Ben.**—To persons wholly dependent, 50% of weekly wages; to those partially dependent, amounts proportionate to decedent's contribution to their support. Term of payment limited to 300 weeks. Payments cease on remarriage of widow or dependent widowers, or on children attaining the age of 18 years, unless mentally or physically disabled for earning. Wages are to be considered as not above $24 nor less than $10 weekly, no total to exceed $5,000.

IOWA, 1917.

Adm. Sys.—Committees of Arbitration, with the Industrial Commissioner as Chairman; limited appeals to courts. **Sec. for Comp.**—Employers must insure in approved companies or mutual associations, furnish proof of financial ability, deposit security or contract with employees. Claim for compensation is first lien. If insured is incapable, insurer must settle direct with beneficiary. **Employ.**—All industries except agriculture and domestic service, in absence of contrary election by employer. Compulsory as to State and municipalities. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable surgical, medical and hospital services and supplies for first 4 weeks, not exceeding $100. Reasonable expenses of last sickness, and burial not to exceed $100. **Compen. for Dis.: Total, (a) Temp.: (b) Part.**—(a) 60% of wages, not more than $10 nor less than $6 (unless wages are less than $6, then full wages), for not more than 300 weeks. (b) The same as for temporary disability, to be paid for a period of not more than 400 weeks. **Partial, (b) Perm.**—(b) Specified maimings—60% of average weekly wages for fixed periods, beginning with the date of injury. Payments for total temporary and total permanent disability for fifth, sixth, and seventh weeks are $3⅓% of the weekly earnings. If disability continues beyond those dates, but only 50% after the seventh week. Lump sum payments may be substituted on approval of the Industrial Commissioner and an order of the court **Death Ben.**—To persons wholly dependent, a weekly payment equal to 50% of the wages, but not more than $10 nor less than $5 per week, for 300 weeks. If only partial dependents survive, such a proportion of the above as the amounts contributed by the employee to such partial dependents bear to his annual earnings. If employee was a minor whose earnings were received by the parent, a sum to the parent equal to two-thirds of the amount provided for persons wholly dependent. If the spouse dies during compensation period, unpaid benefits go to other dependents if any; if she remarries and there are no dependent children, payments cease.

KANSAS, 1917.

Adm. Sys.—Disputes not settled by agreement may be referred to arbitration, subject to an appeal to the courts. **Sec. for Comp.**—Lump sums awarded by the court may be secured by order of the court by a bond. If employer was insured, insurer is subrogated to the rights and duties of the employer. Claims and awards are not assignable or subject to execution, etc. **Employ.**—Railways, factories, quarries, electrical, building or engineering work, laundries, natural gas plants, county and municipal work, employments requiring the use of dangerous explosive or inflammable materials, if employing five or more, and mines; employers in other industries and those employing less than five persons may also elect. **Wait.**—One week. **Med. and Surg.**—On demand, medical, surgical and hospital treatment, not over $150 in value, for not more than 50 days. If no dependents, a reasonable expense for burial, not exceeding $150. **Compen. for Dis.: Total**—Payments during incapacity, after the first week, equal to 60% of the earnings, not less than $6 nor more than $15 per week. **Partial**—Sixty per cent. of wage loss during incapacity, after first week. Lump sums equal to 50% of the wages for specified periods are to paid for designated injuries in lieu of all other compensation. No payments for total or partial disability shall extend for over 8 years. After 6 months lump sum payments may be substituted at the employer's option, the sum to be agreed upon or determined by the court. **Death Ben.**—To persons wholly dependent, a sum equal to 3 years' earnings of the deceased, not less than $1,400 nor more than $3,800. For non-resident alien beneficiaries (except in Canada) the maximum is $750. If only partial dependents survive, a sum proportionate to the injury to such dependents. Compensation ceases upon the marriage of any dependent or when a minor becomes 18, unless physically or mentally incapable of wage earning.

KENTUCKY, 1916.

Adm. Sys.—Workmen's Compensation Board, a member thereof, or a referee appointed by it. Limited appeals to courts. **Sec. for Comp.**—Employers accepting act must insure in a stock or mutual company or the State Employees' Insurance Association, or give proof of financial ability. Policies must provide for direct liability to beneficiaries. Self-insurers must furnish bond or other security. Benefits have same priority as wages and are not subject to assignment or attachment. **Employ.**—All except domestic service and farm labor where three or more are employed; excepted industries may become subject to act by joint application of employers and employees. **Wait.**—Seven days. **Med. and Surg.**—Medical, surgical and hospital aid for 90 days, unless by order extended to not exceed $100. Reasonable burial expenses, not over $75. **Compen. for Dis.: Total**—Sixty-five per cent. of average weekly wages for 8 years, not over $12 nor less than $5; total not to exceed $5,000. **Partial**—Sixty-five per cent. of the weekly wage loss, not to exceed $12, for not more than 335 weeks; total not to exceed $4,000. Compensation periods are fixed for specified injuries. Lump sums may be awarded after six months, if approved by the board. **Death Ben.**—To persons wholly dependent, 65% of the average weekly earnings, not more than $12 nor less than $5 per week for 335 weeks; total not to exceed $4,000. If only partial dependents survive, a proportional of the amount for total dependency, determined by the degree of dependence. If no dependents, $100 to the personal representative. Payments to a widow or widower cease on remarriage, and to a child on reaching the age of 16, unless incapacitated for wage earning. Payments thus terminated go to other beneficiaries, if any.

LOUISIANA, 1915.

Adm. Sys.—Disputes are settled by Judges of the courts in simple, summary procedure. **Sec. for Comp.**—Insurance not required. Policies must give claimants right to direct payment. Compensation payments have same preference as wage debts. **Employ.**—Hazardous trades, businesses or occupations in absence of contrary election; extensive list, and others may be so adjudged or brought within act by voluntary agreement. Compulsory as to State employees, its municipalities and public boards. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical, surgical, and hospital service, not over $100. $100 expenses of last sickness and burial. **Comp. for Dis.: Total**—Fifty-five per cent. of the weekly wages, $3 minimum, $16 maximum, for not more than 400 weeks. **Partial**—Fifty-five per cent. of the wage loss, not over $10, for not more than 300 weeks. Fixed schedule for specified injuries for periods from 10 to 150 weeks. Payments in any case may be commuted to a lump sum on agreement of the parties and approved by the courts. **Death Ben.**—To widow or dependent widower alone, 25% of weekly wages, 40% if one child, 55% if two or more. If one child alone, 25% 40% for two, 55% for three or more. For one dependent parent, 25%; for two, 55%. If one brother or sister, 25%, and 10% for each other. The total in no case to exceed 50%, $3 minimum, $10 maximum, for not over 300 weeks. Payment to any beneficiary ceases on death or marriage; to children on reaching the age of 18, unless mentally or physically incapacitated.

MAINE, 1917.

Adm. Sys.—Industrial Accident Commission, appeals to courts on questions of law. **Sec. for Comp.**—Insurance required unless employer gives proof of solvency and makes deposit or bond to secure payments. Claims have same preference as wages debts. **Employ.**—All except agricultural and domestic labor, and seamen in interstate or foreign commerce, in which more than five are employed, if employer elects. Abrogation of defenses does not affect cutting, hauling, driving, or rafting of logs. **Wait.**—Ten days. **Med. and Surg.**—Reasonable medical and hospital services during 30 days, not over $30 unless by agreement or order of commission a larger amount s provided for. If no dependents not over $200 for last sickness and burial. **Comp. for Dis.: Total**—Three-fifths of the wages, for not more than 500 weeks, $6 minimum, $15 maximum, total not to exceed $4,200. **Partial**—Three-fifths of the weekly wage loss, not over $15, for not more than 300 weeks. For specified injuries causing permanent partial disability, three-fifths of the wages for various fixed periods, then compensation on basis of wage loss, if any, for not more than 300 weeks in all. Lump sum payments may be approved by the commission, after weekly payments, for not less than six months. **Death Ben.**—To persons wholly dependent, three-fifths of weekly wages for 300 weeks, $6 minimum, $15 maximum. If only partial dependents survive, amounts proportionate to their degree of dependency for 300 weeks. If only one wholly dependent and more than one partly dependent, payments are to be divided according to the relative extent of dependency. Payments to children cease at age of 18, unless mentally or physically incapacitated for earning a living.

MARYLAND, 1914.

Adm. Sys.—Industrial Accident Commission, with appeal to the courts. **Sec. for Comp.**—Insurance in State fund, stock, or mutual company, or proof of financial ability is required. Policies must permit action by commission to secure payments to persons entitled. Payments not assignable, nor subject to execution or attachment. **Employ.**—Extra hazardous (enumerated list); others by joint election of employer and employees. Farm and domestic labor, country blacksmiths and wheelwrights are excluded. **Wait.**—Two weeks. **Med. and Surg.**—Medical, surgical, etc., not over $150. Funeral expenses not over $75. **Comp. for Dis.: Total**—Sixty-six and two-thirds per cent. of weekly wages, $8 minimum, $16 maximum for not over eight years, total not to exceed $5,000. If wages are less than $5, full wages will be paid. **Partial**—Sixty-six and two-thirds per cent. of weekly wage loss, $16 maximum, total not over $3,750, specific periods for specified maimings. Where the injured employee is a learner, with prospect of increase of wages, this fact may be considered in fixing awards. Payments may, in the discretion of the commission, be made in part or in whole in lump sums. **Death Ben.**—To persons wholly dependent, 66⅔% of the weekly wages for eight years, not more than $5,000 nor less than $1,000. To persons partly dependent, 66⅔% of the weekly wages for such portion of eight years as the commission may fix, amount not to exceed $3,000. If no dependents, funeral expenses only. Payments to widow close on remarriage, and to children on reaching the age of 16, unless mentally or physically incapacitated.

MASSACHUSETTS, 1917.

Adm. Sys.—On request of either party, Industrial Accident Board calls for a committee of arbitration, whose decision is subject to review by the Industrial Accident Board. **Sec. for Comp.**—Employer must become a subscriber of the State Employees' Insurance Association or insure in some authorized liability insurance company. All risks must be insured in approved companies. Payments are not subject to assignment, attachment or execution. **Employ.**—All industries, if the employer so elects. The State shall, and any county, city, town or district accepting this act may, compensate its laborers, workmen and mechanics. **Wait.**—Ten days. **Med. and Surg.**—Reasonable medical and hospital services, and medicines as needed, for the first two weeks, and in unusual cases for a longer period, in the discretion of the board. Reasonable expenses of burial, not over $100. If dependents survive, this sum shall be deducted from the compensation payable. **Comp. for Dis.: Total**—A sum equal to two-thirds the average weekly wages, not less than $5 nor over $14 per week, not exceeding 500 weeks nor $4,000. **Partial**—Two-thirds the wage loss, not over $10 per week and for not longer than 500 weeks. In specified injuries (mutilations, etc.), two-thirds the weekly wages, not exceeding $10 nor less than $5 per week, for fixed periods, in addition to other compensation. Lump sum payments may be substituted in whole or part, after payments for injury or death have been made for not less than six months. **Death Ben.**—To persons wholly dependent, weekly payment equal to two-thirds the average weekly wages of the deceased employee, not less than $5 nor more than $10, for a period of 500 weeks, the total not to exceed $4,000. If only partial dependents survive, a sum proportionate to the portion of the earnings contributed to their support by the deceased employee. Children cease to be dependents at 18, unless mentally or physically incapacitated from earning a living. If no dependents, payment to State treasury of $100 is made by the employer.

MICHIGAN, 1917.

Adm. Sys.—Either party may request Industrial Accident Board to appoint a committee of arbitration, whose decisions are subject to review by the board. The Supreme Court may review questions of law. **Sec. for Comp.**—Employers must insure with the State or in approved companies, or furnish proof of financial ability. Claims are a first lien on all property of employer. **Employ.**—All industries if employer elects; compulsory as to the State and its municipalities, public boards, etc. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical and hospital services for the first three weeks. If no dependents, the reasonable expense of the last sickness and burial, not exceeding $200. **Comp. for Dis.: Total**—A weekly payment equal to one-half the earnings, not less than $4 nor more than $10 per week, nor for a period longer than 500 weeks from the date of the injury, and not exceeding $4,000. **Partial**—A weekly payment equal to one-half the wage loss, not over $10 per week nor for longer than 300 weeks. For certain specified injuries (mutilation, etc.), 50% of average weekly earnings for fixed periods. Payments begin with the fifteenth day after the injury, but if the disability continues for eight weeks or longer, compensation is computed from the date of the injury. After six months lump sums may be substituted for weekly payments. **Death**

Ben.—To persons wholly dependent, a weekly payment equal to one-half the deceased workman's earnings, not less than $4 nor more than $10 per week for a period of 300 weeks. If only partial dependents survive such proportion of the above as the amount of previous contributions bears to such earnings.

MINNESOTA, 1917.

Adm. Sys.—Judge of the District Court determines dispute in a summary manner, subject to review by Supreme Court on questions of law. **Sec. for Comp.**—Employers may insure or maintain co-operative schemes. Insured workmen have an equitable lien on any policy falling due. Claims have same preference as unpaid wages. **Employ.**—All excepting common carriers by steam railroad and farm and domestic service, in absence of contrary election by employers. **Wait.**—One week. **Med. and Surg.**—Reasonable medical and surgical treatment, not exceeding 90 days nor $100, unless ordered in exceptional cases, when limit is $200. $100 funeral expenses. **Comp. for Dis.: Total**—Sixty per cent. of wages. **Partial, (a) Temp.**; (b) **Perm.**—(a) 60% of the wage loss. (b) For specified permanent partial disability (mutilations, etc.), 50% of the earnings for fixed period. Payments for death may not be more than $11 per week, and for disability not more than $12, nor less than $6.50, unless wages are less than $6.50, when amount of wages is paid. Payments may not extend beyond 300 weeks, except for permanent total disability, when the maximum is 400 weeks, with payments of not more than $6.50 per week thereafter for 150 weeks, the total not to exceed $5,000. Lump sums may be substituted for periodical payments, but in case of compensation for death, permanent total disability, or certain maimings, the consent of the court must be obtained. **Death Ben.**—To a widow alone, 35% of monthly wages of deceased, increasing to 60% if four or more children; to a dependent husband alone, 25%, to a dependent orphan, 40%, with 10% additional for each additional orphan, with a maximum of 60% to the dependent parent or parents, if no dependent widow, widower, or children, 30% if one parent and 40% if both survive; if none of the foregoing, but a brother, sister, grandparent, mother-in-law, or father-in-law is wholly dependent, if but one such relative, 25%, or if more than one, 30%, divided equally. If only partial dependents survive, that proportion of benefits provided for actual dependents which contributions bore to wages earned. Payments continue for not more than 300 weeks, and cease upon marriage or when sixteen, unless mentally or physically incapacitated. There is provision also for education and rehabilitation of persons incapacitated or handicapped by injuries. If no dependents, payment to State treasury of $100 is made by employer.

MISSOURI, 1919.

Adm. Sys.—Commission. **Sec. for Comp.**—Insurance required unless capacity to pay one's own risks is shown. **Employ.**—All except casual, farm labor and domestic service, where five or more employees; officials of political subdivisions not covered. **Wait.**—One week. **Med. Ben.**—Forty-eight days. **Comp. for Dis.**—66⅔% of average earnings; 40% for total perm.; maximum wages, $15 per week; minimum, $6; maximum duration, 400 weeks. **Death Ben.**—300 weeks.

MONTANA, 1915.

Adm. Sys.—Proceedings to determine disputes must be instituted before the Board and not elsewhere; limited appeals to courts. **Sec. for Comp.**—Employer may carry his own insurance on proof of financial ability; may insure in any company in State, or may contribute to State fund. Liabilities under act are first lien upon any deposit, and on other property pro-rata with other lienable claims. **Employ.**—All inherently hazardous works and occupations, including manufactures, construction work, transportation and repair of means thereof, and any hazardous occupations not enumerated, in which employers elect, but not including agricultural, domestic or casual labor. **Wait.**—Two weeks. **Med. and Surg.**—Medical and hospital services during first two weeks, not over $50, unless there is a hospital contract. $75 for funeral expenses, if death occurs within six months. **Comp. for Dis.: Total, (a) Temp.**; (b) **Perm.**—(a) 50% of wages during disability, $10 maximum, $6 minimum, unless wages are less than $6, when full wages will be paid, for not more than 300 weeks. (b) Same scale as above for 400 weeks, then $5 per week, while disability continues. **Partial, (a) Temp.**; (b) **Perm.**—(a) 50% of wage loss, wages and benefits not to exceed $10 nor fall below $6, unless wages were less than $6; payments to continue not more than 150 weeks for permanent cases, and 50 weeks where disability is temporary. (b) For maimings, compensation of same scale and limits as in total temporary, for terms ranging from 3 to 200 weeks. **Death Ben.**—To widow, widower, child, or children under 16, or invalid child over 16, 50% of wages of the deceased if residents of the United States, if not, 25%, unless otherwise required by treaty. To major dependents (father or mother), in case there are no beneficiaries, 40%. To minor dependents (brothers or sisters actually dependent), if no beneficiary or major dependent, 30%. Non-resident alien dependents receive nothing unless required by treaty. Terms of payments may not exceed 400 weeks, $10 maximum, $6 minimum; if wages less than $6, then full wages. Payments cease on remarriage of widow or widower, or when child, brother, or sister reaches the age of 16, unless an invalid.

NEBRASKA, 1917.

Adm. Sys.—Compensation Commissioner; appeal to District Court of county, with further appeal to Supreme Court. **Sec. for Comp.**—Employer must insure or give proof of financial ability. Policies must inure directly to beneficiaries. Awards have same preference as wage claims. **Employ.**—All industries, except domestic service, agriculture, and interstate or foreign commerce in absence of contrary election. Exempt employees may make affirmative election. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital service during first 21 days, not over $200. Time may be extended in cases of dismemberment or major operations. A reasonable sum, not over $100, for expenses of last sickness and burial. **Comp. for Dis.: Total**—66⅔% of the weekly wages, not less than $6 nor more than $12 per week for 300 weeks; thereafter, while disability lasts, 45%, not less than $4.50 nor more than $9. If weekly wages are less than minimum, full wages are paid. **Partial**—66⅔% of loss of earning capacity, not over $12 per week nor for more than 300 weeks. For certain specified injuries (mutilations, etc.), 66⅔% of wages for fixed periods in lieu of other payments, $12 maximum, $6 minimum, unless wages are less than $6, when full wages are to be paid. Payments begin with the eighth day, but if disability continues six weeks or more compensation is computed from date of injury. Lump sums may be substituted for periodic payments, but if for death or permanent disability, the approval of the court must be obtained. **Death Ben.**—To persons wholly dependent, 66⅔% of the employee's wages, not less than $6 nor more than $12; not exceeding 350 weeks; if wages were less than $6, full wages. If only partial dependents survive, a proportion of the above corresponding to the relation the contribution of deceased to their support bore to his wages. Compensation to children ceases when they reach 16, unless mentally or physically incapacitated from earning.

NEVADA, 1917.

Adm. Sys.—Industrial Commission. **Sec. for Comp.**—Employers must insure in State Insurance Fund. State management of fund and collection of premiums by the State. Payments not assignable, exempt from attachment, etc. **Employ.**—All except domestic and farm labor, provided the employer elects; compulsory as to the State and its municipalities. **Wait.**—Seven days. **Med. and Surg.**—Reasonable medical, surgical, and hospital aid for 90 days, but may be extended to one year by the Industrial Commission. Burial expenses not to exceed $125. **Comp. for Dis.: Total**—One-half the average monthly wages, not less than $20 nor more than $70 for twelve months, and not over $60 thereafter. **Partial**—One-half the loss of earning capacity, not more than $40 per month for not more than sixty months; wages in excess of $140 need not be considered. For certain specific injuries (mutilations, etc.), a monthly payment equal to one-half the monthly wages, not less than $20 nor more than $60 for fixed periods, in

addition to payments for temporary total disability. No compensation is payable for the first week of disability, but if it continues three weeks or longer compensation is paid from the date of the injury. The Industrial Commission may permit the substitution of lump sums for monthly payments in an amount not exceeding $5,000. **Death Ben.**—To widow or dependent widower, 30% of the average wages, with 10% additional for each child under eighteen years of age, total not to exceed 66⅔%. If only children survive, they receive 15% each, the total not to exceed 66⅔%. If there are none of the foregoing dependent parents may receive 25% of the average monthly wage during dependency; if dependent brothers or sisters under eighteen, 20% for one and 30% if more than one, other cases according to the facts. Payments to a widow or dependent widower cease on remarriage, but the widow shall receive two years' benefits in a lump sum. Payments to children cease at eighteen, unless incapable. Payments to non-resident aliens 60% of above. No excess of wages over $120 per month considered.

NEW HAMPSHIRE, 1912.

Adm. Sys.—Disputes settled by agreement or action in equity. **Sec. for Comp.**—No provision for insurance. Employer must satisfy Commissioner of Labor of financial ability or file a bond. Payments have same preferences as claims for unpaid wages, or for personal services. **Employ.**—Industries dangerous to life or limb, including operation and maintenance of steam and electric roads, work in shops, mills, factories, etc., employing five or more; work about quarries, mines, foundries. **Wait.**—Two weeks. **Med. and Surg.**—If no dependents, expenses of medical care and burial not in excess of $100. **Comp. for Dis.: Total**—Beginning with the fifteenth day, a sum not exceeding 50% of average weekly earnings. **Partial**—A sum not in excess of 50% of loss of earning capacity. In no case is compensation to exceed $10 a week, nor run for a longer period than 300 weeks. The court may determine the amount of lump sums payable as a substitute for weekly payments. **Death Ben.**—To persons wholly dependent, a sum equal to 150 times the average weekly earnings of deceased, not to exceed $3,000.

NEW JERSEY, 1914.

Adm. Sys.—Judge of Court of Common Pleas settles disputes in summary manner, subject to review on questions of law in Supreme Court. Workmen's Compensation Bureau by amendment of 1918 **Sec. for Comp.**—Employers must furnish proof of financial ability or insure. Policies must be for benefit of employees. Right of compensation has same preference as claim for unpaid wages. **Employ.**—All employments in absence of contrary election. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical and hospital services for first two weeks, not over $50. Expense of last sickness and of burial, not exceeding $100 for burial. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) 50% of wages, payable during disability, but not beyond 300 weeks. (b) 50% of wages during such disability, not beyond 400 weeks. **Partial, (b) Perm.**—(b) For certain specific injuries (mutilations, etc.), 50% of wages during fixed periods. All weekly payments are subject to the same rule as to maximum and minimum as for death benefits. A lump sum payment may be substituted at the discretion of the Court of Common Pleas. **Death Ben.**—To one dependent, 35% of the wages of the deceased, and for each additional dependent 5% additional, the total not to exceed 60%, payable for not more than 300 weeks. Compensation not to be less than $5 nor more than $10 per week, unless the earnings are less than $5, when full wages are paid. Payments to widows cease on remarriage, to orphans at eighteen, unless mentally or physically deficient. Provision is made also for education and rehabilitation. If no dependents, payment to State treasury of $400 is made by the employer.

NEW MEXICO, 1917.

Adm. Sys.—District courts. **Sec. for Comp.**—Employer must file bond or certificate of guarantee mutual, or other insurance, unless he can satisfy the Judge he is solvent. **Employ.**—Extra hazardous (enumerated), where four or more are employed, or where work is carried on upon a derrick, scaffolding, pole, or other structure ten or more feet above the surface of the ground; others by election. **Wait.**—Twenty-one days. **Med. and Surg.**—Medical care up to $50, during "waiting" period of 21 days. $50 for funeral expenses. **Comp. for Total Dis.**—Fifty per cent. of earnings for 520 weeks. Compensation is increased 50% if caused by employer's failure to provide safety devices provided by law, and decreased 50% if caused by the employees' failure to observe a statutory regulation concerning safety, or to use a safety device provided. **Death Ben.**—To a dependent widow or widower, 40% of earnings, 5% additional for each child up to 60%, and proportionate amounts for other dependents.

NEW YORK, 1918.

Adm. Sys.—State Industrial Commission, with limited appeals to the courts. **Sec. for Comp.**—Employer must give proof of financial ability, or must insure in State fund or mutual or stock company. Policies must inure directly to beneficiary. Payments have same preference as unpaid wages. **Employ.**—All industries employing four or more employees, except domestic service and agricultural pursuits. **Wait.**—Two weeks. **Med. and Surg.**—Medical and surgical treatment and hospital services for sixty days, costs to be approved by the commission. $100 for funeral expenses. **Comp. for Dis.: Total**—66⅔% of wages during continuance. **Partial**—66⅔% of wage loss. For specified permanent partial disabilities (mutilations, etc.), 66⅔% of wages for fixed periods, separate provision for disfigurements. The foregoing payments may not be less than $8 nor more than $20 per week, except for certain maimings the maximum may be $20. Payments begin on the fifteenth day, but if the disability continues for more than forty-nine days compensation is allowed from the beginning. **Death Ben.**—To a widow or dependent widower alone, 30% of wages of deceased, 10% additional for each child under eighteen; dependent orphans under eighteen receive 15% each, and dependent parents or grandparents, 25%; brothers or sisters, 15% each; aggregate payments in no case to exceed 66⅔%. Payments to widow or widower cease on death or remarriage; payments to children, brothers and sisters at eighteen, and to parents when dependence ceases. In computing the above benefits no wages in excess of $125 monthly are considered. Occupational diseases are included as accidents. Amendments of 1920 make it a misdemeanor to demand or solicit fees; maximum compensation is increased to $20 a week; survivors may get a death claim; awards are liens.

NORTH DAKOTA, 1919.

Adm. Sys.—Workmen's Compensation Bureau. **Sec. for Comp.**—Insurance compulsory; self-insurance not permitted. **Employ.**—All public and private, other than agricultural and domestic service, and common carriers by railroad (which may come in by election). **Comp. for Dis.**—66⅔% of wages during total, and 66⅔% of wage loss during temporary partial. **Death Ben.**—To widow or dependent widower until death or remarriage; to children up to eighteen; payments to parents until death, remarriage or cessation of dependency; to other beneficiaries, eight years, not to exceed $20, nor less than $6 per week; funeral benefit up to $100.

OHIO, 1917.

Adm. Sys.—Industrial Commission; limited appeal to civil courts. **Sec. for Comp.**—State Insurance Fund. Employers must insure or give proof of ability to pay benefits. Non-insurers must give bond or security. Insurance is under State control. Claims have same preference as on tax judgments. **Employ.**—All employing five or more regularly; also establishments employing less than five, if employer elects to pay premiums. **Wait.**—One week. **Med. and Surg.**—Medical, hospital, etc., not over $200, but more may be allowed in case of necessity. Burial expenses not to exceed $150. If no dependents, medical and hospital services, not over $200, and burial expenses as above. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) Weekly payments of 66⅔% of average weekly wages during disability, not less than $5 nor

more than $12; but not for longer than six years, nor exceeding $3,750. (b) A weekly payment as above, continuing until death. **Partial, (a) Temp.; (b) Perm.**—(a) 66⅔% of loss of earning capacity during continuance, but not exceeding $12 per week, or a total of $3,750. (b) In certain specified injuries (mutilations, etc.), 66⅔% of wages for fixed periods, with the same maximum and minimum limitations as noted above, in addition to payments during temporary total disability. In all cases, if wages are less than prescribed minimum, then total wages are paid as compensation; an expected increase in wages may be given consideration. **Death Ben.**—To persons wholly dependent, 66⅔% of the average weekly earnings of the deceased for eight years, not less than $2,000 nor more than $5,000. If only partial dependents survive, a proportionate sum to continue for all or such portion of the period of eight years as the Industrial Commission may determine in each case, not exceeding a maximum of $5,000.

OKLAHOMA, 1915.

Adm. Sys.—Industrial Commission. Appeals to the Supreme Court. **Sec. for Comp.**—Insurance companies or fund systems must be approved by the commission. Claims cannot be assigned, and payments are exempt from levy, execution, etc. **Employ.**—"Hazardous" (enumerated list and general clause), in which more than two are employed; agriculture, stock raising, retail stores, and interstate railways not included; work by State or municipalities is included. **Wait.**—Two weeks. **Med. and Surg.**—Necessary medical, surgical, or other treatment for first fifteen days. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) 50% of average weekly wages for not more than 300 weeks. (b) 50% of average weekly wages for not more than 500 weeks. **Partial, (b) Perm.**—(b) 50% of wage loss for not more than 300 weeks; for specified injuries, 50% of weekly wages for fixed periods in lieu of other compensation. Payments may not exceed $10 per week nor be less than $6, unless wages were less than $6, when full wages will be paid. Periodical payments may be commuted to lump sums, and aliens who are non-residents may have payments commuted to lump sums equal to one-half of the value of the present worth.

OREGON, 1916.

Adm. Sys.—State Accident Industrial Commission. Review by Circuit Court. Appeals from Circuit Court as in other civil cases. **Sec. for Comp.**—Insurance under State control. State gives subsidy, employer deducts 1% from employee's daily earnings, and contributes this and a percentage of monthly payroll. **Employ.**—All hazardous occupations, factories, mills, and workshops using machinery; mines, quarries, wharves and docks, dredges, engineering, telephone, telegraph, electric light, etc. All in absence of contrary election. **Med. and Surg.**—Transportation, medical, surgical, and hospital expenses, not exceeding $250. Burial expenses not to exceed $100. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(b) Monthly payments as follows: If unmarried, $30; if with wife or invalid husband, but no child under sixteen, $35; if husband is not an invalid, $30; if married or a widow or widower with a child or children under sixteen, $6 additional for each child until sixteen, total monthly payments not to exceed $50. (a) Above payments apply during disability, increased 50% for first six months, but in no case to exceed 60% of monthly wages. **Partial, (a) Temp.; (b) Perm.**—(a) A proportionate amount, corresponding to loss of earning power for not exceeding two years. (b) For certain specified injuries (mutilations, etc.), monthly payments of $25 per month payable for fixed periods, less any time for which compensation was paid for total disability. A lump sum at the option of the injured person is provided in some cases. Partial lump sum payments to any beneficiary may be substituted at the discretion of the commission. **Death Ben.**—To widow or invalid widower, a monthly payment of $30, and to each child under sixteen (daughters eighteen), $6 a month, the total monthly not to exceed $50. To orphans under sixteen (daughters eighteen), a monthly payment of $15 each, the total not to exceed $50. To other dependents, there being none of the foregoing, a monthly payment to each of 50% of the average support received during the preceding year, but not to exceed $30 a month in all. To parents of an unmarried minor, a monthly payment of $25, until such time as he would have been twenty-one, after which time compensation shall be paid according to average support. Payments to widow or widower until death or remarriage. On remarriage of widow a lump sum of $300. Payments to a male child cease at sixteen, to a female at eighteen, unless an invalid.

PENNSYLVANIA, 1916.

Adm. Sys.—Workmen's Compensation Board. Appeal to courts. **Sec. for Comp.**—Employers must insure in State Fund, a stock or mutual company, or give proof of financial ability. Agreements are filed with a prothonotary, if approved becomes a lien as a judgment. A separate act provides for direct payments to beneficiaries. **Employ.**—All, unless employer elects to contrary. Agricultural and domestic employees are excluded. **Wait.**—Fourteen days. **Med and Surg.**—Reasonable medical, surgical, and hospital expenses for first fourteen days, cost not to exceed $25, unless major surgical operation is necessary, when $75 is the maximum. $100 funeral expenses. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages for 500 weeks, $5 minimum, $10 maximum, total not to exceed $4,000; if wages are less than $5, full wages will be paid. **Partial**—Fifty per cent. of weekly wage loss, $10 maximum, for not over 300 weeks, fixed periods for specified injuries, $5 minimum, $10 maximum, full wages if less than $5. Payments may be computed to lump sum. **Death Ben.**—Forty per cent. of weekly wages to widow or dependent widower, 5% additional for each child, total not to exceed 60%; if no parent, 25%; if one or two children, 10% additional for each child in excess of two, total not to exceed 60% if no consort or child under sixteen, but dependent parent, brothers, or sisters, 15% to 25% of wages. Payments cease on death, remarriage of widow or widower, or child, brother or sister at sixteen, not to continue beyond 300 weeks, unless for children under sixteen, when 15% will be paid for one, and 10% additional for each additional child, total not to exceed 50%. Basic wages are not less than $10 nor more than $20 weekly.

PORTO RICO, 1917.

Adm. Sys.—Workmen's Relief Commission, with limited appeals to the courts. **Sec. for Comp.**—A Workmen's Relief Trust Fund is administered by the Treasurer of the island. Rights not assignable, nor subject to attachment. **Employ.**—All employing five or more, except domestic service and agricultural work without mechanically driven machinery, and common carriers by railroad. **Med. and Surg.**—Necessary medical attendance and such medicines and necessary food as the Workmen's Relief Commission may prescribe; food supplies granted to be deducted from the award. Burial expenses not exceeding $40. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) An amount equal to three-quarters of the weekly wages, not less than $3 nor more than $7, for not more than 104 weeks. (b) The sum of $1,500, and an amount equal to three-quarters of the weekly wages, not less than $3 nor more than $7, for a maximum of 208 weeks. **Partial, (b) Perm.**—(b) Payment is to be made proportionate to permanent total, following payments under temporary total disability. The time and manner of payments are to be determined by the Workman's Relief Commission. **Death Ben.**—Any balance of the sums the deceased workman would have received if the injuries had not proved fatal. Benefits may be apportioned among the dependent legal heirs by the Workmen's Relief Commission.

RHODE ISLAND, 1917.

Adm. Sys.—Any party interested may petition Superior Court. Appeals to the Supreme Court. **Sec. for Comp.**—Employer must insure, give proof of financial ability, or furnish security or bond. Insurers directly liable to claimants. Beneficiaries have first lien. **Employ.**—All except domestic service and agriculture, if employer elects. Defenses in suits for damages not abrogated unless more than five persons employed. **Wait.**—Two weeks. **Med. and Surg.**—Necessary medical and surgical care and hospital

services for the first four weeks. If no dependents, the expense of the last sickness and burial, not over $200. **Comp. for Dis.: Total**—A weekly payment equal to one-half the wages, not less than $4 nor more than $10 per week, for not more than 500 weeks. **Partial**—A weekly payment equal to one-half the loss of earning power, not exceeding $10 per week, for not longer than 300 weeks. For certain specified injuries (mutilations, etc.), in addition to above, one-half the wages, weekly payments to be not less than $4 nor more than $10 per week, for fixed periods. Payments begin on the fifteenth day, but if incapacity extends beyond four weeks they begin with date of injury. Lump sum payments may be substituted by order of the Superior Court after compensation has been paid for six months for either death or injury. **Death Ben.**—To persons wholly dependent, a weekly payment equal to one-half the average weekly earnings, not less than $4 nor more than $10 per week, for a period of 300 weeks. If only partial dependents survive, a sum proportionate to the amount which the annual contributions bear to the annual earnings of the deceased, for not over 300 weeks. Payments to children cease on their reaching eighteen unless physically or mentally incapacitated. Provision is made also for education and rehabilitation.

SOUTH DAKOTA, 1917.

Adm. Sys.—Industrial Commissioner. Arbitration Committee, one representative of each side and the Industrial Commissioner. **Sec. for Comp.**—Insurance required unless employer can furnish proof of financial ability, when security may be required. **Employ.**—All except domestic, farm and casual laborers, and employees in interstate and foreign commerce. **Wait.**—Fourteen days. **Med. and Surg.**—Medical care up to $100, for four weeks. If no dependents, $150 for burial. **Comp. for Total Dis.**—Fifty per cent. of earnings up to a maximum of $3,000, or four times average annual earnings. **Death Ben.**—In death cases practically the same as for total disability.

TENNESSEE, 1919.

Adm. Sys.—The Courts. **Sec. for Comp.**—Insurance is required. Self-insurers may be required to give a bond, or file security; policies inure directly to benefit of employés; same preference as for unpaid wages and exemption from claims of creditors. **Employ.**—Employees where ten or more employees are regularly employed, other than of State, counties thereof, and municipal corporations, except those engaged in agriculture, domestic service, coal mines, common carriers doing interstate business, casual employees. Employers of less than ten, mine operators and State and municipalities may accept provisions. **Wait.**—Ten days. **Med. and Surg.**—Such medical and surgical treatment, medicines, supplies and apparatus as may be reasonably required, for thirty days after notice by employee to employer of accident. In case of death, reasonable burial expenses up to $100. **Comp. for Dis.: Total, (a) Temp.**—Fifty per cent. of average weekly wages up to $11 per week; minimum, $5 per week; during disability, not to exceed 300 weeks. **(b) Temp. Part.**—Fifty per cent. of difference between amount earned at time of injury and amount since able to earn; not to exceed 300 weeks; special schedule for specified injuries. **Perm. Total**—Fifty per cent. of average weekly wages, not exceeding 550 weeks, not over $5 per week after 400 weeks; total not to exceed $5,000. **Death Ben.**—To widow, 30% of average weekly wages; to widow and one dependent child, 40%; to widow and two or more dependent children, 50%; to dependent orphan 30%, and 10% additional for additional orphans, not to exceed 50%; to dependent husband, 20%; to a parent, 25%; to two parents, 35%; if no widow, child, husband, or parent, to dependent grandparent, brother, sister, mother-in-law, or father-in-law, if but one, 25%, if two or more, 35%. This compensation during dependency for not more than 400 weeks.

TEXAS, 1917.

Adm. Sys.—Industrial Accident Board. Appeals to courts. **Sec. for Comp.**—Employers must insure. Compensation is payable directly by the insurance association. Benefits are unassignable, and exempt from garnishment attachment, etc. **Employ.**—All except domestic and farm labor, railways operated as common carriers, and vessels in interstate and foreign commerce. **Wait.**—One week. **Med. and Surg.**—Medical and hospital care for first two weeks and hospital care for two additional weeks if necessary. If no beneficiaries or creditors, expenses of last illness and a funeral benefit not over $100. **Comp. for Dis.: Total**—Sixty per cent. of average weekly wages, not less than $5 nor more than $15, for not more than 401 weeks. **Partial**—Sixty per cent. of loss of earning power, not over $15 per week nor more than 300 weeks. For certain specified injuries (mutilations, etc.), an additional compensation equal to 60% of the average weekly wages for fixed periods, not less than $5 nor more than $15 per week, in lieu of all other compensation. A lump sum payment may be substituted for weekly payments in cases of death or total permanent disability, subject to the approval of the Industrial Accident Board. **Death Ben.**—To the legal beneficiary a weekly payment equal to 60% of his wages, not less than $5 nor more than $15, for a period of 360 weeks, distributed according to law governing property distribution.

UTAH, 1917.

Adm. Sys.—Industrial Commission. **Sec. for Comp.**—Employers must insure or be liable to respond in damages. **Employ.**—Public and private employers of four or more. Agricultural, domestic and casual laborers, elected officials, and employees in interstate and foreign commerce are excluded. **Wait.**—Ten days. **Med. and Surg.**—Medical care up to $200. $150 for burial. **Comp. for Total Dis.**—Fifty-five per cent. of average weekly wages for five years, and 40% thereafter. **Death Ben.**—Dependents are paid 55% of wages for a maximum period of six years.

VERMONT, 1917.

Adm. Sys.—Commissioner of Industries. Appeal to courts. **Sec. for Comp.**—Insurance required unless deposit of security or proof of financial responsibility. Employees have direct recourse to insurer. Compensation rights are preferred claims. **Employ.**—All industrial establishments in which more than ten are employed, commerce as far as permissible under Federal laws, domestic and casual labor excluded. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital service for fourteen days, not over $100. $100 for funeral expenses if death within two years. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages for not more than 260 weeks. $3 minimum, $12.50 maximum, total not to exceed $4,000. If wages less than $3, full wages will be paid. **Partial**—Fifty per cent. of wage decrease, maximum $10, for not more than 260 weeks. For certain specified injuries, 50% of weekly wages, but not more than $10 for designated periods running from 4 to 170 weeks. Payments may be commuted to one or more lump sums in any case. **Death Ben.**—To dependent widow or widower, 33⅓% of weekly wages, 40% if there be one or two children, 45% if more than two; if no parent, 25% to one or two children, 10% additional for each child in excess of two, total not to exceed 40%; if no consort or child under eighteen, and dependent parent, grandparent, or grandchild, 15% to 25%. Payments to widow cease on death or remarriage; to widower on remarriage or cessation of dependency; to children on reaching eighteen, unless incapable, in no case to exceed 260 weeks or $3,500. Payments to other classes end in 208 weeks at most. Basic wages not less than $5 weekly.

VIRGINIA, 1918.

Adm. Sys.—State Commission of three. **Sec. for Comp.**—Policies inure directly to employee. Claims or awards have same preference as those for wages. **Employ.**—All except domestic service and farm labor, and steam railroads; includes public employment. **Wait.**—Fourteen days. **Med. and Surg.**

—Medical and surgical aid by employers for thirty days. Funeral expenses not over $100. **Comp for Dis.: Total**—Fifty per cent. of weekly wages, maximum $10, minimum $5, total for disability not over 500 weeks or $4,000. **Partial, (a) Temp.; (b) Perm.**—(b) Act has schedule for permanent partial, loss of thumb so much, index finger so much, and so on. (a) 50% of weekly loss during disability, not more than $10 nor over 300 weeks. **Death Ben.**—Not more than 300 weeks or $4,000. 50% of average weekly wages to dependents.

WASHINGTON, 1917.

Adm. Sys.—Industrial Insurance Department. Review by Superior Court. Appeals from Superior Court as in other civil cases. **Sec. for Comp.**—Accident fund, under State control. **Employ.**—All extra-hazardous employment, including mills, factories, workshops where machinery is used; blast furnaces mines, quarries, and wharves, engineering, logging, lumbering, building trades, telegraph, telephone, and electric lights, etc. Railroads are excluded. **Wait.**—Eight days. **Med. and Surg.**—Proper and necessary medical and surgical services, and hospital care if injuries temporary; if permanent, until awards are made on basis of nature of disability. Expenses of burial not over $75. **Comp. for Dis.: Total** (a) **Temp.**; (b) **Perm.**—(b) If unmarried, $20 per month; if with a wife or invalid husband, but no child under sixteen, $25 per month; if husband not an invalid, $15 per month; if married or a widow or widower with a child or children under sixteen, $5 additional for each child, total not to exceed $35; if so helpless as to require attendant, $20 per month, in addition to other benefits. (a) Payments as for (b) during disability, increased by 50% for first six months, but in no case to exceed 60% of monthly wages. **Partial. (a) Temp. (b) Perm.**—(a) Payment as for total disability continues in proportion to loss of earning power, provided this exceeds 5%. (b) For specified permanent partial disabilities, lump sums ranging from $500 to $2,000, others to be compensated proportionately, if the injured person is a minor, the parents receive an additional sum equal to 10% of the award to the injured person. Monthly payments may be converted into a lump sum, payment not over $4,000, in case of death or permanent total disability. No benefits are to be paid for the first eight days, unless the disability continues for more than thirty days. **Death Ben.**—To widow or invalid widower, a monthly payment of $20, to each child under sixteen, $5 per month, total not over $35; if no parent, $10 to each child under sixteen, total not to exceed $35. To other dependents, if none above survive, a monthly payment equal to 50% of the average amount previously contributed, total not to exceed $20. To the parent or parents of unmarried minor, a monthly payment of $20, until he would have been twenty-one. Payments to widow or widower continue until death or remarriage, and to a child under sixteen. If a widow remarries she receives a lump sum of $240.

WEST VIRGINIA, 1915.

Adm. Sys.—Compensation Commissioner; limited appeal to Supreme Court. **Sec for Comp.**—Insurance through a State fund. Employers of approved ability may carry own risks, giving bond Payments only to beneficiaries, and exempt from claims of creditors, attachment or execution. **Employ.**—All except domestic or agricultural labor, if the employer becomes a member of the State Insurance Fund **Wait.**—One week. **Med. and Surg.**—Medical, nurse and hospital services, not over $150 ($300 in special cases). Reasonable funeral expenses, not over $75. **Comp. for Dis.: Total**—For permanent total disability (85% or above); 50% of the average weekly wages during life. **Partial, (a) Temp.; (b) Perm**—(a) 50% of loss of earning capacity, not more than $10 per week nor exceeding 26 weeks, except that for certain ununited fractures, etc., may be fifty-two weeks. (b) 50% of wages for periods varying with degree of disability (from 10 to 70%), from 30 to 210 weeks; from 70 to 85% disability, 40% of wages for life. Lump sum payments may be substituted for periodic payments in case of either injury or death **Death Ben.**—To widow or invalid widower, $20 per month and $5 per month additional for each child under the age of legal employment, total not to exceed $35 per month. To orphan child or children, $10 each per month until fifteen, total not over $30 per month. To other persons wholly dependent, if no widow, widower, or child, 50% of average monthly support received from deceased during preceding year, not exceeding $20 per month for six years. If deceased was a single minor, to a dependent parent 50% of earnings, not over $6 per week until he would have become twenty-one. If only partial dependents survive, compensation computed. Payments to widow or widower cease on remarriage, and to children at fifteen. If widow or widower remarry within two years; to be paid 20% of balance of 10 years.

WISCONSIN, 1917.

Adm. Sys.—Industrial Commission; limited review by the courts. **Sec. for Comp.**—Employer must give proof of financial ability or insure. Claims have preference, are non-assignable, and exempt from attachment or execution. Commission may require deposits, purchase of annuities, or the giving of bonds. **Employ.**—All, if the employer elects. Election is presumed where there are three or more employees, except as to agriculture and railroads. **Wait.**—One week. **Med. and Surg.**—Medical, surgical, and hospital treatment for ninety days, and for such additional time as will in judgment of commission lessen the period of compensation. Christian Science healing permitted if both employer and employee agree. Occupational disease is subject to compensation same as industrial accidents. Artificial limbs supplied. Reasonable expense of burial, up to $100. **Comp for Dis: Total**—Sixty-five per cent. of average weekly earnings. **Partial**—Sixty-five per cent. of loss of earning power. For certain specific injuries (mutilations etc.), a sum equal to 65% of average weekly earnings for fixed periods, ranging from 6 to 320 weeks, which include the time for healing. For serious permanent disfigurement, a lump sum may be allowed, not over $750. Payments begin with the eighth day, but if disability continues for twenty-eight days, benefits are payable for first seven days. In case of temporary or partial disability, aggregate compensation not over four years' earnings; for permanent total disabilities payments are limited—nine to fifteen years, according to age of injured person. Lump sum payments may be substituted at any time after six months. **Death Ben.**—To persons wholly dependent, a sum equal to four years' earnings, but which when added to any prior compensation will not exceed six years' earnings. If only partial dependents survive, a sum not to exceed four times the amount provided for their support during the preceding year. All payments are to be made in weekly instalments equal to 65% of the average weekly earnings. Dependence of children ceases at eighteen, unless physically or mentally incapacitated.

WYOMING, 1917.

Adm. Sys.—Disputes settled by District Courts of the counties, with appeal to the Supreme Court of the State. **Sec. for Comp.**—Insurance in State fund required. Insurance under State control. Payments not assignable, nor subject to attachment, execution, etc. **Employ.**—Extra-hazardous (enumerated list), in which three or more are employed, interstate railroads excepted; use of explosives and work ten feet above ground included. **Wait.**—Ten days. **Med. and Surg.**—None. $50 for funeral expenses, unless other arrangement exists under agreement. **Comp. for Dis.: Total (a) Temp.; (b) Perm.**—(b) Lump sum of $1,400 if single, $1,600 if wife or invalid husband, and a sum equal to $60 per year for each child until sixteen years old, total for children not to exceed one and one-half times the sum allowed the injured workman. (a) $18 per month if single, $24 if married, and $5 per month for each child under sixteen, total monthly payment not over $35, and aggregate not to exceed the amount payable if the disability were permanent. **Partial (b) Perm.**—(b) Fixed lump sums for specified injuries, others in proportion. No payments for first ten days unless the disability continues for more than thirty days. **Death Ben.**—Lump sum payment of $1,200 to widow or invalid widower, and an additional sum equal to $60 per year until sixteen for each child, total for children not to exceed one and one-half times the payments

COMPENSATION LAWS OF THE VARIOUS STATES—*Continued.*

to surviving spouse. If there are dependent parents and no spouse and no child under sixteen, a sum equal to 50% of one year's contribution, not exceeding $500. Payments to non-resident aliens, beneficiaries are limited to 33⅓% of the above amounts, and only the widow and children under sixteen are considered.

UNITED STATES, 1916.

Adm. Sys.—United States Employees Compensation Commission. **Sec. for Comp.**—No provision for insurance. Payments made from special compensation fund. **Employ.**—All civilian employments of the United States Government and the Panama Railroad. **Wait.**—Three days. **Med. and Surg.**—Reasonable medical, surgical, and hospital services and supplies. $100 burial expenses, and transportation of bodies of residents of the United States dying away from home, if relations desire it. **Comp. for Dis.:** **Total**—66⅔% of the monthly pay during continuance of the disability. **Partial**—66⅔% of the difference in wage earning capacity due to such disability. Payments are subject to the same maximum and minimum amounts as in case of death. Payments on account of death or permanent disability, may be computed to a lump sum. **Death Ben.**—To widow or dependent widower alone, 35% of the monthly wages, with 10% additional for each child, total not to exceed 66⅔%. To dependent parents, 25% if one, 40% if both are dependent. If there is a widow, widower, or child, the parents' rights are subordinate, and the total awards may not exceed 66⅔%. Other dependent relatives receive benefits in smaller amounts, subject to claims of foregoing. Payments to widow or widower terminate on death or remarriage, to a child on marriage, reaching eighteen. Payments to other beneficiaries in no case extend beyond eight years. All payments subject to maximum of $66.67 per month, and minimum of $33.33, unless actual earnings are less, when compensation will equal earnings

THE SHERMAN LAW.

THE following is the text concerning Trusts:

SEC. 1. Every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States, or with foreign nations, is hereby declared to be illegal. Every person who shall make any such contract, or engage in any such combination or conspiracy, shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished by a fine not exceeding $5,000, or by imprisonment not exceeding one year, or by both said punishments in the discretion of the Court.

SEC. 2. Every person who shall monopolize, or attempt to monopolize, or combine or conspire with any other person or persons to monopolize any part of the trade or commerce among the several States, or with foreign nations, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not exceeding $5,000, or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the Court.

SEC. 3. Every contract, combination in form of trust or otherwise, or conspiracy, in restraint of trade or commerce in any Territory of the United States, or the District of Columbia, or in restraint of trade or commerce between any such Territory and another, or between any such Territory or Territories and State or States or the District of Columbia, or with foreign nations, or between the District of Columbia and any State or States or foreign nations, is hereby declared illegal. Every person who shall make any such contract, or engage in any such combination or conspiracy, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not exceeding $5,000, or by imprisonment not exceeding one year, or by both said punishments in the discretion of the Court.

SEC. 4. The several Circuit Courts of the United States are hereby invested with jurisdiction to prevent and restrain violations of this act; and it shall be the duty of the several District-Attorneys of the United States, in their respective districts, under the direction of the Attorney-General, to institute proceedings in equity to prevent and restrain such violations. Such proceedings may be by way of petition setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of shall have been duly notified of such petition the Court shall proceed, as soon as may be, to the hearing and determination of the case; and pending such petition and before final decree, the Court may at any time make such temporary restraining order or prohibition as shall be deemed just in the premises.

SEC. 5. Whenever it shall appear to the Court before which any proceeding under sec. 4 of this act may be pending that the ends of justice require that other parties should be brought before the Court, the Court may cause them to be summoned, whether they reside in the district in which the Court is held or not; and subpoenas to that end may be served in any district by the marshal thereof.

SEC. 6. Any property owned under any contract or by any combination, or pursuant to any conspiracy (and being the subject thereof) mentioned in Section 1 of this act, and being in the course of transportation from one State to another, or to a foreign country, shall be forfeited to the United States, and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure and condemnation of property imported into the United States contrary to law.

SEC. 7. Any person who shall be injured in his business or property by any other person or corporation by reason of anything forbidden or declared to be unlawful by this act may sue therefor in any Circuit Court of the United States in the district in which the defendant resides or is found, without respect to the amount in controversy, and shall recover threefold the damages by him sustained, and the costs of suit, including a reasonable attorney's fee.

SEC. 8. That the word "person" or "persons" wherever used in this act shall be deemed to include corporations and associations existing under or authorized by the laws of either the United States, the laws of any of the Territories, the laws of any State or the laws of any foreign country.

Approved July 2, 1890.

CLAYTON ACT AMENDMENTS TO SHERMAN LAW.

Suits and proceedings against a corporation may be brought in any district wherein found or transacting business. Subpoenaes may run into any district, except that in civil cases permission of court must be had to bring witness more than 100 miles. Violations by corporations deemed also that of individual directors, officers or agents authorizing, or doing any of acts constituting violation in whole or in part. Injunctive relief against threatened loss provided for, and temporary injunctions without notice under stringent safeguards (giving security, prompt and early hearing, etc.). Special provisions enacted to cover disputes between employers and employees. In general so-called "strikes" and "striking" by laboring men and unions where peaceable means and methods alone are employed, cannot be enjoined. Persons or corporations wilfully disobeying orders, decrees, etc., issued under the Sherman law may, in certain cases, be proceeded against as for criminal contempt. In such cases defendant may demand jury trial. Punishment for contempt is not to exceed $1,000 fine, nor six months imprisonment. These provisions do not apply to contempts committed in presence of the court, or so near thereto as to obstruct the administration of justice.

The Sherman and Clayton acts do not apply to labor or farmers' unions.

MARRIAGE AND DIVORCE LAWS.

Marriage Licenses—Required in all the States and Territories except Alaska. California and New Mexico require both parties to appear and be examined under oath, or submit affidavit.

Marriage, Prohibition of—Marriages between whites and persons of negro descent are prohibited and punishable in Ala., Ariz., Ark., Cal., Col., Del. Fla., Ga., Idaho, Ind., Ky., La., Md., Miss., Mo., Mont., Neb., Nev., N. C., N. Dak., Okla., Ore., S. C., S. Dak., Tenn., Tex., Utah, Va., and W. Va. The causes for absolute divorce given in the table are in addition to adultery, which is a primary cause in every State except South Carolina. Marriages between whites and Indians are void in Ariz., N. C., Ore., and S. C.; and between whites and Chinese in Ariz., Cal., Miss., Ore., and Utah. Marriage between first cousins is forbidden in most of the States, as is the marriage of an epileptic or imbecile.

Note—Marriage between first cousins is forbidden in all of the States except Ala., Cal., Col., Ct., Del., Dist. of Col., Ga., Hawaii, Idaho, Ky., Me., Mass., N. Mex., N. Y., N. C., R. I., S. C., Tex., Va., and Wash.; between step-relatives except in Alaska, Ariz., Ark., Del., Hawaii, Ill., Ind., Iowa, La., Md., Minn., Neb., Nev., N. Mex., N. Y., Ohio, Ore., Pan., Tenn., Utah, and Wis.

STATES.	Residence Required.	Causes for Absolute Divorce.
Alabama.....	1-3 years.	Abandonment two years, crime against nature, habitual drunkenness, violence, pregnancy of wife by other than husband at marriage, physical incapacity, imprisonment for two years for felony, confinement in insane asylum for twenty years if husband becomes addicted to cocaine, morphine or similar drugs. New ground for divorce: To the wife, when the wife without support from the husband has lived separate and apart from the bed and board of the husband for five years next preceding the filing of the bill and she has actually resided in this State during all of said period. Acts 1915, held to authorize granting of divorce to wife only upon lapse of five years from and after date of its enactment.
Alaska.....	2 years.	Felony, physical incapacity, desertion two years, cruelty, habitual drunkenness.
Arizona.....	1 year.	Felony, physical incapacity, desertion one year, excesses, cruelty, neglect to provide one year, pregnancy of wife by other than husband at marriage, conviction of felony prior to marriage unknown to other party, habitual drunkenness.
Arkansas.....	1 year.	Desertion one year, felony, habitual drunkenness one year, cruelty, former marriage existing, physical incapacity.
California.....	1 year.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony.
Colorado.....	1 year.	Desertion one year, physical incapacity, cruelty, failure to provide one year, habitual drunkenness or drug fiend one year, felony, former marriage existing.
Connecticut....	3 years.	Fraudulent contract, wilful desertion three years, with total neglect of duty, habitual drunkenness, cruelty, imprisonment for life, infamous crime involving violation of conjugal duty and punishable by imprisonment in State prison, seven years' absence without being heard from.
Delaware.....	1 year.	Desertion two years, habitual drunkenness for two years, cruelty, bigamy, felony followed by a continuous imprisonment for at least two years—and at the discretion of the Court, fraud, want of age, neglect to provide three years. "When at the time the cause of action arose, either party was a bona fide resident of the State, and has continued so to be down to the time of the commencement of the action; except that no action for absolute divorce shall be commenced for any cause other than adultery, or bigamy, unless one of the parties has been for the two years next preceding the commencement of the action, a bona fide resident of this State."
D. of Columbia.	3 years.	Marriages may be annulled for former existing marriage, lunacy, fraud, coercion, physical incapacity, and want of age at time of marriage.
Florida..	2 years.	Cruelty, violent temper, habitual drunkenness, physical incapacity, desertion one year, former marriage existing, relationship within prohibited degrees.
Georgia.....	1 year.	Mental and physical incapacity, desertion three years, felony, cruelty, force, duress, or fraud in obtaining marriage, pregnancy of wife by other than husband at marriage, relationship within prohibited degrees.
Hawaii.....	2 years.	Desertion one year, felony, leper, cruelty, habitual drunkenness.
Idaho.....	6 months.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony, insanity.
Illinois.....	1 year.	Desertion two years, habitual drunkenness two years, former existing marriage, cruelty, felony, physical incapacity, attempt on life of other party; divorced party cannot marry for one year.
Indiana.....	2 years.	Abandonment two years, cruelty, habitual drunkenness, failure to provide two years, felony, physical incapacity.
Iowa.	1 year.	Desertion two years, felony, habitual drunkenness, cruelty, pregnancy of wife by other than husband at marriage, unless husband has illegitimate child or children living of which wife did not know at time of marriage. The marriage may be annulled for the following causes existing at the time of the marriage: Insanity, physical incapacity, former existing marriage.
Kansas..	1 year.	Abandonment one year, cruelty, fraud, habitual drunkenness, gross neglect of duty, felony, physical incapacity, pregnancy of wife by other than husband at marriage, former existing marriage.
Kentucky.....	1 year.	Separation five years, desertion one year, felony, physical incapacity, loathsome disease, habitual drunkenness one year, cruelty, force, fraud or duress in obtaining marriage, joining religious sect believing marriage unlawful, pregnancy of wife by other than husband at marriage or subsequent unchaste behavior, ungovernable temper.
Louisiana.....	1 year.	Felony, habitual drunkenness, excesses, cruelty, public defamation of other party, abandonment, attempt on life of other party, fugitive from justice.
Maine.....	1 year.	Cruelty, desertion three years, physical incapacity, habits of intoxication by liquors, opium, or other drugs, neglect to provide, insanity under certain limitations.
Maryland.....	2 years	Abandonment three years, unchastity of wife before marriage, physical incapacity, any cause which renders the marriage null and void *ab initio*. Exceedingly vicious conduct.
Massachusetts..	3-5 years.	Cruelty, desertion three years, habits of intoxication by liquors, opium or other drugs, neglect to provide, physical incapacity, imprisonment for felony, uniting for three years with religious sect believing marriage unlawful.
Michigan....	1 year.	Felony, desertion two years, habitual drunkenness, physical incapacity, and in the discretion of the Court for cruelty or neglect to provide.

STATES.	Residence Required.	Causes for Absolute Divorce.
Minnesota.....	1 year.	Desertion one year, habitual drunkenness one year, cruelty, physical incapacity, imprisonment for felony.
Mississippi.....	1 year.	Felony, desertion two years, consanguinity, physical incapacity, habitual drunkenness by liquor, opium or other drugs, cruelty, insanity at time of marriage, former existing marriage, pregnancy of wife by other than husband at marriage.
Missouri... .	1 year.	Felony, absence one year, habitual drunkenness one year, cruelty, indignities, vagrancy, former existing marriage, physical incapacity, conviction of felony prior to marriage unknown to other party, wife pregnant by other than husband at marriage.
Montana.....	1 year.	Cruelty, desertion, neglect one year, habitual drunkenness one year, felony, innocent party may not remarry within two years and guilty party within three years of the divorce.
Nebraska.....	1 year.†	Abandonment two years, habitual drunkenness, physical incapacity, felony, failure to support two years, cruelty, imprisonment for more than 3 years.
Nevada.....	6 months.	Desertion one year, felony, habitual drunkenness, physical incapacity, cruelty, neglect to provide one year.
New Hampshire	1 year.	Cruelty, felony, physical incapacity, absence three years, habitual drunkenness three years, failure to provide three years, treatment endangering health or reason, union with sect regarding marriage unlawful, wife separate without the State ten years, not claiming marital rights, husband absent from United States three years intending to become citizen of another country without making any provision for wife's support.
New Jersey . .	2 years.	Desertion two years, cruelty. No divorce may be obtained on grounds arising in another State unless they constituted ground for divorce in the State where they arose. The marriage may be annulled for the following causes existing at the time of the marriage: Want of legal age, former existing marriage, consanguinity, physical incapacity, idiocy. In other cases, an action may be begun if the overt act was committed here.
New Mexico...	1 year.	Abandonment, cruelty, neglect to provide, habitual drunkenness, felony, physical incapacity, pregnancy of wife by other than husband at marriage.
New York.....	(‡)	Adultery only. The marriage may be annulled for such causes as rendered the relationship void at its inception.
North Carolina..	2 years.	Pregnancy of wife by other than husband at marriage, physical incapacity, husband and wife living apart for ten years and having no issue.
North Dakota..	1 year.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony. The marriage may be annulled for the following causes existing at the time of the marriage: Former existing marriage, insanity, physical incapacity, force or fraud inducing the marriage, or want of age.
Ohio.	1 year ...	That either party had a husband or wife living at the time of the marriage from which the divorce is sought, wilful absence of either party from the other for three years, adultery, impotency, extreme cruelty, fraudulent contract, any gross neglect of duty, habitual drunkenness for three years, the imprisonment of either party in a penitentiary under sentence thereto. The petition for divorce under this clause must be filed during the imprisonment of the adverse party. The procurement of a divorce without this State, by a husband or wife, by virtue of which the party who procured it is released from the obligations of the marriage, while they remain binding upon the other party.
Oklahoma.....	1 year.	Abandonment one year, cruelty, fraud, habitual drunkenness, felony, gross neglect of duty, physical incapacity, former existing marriage, pregnancy of wife by other than husband at marriage.
Oregon.....	1 year.	Felony, habitual drunkenness one year, physical incapacity, desertion one year, cruelty or personal indignities rendering life burdensome.
Pennsylvania ..	1 year.	Former existing marriage, desertion two years, personal abuse or conduct rendering life burdensome, felony, fraud, relationship within prohibited degrees, physical incapacity.
Porto Rico.....	1 year.	Felony, habitual drunkenness, abandonment one year.
Rhode Island...	2 years.	Cruelty, desertion five years, habitual drunkenness, excessive use of morphine, opium or chloral, neglect to provide one year, gross misbehavior, living separate ten years, physical incapacity, cruel treatment of husband by wife, making it unsafe for him to live with her. Either party civilly dead for crime or prolonged absence. The marriage may be annulled for causes rendering the relationship originally void or voidable.
South Carolina.	.....	No divorces granted.
South Dakota..	1 year.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age, former existing marriage, insanity, physical incapacity, force or fraud inducing marriage.
Tennessee.... .	2 years.	Former existing marriage, desertion two years, felony, physical incapacity, attempt on life of other party, refusal of wife to live with husband in the State and absenting herself two years, pregnancy of wife by other than husband at marriage; at the discretion of the Court for cruelty, indignities, abandonment or neglect to provide, habitual drunkenness.
Texas	1 year.	Abandonment three years, physical incapacity, cruelty, excess or outrages rendering life together insupportable, felony.
Utah..... .	1 year.	Desertion one year, physical incapacity, habitual drunkenness, felony, cruelty, permanent insanity.
Vermont.....	2 years.	Imprisonment three years, intolerable severity, desertion three years, neglect to provide, absence seven years without being heard from.
Virginia.....	1 year.	Insanity at marriage, felony, desertion three years, fugitive from justice two years, pregnancy of wife by other than husband at marriage, wife a prostitute, or either party convicted of felony before marriage unknown to other, physical incapacity.
Washington....	1 year.	Abandonment one year, fraud, habitual drunkenness, refusal to provide, felony, physical incapacity, incurable insanity, cruelty or indignities rendering life burdensome, other cause deemed sufficient by the Court.

† Two years for causes arising out of State. ‡ Actual residence.

MARRIAGE AND DIVORCE LAWS—*Continued.*

STATES.	Residence Required.	Causes for Absolute Divorce.
West Virginia..	1 year.	Desertion three years, felony, physical incapacity, pregnancy of wife by other than husband at marriage, husband a licentious character or wife a prostitute unknown to other party, either party convicted of felony before marriage unknown to other. The marriage may be annulled for the following causes existing at the time of the marriage: Former existing marriage, consanguinity, insanity physical incapacity, miscegenation, want of age.
Wisconsin.....	2 years.	Felony (imprisonment three years), desertion one year, cruelty, physical incapacity, habitual drunkenness one year, separation five years. In the discretion of the Court for cruelty or neglect to provide. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age or understanding, consanguinity, force or fraud inducing marriage.
Wyoming.....	1 year.	Felony, desertion one year, habitual drunkenness, cruelty, neglect to provide one year, husband a vagrant, physical incapacity, indignities rendering condition intolerable, pregnancy of wife by other than husband at marriage, either party convicted of felony before marriage unknown to other. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age, force or fraud.

AGES AT WHICH MARRIAGE IS VALID.

Males (age without parents' consent), 21 years in every State except Idaho, Ill., Mich., Minn., Nev., N. H., N. C., S. C., Tenn., and W. V., where it is 18 years

Males (age with parents' consent), 14 years in Ky., La., N. H., and Va.; 16 years in Iowa, Tex., and Utah; 17 years in Ala., Ark., Ga., and Kan.; 18 years in Ariz., Cal., Hawaii, Idaho, Ill., Ind., Mich., Minn., Mont., Neb., Nev., N. Mex., N. C., N. Dak., Ohio, Okla., Ore., Porto Rico, S. C., S. Dak., Tenn., Wis., Wyo. There is no definite age provision in Ct., Del., District of Columbia, Fla., Me., Mass., N. J., N. Y., R. I., S. C., Tex., and Vt.; 21 years elsewhere.

Females (age without parents' consent), 16 years in Md., N. H.; 21 years in Fla., Ky., La., Pa., Porto Rico, R. I., Va., W. Va., and Wyo.; 18 years in the other States.

Females (age with parents' consent), 12 years in Ky., La., Md., Miss., Va.; 13 years in N. H.; 14 years in Ala., Ariz., Ark., Ga., Iowa; N. C., R. I., S. C., Tex., Utah; 15 years in Cal., Hawaii, Kan., Minn., Mo., N. Mex., N. C., N. Dak., Okla., S. Dak., and Wis.; 16 years in Ill., Ind., Mich., Mont., Neb., Nev., Ohio, Ore., Porto Rico, W. Va., and Wis.; 18 years in Alaska, Col., Idaho, N. Y., Tenn., and Vt.

The lowest age at which a single female can make a valid contract, except marriage, is 18 years in Ark., Cal., Col., Hawaii, Idaho, Ill., Iowa, Kan., Minn., Mont., Neb., Ohio, Okla., Ore., S. Dak., Vt. and Washington; 21 years in the other States.

Most of the States require consent of parents to marriages of males under 21 or of females under 18; exceptions are for males under 18 in Idaho, Ill., Minn., Nev., N. H., S. C.; under 20 in Hawaii; under 16 in Ct. and Tenn.; for women under 21 in Fla., Ky., La., Pa., Va., W. Va., and Wyo.; under 16 in Ct., Ill., Md., Nev., N. H., R. I., Tenn., and W. Va.; under 15 in Minn.

The lowest age at which a married female can make a valid contract, except marriage, is 14 years in Ariz., Iowa, Tex.; 16 years in Neb., Ore., Porto Rico; 18 years in Ala., Alaska, Ark., Cal., Hawaii, Idaho, Ill., Ind., Kan., Minn., Mont., Ohio, Okla., S. Dak., Utah, Vt., Wash.; 21 years in the other States.

* Under seal, 10 years. † Unless a different rate is expressly stipulated. ‡ Under seal, 20 years. †† New York has legalized any rate of interest on call loans of $5,000 or upward, on collateral security. § Six years from last item on either side. (*a*) Judgments, 6 per cent. (*b*) Justice Court judgments, 6 years. (*c*) Witnessed, 20 years. (*d*) Thirty-five years in Courts of Record, eighteen years in inferior courts. (*e*) Pawnbrokers, 4 per cent. per month. (*f*) Ceases to be a lien after the period unless revived. (*h*) Subject to renewal. (*j*) Not of record, 6 years. (*k*) No limit. (*m*) No statute. (*n*) Except witnessed promissory note, 14 years.

In New York a judgment ceases, after 10 years, to be a lien on real estate.

CRIMES AND PENALTIES.

WHILE the penalties for homicide are not precisely uniform throughout the various States of the Union, except for the continuance or the abolishment of capital punishment, they are similar. With regard to other serious crimes, likewise, differences are more seeming than real. Felonies, such as manslaughter, arson, burglary, robbery and larceny, are in some States subdivided into degrees, first, second, third and even fourth, while in others there is a single general classification. Where there is no subdivision into degrees, however, the modifying of penalties by reason of attending circumstances, results in the same effect as though there were degrees.

CRIMES AGAINST THE UNITED STATES.

Treason—Whoever owing allegiance to the United States, levies war against them, or adheres to their enemies, giving them aid and comfort, is guilty of treason. The penalty upon conviction is imprisonment for not less than 5 years, fine of not less than $10,000, or death. Misprision of treason consists in general of having knowledge of concealing and not disclosing the treason of others. The penalty is imprisonment for not more than 7 years, and fine of not more than $1,000, or both fine and imprisonment. Rebellion or insurrection is the inciting, setting on foot, assisting or engaging in armed resistance to the execution of the laws by two or more. The penalty on conviction is imprisonment for not more than 10 years, fine of not more than $10,000, or both. Offenses against the mails fall into two general classes; one, the misuse of the mails for immoral or fraudulent purposes; the other, robbing the mails; penalties vary with the nature of the particular offense.

CRIMES AGAINST THE STATES, PROVIDED FOR IN THE VARIOUS STATE PENAL CODES.

Murder in the First Degree may be generally defined to be the unlawful, intentional and premeditated killing of a human being or such a killing resulting from the commission or attempt to commit one of the graver crimes, such as arson, burglary, rape or robbery. In Nevada, killing of a person by a life convict is murder in the first degree.

Murder in the Second Degree is such a killing without premeditation, or resulting from the attempt to commit some lesser crime.

The penalty for murder in the first degree by the Federal Statutes is death by hanging. Hanging is also the penalty in Connecticut, Delaware, Florida, Georgia, Missouri, New Mexico, Hawaii and the District of Columbia. Death by hanging or life imprisonment in Alabama, California, Colorado, Idaho, Iowa, Louisiana, Maryland, Mississippi, Montana, New Hampshire, Oregon, West Virginia and Wyoming, Alaska and Porto Rico. In Illinois, hanging or imprisonment not less than 14 years to life. In Texas, hanging, or any term of imprisonment not less than 5 years. Death by electricity in Arkansas, Massachusetts, Nebraska, New Jersey, New York, North Carolina, Pennsylvania and Vermont. Death by electricity or life imprisonment in Indiana, Kentucky, Ohio, Oklahoma and South Carolina. Life imprisonment in Arizona, Kansas, Maine, Michigan, Minnesota, North Dakota, Rhode Island, South Dakota, Tennessee, Washington, Wisconsin. In Nevada and in Utah, the penalty may be death or life imprisonment; if death, the convicted person may choose between hanging or shooting. In Tennessee, the jury may fix the term of imprisonment. In the State of Washington, the jury may, by special verdict, find for the death penalty. In New Jersey and Oregon penalty is death, unless jury recommends life imprisonment.

Murder in the second degree is punished in the Federal Constitution by imprisonment for not less than 10 years to life. The same penalty, not less than 10 years up to life is imposed in the States of Arizona, Idaho, Iowa, Nebraska, Nevada, Rhode Island, Utah. Not less than 10 (the statutes not mentioning life imprisonment) is the penalty in Alabama, California, Kansas, Missouri, Montana, Washington and Porto Rico. Life imprisonment is the penalty in Connecticut, Delaware, Florida, Georgia, Indiana, Michigan, Minnesota, Ohio, Oregon, Vermont. The statutes of Illinois, Kentucky, Louisiana, Mississippi, Oklahoma, South Carolina and Texas have no second degree murder classification. In Arkansas the penalty is from 5 to 21 years; Maryland, 5 to 18; Michigan and New Hampshire, any term of years to life; no minimum term mentioned. New Jersey, not over 30; New Mexico, 3 or more; New York, not less than 20 up to life; North Carolina, 2 to 30; North Dakota, 10 to 30; Pennsylvania, not over 20; Tennessee, 10 to 20; Virginia and West Virginia, 5 to 18; Wisconsin, 14 to 25; Wyoming, not less than 20 up to life; Alaska, not less than 5; Hawaii 20 up to life; District of Columbia, not less than 20 up to life.

In Colorado the death sentence is not imposed where the conviction is had on circumstantial evidence on one under 18 years of age. In Delaware the jury may recommend commutation of the death sentence to imprisonment for life. In Delaware killing by husband of man found in adultery with wife is a misdemeanor, not a felony.

Manslaughter may be defined as a killing either unintentionally resulting from the careless or unlawful doing of some otherwise lawful act or from the commission of some unlawful act of comparatively trivial character or intentionally in the heat of passion and without premeditation.

Penalties for manslaughter vary, scarcely any two States fixing precisely the same. Many of the States do not subdivide into first and second. Where there is but the single heading the penalties are as follows: California (not over 10), Connecticut (not over 10 years and fine of $1,000), Delaware (1-10 and $500 to $5,000), Florida (not over 20 or $5,000), Idaho (not over 10), Illinois (any term up to life fixed by the Division of Pardons and Paroles), Indiana (2-21), Iowa (not over 8 and $1,000), Louisiana) not over 20 and $2,000), Maine (not over 20 and $1,000, or both), Maryland (not over 10 or $500), Massachusetts (not over 20), Michigan (15 or not over $1,000), Mississippi (not over 20 and $500), Montana (not over 10), Nebraska (1-10), Nevada (not over 10), New Jersey (not over 10), New Mexico (1-10), North Carolina (4 months to 20 years), Ohio (1-20), Oregon (1-15 and $5,000), Rhode Island (not over 20), South Carolina (2-30), Texas (2-5) Vermont (not less than 1 up to life or $1,000), Virginia (1-15), Washington (not over 20 and fine), Wyoming (1-20), Alaska (1-15), District of Columbia (not over 15, or $1,000, or both). Where two degrees are specified the penalty for manslaughter in the first is: Alabama (1-10), Arizona (not over 10), Arkansas (2-7), Colorado (1-8), Georgia (1-20), Kansas (5-21), Kentucky (2-21), Minnesota (5-20), Missouri (not less than 5), New Hampshire (not over 30), New York (not over 20), North Dakota (5-15), Oklahoma (not less than 4), Pennsylvania (not over 12 and $1,000), South Dakota (not less than 4), Tennessee (2-10), Utah (1-10), West Virginia (1-5), Wisconsin (5-10), Hawaii (10-20), Porto Rico (not over 10). And for second degree: In Alabama (not over 1 and $500), Georgia (1-3), Kansas (3-5), Kentucky (1-6), Minnesota (1-15), Missouri (3-5), New Hampshire (not over 10 or $1,000, or both), New York (not over 15 or $1,000, or both), North Dakota (1-15), Oklahoma (2-4), Pennsylvania (not over 2 and $1,000), South Dakota (2-4), Tennessee (1-15), Utah (not over 1), West Virginia (court fixes penalty), Wisconsin (4-7), Hawaii (5-10), Porto Rico (not over 10).

Assault with Intent to Kill—Under Federal Statutes, assault with intent to kill or to commit a rape is punishable by imprisonment for not more than 20 years, while assault with intent to commit a felony other than murder or rape is punishable by not more than 5 years' imprisonment and a fine of not over $3,000. In Iowa, assault with intent to kill is punishable by 10 years' imprisonment; not over 10 in Kansas, Massachusetts, Missouri, New York and Oklahoma; from 1 to 10, North Dakota, Oregon, Virginia; not less than 10 in Porto Rico; 1 to 14, California, Colorado, Idaho, Illinois, Nevada, Wyoming; 1-20, Maine, Rhode Island and Utah; Alabama (2-20), Arizona (5 up to life), Arkansas (1-21), Connecticut (10-30), Delaware (not over 3), Florida (not over 20), Georgia and Maryland (2-10), Indiana (2-14 and $2,000), Kentucky (1-5), Louisiana (not over 2 and $1,000), Michigan (any term to life or $8,000), Minnesota (5-10 and not over $100), Mississippi (not over 5 or $1,000), Montana (5-10), Nebraska and Texas (2-15), New Hampshire (not over 20), New Jersey (not over 7 or $200, or both); New Mexico (6 months to 3 years or $1,000), North

Carolina (fine or imprisonment, or both), Ohio and Alaska (1-15), Pennsylvania (not over 7 and $1,000), South Dakota (not over 5), Tennessee (3-21), Vermont (not over 10 and $1,000), Washington (not less than 5), West Virginia (2-10), Wisconsin (1-5 or $1,000), Hawaii (not over 5 and a fine), District of Columbia (not over 15). In Texas, an assault with a dagger incurs a double penalty. In Iowa, assault with intent to commit a rape (not more than 20).

Rape—In Federal Courts rape is punishable with death by hanging. While many States have death as the extreme penalty, in few is it the same one. Arkansas and North Carolina (death by electricity), Alabama, Delaware, Kentucky, and Louisiana (hanging), Florida and Mississippi (hanging or life imprisonment), Georgia (hanging or 1-20), Missouri (hanging or not less than 5), Oklahoma (electrical execution or not less than 15), South Carolina (electrical execution or 5-40), Tennessee (electrical execution or not less than 10 to life), Texas (hanging or not less than 5 to life), Virginia (electrical execution or 5-20), West Virginia (hanging or 7-20), District of Columbia (hanging or 5-30). Many of the States do not inflict the death penalty. Arizona (5 to life), California (not over 50), Colorado (3 to life), Connecticut (not over 20), Idaho (not less than 5 to life), Illinois (1-life), Indiana (2-21), Iowa (any term to life), Kansas (5-21). Maine (any term of years), Maryland) hanging or 18 months-21 years), Massachusetts and Michigan (any term to life), Minnesota (7-30), Montana (not less than 5). Nebraska (3-20). Nevada (not less than 20 up to life), New Hampshire (not over 30), New Jersey (not over 15 or $5,000 or both), New Mexico (5-20), New York (10-20), North Dakota (not less than 1), Ohio and Oregon (3-20), Pennsylvania (not over 15 and $1,000), Rhode Island (not less than 10 up to life), South Dakota (not less than 10), Utah and Washington and Porto Rico (not less than 5), Vermont (not over 20 or $2 000. or both), Wisconsin (1-30), Wyoming (not less than 1 up to life), Alaska (3-20), Hawaii (up to life and $1 000). The rape of a daughter, sister or female under 12 is punished in Alaska by life imprisonment. In Indiana rape of female under 12, life imprisonment. In Nevada rape accompanied with extreme violence may be punished by death or imprisonment not less than 20 years in jury's discretion.

Arson—where classified in degrees—though the number and exact definitions of degrees vary greatly —is in general classified with reference to two conditions, first, the character of the building burned, whether a dwelling house or structure likely to contain a human being; and, second, whether the crime is committed by day or night. Thus the most serious offense is the burning of an inhabited dwelling by night, and the least serious, the burning of an uninhabited structure by day. Often intermediate degrees are recognized, such as burning a dwelling by day or an uninhabited building by night. The Federal Statutes for arson in the first degree impose a penalty of not more than 20 years, and for the second degree, not more than 20 years and a fine of not more than $5,000. Some States punish arson in the first degree with death. These are: Alabama (hanging or not less than 10), Delaware (hanging), Louisiana (hanging or 1 to 10), Maryland (hanging or not over 20), Mississippi (hanging or life imprisonment), North Carolina, South Carolina and Virginia (death by electricity), Vermont (any term to 30 years or death by electricity), Hawaii (hanging or life imprisonment). The imprisonment which may be imposed for arson in the first degree takes a wide range—New York (not over 40), Iowa (30), New Hampshire (not over 30), Oklahoma (10-30), Florida and Michigan (any term up to life), Georgia (1 to life), Idaho (2 to life), Illinois (1-20), Indiana (2-21), Kansas (10-21), Kentucky (5-12), Maine (1-20), Minnesota and North Dakota (not less than 10), Nebraska (1-20), New Jersey (not over 15 or $2,000, or both), New Mexico (2-20), Ohio (not over 20), Oregon, West Virginia and Alaska (10-20), Texas (5-20), Utah (2-15), Wisconsin (3-14), Wyoming (1-21), South Dakota and Porto Rico (not less than 10) Arizona and California (not less than 2), Arkansas (2-10), Colorado and District of Columbia (1-10), Connecticut (not over 10), Missouri, Montana and Washington (not less than 5). The penalties for arson in the second degree are as varied as those for the first. In the Federal Courts, nor more than 20 and $5,000. California (1-25), Colorado (not over 2 and $1,000), Delaware (1-10 and $500 to $5,000), Iowa (10-20), Kansas (7-10), Louisiana (1-20), Maine (any term of years), Maryland (2-20), Minnesota (7-15), New Hampshire (not over 20), New Mexico (1-15), New York (not over 25), North Dakota (7-10), Oregon (5-15), Pennsylvania (not over 10 and $2,000), South Dakota (7-10), Tennessee (2-21), Vermont (not over 10 or $1,000) Virginia (5-18), Washington (not over 10 or $5,000), Alaska (5-15), Hawaii (life or any number of years), Alabama and Oklahoma (2-10), Arizona, Idaho, Montana, Utah and Porto Rico (1-10) Arkansas (6 months and fine) Massachusetts and Mississippi (not over 10), Missouri (not less than 3), Nevada (1-3 and fine), South Carolina (in discretion of the court), Wisconsin (3-10).

Burglary—The classification of burglary or house breaking depends on substantially the same elements as those of arson namely the building entered, whether a dwelling or other building, and whether the offence was committed by day or night. Burglary in the first degree is punished in North Carolina by death by electricity, Virginia (electricity or 5-18) Delaware (hanging or not over 14), Florida and Iowa (any term up to life), Maine (any term of years), Massachusetts (life imprisonment or not less than 10), Ohio (life or 5-30), Rhode Island and South Carolina (not less than 5 up to life), Alabama, Georgia and Illinois (1-20), Arkansas, California Idaho, Montana, Alaska and Porto Rico (1-15), Connecticut, Michigan and Hawaii (not over 20) Indiana (10-20), Kansas (10-20), Mississippi (7-15), Nevada and Wyoming (1-14), New Hampshire (not over 30), New Mexico (3-12), Oklahoma (7-20), Oregon, Tennessee and Wisconsin (5-15), Pennsylvania (not over 10 and $10,000), Texas (2-12), Utah (25-40), Vermont (not over 15 or $1,000), District of Columbia (not over 15). West Virginia (2-15), Minnesota, New York, North Dakota, South Dakota (not less than 10) Missouri and Washington (not less than 5), Arkansas (3-7), Colorado and Nebraska (1-10), Kentucky (2-10), Maryland (3-10). Burglary by means of dynamite or other explosives is punished in Colorado by imprisonment from 25 to 40 years; in Wisconsin (15-40), and in Wyoming (not over 20). Quite a number of States have no heading of second degree burglary. These are Alabama, Arkansas, Colorado, Kentucky, Louisiana Maryland Michigan, Nebraska, New Jersey, Rhode Island, South Carolina, West Virginia, and Wyoming, also the District of Columbia. The penalties where it is specified do not show as much variance as in the first degree. Connecticut, Florida, Iowa, Massachusetts (not over 20), Delaware, Georgia and Utah (1-20) Minnesota, Mississippi, New York, North Carolina and Hawaii (not over 10), Maine (1-10). Arizona, California, Idaho, Montana, Nevada and New Hampshire (not over 5), Texas (not less than 5) North Dakota and New Mexico (1-5), Oregon, South Dakota, Tennessee and Virginia (3-10), Indiana (2-14), Kansas (5-10), Missouri (not less than 2), Ohio (1-15), Oklahoma (2-7), Pennsylvania (not over 10 and $500) Vermont (not over 10 or $1,000), Washington (not over 15), Wisconsin (3-8), Alaska (2-5), Porto Rico (not over 2).

Robbery may be generally defined as the theft of property from the person or immediate presence of the victim, accomplished by force or fear. Where degrees of robbery are recognized, the distinction is generally determined by whether the thief be armed or unarmed, though some States also distinguish the second from the first degree, where the theft is accomplished by means of threats of future rather than immediate injury In the following synopsis, degrees are not considered. Federal Statutes fix the penalty for robbery at not more than 15 years. Alabama punishes robbery by death (hanging or not less than 10), Virginia (electrical execution or 5-18), Massachusetts, Michigan and Hawaii (any number of years to life), Maine (any term of years), Idaho, Rhode Island and Texas (5 to life), Oregon and Utah (3 to life), Illinois (1 to life), Oklahoma (not less than 10), New York and South Dakota (10-20), Kansas (10-21), Arizona, Nevada and Washington (not less than 5), North Carolina (5-60), Minnesota (5-20), Tennessee (5-15), Indiana (5-14 and $1,000), West Virginia (5-10), Arkansas (3-21), Nebraska, New Mexico and Wisconsin (3-15), Colorado (3-14). Maryland (3-10), Kentucky and South Carolina (2-10), Georgia and Iowa (2-20), Montana and Porto Rico (1-20), Ohio and Alaska (1-15), Wyoming (1-14), North Dakota (1-10), California (not less than 1), New Hampshire (not over 30), Vermont (not over 20 and $1,000), Florida (not over 20), New Jersey (not over 15 or $1,000, or both), Louisiana (not over 14), Delaware (not over 12), Connecticut (not over 7),

Pennsylvania (not over 5 and $1,000), District of Columbia (6 months to 15 years). In Nevada train robbery and in Texas robbery by means of deadly weapons may be punished with death. Train robberies in Territories are punishable by imprisonment not more than 20 years and a fine of not more than $5,000.

Grand Larceny is simply theft of property above a fixed value, generally $25 to $50—more States also classify as grand larceny theft of property from the person of the victim, irrespective of value, though, of course, accomplished without the force or fear which constitutes the crime of robbery. In the Federal Courts, grand larceny is punishable by not more than 10 years' imprisonment and a fine of not more than $10,000. Wisconsin (1-25), Alabama and Georgia (1-20), Maryland (1-15), Idaho, Indiana, Montana and Nevada (1-14), New Mexico, Oregon, Utah, Virginia, Alaska, Porto Rico and District of Columbia (1-10), Tennessee, Texas and West Virginia (2-10), Nebraska and Ohio (1-7), Arkansas, Kentucky, Maine and North Dakota (1-5), Hawaii (not over 20), Washington (not over 15), Louisiana, New York, North Carolina and Wyoming (not over 10), Kansas and Missouri (not over 7). New Jersey (not over 7 or $2,000, or both), Connecticut, Iowa, Massachusetts, Mississippi, New Hampshire, Oklahoma and South Dakota (not over 5), Florida and Rhode Island (not over 5 or $1,000), Michigan (not over 5 or $5,000), Pennsylvania (3 and $500), Delaware (not over 3), South Carolina (3 months to 10 years). Special penalties are imposed in certain States for horse and cattle stealing. In California taking horses, cattle, mules, etc., is grand larceny, irrespective of value; in Arkansas for stealing horse or mule (1-15); in Missouri and New Hampshire, larceny of horse or cattle (not over 7); in Texas horse theft (5-10); in Georgia there are various grades of larceny of horses, cattle, etc. In Connecticut the punishment for larceny of over $2,000 (not over 20). In North Carolina habitual offenders receive longer terms.

Forgery in general means the false making, imitating or counterfeiting or alteration of a genuine signature or written instrument. There are numerous Federal Statutes defining and imposing penalties for alteration of public records and documents. These do not come within the purview of this synopsis, being no one general classification. Counterfeiting is punished by imprisonment of not more than 15 years and a fine of not more than $5,000. There is some uniformity but not a great deal in the various State penalties for forgery. North Dakota (not less than 10), North Carolina (4 months to 10 years), Oklahoma (7-20), Kentucky (5-15), Tennessee (3-15), Arkansas (2-21), Oregon and Alaska (2-20), Mississippi and New Mexico (2-15), Indiana (2-14 or $1,000), Alabama, Georgia and West Virginia (2-10), Texas (2-7), Nebraska, Ohio and Utah (1-20), Montana (1-15), Nevada and Wyoming (1-14), Maryland, Virginia, Porto Rico and District of Columbia (1-10), Wisconsin (1-7), South Carolina (1-7), Kansas (not over 21), Minnesota, New York and Washington (not over 20), Michigan (not over 14), Florida, Iowa, Maine, Massachusetts, Missouri, South Dakota (not over 10), Pennsylvania and Vermont (not over $1,000), Rhode Island (not over 10, or $1,000, or both), Hawaii (not over 10 and $500), New Hampshire (not over 7), New Jersey (not over 7 or $2,000, or both), Connecticut (not over 5). In Iowa changing plate numbers on autos is classified as forgery

Bigamy—A person who, having a husband or wife living, marries another, is guilty of bigamy. Under Federal Statutes, polygamy (or bigamy) in the Territories is punished by imprisonment for not more than 5 years and a fine of not more than $500. Five years' imprisonment is the most general maximum penalty in the States for bigamy and fines are quite commonly imposed. Some of the States, however, have a more severe extreme penalty and some a lesser maximum. Kentucky (3-9), Virginia (3-8), Tennessee (2-21), Arkansas (3-7), New Mexico and District of Columbia (2-7), Alabama and Texas (2-5), Indiana (2-5 or $1,000), Georgia (1-10), Nebraska, Ohio and Alaska (1-7), North Dakota, West Virginia and Wyoming (1-5), Illinois, Nevada and Rhode Island (1-5 and $1,000), Louisiana (1-5 and $500), Wisconsin (1-5 and fine), Oregon (1-4), Mississippi (not over 10), California (not over 10 and $5,000), Arizona (not over 10 and $2,000), New Jersey (not over 10 or $1,000, or both), Delaware (not over 6 and $2,000), Connecticut, Iowa, Kansas, Massachusetts, Missouri, New York, Oklahoma, South Dakota and Washington (not over 5), Idaho (not over 5 and $2 000), Minnesota and Vermont (not over 5 and $1,000), Florida, Maine, Michigan and Utah (not over 5 or $500), Porto Rico (not over 3 or $2,000), Montana (not over 3 and $1,000) New Hampshire (not over 3 and $500), Pennsylvania (not over 2 and $1,000), Hawaii (not over 2 or $500).

Perjury under the various State codes usually means false testimony on a material point given in an action or proceeding at law. The following are the penalties imposed in accordance with this usual definition. In the Federal Courts (not more than 5 and not more than $2,000), Iowa (10 up to life), Oklahoma (5-20), Georgia (4-10), Ohio and Oregon (3-10), Indiana (2-21 or $50 and $1,000), Minnesota, Texas and District of Columbia (2-10), Wisconsin (2-5), South Dakota (1-20), Arkansas and Tennessee (1-15), Arizona, California, Colorado, Idaho, Illinois, Montana, Nebraska, Nevada and Wyoming (1-14), North Dakota Utah, Alaska and Porto Rico (1-10), New Mexico (1-7), Kentucky (1-5), West Virginia (1 year and $1,000), North Carolina (4 months to 10 years), Florida, New Hampshire, Massachusetts Rhode Island and Hawaii (not over 20), Michigan and Washington (not over 15), Vermont (not over 15 and $1,000), Maine, Maryland, Mississippi and New York (not over 10), Delaware (not over 10 and $2,000), Kansas, Missouri and South Carolina (not over 7), New Jersey (not over 7 or $2,000, or both), Pennsylvania (not over 7 and $500), Connecticut and Louisiana (not over 5), Virginia (not over 1 and $1,000). In many of the States severer penalties than those given above are imposed, varying with the character of the action or the results of the false testimony. Thus in Colorado and Texas perjury which causes conviction in a capital case is punished by death. In capital cases, irrespective of results, the penalty is: In Alaska (2-20), Oregon (5-20), Kansas (not less than 7), Maine, Mississippi and Missouri (not less than 10), Massachusetts and Michigan (any term up to life), Wisconsin (3-15). In cases of felony not necessarily capital: Alabama (3-20), New York (not more than 20), North Dakota (not less than 10), Virginia (2-10), West Virginia (1-10).

Where crimes are divided into several degrees, it is generally within the province of the jury, in convicting, to fix the degree of the crime, and in almost every case in which a crime is punishable by death or imprisonment it is the province of the jury to determine the punishment, except upon a plea of guilty, when the duty devolves upon the court.

NOTE—Figures in parentheses are years. Money figures are maximum.

PENALTIES FOR USURY.

Penalties for usury differ in various States. California, misdemeanor with jail term, $500 fine or both; Colorado, Maine, Massachusetts (except on loans of less than $1,000), have no provisions on the subject. Loss of *principal and interest* is the penalty in Arkansas and New York. Loss of principal in Delaware and Oregon.

Loss of interest in Alabama, Arizona, District of Columbia, Florida, Idaho, Illinois, Iowa, Louisiana, Michigan, Minnesota, Mississippi, Nebraska, New Jersey, North Carolina (double amount if paid), North Dakota (double amount if paid), Porto Rico, South Carolina, South Dakota, Virginia, Washington (double amount if paid), Wisconsin, Hawaii, and Wyoming. In Alaska, Montana, Oklahoma, Texas, Vermont, double the amount of interest collected.

Loss of excess of interest in Connecticut, Georgia, Indiana, Kansas, Kentucky, Maryland, Missouri, Nevada, New Hampshire (three times), Ohio, Pennsylvania, Tennessee, Vermont and West Virginia. Loss of principal and interest in Rhode Island, also fine or imprisonment. In New Mexico, fine and forfeiture of double amount collected.

By the Federal act No. 103, the period of military service is to be excluded from the computation of time limited for the bringing of an action by or against persons in the service. This applies to all the courts, Federal, State or district, in the country, and to causes of action accruing prior to or during the service and to limitations established before or after the passage of the act.

ADMINISTRATION OF DECEASED PERSONS' ESTATES.

THESE statutes have been revised for THE ALMANAC by one of the largest law firms in New York City making a specialty in their practice of the inheritance laws. All the data has been carefully brought up to date.

INHERITANCE TAX LAWS.

The following is a synopsis of several of the laws of the various States affecting the administration of the estate of a deceased person:

1. Who to Administer.—(a) If the deceased leaves a will, the duty of administration falls upon the executor. If no executor is named, or in the event of the death or refusal of the executor to act, the Court will grant administration under the will to some suitable person, generally selected from those most largely interested under the provisions of the will, such as the residuary legatees, if any. (b) If the deceased died intestate, letters of administration are granted to the following persons in practically all the States:

First—To the surviving husband or widow.

Second—To one or more of the next of kin entitled to share in the estate.

Third—If none of the above consent to act, to one of the creditors of the estate, except in localities where there is provided by law a Public Administrator, who is preferred to creditors.

In practically all the States an administrator is required to give bond for the faithful performance of his duties in double the value of the estate to be administered.

In most of the States, if so provided by the will, no bond is required of an executor, except that in some States an executor is required to give a bond to cover the probable amount of the debts of the estate, and in practically all the States, in the discretion of the Court, for cause shown, an executor may be required to give a bond.

2. Claims of Creditors.—The procedure in the several States in presenting creditors' claims against the estate varies very considerably. In the majority of the States the executor or administrator is required promptly to give public notice to creditors to present their claims to him, and the creditors are required so to present their claims supported by an affidavit that the same are justly due and owing from the estate, above any offsets or counter claims, within a period limited generally to six months or a year. The law of each State should be consulted for more specific details. Most of the States direct a final closing of the estate by the executor or administrator within a year or eighteen months after his appointment, though the time limit may be extended by the Probate Court if conditions require it.

3. The following table contains an analysis of the laws of the several States, covering:

(1) The inheritance or succession tax upon property received either by intestate laws, last will, or by gift or transfer, designed to take effect at death, excepting legacies for religious, charitable or educational purposes, which are tax exempt in most of the States. In the great majority of the States no distinction as to tax is made between real estate and personal property.

(2) The various classes of estate obligations given priority over other claims in case of the insolvency of the estate.

STATE.	Inheritance Tax.	Preferred Obligations.
Alabama.....	None.	1. Funeral expenses. 2. Administration expenses. 3. Expenses of last sickness. 4. Taxes. 5. Wages of servants or employes.
Arizona.....	To grandfather, grandmother, parents, husband, wife, child, brother, sister, son-in-law, or daughter-in-law, lineal descendant, or adopted child, 1%; $5,000 exempt to each beneficiary above named. Estates less than $10,000 exempt. To uncle, aunt, nephew, niece or descendant thereof, 2%; $2,000 exempt to each beneficiary named. Estate less than $5,000 exempt. To others, 3% up to $10,000; 4% from $10,000 to $20,000; 5% from $20,000 to $50,000; 6% above $50,000. $500 exempt.	No statutory provision.

Alaska.—Up to $15,000—to wife or lineal issue, 1%; to husband or lineal ancestor, 1½%; brother or sister or descendant of such; wife or widow of son or husband of daughter, 3%; brother or sister of father or mother, or descendant of such, 4%; other collaterals, or strangers, or body politic or corporate, 5% (these are known as "primary" rates); on $15,000 to $30,000, double primary rates; $30,000 to $50,000, two and one-half times; $50,000 to $100,000, three times; over $100,000, three and one-half times. Exemption of $10,000 to widow, husband, lineal issue (including adopted children); exemption to lineal ancestors, $3,000; and to collaterals, $1,000; charitable transfers to hospitals, schools, etc., up to $2,500 exempt.

Arkansas.....	On amounts not exceeding $5,000 the rate is 1% to parents, husband or wife, child or adopted child, lineal descendant, brother, sister, son-in-law or daughter-in-law. To all others the rate on the same amount is 3%. $3,000 passing to widow or minor child and $1,000 passing to the other immediate relatives mentioned is exempt. The exemption to others more remote is $500. On amounts in excess of $5,000 the primary rates (1% and 3% respectively) are increased as follows: From $5,000 to $10,000, twice the primary rates; from $10,000 to $30,000, 3 times the primary rates; from $30,000 to $50,000, 4 times; $50,000 to $100,000, 5 times; $100,000 to $500,000, 6 times; $500,000 to $1,000,000, 7 times; above $1,000,000, 8 times.	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages of servants. 4. Judgments which are liens on land of deceased.
California.....	(a) To husband, wife, descendants, ancestors, adopted children or issue thereof, 1% up to $25,000; 2% from $25,000 to $50,000; 4% from $50,000 to $100,000; 7%, $100,000 to $200,000; 10%, $200,000 to $500,000; 12%, $500,000 to	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages due within sixty days. 4. Debts preferred by U. S. laws.

STATE.	Inheritance Tax.	Preferred Obligations.
California..... *Continued.*	$1,000,000; 15% above $1,000,000. $24,000 is exempt to widow or minor child; to others in this paragraph $10,000 is exempt. (b) To brothers, sisters, or their descendants, or to a son-in-law or daughter-in-law 3% up to $25,000; upon the increasing amounts in the preceding paragraph the rates are 6%, 9%, 12%, 15%, 20%, and 25%. $2,000 exempt from tax. (c) To uncles, aunts, or their descendants, 4% up to $25,000; upon the same increasing amounts the rates are 8%, 10%, 15%, 20%, 25%, and 30%. $1,000 exemption. (d) To others more remote in blood, 5% up to $25,000; the rates increase as above up to $500,000 as follows: 10%, 15%, 20%, and 25%, above $500,000 the rate is 30%. $500 exemption.	5. Judgments, mortgages and other liens.
Colorado.....	To parents, husband or wife, child or descendant, brother, sister, son- or daughter-in-law, or adopted child, $10,000 exempt. Rates on excess 2% up to $100,000; 3%, $100,000 to $200,000; 4%, above $200,000. To uncle, aunt, nephew, niece or their descendants, $500 exempt. Rates on excess 3% up to $20,000; 4%, $20,000 to $50,000; 5%, $50,000 to $100,000; 6%, above $100,000. To all others above $500: On $500 to $10,000, tax is 3%; $10,000 to $20,000, 4%; $20,000 to $50,000, 5%; $50,000 to $500,000, 6%; above $500,000, 10%.	1. Moneys held in a fiduciary capacity. 2. Administration expenses. 3. Expenses for funeral and last sickness. 4. Allowances to widow and orphans.
Connecticut....	To husband, wife, parent, grandparents, descendants, adopted parent, adopted child or its descendants, 1%, $10,000 to $50,000; 2%, $50,000 to $250,000; 3%, $250,000 to $1,000,000; 4% above $1,000,000. To brothers, sisters, or their descendants, stepchild, son-in-law or daughter-in-law, 3%, $3,000 to $25,000; 5%, $25,000 to $50,000; 6%, $50,000 to $250,000; 7%, $250,000 to $1,000,000; 8% above $1,000,000. To others more remote in blood, 5%, $500 to $50,000; 6%, $50,000 to $250,000; 7%, $250,000 to $1,000,000; 8% above $1,000,000.	1. Funeral and administration expenses. 2. Expenses of last sickness. 3. Utah.....	$10,000 of each estate exempt; tax 3%, $10,000 to $25,000; 5% above $25,000.	1. Funeral expenses. 2. Expenses of last sickness and administration. 3. Wages up to $100. 4. Debts preferred by U. S. or State laws. 5. Debts secured by liens.
Vermont.....	Exempt to parents, husband or wife, lineal descendants, stepchild, adopted child, or lineal descendant thereof, wife or widow of son, husband of daughter. To all others, 5%.	1. Funeral expenses. 2. Headstone not over $25. 3. Expenses of last sickness. 4. Taxes. 5. Debts due to State. 6. Debts due to U. S. 7. Wages within 3 months, not over $50 per creditor.
Virginia.....	On amounts not exceeding $50,000 the primary rates are: (a) To grandparent, parent, husband or wife, child, descendant, brother or sister, 1%. $15,000 exempt. (b) To others more remote, 5%. On larger amounts the primary rates are multiplied as follows: (1) from $50,000 to $250,000, twice; (2) $250,000 to $1,000,000, 3 times; (3) above $1,000,000, 4 times.	1. Funeral and administration expenses. 2. Expenses of last sickness, not exceeding $50, doctor or druggist. 3. Taxes. 4. Money owing as trustee or in fiduciary capacity.
Washington....	To parents, husband or wife, lineal descendant, adopted child or its descendants, $10,000 exempt. Rates on excess are: 1% up to $50,000; 2%, $50,000 to $100,000; 3% $100,000 to $250,000; 5% above $250,000. To brother, sister, uncle, aunt, nephew or niece, no exemption, the rates on the amounts stated are: 3%, 5%, 7% and 9%. To others more remote, the rates on the same amounts are: 6%, 9%, 12% and 15%.	1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred by U. S. laws. 4. Wages, within ninety days. 5. Taxes. 6. Judgments and mortgages which are liens on land.
West Virginia...	To lineal ancestor, husband, wife, descendant, the rate is 1% on amounts up to $25,000; $25,000 to $50,000, 1½%; $50,000 to $100,000, 2%; $100,000 to $500,000, 2½%; above $500,000, 3%. Exempt up to $10,000, except in case of widow, where $15,000 is exempt. To brother or sister the rate is 3% up to $25,000, and for the varying amounts stated above the rates are 4½%, 6%, 7½% and 9%. To others more remote the rates are 5%, 7½%, 10%, 12½% and 15%.	1. Funeral and administration expenses. 2. Debts owing to U. S. 3. Taxes. 4. Fiduciary obligations
Wisconsin	(1) Tax of 1% to husband, wife, lineal descendants, lineal ancestors, adopted child, and lineal issue thereof. (2) To brothers, sisters and their descendants, wife or widow of son, or husband of daughter, 1½%. (3) To uncles, aunts or their descendants, 3%. (4) To great-uncles, great-aunts and their descendants, 4%. (5) To all others, 5%. When the estate is above $25,000 the above rates are multiplied as follows: $25,000 to $50,000, 1¼ times on excess; $50,000 to $100,000, 2 times on excess; $100,000 to $500,000, 2½ times on excess; above $500,000, 3 times on excess. Exempt $10,000 to widow and lesser amounts to other relatives, down to $100 exemptions to strangers in blood.	1. Last sickness and funeral expenses. 2. Debts preferred by U. S. laws.
Wyoming.....	Tax of 2% on amount above $10,000 to parents, husband or wife, child, brother, sister, lineal descendants, wife or widow of son, husband of daughter, adopted or acknowledged child for ten years. To others than above, tax of 5%; $500 exempt.	1. Funeral and administration expenses. 2. Expenses of last sickness and sixty days' wages, including medical attendance and medicines. 3. Judgments and mortgages. 4. All claims presented within six months. 5. All claims presented within one yr.
United States...	The Federal Tax is imposed on the estate as a whole, not on the shares of the several legatees, irrespective of the relationship of the beneficiaries to the decedent. $50,000 of each estate is exempt from tax. The rates on the excess are as follows: Not exceeding $50,000, 1%; $50,000 to $150,000, 2%; $150,000 to $250,000, 3%; $250,000 to $450,000, 4%; $450,000 to $750,000, 6%; $750,000 to $1,000,000, 8%; $1,000,000 to $1,500,000, 10%; $1,500,000 to $2,000,000, 12%; $2,000,000 to $3,000,000, 14%; $3,000,000 to $4,000,000, 16%; $4,000,000 to $5,000,000, 18%; $5,000,000 to $8,000,000, 20%; $8,000,000 to $10,000,000, 22%; exceeding $10,000,000, 25%.	

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE.

THE following is a synopsis of the laws of the various States providing for the distribution of the personal estate of a deceased after the payment of funeral expenses and other debts where there is no will:

In many of the States the widow and children are entitled to receive a small portion of the estate, generally varying from $100 to $500, before the claims of creditors are paid. Aside from such exempt portion of the estate the property to be distributed to the widow or relatives is that remaining after all creditors' claims have been satisfied.

The following is the plan of distribution of a male's property. The same rules apply to a female's estate, except in some States, where the rights of a husband in the estate of his deceased wife differ.

I. In all States where the deceased leaves a child or children, or descendants of any deceased child, and no widow, the children or descendants take the entire estate, to the exclusion of all other relatives. The children take equal shares, and in most States the descendants of a deceased child together take the share of their parent, except where the descendants are all in equal degree to the deceased (all grandchildren, no children surviving), when they share equally and do not take their proportionate share of their parent's interest.

No statement is given in this synopsis of the law of Louisiana, which, being founded on the provisions of the French code and Roman law instead of the English common law, which is the underlying principle in the other States, differs in many respects from the principles followed in the other States, especially on the question of the rights of a husband and wife in each other's property and in the property acquired by the husband and wife during their married life. The provisions of the law of Indiana are also not included, for the reason that for an accurate statement of its provisions a reading of the entire statute is necessary, together with the decisions of the Indiana courts construing its provisions, which would occupy too much space for a statement here.

II. (a) If deceased leaves a widow, and no children or descendants, the widow takes all. This is the rule in Alabama, Arizona, Colorado, Florida, Georgia, Illinois, Kansas, Minnesota, Mississippi, New Jersey, New Mexico, Ohio, Oregon, Tennessee, Texas, Washington, West Virginia and Wisconsin.

(b) In the following States the widow takes one-half, the residue being taken by the other relatives in the manner and proportion in which they take the entire estate when the deceased leaves neither widow nor descendants (given below): Arkansas, California, Delaware, District of Columbia, Idaho, Iowa, Kentucky, Maine Maryland, Missouri, Montana, Nebraska, Nevada, North Carolina, Oklahoma, Rhode Island, Texas, Washington, West Virginia and Wisconsin. In Delaware the widow takes all up to $3,000 and one-half after that. If no kin, widow takes all.

(c) In Massachusetts, North Dakota, Pennsylvania and Utah the widow takes the entire estate up to $5,000 and one-half of the residue.

(d) In Connecticut the widow takes the entire estate up to $2,000 and one-half of the residue.

(e) In New York, if there be a father or mother of deceased surviving, the widow takes one-half; if there be no father or mother, but a brother or sister, nephew or niece surviving, the widow takes $2,000 and one-half residue; if there be no parent, brother, sister, nephew or niece, the widow takes all. The residue after the widow's share passes in each case in accordance with the provisions applying where no widow or issue survive.

(f) In New Hampshire the widow takes $1,500, and, if the estate exceeds $3,000, one-half of the residue.

(g) In Wyoming (the widow takes the entire estate up to $20,000 and three-fourths of the residue (if brother, sister or parent survive otherwise all to widow).

(h) In Michigan the widow takes the entire estate up to $3,000 and one-half of the residue (if brother, sister or parent survive, otherwise all to widow)

(i) In Vermont the widow takes entire estate if not exceeding $2,500; if more than $2,500, widow takes that sum and one-half of residue.

III. (a) When the deceased leaves a widow and children, or descendants, the widow takes one-third and the children share equally in the residue in the following States: Arizona, Arkansas, Connecticut, Delaware, District of Columbia, Illinois, Iowa, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey New York, Ohio (one-half if less than $400), Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia and West Virginia.

(b) In the following States, if there be but one child, the widow takes one-half and the child one-half; if two or more children or their descendants, the widow takes one-third, as above, and the children or their descendants the residue: California, Florida, Idaho Michigan, Montana, Nevada, North Dakota, Oklahoma, South Dakota and Utah.

(c) In the following States the widow takes one-half and the children, or descendants, the residue: Colorado, Kansas, Kentucky Oregon, Washington and Wyoming.

(d) In the following States the widow takes the same share as each of the children: Mississippi, Missouri, Tennessee and Wisconsin.

(e) In North Carolina, if there are less than three children, the widow takes one-third and the children the residue; if there are three or more children, the widow takes the same share as each of the children.

(f) In Alabama, if there is but one child, the widow takes one-half and the child one-half; if there are more than one child and less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

(g) In Georgia, if there are less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

In Nebraska if widow is not the parent of all the children of the deceased and there be more than one child, widow takes one-fourth and children the residue. If widow is parent of all children of the deceased, she takes one-half if there be but one child and the child the residue; if there be more than one child the widow takes one-third and the children the residue.

(h) In New Mexico, the widow takes one-half of the estate acquired during marriage, otherwise than by gift (by purchase, for example) and the children or their descendants share equally in the residue; the widow also takes one-fourth of the estate acquired before marriage, or by gift or legacy during marriage, the children or their descendants taking the residue.

IV. (a) When the deceased leaves no widow, children or descendants, the parents take the entire estate in equal shares in the following States: Alabama, Arizona, California, Colorado, Connecticut, Idaho, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, New Hampshire, North Carolina, Oklahoma, Pennsylvania, Texas, Utah, Vermont, Washington, Wisconsin and Wyoming.

In all of the States just mentioned, except Alabama, Arizona, Maine, and Texas, if one parent is dead, the surviving parent takes the entire estate, to the exclusion of brothers and sisters. In Alabama, Arizona, Maine, and Texas the surviving parent takes one-half and the brothers and sisters, or their descendants, take the residue.

In all of them, if both parents are dead, the brothers and sisters and their descendants take the entire estate.

(b) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother and brothers and sisters, or their descendants equally; and if both parents are dead, then to the brothers and sisters, or their descendants: Florida, New York, Oregon, Rhode Island, South Dakota, Tennessee, Virginia, and West Virginia.

(c) In the following States the father, if living, takes the entire estate; if the father is dead, then to

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE—*Continued.*

the mother, and if both parents are dead, then to the brothers and sisters of their descendants: Arkansas, District of Columbia and North Dakota.

(d) In the following States the parents, if living, and the brothers and sisters, or their descendants, take the entire estate, sharing equally: Georgia, Illinois, Mississippi, Missouri, New Jersey and South Carolina.

(e) In Delaware, Ohio and Maryland (where the property did not descend to intestate from either parent), the brothers and sisters, or their descendants, take the entire estate in preference to the parents, who only inherit if there are no brothers or sisters or lawful issue of any deceased brothers or sisters.

DISTRIBUTION OF FEMALE'S ESTATE.

In the following States, if the deceased was a married woman, the rights of her surviving husband in her personal estate differ from the rights of a widow in the estate of her deceased husband as shown in the above synopsis.

(a) In Delaware, District of Columbia North Carolina, Rhode Island, and Virginia the husband takes the entire personal estate, whether there is any issue of the marriage or not.

(b) In New York, the husband takes the same distributing share as a widow would take.

(c) In Florida, Georgia and Pennsylvania, if there are no children or descendants, the husband takes the entire estate; if there are children, the husband takes the same share as each child.

(d) In Ohio the husband takes the entire estate if there are no children or descendants; if there are children or descendants, they take the entire estate.

(e) In Alabama the husband takes one-half of the estate, the children, or descendants taking the residue.

(f) In North Carolina where surviving husband is not also the father of all the children of decedent, if there be one child the husband takes one-half and the child one-half, if there be more than one child, husband takes child's share.

ACKNOWLEDGMENT OF DEEDS.

AN ACKNOWLEDGMENT is the act of declaring the execution of an instrument before an officer authorized to certify to such declaration. The officer certifies to the fact of such declaration, and to his knowledge of the person so declaring. Conveyances or deeds of land to be entitled to be recorded must first be acknowledged before a proper officer Most of the States have forms of acknowledgments, which should be followed.

Acknowledgments may be taken in general by Notaries Public Justices of the Peace, Judges or Clerks of Courts of the higher grades, Registers Masters in Chancery Court Commissioners, Town Clerks, Mayors and Clerks of incorporated cities, within their respective jurisdictions.

The requisites to a valid deed are the same in general as other contracts, but the appointment of an attorney to execute a deed for another person must in general be executed with the same formalities requisite to the deed itself.

SEALS or their equivalent (or whatever is intended as such) are necessary in Alaska, Connecticut, Delaware, District of Columbia, Florida, Idaho Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina Vermont, Virginia, West Virginia, Wisconsin, Wyoming. In almost all the States deeds by corporations must be under seal. FORMS are prescribed or indicated by the statutes of most of the States except Connecticut, Florida, Louisiana. SEPARATE ACKNOWLEDGMENT by wife is required in Alaska, Arkansas, Delaware, District of Columbia, Florida Georgia Idaho Kentucky, Louisiana, Montana, Nevada, New Jersey, North Carolina, Oregon, Pennsylvania, South Carolina Tennessee, Texas. ONE WITNESS to the execution of deeds is required in District of Columbia. Maine (customary), Maryland, Nebraska, New Jersey (usual), Oklahoma, Utah, Wyoming. TWO WITNESSES to the execution of deeds are required in Arkansas, Connecticut, Florida, Georgia, Louisiana Michigan, Minnesota, New Hampshire, Ohio, Oregon, South Carolina Texas Vermont, Wisconsin

PROMISSORY NOTES AND CHECKS.

Negotiable instruments, the common forms of which are promissory notes, checks, or other bills of exchange, while having the same general requisites as other contracts, have certain distinct features. The purpose of the law is to facilitate as much as possible their free passing from hand to hand like currency. The assignment of an ordinary contract leaves the assignee in no different position for enforcing his rights than that of his assignor, but one who takes a negotiable instrument from a prior holder, without knowledge of any defences to it, before its maturity, and gives value for it, holds it free of any defences which might have been set up against his predecessors, except those defects that were inherent in the instrument itself

To be negotiable an instrument must be in writing and signed by the maker (of a note) or drawer (of a bill or check).

It must contain an unconditional promise or order to pay a sum certain in money.

Must be payable on demand, or at a fixed future time.

Must be payable to order or to bearer.

In a bill of exchange (check) the party directed to pay must be reasonably certain.

Every negotiable instrument is presumed to have been issued for a valuable consideration, and want of consideration in the creation of the instrument is not a defence against a bona-fide holder.

An instrument is negotiated that is completely transferred, so as to vest title in the purchaser, if payable to bearer, or indorsed simply with the name of the last holder, by mere delivery, if payable to order by the indorsement of the party to whom it is payable and delivery.

One who transfers an instrument by indorsement warrants to every subsequent holder that the instrument is genuine, that he has title to it, and that if not paid by the party primarily liable at maturity, he will pay it upon receiving due notice of non-payment.

To hold an indorser liable-the holder upon its non-payment at maturity must give prompt notice of such non-payment to the indorser and that the holder looks to the indorser for payment. Such notice should be sent within twenty-four hours.

When an indorser is thus compelled to pay he may hold prior parties through whom he received the instrument liable to him by sending them prompt notice of non-payment upon receiving such notice from the holder.

One who transfers a negotiable instrument by delivery, without indorsing it, simply warrants that the instrument is genuine, that he has title to it, and knows of no defence to it, but does not agree to pay it if unpaid at maturity

The maker of a note is liable to pay it if unpaid at maturity without any notice from the holder or indorser.

Notice to one of several partners is sufficient notice to all.

When a check is certified by a bank the bank becomes primarily liable to pay it without notice of its non-payment, and when the holder of a check thus obtains its certification by the bank, the drawer of the check and previous indorsers are released from liability, and the holder looks to the bank for payment.

A bona-fide holder of a negotiable instrument, that is, a party who takes an instrument regular on its face, before its maturity, pays value for it and has no knowledge of any defences to it, is entitled to

hold the party primarily liable responsible for its payment, despite any defences he may have against the party to whom he gave it, except such as rendered the instrument void in its inception. Thus, if the maker of a note received no value for it, or was induced to issue it through fraud or imposition, they do not defeat the right of a bona-fide holder to compel its payment from him.

The following States have enacted a similar Negotiable Instrument Law: Alabama, Arizona, Colorado, Connecticut, Dist. of Columbia, Florida, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maryland, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, Tennessee, Utah, Virginia, Washington, and Wisconsin—and the same general rules apply in all the States.

LAW OF CONTRACTS.

A contract is an agreement of two or more parties by which reciprocal rights and obligations are created. One party acquires a right enforceable at law, to some act or forbearance from the other, who is under a corresponding obligation to thus act or forbear.

Generally speaking, all contracts which are made between two competent parties, for a proper consideration, without fraud and for a lawful purpose, are enforceable at law

To the creation of a valid contract there must be:

1. Precise agreement. The offer of one party must be met by an acceptance by the other, according to the terms offered

2. There must be a consideration. Something of value must either be received by one party or given up by the other

3. The parties must have capacity to contract. The contracts of insane persons are not binding upon them. Married women are now generally permitted to contract as though single, and bind their separate property. The contracts of an infant are generally not binding upon him unless ratified after attaining his majority. The contracts of an infant for "necessaries" may be enforced against him to the extent of the reasonable value of the goods furnished It is incumbent upon one seeking thus to hold an infant to show that the goods furnished were in fact necessary to the infant, and that he was not already supplied by his parents or guardians.

4. The party s consent must not be the result of fraud or imposition, or it may be avoided by the party imposed upon.

5. The purpose of the parties must be lawful. Agreements to defraud others, to violate statutes, or whose aim is against public policy, such as to create monopolies or for the corrupt procurement of legislative or official action, are void, and cannot be enforced by any party thereto.

Contracts in general are equally valid whether made orally or in writing, with the exception of certain classes of contracts, which in most of the States are required to be attested by a note or memorandum in writing, signed by the party or his agent sought to be held liable Some of the provisions, which are adopted from the old **English Statute of Frauds**, vary in some States, but the following contracts very generally are required to be thus attested by some writing:

Contracts by their terms not to be performed within a year from the making thereof

A promise to answer for the debt, default, or miscarriage of another person.

Contracts made in consideration of marriage except mutual promises to marry

Promise of an executor or administrator to pay debts of deceased out of his own property.

Contracts for the creation of any interest or estate in land, with the exception of leases for a short term, generally one year.

Contracts for the sale of goods above a certain value unless a portion of the price is paid or part of the goods delivered. The required value of the goods sold varies in different States from $30 to $200. In a number of the States no such provision exists.

In many of the States, declarations or conveyances of trust estates.

In many States, representations as to the character credit, or responsibility of another person.

Partial performance of the contract is generally held to dispense with the necessity for a writing.

If the damages liable to result from the breaking of a contract are uncertain the parties may agree upon a sum to which either may be entitled as compensation for a breach which will be upheld by the courts, but if the sum so fixed is not designed as a fair compensation to the party injured, but as a penalty to be inflicted, it will be disregarded.

A party is generally excused for the failure to perform what he has agreed only by the act of God or the public enemy, except in cases involving a personal element in the work to be performed, such as the rendition of services, when the death or sickness of the party contracting to perform them is a valid excuse, or contracts for the performance of work upon a specified object, when its destruction without the fault of the party sought to be held liable is a sufficient excuse

ARREST IN CIVIL ACTION.

WHILE imprisonment for debt as it formerly existed in English and American law, by which a debtor might be arrested and imprisoned for mere inability to pay his creditor, no longer exists in the United States, the statutes of the majority of the States provide for the arrest of a defendant in a civil action under varying conditions. A large number of States determine the right of arrest by the character of the claim on which suit is brought, allowing in it actions for fraud or the injuries known in the law as "torts," such as an injury to the person or property, conversion or embezzlement, libel, slander, or the like.

In the following States no civil arrest is allowed Arizona, District of Columbia, Florida, Maryland, Minnesota, Mississippi, Missouri, Nebraska, New Mexico Tennessee, and Texas.

In the following States the right to arrest depends upon the nature of claim in suit: In actions for fraud or torts, Connecticut; for fraud, libel, slander, or violent injury to person or property, Delaware, for fraud only, Iowa and Kansas; only after verdict of jury, finding malice, fraud, or wilful deceit, Colorado; for torts, breach of promise to marry, misconduct or embezzlement in office or professional capacity, Michigan, Pennsylvania, and New York (also for fine or penalty or to recover property concealed from Sheriff).

In the following States arrest is only allowed against a defendant about to remove from State or about to conceal, transfer, or remove his property to avoid plaintiff s claim or defraud creditors, irrespective of the nature of the claim: Indiana, Kentucky Louisiana, New Hampshire, Utah, Virginia. In New Hampshire tax collector may also arrest person for non-payment of poll tax if not sufficient property upon which to make distress.

In the following States arrest is allowed in contract actions where the defendant is about to depart from the State or conceal or remove his property, and also in actions for fraud or torts of various kinds, though the provisions are not identical. Arkansas (fraud only) California, Idaho, Illinois, Maine, Massachusetts, Montana, Nevada, New Jersey North Carolina North Dakota Oregon, South Carolina, South Dakota, Vermont, Washington, West Virginia (fraud only), Wisconsin

In Georgia arrest only allowed against attorneys, Sheriffs or other officers of the court for failure to pay over money collected, and in certain circumstances against defendant who conceals property from Sheriff. The drawer of a check on which, on presentation to the bank, payment is refused is guilty of a mis-

ARREST IN CIVIL ACTION—*Continued.*

demeanor. Criminal prosecution cannot be instituted, however, until after an expiration of thirty days, and not then if the drawer makes good the invalid check

In Wyoming (only after judgment) in actions for fraud, or money lost at gambling, or where defendant has removed or concealed property to avoid judgment.

In Rhode Island, allowed in all actions except to recover debt or taxes.

In Ohio, when an affidavit is filed showing: About to remove property to defraud creditors, convert property into money for same purpose, conceal property or rights in action fraudulently, assigned or disposed of property with intent to defraud creditors. Fraudulently contracted the debt, or incurred the obligation Money or property sought to be recovered was in gambling on a bet or wager.

WILLS.

A WILL OR TESTAMENT is a final disposition of a person's property, to take effect after his death. A codicil is an addition or alteration in such disposition. All persons are competent to make a will except idiots, persons of unsound mind, and infants In many States a will of an unmarried woman is deemed revoked by her subsequent marriage. A nuncupative or unwritten will is one made *orally* by a soldier in active service, or by a mariner while at sea.

In most of the States a will must be in writing, signed by the testator, or by some person in his presence, and by his direction, and attested by witnesses, who must subscribe their names thereto in the *presence* of the testator. The form of wording a will is immaterial as long as its intent is clear.

AGE at which persons may make wills is in most of the States 21 years. Males and females are competent to make wills at 18 years in the following States, California, Connecticut, Idaho Montana, Nevada, North Dakota, Oklahoma, South Dakota, Utah and the Hawaiian Islands; and in the following States only females at 18 years. Colorado District of Columbia, Illinois, Maryland, Missouri, Washington, Wisconsin.

In the following States persons of 18 years may dispose of personal property only. Alabama, Arkansas, Missouri, Oregon Rhode Island, Virginia, West Virginia; in Georgia any one over 14 years and in Louisiana any one over 16 years is competent to make a will In Colorado, persons of 17 years and in New York males of 18 and females of 16 years may dispose of personalty. WITNESSES—Most of the States require two witnesses, except in Connecticut (3), Maine (3), Massachusetts (3), New Hampshire (3), South Carolina (3), Vermont (3).

THE BANKRUPTCY LAW.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898, AS AMENDED BY SUBSEQUENT ACTS.

Sec. 4. WHO MAY BECOME BANKRUPTS.—(*a*) Any person who owes debts, except a corporation, shall be entitled to the benefits of this act as a voluntary bankrupt.

(*b*) Any natural person, except a wage-earner, or a person engaged chiefly in farming or the tillage of the soil, any unincorporated company, and any corporation engaged principally in manufacturing, trading, printing, publishing mining, or mercantile pursuits, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial, and shall be subject to the provisions and entitled to the benefits of this act. Private bankers, but no national banks or banks incorporated under State or Territorial laws, may be adjudged involuntary bankrupts

The bankruptcy of a corporation shall not release its officers, directors, or stockholders, as such from any liability under the laws of a State or Territory or of the United States.

SEC. 7. DUTIES OF BANKRUPTS.—(*a*) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a Judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries, (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee, (8) prepare, make oath to, and file in court within ten days unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof its money value in detail, and a list of his creditors, showing their residences, if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition all matters which may affect the administration and settlement of his estate; but no testimony given by him shall be offered in evidence against him in any criminal proceedings

Provided, however, that he shall not be required to attend a meeting of his creditors or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a Judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

Act of March 3, 1911 (Judicial Code) 36 Stat. 1134, as follows:

SEC. 24. Original jurisdiction in district courts.

"SEC. 130. The Circuit Courts of Appeals shall have the appellate and supervisory jurisdiction conferred upon them by the act entitled 'An act to establish a uniform system of bankruptcy throughout the United States,' approved July first, eighteen hundred and ninety-eight, and all laws amendatory thereof, and shall exercise the same in the manner therein prescribed."

SEC. 252 states the appellate jurisdiction of the Supreme Court conferred upon it by the Bankruptcy Act of July 1, 1898.

SEC 4, Act of January 28, 1915, as follows:

"That the judgments and decrees of the Circuit Courts of Appeals in all proceedings and cases arising under the Bankruptcy Act and in all controversies arising in such proceedings and cases shall be final, save only that it shall be competent for the Supreme Court to require by *certiorari*, upon the petition of any party thereto, that the proceeding, case, or controversy be certified to it for review and determination, with the same power and authority as if taken to that court by appeal or writ of error; but *certiorari* shall not be allowed in any such proceeding, case, or controversy unless the petition therefor is presented to the Supreme Court within three months from the date of such judgment or decree.'

By act of Congress, approved March 2, 1917, section 17 of the Bankruptcy Law of 1898 was amended by adding to debts not affected by a discharge those 'for breach of promise of marriage accompanied by seduction."

The war suspended for a time the operation of bankruptcy laws in their application to those who were engaged in war service, military or civil. These were embodied in the moratorium provisions of both Federal and State statutes.

U. S. NATURALIZATION LAWS.

(Revised by the Commissioner of Naturalization, Department of Labor.)

THE following courts alone have the power to naturalize aliens: United States District Courts in the States and Territories; also all courts of record in any State or Territory having a seal, a clerk, and jurisdiction in actions at law or equity, or law and equity, in which the amount in controversy is unlimited.

The power to naturalize is limited to persons residing within the geographical limits of the respective courts.

Any alien, white, or of African nativity or descent, is required, if he desires to become naturalized, to file a declaration of intention in the clerk's office of a court having jurisdiction, and such declaration may not be filed until the alien has reached the age of eighteen. This declaration must contain information as to the name, age, occupation, time and place of arrival in the United States, and must further show that it is the declarant's *bona fide* intention to become a citizen of the United States and to renounce forever all allegiance and fidelity to any foreign prince, potentate, state or sovereignty, and particularly to the one of which he may be at the time a citizen or subject.

The widow, and children who are under age at the time that an alien who has made his declaration of intention has died, without having secured a certificate of naturalization, are exempted from the necessity of filing a declaration of intention.

PETITIONS FOR NATURALIZATION.

Not less than two years after an alien has filed his declaration of intention, and after not less than five years' continuous residence in the United States, he may file a petition for citizenship in any one of the courts which has jurisdiction over the place in which he resides, provided he has lived at least one year continuously, immediately prior to the filing of such petition, in the State or Territory in which such place is located. This petition must be signed by the petitioner in his own handwriting and shall give his full name, place of residence, occupation, place of birth and the date thereof, the place from which he emigrated, and the date and place of his arrival in the United States. If such arrival occurred subsequent to the passage of the act of June 29, 1906, he must secure a certificate from the Department of Labor showing the fact of such arrival and the date and place thereof, for filing with the clerk of the court to be attached to his petition. If he is married he must state the name of his wife and, if possible, the country of her nativity and her place of residence at the time of the filing of his petition, and, if he has children, the name, date and place of birth and present place of residence of each living child. The petition must set forth that he is not a disbeliever in or opposed to organized government, or a member of or affiliated with any organization or body of persons teaching disbelief in or opposition to organized government; that he is not a polygamist or a believer in the practice of polygamy, and that he absolutely and forever renounces all allegiance and fidelity to any foreign country of which he may, at the time of filing such petition, be a citizen or subject. This petition must be verified at the time it is filed by the affidavit of two credible witnesses, who are citizens of the United States and who shall state that they have known the petitioner during his entire residence (not exceeding five years) in the State in which the petition is filed, which must be not less than one year, and that they have known him to be a resident of the United States continuously during the five years immediately preceding the filing of the petition; that during such time he acted as a man of good moral character, attached to the principles of the Constitution of the United States and well disposed to the good order and happiness of the same. If a portion of the five years has been passed by the petitioner in some other State than that in which he resides at the time of filing his petition the affidavit of the witnesses may verify so much of the petitioner's residence as has been passed in the State (not less than one year), and the portion of said five years' residence out of the State may be shown by depositions at the time of hearing on the petition.

No petition may be heard until the expiration of at least ninety days after it is filed nor within thirty days preceding a general election. At the hearing upon a petition, which shall be at a date fixed by order of the court, the witnesses are required to again attend and testify in open court so that the Judge or Judges thereof may be satisfied that the petitioner is qualified and that he has complied with all the requirements of the law.

MILITARY SERVICE A SHORT-CUT TO UNITED STATES NATURALIZATION.

The act of May 9, 1918, in reference to naturalization of honorably discharged soldiers and sailors who served during the present war, has been superseded by the act of July 19, 1919, as follows: "Any person of foreign birth, who served in the military or naval forces of the United States during the present war, after final examination and acceptance by the said military or naval authorities, and shall have been honorably discharged after such acceptance and service, shall have the benefits of the seventh sub-division of Section 4, of the act of June 29, 1906, 34 Statutes at Large, Part 1, Page 596, as amended, and shall not be required to pay any fee therefor; and this provision shall continue for the period of one year after all of the American troops are returned to the United States."

The above described "benefits" are: Exemption from declaration of intention and certificate of arrival; exemption from $4.00 fee; exemption from proof of United States residence for five years and State residence for one year. An applicant for naturalization under this statute must first appear before a naturalization examiner with his honorable discharge and two citizens to identify him as the person named therein and, after passing the required preliminary examination, he may file his petition for naturalization and be heard immediately by any naturalization court.

In cases of applicants in military or naval service petitions may be filed in the most convenient court without proof of residence within its jurisdiction. Honorable discharges or certificates of service are deemed *prima facie* proof as to residence and character, and the petition of a person in actual service may be heard immediately even though within thirty days of an election. Aliens in the military or naval service of the United States abroad (i. e., "not within the jurisdiction of any court authorized to naturalize aliens" —wording of statute), may file petitions without appearing in person, and may take the oath of allegiance by written verification. Service by aliens on vessels of other than American registry is not accepted as residence within the United States.

Alien seamen who have sailed three years on United States merchant or fishing vessels are protected as American citizens after declaring intention of becoming such. (This means that aliens who have sailed three years or more on American vessels may claim protection as American citizens by simply asking for it and, at the same time, declaring their intention of becoming citizens.) Aliens honorably discharged on account of disability in performance of duty while in military or naval service during the war or at its termination, may be relieved of the necessity of proving continuous five years' residence. Citizens having lost citizenship by entering the service of the Allies may resume citizenship by taking the oath of allegiance.

A subject or an enemy country may, by the eleventh subdivision of the act of May 9, 1918, become naturalized during war-time by the following means: He should make his petition for naturalization in the customary manner, and thereafter have the clerk of court serve on the Commissioner of Naturalization the special ninety-day alien enemy notice required by the statute. If the applicant's declaration of intention was less than two years old when war was declared with his native country he must be excepted by the President, through the Department of Justice, from the alien enemy classification before he may secure final hearing. In all such cases the objection of the Government to the final hearing of the application must be withdrawn before he may become naturalized.

PASSPORT REGULATIONS.

1. AUTHORITY TO ISSUE—Section 4075 of the Revised Statutes of the United States, as amended by the act of Congress approved June 14, 1902, provides that "the Secretary of State may grant and issue passports, and cause passports to be granted, issued, and verified in foreign countries by such diplomatic or consular officers of the United States, and by such chief or other executive officer of the insular possessions of the United States and under such rules as the President shall designate and prescribe for and on behalf of the United States." The following rules are accordingly prescribed for the granting and issuing of passports in the United States:

2. TO WHOM PASSPORTS ARE ISSUED—Section 4076 of the Revised Statutes of the United States (U. S. Comp. Stat., 1901, 2765) provides that "no passport shall be granted or issued to or verified for any other persons than those owing allegiance, whether citizens or not, to the United States." Persons who have declared their intention to become citizens are not classed as citizens.

3. BY WHOM ISSUED AND REFUSAL TO ISSUE—No one but the Secretary of State may grant and issue passports in the United States (Rev. Stat., Secs. 4075, 4078) and he is empowered to refuse them in his discretion. Passports are not issued by American diplomatic and consular officers abroad, except in cases of emergency; and a citizen who is abroad and desires to procure a passport must apply therefor through the nearest diplomatic or consular officer to the Secretary of State. Applications for passports by persons in Porto Rico or the Philippines should be made to the chief executives of those islands. The evidence required of such applicants is similar to that required of applicants in the United States.

4. FEE—A fee of two dollars is required to be collected for every citizen's passport issued. That amount in currency or postal money order should accompany each application made by a citizen of the United States. Orders should be made payable to the Disbursing Clerk of the Department of State. Draft or checks will not be accepted. No fees charged to widow, child, parent, brother or sister of an American soldier, sailor or marine buried abroad to visit country of burial.

5. APPLICATIONS: AFFIDAVIT OF APPLICANT—A person who is entitled to receive a passport, if within the United States, must submit a written application, in duplicate, in the form of an affidavit, to the Secretary of State. The application should be made by the person to whom the passport is to be issued and signed by him, as it is not proper for one person to apply for another. The affidavit must be made before a clerk of a Federal court or of a State court authorized by the act of Congress of June 29, 1906, to naturalize aliens, within the jurisdiction of which the applicant or his witness resides, and the seal of the court must be affixed; *but in any place where there is a Federal court the affidavit must be made before a clerk of such court*, unless there is in such place an agent of the Department of State, in which case the Secretary may, in his discretion, require the application to be made before such agent.

The applicant must state from what point he intends to leave the United States, and the date of his intended departure, and also, if by a port of the United States, by what ship he intends to sail.

(*c*) PHOTOGRAPHS—The application must also be accompanied by duplicate photographs of the applicant, on thin paper, unmounted, and not larger in size than three by three inches. One must be attached to the back of application by the clerk of court or the department's agent before whom the application is made, with an impression of such officer's seal so placed as to cover part of the photograph but not the features, and the other sent loose, to be attached to the passport by the department. The loose photograph must be signed by the applicant across its face, so as not to obscure the features, and the signature thereon must correspond to the applicant's signature affixed to the application. *Photographs on cardboard or postcards will not be accepted.*

(*d*) WITNESS—The application must be supported by an affidavit of at least one credible witness, who has known the applicant at least two years, stating that the applicant is the person he represents himself to be and that the facts stated in the application are true to the best of the witness's knowledge and belief. This affidavit must be made before the clerk of court or the department's agent before whom the application is executed, and the witness must accompany the applicant when he makes his application. The witness must be an American citizen, established in a recognized profession or business and having his office or place of business within the jurisdiction of the court or the department's agent (e. g., a clergyman, lawyer, physician, banker, broker, real estate dealer, or merchant). The witness, in signing the application, should state the nature of his profession or business and his professional or business address. *No lawyer or other person will be accepted as witness to a passport application if he has received or expects to receive a fee for his services in connection therewith.*

6. NATIVE CITIZEN—An application containing the information indicated by rule 5 will be sufficient evidence in the case of a native citizen; except that a person born in the United States in a place where births are recorded will be required to submit a birth certificate with his application. If a birth certificate is not obtainable, the application must be supported by an affidavit of the physician who attended the birth or affidavits of parents or other reputable persons having actual knowledge of the applicant's birth in this country. Passports issued by the Department of State or its diplomatic or consular representatives are intended for identification and protection in foreign countries and not to facilitate entry into the United States, immigration being under the supervision of the Department of Labor.

7. A PERSON BORN ABROAD WHOSE FATHER WAS A NATIVE CITIZEN OF THE UNITED STATES—In addition to the statements required by rule 5, his application must show that his father was born in the United States, resided therein, and was a citizen at the time of the applicant's birth. In such case evidence of the father's birth in this country, similar to that required in section 6, above, should be submitted.

8. NATURALIZED CITIZEN—In addition to the statements required by rule 5, a naturalized citizen must transmit his certificate of naturalization, or a duly certified copy of the court record thereof, with his application. It will be returned to him after inspection. He must state in his affidavit when and from what port he emigrated to this country and, if possible, what ship he sailed on, where he has lived since his arrival in the United States, when and before what court he was naturalized, and that he is the identical person described in the certificate of naturalization. The signature to the application should conform in orthography to the applicant's name as written in his certificate of naturalization, or an explanation of the difference should be submitted.

9. WOMAN'S APPLICATION—If she is unmarried, in addition to the statements required by rule 5, she should state that she has never been married. If she is the wife of a native citizen of the United States, the fact should be made to appear in her application, which should be made according to the form prescribed for a native citizen, whether she was born in this country or abroad. If she is the wife of a naturalized citizen, in addition to the statements required by rule 5 she must transmit for inspection her husband's certificate of naturalization or a certified copy of the court record thereof, must state that she is the wife of the person described therein, and must set forth the facts of his birth, emigration, naturalization, and residence, as required in the rules governing the application of a naturalized citizen. She should sign her own Christian name, with the family name of her husband. (Thus, Mary Doe; not Mrs. John Doe.) A married woman's citizenship follows that of her husband. It is essential, therefore, that a woman's marital relation be indicated in her application for a passport, and that in the case of a married woman her husband's citizenship be established, unless a widow or divorced, in which case she is privileged to make her choice. A divorcee must submit the official decree issued by the court.

PASSPORT REGULATIONS—*Continued.*

10. THE CHILD OF A NATURALIZED CITIZEN CLAIMING CITIZENSHIP THROUGH THE NATURALIZATION OF THE PARENT—In addition to the statements required by rule 5 the applicant must state that he or she is the son or daughter, as the case may be, of the person described in the certificate of naturalization, which must be submitted for inspection, and must set forth the facts of emigration, naturalization, and residence, as required in the rules governing the application of a naturalized citizen.

11. A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES WHO OWES ALLEGIANCE TO THE UNITED STATES—In addition to the statements required by rule 5, he must state that he owes allegiance to the United States and that he does not acknowledge allegiance to any other government, and must submit affidavits from at least two credible witnesses who are able to corroborate his statements as to birth, residence, and loyalty.

12. EXPIRATION OF PASSPORT—*A passport is valid for twelve months from date of its issuance, and may be renewed for another twelve months.* A new one will be issued upon a new application, accompanied by the old passport.

13. WIFE, MINOR CHILDREN, AND SERVANTS—When the applicant is accompanied by his wife, minor children, and maid servant, who is a citizen of the United States, it will be sufficient to state the fact, giving their names in full, the dates and places of their births, and the allegiance of the servant, when one passport will suffice for all those under twenty-one years of age. In such case, however, photographs of each person should accompany the passport application. For a man servant or any other person in the party a separate passport will be required. A woman's passport may include her minor children and maid servant under the above-named conditions. (The term "maid servant" does not include a governess, tutor, pupil, companion, or person holding like relation to the applicant for a passport.)

14. TITLES—Professional and other titles will not be inserted in passports.

15. SURRENDER OF OLD PASSPORTS—An applicant for a new passport who holds an expired or unexpired passport or passports should submit the latter to the clerk of court or agent of the Department of State before whom he executes his application for a new passport. In such case the clerk of court or agent of the Department of State will cancel the old passport by cutting out a piece of the seal thereon and stamping, or writing in indelible ink, the word "Cancelled," across the face of the passport, which may then be returned to the applicant. After cancelling an old passport the official who takes the application should make a notation on the margin thereof, giving the number and date of issuance of the passport cancelled.

16. BLANK FORMS OF APPLICATION—They will be furnished by the department free of charge to persons who desire to apply for passports. Supplies of blank applications are also furnished by the department to clerks of courts and are held by the department's agents.

After passport has been received it is necessary to obtain a Clearance Certificate at port of departure to show Income Tax laws have been complied with.

CUSTOM HOUSE EXAMINATION OF BAGGAGE FROM ABROAD.

1. A declaration is required of every passenger; but the senior member of a family may declare for the entire family if the members thereof are all residents of the same country and have their baggage placed under the same letter on the pier. Your baggage will not be examined until you have prepared and delivered to the customs officers a declaration on this form.

2. Penalties under U. S. Revised Statutes 2802 and 3082—Failure to declare any article which should be declared subjects it to seizure and the passenger to criminal prosecution. The offering of gratuities to customs officers is a violation of the law.

3. Residence—Persons arriving in the United States are divided as follows: (*a*) Returning residents of the United States and (*b*) all persons other than returning residents of the United States; and their declarations must be made accordingly. Citizens of the United States shall be deemed to be returning residents of the United States, unless they present satisfactory evidence that they have given up their residence in the United States and have acquired an actual bona fide residence in a foreign country. Residence of a wife follows that of her husband and the residence of a minor child that of its parents.

4. Returning residents of the United States must declare all articles obtained abroad in any manner. This includes articles obtained by purchase, gift, exchange or otherwise; articles worn or carried on the person as well as those in the baggage; used articles as well as new, and trunks and other containers obtained abroad. Commissions for others and articles intended directly or indirectly for sale must be so described in the declaration. Articles which may be included in the $100 exemption must not be omitted from the declaration. The actual cost of repairs or alterations made abroad on any article taken out of the United States must be declared. Personal or household effects returned in the same condition shall be admitted free of duty upon their identity being established, provided that such articles as were obtained abroad on a previous trip were properly declared when originally imported.

5. All persons other than returning residents of the United States may bring in free of duty necessary and appropriate wearing apparel, articles of personal adornment, toilet articles, and similar personal effects actually owned by them and intended for their own wear and use. All other articles in their baggage or on their person must be declared. Household effects, foodstuffs, cigars and cigarettes, tools of trade, articles owned by others or intended for others or for sale or for business or professional use are among the items required to be declared.

6. The actual cost of declared articles must be stated in all declarations or the foreign market value thereof if obtained otherwise than by purchase. If articles have depreciated in value through wear or use, the attention of the appraising officer should be called to such fact at the time of the examination. Articles are appraised at their value in their condition as imported. Passengers dissatisfied with values placed upon dutiable articles may make demand for reappraisement to the officer in charge on the pier, but no such demand can be entertained after the articles have been removed from customs custody.

7. Cigars, cigarettes and tobacco must be declared. Adult passengers may be allowed free of duty and internal revenue tax 50 cigars or 300 cigarettes or 3 pounds of smoking tobacco, if not for sale.

8. Merchandise or samples of merchandise, foreign or domestic, accompanying a passenger as baggage, whether the property of himself or another, must be declared as merchandise in this entry. A statement of the number of such packages and of the general character of the contents and the total value thereof will be sufficient.

9. Theatrical scenery, property and apparel and all other articles, foreign or domestic, which may be intended for use on the stage or for exhibition purposes, must be declared. Each package and its contents must be described.

10. All dogs must be declared. Collies, shepherd or sheep, and police dogs are subject to quarantine.

11. Bonded baggage—Baggage may be forwarded in bond. Passengers should specify on the declaration, in the space "Entry," the number of such packages, the general character and total value of the contents and the destination of the packages to be bonded.

12. The following articles are prohibited: Cuttings or parts of sugar cane and plants and seeds, except vegetable and flower seeds, unless a permit has been previously obtained from the Department of Agriculture, Washington, D. C.; smoking opium; fur-seal skins taken in the waters of the North Pacific Ocean, and garments made in whole or in part from such skins; algrettes; osprey plumes, and the feathers or parts of wild birds. Such articles must be delivered to the customs officers on the pier.

UNITED STATES IMMIGRATION LAW.

Following is a summary of the U. S. Immigration Law (enacted Feb. 5, 1917).

The *tax* on immigrant aliens entering, including seamen, is $8. Children under sixteen years, when with a parent, are exempted, also aliens in transit to another country.

Excluded Classes.—All idiots, imbeciles; feeble-minded persons, epileptics, insane persons; persons who have had one or more attacks of insanity at any time previously; persons of constitutional psychopathic inferiority; persons with chronic alcoholism; paupers; professional beggars; vagrants; persons afflicted with tuberculosis in any form or with a loathsome or dangerous contagious disease; persons not comprehended within any of the foregoing excluded classes who are found to be and are certified by the examining surgeon as being mentally or physically defective, such physical defect being of a nature which may affect the ability of such alien to earn a living; persons who have been convicted of or admit having committed a felony or other crime or misdemeanor involving moral turpitude; polygamists, or persons who practise polygamy or believe in or advocate the practice of polygamy; Anarchists, or persons who believe in or advocate the overthrow by force or violence of the Government of the United States or of all forms of law, or who disbelieve in or are opposed to organized government, or who advocate the assassination of public officials, or who advocate or teach the unlawful destruction of property; persons who are members of or affiliated with any organization entertaining and teaching disbelief in or opposition to organized government, or who advocate or teach the duty, necessity, or propriety of the unlawful assaulting or killing of any officer or officers, either of specific individuals or of officers generally, of the Government of the United States or of any other organized government because of his or their official character, or who advocate or teach the unlawful destruction of property; prostitutes, or persons coming into the United States for the purpose of prostitution or for any other immoral purpose; persons who directly or indirectly procure or attempt to procure or import prostitutes or persons for the purpose of prostitution or for any other immoral purpose; persons who are supported by or receive in whole or in part the proceeds of prostitution.

Persons, hereinafter called contract laborers, who have been induced, assisted, encouraged, or solicited to migrate to this country by offers or promises of employment, whether such offers or promises are true or false, or in consequence of agreements oral, written, or printed, express or implied, to perform labor in this country of any kind, skilled or unskilled; persons who have come in consequence of advertisements for laborers printed published, or distributed in a foreign country; persons likely to become a public charge; persons who have been deported under any of the provisions of this act, and who may again seek admission within one year from the date of such deportation, unless prior to their re-embarkation at a foreign port or their attempt to be admitted from foreign contiguous territory the Secretary of Labor shall have consented to their reapplying for admission; persons whose ticket or passage is paid for with the money of another, or who are assisted by others to come, unless it is affirmatively and satisfactorily shown that such persons do not belong to one of the foregoing excluded classes; persons whose ticket or passage is paid for by any corporation, association, society, municipality, or foreign Government, either directly or indirectly; stowaways, except that any such stowaway, if otherwise admissible, may be admitted in the discretion of the Secretary of Labor; all children under sixteen years of age unaccompanied by or not coming to one or both of their parents, except that any such children may, in the discretion of the Secretary of Labor, be admitted if in his opinion they are not likely to become a public charge and are otherwise eligible; unless otherwise provided for by existing treaties, persons who are natives of islands not possessed by the United States adjacent to the continent of Asia, situate south of the twentieth parallel latitude north, west of the one hundred and sixtieth meridian of longitude east from Greenwich, and north of the tenth parallel of latitude south, or who are natives of any country, province, or dependency situate on the continent of Asia west of the one hundred and tenth meridian of longitude east from Greenwich and east of the fiftieth meridian of longitude east from Greenwich and south of the fiftieth parallel of latitude north, except that portion of said territory situate between the fiftieth and the sixty-fourth meridians of longitude east from Greenwich and the twenty-fourth and thirty-eighth parallels of latitude north, and no alien now in any way excluded from, or prevented from entering the United States shall be admitted to the United States. *The provision next foregoing, however, shall not apply to persons of the following status or occupations:* Government officers, ministers or religious teachers, missionaries, lawyers, physicians chemists, civil engineers, teachers, students, authors, artists, merchants, and travellers for curiosity or pleasure, nor to their legal wives or their children under sixteen years of age who shall accompany them or who subsequently may apply for admission to the United States, but such persons or their legal wives or foreign-born children who fail to maintain in the United States a status or occupation placing them within the excepted classes shall be deemed to be in the United States contrary to law, and shall be subject to deportation as provided in section nineteen of this act.

All aliens over sixteen years of age physically capable of reading, who cannot read the English language or some other language or dialect, including Hebrew or Yiddish: *Provided*, That any admissible alien, or any alien heretofore or hereafter legally admitted, or any citizen of the United States, may bring in or send for his father or grandfather over fifty-five years of age, his wife, his mother, his grandmother, or his unmarried or widowed daughter, if otherwise admissible, whether such relative can read or not; and such relative shall be permitted to enter. *The following classes of persons shall be exempt from the operation of the illiteracy test, to wit:* All aliens who shall prove to the satisfaction of the proper immigration officer or to the Secretary of Labor that they are seeking admission to the United States to avoid religious persecution in the country of their last permanent residence, whether such persecution be evidenced by overt acts or by laws or governmental regulations that discriminate against the alien or the race to which he belongs because of his religious faith; all aliens who have been lawfully admitted to the United States and who have resided therein continuously for five years and who return to the United States within six months from the date of their departure therefrom; all aliens in transit through the United States; all aliens who have been lawfully admitted to the United States and who later shall go in transit from one part of the United States to another through foreign contiguous territory: *Provided*, That nothing in this act shall exclude, if otherwise admissible, persons convicted or who admit the commission, or who teach or advocate the commission, of an offense purely political: *Provided further*, That the provisions of this act relating to the payments for tickets or passage by any corporation, association, society, municipality, or foreign Government shall not apply to the tickets or passage of aliens in immediate and continuous transit through the United States to foreign contiguous territory: *Provided further*, That skilled labor, if otherwise admissible, may be imported if labor of like kind unemployed cannot be found in this country, and the question of the necessity of importing such skilled labor in any particular instance may be determined by the Secretary of Labor upon the application of any person interested, such application to be made before such importation, and such determination by the Secretary of Labor to be reached after a full hearing and an investigation into the facts of the case: *Provided further*, That the provisions of this law applicable to contract labor shall not be held to exclude professional actors, artists, lecturers, singers, nurses, ministers of any religious denomination, professors for colleges or seminaries, persons belonging to any recognized learned profession, or persons employed as domestic servants: *Provided further*, That whenever the President shall be satisfied that passports issued by any foreign Government to its citizens or subjects to go to any country other than the United States, or to any insular possession of the United States or to the Canal Zone, are being used for the purpose of enabling the holder to come to the continental territory of the United States to the detriment of labor conditions therein, the President shall refuse to permit such citizens or subjects of the country issuing such passports to enter the continental territory of the United States from such other country or from such insular possession or from the Canal Zone: *Provided further*, That aliens returning after a temporary absence to an unrelinquished United States domicile of seven consecutive years may be admitted in the discretion of the Secretary of Labor, and under such

conditions as he may prescribe: *Provided further*, That nothing in the contract-labor or reading-test provisions of this act shall be construed to prevent, hinder, or restrict any alien exhibitor, or holder of concession or privilege for any fair or exposition authorized by act of Congress, from bringing into the United States, under contract, such otherwise admissible alien mechanics, artisans, agents, or other employees natives of his country as may be necessary for installing or conducting his exhibit or for preparing for installing or conducting any business authorized or permitted under any concession or privilege which may have been or may be granted by any such fair or exposition in connection therewith, under such rules and regulations as the Commissioner General of Immigration, with the approval of the Secretary of Labor, may prescribe both as to the admission and return of such persons: *Provided further*, That the Commissioner General of Immigration with the approval of the Secretary of Labor shall issue rules and prescribe conditions, including exaction of such bonds as may be necessary to control and regulate the admission and return of otherwise inadmissible aliens applying for temporary admission: *Provided further*, That nothing in this act shall be construed to apply to accredited officials of foreign Governments, nor to their suites, families, or guests.

VIOLATIONS AND PENALTIES.

Violations of the immoral-women clause are punishable, on conviction, by imprisonment up to ten years and a fine up to $5,000. Violations of the contract-labor clause are punishable, on conviction, by $1,000 fine in each case and (or) imprisonment up to two years. Violations of the Anarchist clause carry prison up to five years and fine up to $5,000. Other violations carry various penalties. It is unlawful for any person or concern engaged in bringing immigrants to give fare rebates or to solicit immigration; penalty, $400 fine in each case. The penalty for smuggling immigrants is fine up to $2,000 and prison up to five years. Immigrant ships must bring written records of each alien, with name, description, destination, etc., signed by the ship's surgeon; penalty, $10 for each unrecorded alien. Incoming aliens at all U. S. ports are examined by U. S. Public Health Service doctors, and each immigrant must be examined by at least two inspectors, under oath. False testimony by an immigrant or in his behalf is punishable as perjury. Impeding inspection is punishable by fine up to $2,000 and prison up to one year. An alien can appeal to a board of special inquiry, and then to the Secretary of Labor, whose word is final. Excluded aliens are returned at the ship's expense.

Aliens may be deported at any time within five years of their arrival if found guilty of crime or of having been of the excluded classes at arrival. An alien otherwise admittable may be let in by giving a cash bond that he or she will not become a public charge. The amount of cash is fixed in each case by the Secretary of Labor. It is unlawful for a ship to pay off or discharge an alien seaman in a U. S. port unless he lands merely to reship. An alien seaman unlawfully entered may be deported within three years of arrival, and this applies to any other person who got in unlawfully and who was not of the excluded classes.

Whenever an alien shall have been naturalized or shall have taken up his permanent residence in this country and thereafter shall send for his wife or minor children to join him, and said wife or any of said minor children shall be found to be affected with any contagious disorder, such wife or minor children shall be held under such regulations as the Secretary of Labor shall prescribe, until it shall be determined whether the disorder will be easily curable or whether they can be permitted to land without danger to other persons, and they shall not be either admitted or deported until such facts have been ascertained; and if it shall be determined that the disorder is easily curable and the husband or father or other responsible person is willing to bear the expense of the treatment, they may be accorded treatment in hospital until cured and then be admitted, or if it shall be determined that they can be permitted to land without danger to other persons, they may, if otherwise admissible, thereupon be admitted: *Provided*, That if the person sending for wife or minor children is naturalized, a wife to whom married or a minor child born subsequent to such husband or father's naturalization shall be admitted without detention for treatment in hospital, and with respect to a wife to whom married or a minor child born prior to such husband or father's naturalization the provisions of this section shall be observed, even though such person is unable to pay the expense of treatment, in which case the expense shall be paid from the appropriation for the enforcement of this act.

AMENDMENT EXCLUDING ALIENS.

An act of Congress, approved June 5, 1920, amends the amendment of Oct. 16, 1918, as to Anarchists so as to exclude from admission to the United States the following classes:

(*a*) Aliens who are Anarchists; (*b*) aliens who advise, advocate, or teach, or who are members of or affiliated with any organization, association, society, or group that advises, advocates, or teaches, opposition to all organized government; (*c*) aliens who believe in, advise, advocate, or teach, or who are members of or affiliated with any organization, association, society, or group, that believes in, advises, advocates, or teaches: (1) the overthrow by force or violence of the Government of the United States or of all forms of law, or (2) the duty, necessity or propriety of the unlawful assaulting or killing of any officer or officers (either of specific individuals or of officers generally) of the Government of the United States or of any other organized government because of his or their official character, or (3) the unlawful damage, injury or destruction of property, or (4) sabotage;

(*d*) Aliens who write, publish, or cause to be written or published, or who knowingly circulate, distribute, print, or display, or knowingly cause to be circulated, distributed, printed, published, or displayed, or who knowingly have in their possession for the purpose of circulation, distribution, publication, or display, any written or printed matter advising, advocating, or teaching opposition to all organized government, or advising, advocating or teaching: (1) the overthrow by force or violence of the Government of the United States or of all forms of law, or (2) the duty, necessity or propriety of the unlawful assaulting or killing of any officer or officers (either of specific individuals or of officers generally) of the Government of the United States or of any other organized government, or the unlawful damage, injury or destruction of property, or (4) sabotage;

(*e*) Aliens who are members of or affiliated with any organization, association, society, or group that writes, circulates, distributes, prints, publishes, or displays, or causes to be written, circulated, distributed, printed, published, or displayed, or that has in its possession for the purpose of circulation, distribution, publication, issue, or display, any written or printed matter of the character described in subdivision (d).

For the purpose of this section: (1) the giving, loaning, or promising of money or any thing of value to be used for the advising, advocacy, or teaching of any doctrine above enumerated shall constitute the advising, advocacy, or teaching of such doctrine; and (2) the giving, loaning, or promising of money or any thing of value to any organization, association, society, or group of the character above described shall constitute affiliation therewith; but nothing in this paragraph shall be taken as an exclusive definition of advising, advocacy, teaching, or affiliation.

Any alien who shall, after he has been excluded and deported or arrested and deported in pursuance of the provisions of this act, thereafter return to or enter the United States or attempt to return to or to enter the United States shall be deemed guilty of a felony, and upon conviction thereof shall be punished by imprisonment for not more than five years: and deported.

ALIENS ADMITTED TO MARRY.

An act of Congress, approved June 5, 1920, amends the Immigration Act by adding that an alien who cannot read may, if otherwise admissible, be admitted if within five years hereafter a citizen of the United States who has served in the military or naval forces of the United States during the war with the Imperial German Government requests that such alien be admitted, and with the approval of the Secretary of Labor marries such alien at a United States immigration station. Approved, June 5, 1920

AMENDMENTS TO IMMIGRATION LAW—*Continued.*

Under an act of Congress, approved May 10, 1920, the Secretary of Labor is given power to deport, after a hearing, aliens found guilty of violating any of the so-called war acts, including interned aliens.

REPATRIATION AMENDMENT.

Congress, by a joint resolution, approved Oct. 19, 1918, amended the Immigration Law so as to readmit any alien who enlisted or served here or abroad in the United States or other Allied forces if such alien applies for readmission within a year after the war's end, or returns to a United States port within two years after the war's end. In such cases the head tax is remitted, and the alien is let in, even though he would have been otherwise liable to exclusion under any but the crimes or Anarchist clauses.

PASSPORT AMENDMENT.

In October, 1919, Congress amended the passport regulations until March 4, 1921, making false and forged passport entrants and their accessories liable to $5,000 fine and five years in prison. Ships concerned in such transactions were liable to confiscation.

KANSAS COURT OF INDUSTRIAL RELATIONS.

THE Legislature of Kansas, in January, 1920, established a special tribunal as a Court of Industrial Relations. The court consists of three judges appointed by the Governor, with the advice and consent of the Senate, for three-year terms, and was immediately (February 2) organized. This court is given the powers previously held by the State Public Utilities Commission, which is abolished. However, its principal powers, from the standpoint of immediate interest, relate to the regulation of designated classes of employments, industries, etc., declared to be affected with a public interest and therefore subject to supervision by the State." Included are the manufacturing of food products and clothing and processes connected therewith; the mining or production of fuel, transportation, and all public utilities and common carriers as defined by existing statutes of the State.

The court has power to make investigations, serve process, take testimony, and adopt rules and regulations to govern its own proceedings. Appeal lies to the Supreme Court from its findings. The public welfare is declared to require continuity and efficiency in the operation of the industries, etc., named; the wilful hindering, delay, limiting, or suspension of such operations are therefore declared to be contrary to the purpose of the act. The court may act on its own initiative, or upon the complaint of either party to a controversy or of ten citizen taxpayers of the affected community, or of the Attorney General of the State. Investigation may extend to the conditions surrounding the workers, their wages, returns to capital, the rights and welfare of the public, "and all other matters affecting the conduct of said industries, employments, public utilities, or common carriers."

The court is authorized to order any changes necessary in the matter of working and living conditions, hours of labor, rules and practices, and a reasonable minimum wage or standard of wages. Appeal may be taken within 10 days to the Supreme Court. If after 60 days' compliance the order is found to be unjust, unreasonable, or impracticable, the aggrieved party may apply for a modification, and a hearing shall thereupon be had and the Court of Industry may modify its orders for cause shown.

Enforcement is by process issuing from the Supreme Court on proceedings by the Industrial Court. Persons wilfully violating the provisions of the act or any valid order of the court are liable to fine not exceeding $100 or imprisonment not exceeding one year, or both. Officers of corporations or of labor unions who use their official positions wilfully to influence or compel violations are guilty of a felony and may be punished, upon conviction thereof, by a fine not exceeding $5,000, or imprisonment at hard labor for not exceeding two years, or both. In case production or operation is suspended, the court may take proceedings for the taking over and operation of the industries or work affected. In any case a fair wage is to be paid the workers and a fair return allowed the owners.

It is an offense to do or perform any forbidden act, or fail or refuse to perform any act enjoined or directed by the court, acting either singly or in confederation with others, or to induce or intimidate any employer or worker to violate the orders of the court whether negatively or positively. Picketing, threats, abuse, or other forms of intimidation are unlawful in connection with the employments, industries, etc., governed by the act.

Unions of workers are recognized as is the right of collective bargaining. Individual workers are guaranteed freedom of action in making or terminating contracts, but it is unlawful for individuals to conspire with other persons to quit employment for the purpose of hindering, delaying, or interfering with the operation of industries covered by the act. Employees testifying as witnesses or otherwise active in securing the attention or action of the court may not be discharged or discriminated against because of such action.

This is the most comprehensive attempt yet made to protect the public in cases of industrial disputes likely to affect its interests. The act has attracted attention in other States and in Congress, but it is too soon to announce any definite results under it. One point of interest in connection therewith is the establishment of a minimum wage for men. Kansas, in common with a number of other States, chiefly western, has a commission charged with the fixing of a minimum wage for women and for minors; but no State has thus far sought to fix a minimum wage for adult males. An initiative act has been proposed and filed with the Secretary of State, in the State of Oregon, looking toward the fixing of a minimum wage for both men and women, but the House Resolutions Committee of the State Legislature directed its chairman to draft a resolution expressing the opposition of the Legislature to the proposed law.

EXPENDITURES OF CREEL COMMITTEE.

When Congress failed to appropriate money for the continuance after June 30, 1919, of the Committee on Public Information, of which George Creel was chairman, the Council of National Defense took charge of its records and on August 25 1919, E. K. Ellsworth of the council staff, was appointed liquidating officer. The report of H. N. Shenton, Director of the Council, to the president of the Senate, shows that while Congress appropriated only $1,250,000 for the committee's support, President Wilson made it an allowance of $5,650,000 additional out of the appropriation for National Security and Defence. Although the total expenditures of the committee amounted to $8,245,249.65 to June 30, 1920, the net cost to the Government was $4,954,200.01 after deducting amounts received by the committee from various sources. The sale of photographic films by the committee produced $2,394,073.09, and after the expenses of the film division had been paid there was a balance of $741,204.85.

There was disbursed in behalf of the committee $6,275,533.88, but of these payments the Government has recovered $393,610.77 of advances made for foreign propaganda and on certain other items, making a total of recoveries of $424,357.12. To June 30, 1920, the net disbursements were $5,851,176.56 with outstanding liabilities estimated at $30,000. The sum of $1,700,000 has been returned to the Treasury and after the outstanding liabilities are settled there will be an additional $160,000 returned. The principal items of expenditure as shown by the report are: For propaganda work in foreign countries, $1,448,000; $1,250,000 for salaries, $935,000 for printing done at the Government printing office, $500,000 for printing done elsewhere $583,000 for telegraph and cable service, $435,000 for films and moving picture apparatus, $127,000 for stationery and $122,000 for travel in the United States.

LAW PENSIONING UNITED STATES CIVIL SERVICE EMPLOYEES.

By an Act of Congress approved May 22, 1920, employees in the classified civil service, beginning 90 days thereafter, who have on that date, or shall have on any date thereafter, reached the age of seventy years and rendered at least fifteen years of service computed as prescribed in the Act, shall be eligible for retirement on an annuity: *Provided*, That mechanics, city and rural letter carriers, and post-office clerks shall be eligible for retirement at sixty-five years of age, and railway postal clerks at sixty-two years of age, if they shall have rendered at least fifteen years of service computed as prescribed in the Act.

The provisions of the Act include superintendents of United States national cemeteries, employees of the Superintendent of the United States Capitol Buildings and Grounds, the Library of Congress, and the Botanic Gardens, excepting persons appointed by the President and confirmed by the Senate, and may be extended by Executive order, upon recommendation of the Civil Service Commission, to include any employee or group of employees in the civil service of the United States not classified at the time of the passage of this Act. The President shall have power, in his discretion, to exclude from the operation of this Act any employee or group of employees in the classified civil service whose tenure of office or employment is intermittent or of uncertain duration. All regular annual employees of the Municipal Government of the District of Columbia, appointed directly by the Commissioners, or by other competent authority, including those receiving per diem compensation paid out of general appropriations, but whose services are continuous, and including public-school employees, excepting school officers and teachers, shall be included in the provisions of this Act, but members of the Police and Fire Departments shall be excluded therefrom.

Postmasters, and such employees of the Lighthouse Service as come within the provisions of section 6 of the Act of June 20, 1918, entitled, "An Act to authorize aids to navigation and for other works in the Lighthouse Service, and for other purposes," shall not be included in the provisions of this Act.

The following classes of annuitants are established: A—30 years' or more service, 60 per cent. of yearly pay for last 10 years, maximum pension, $720; minimum $360. B—27 to 30 years' service, 54 per cent., $324 to $648 pension. C—24 to 27 years' service, 48 per cent., $288 to $576 pension. D—21 to 24 years' service, 42 per cent., $252 to $504 pension. E—18 to 21 years' service, 36 per cent., $216 to $432 pension. F—15 to 18 years' service, 30 per cent., $180 to $360 pension. Bonuses, overtime pay, etc., do not count as wages in calculating rate of pension. Those who serve not less than 15 years and are disabled before their retirement age are eligible for a pension on examination while disabled.

The period of service is computed from the date of original employment, whether as a classified or unclassified employee in the civil service of the United States, and shall include periods of service at different times and services in one or more departments, branches, or independent offices of the Government, and shall also include service performed under authority of the United States beyond seas, and honorable service in the Army, Navy, Marine Corps, or Coast Guard of the United States: *Provided*, That in the case of an employee who is eligible for and elects to receive a pension under any law, or compensation under the War Risk Insurance Act, the period of his or her military or naval service upon which such pension or compensation is based shall not be included for the purpose of assignment to classes A to F inclusive, but nothing in the Act shall affect his or her right to a pension, or compensation under the War Risk Insurance Act, in addition to the annuity herein provided. It is further provided that in computing length of service for the purposes of this Act all periods of separation from the service and so much of any period of leave of absence as may exceed six months shall be excluded, and that in the case of substitutes in the Postal Service only periods of active employment shall be included.

The Commissioner of Pensions is in charge of the civil pensions list thus created.

In all cases where the annuity is discontinued before the annuitant has received a sum equal to the total amount of his or her contributions with accrued interest, the difference shall be paid to the retired employee, or to his or her estate, upon application therefor in such form and manner as the Commissioner of Pensions may direct. No person shall be entitled to receive an annuity under the provisions of this Act, and compensation under the provisions of the Act of September 7, 1916, entitled "An Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes," covering the same period of time; but this provision shall not be so construed as to bar the right of any claimant to the greater benefit conferred by either Act for any part of the same period of time.

The Act automatically retires employees at their retirement age, unless the Government elects to keep them on the active roll for 2-year periods. Beginning in 1930, no employee can be kept on the full-pay list more than 4 years beyond the retirement age.

Every employee on the active list to whom the Act applies is assessed 2½ per cent. of his salary or pay, for the support of the Civil Service Retirement Disability Fund. Annuities are payable monthly and cannot be garnisheed or attached.

THE EDGE, OR FOREIGN BANKING, ACT.

The Edge bill, providing for the Federal incorporation of institutions organized for the purpose of carrying on international or foreign banking and other financial operations, was approved by the President December 24, 1919. It amends the Federal Reserve Act by adding a new section, which provides that corporations to be organized for the purpose of engaging in international or foreign banking or other international or foreign financial operations, or in banking or other financial operations in a dependency or insular possession of the United States, either directly or through the agency, ownership, or control of local institutions in foreign countries, or in such dependencies or insular possessions as provided by the Act, and to serve when required by the Secretary of the Treasury as fiscal agents of the United States, may be formed by any number of natural persons, not less in any case than five.

Such corporations are under the regulation of the Federal Reserve Board: their liabilities must not exceed ten times their capital stock and surplus; they can receive only such deposits within the United States as are incidental to carrying out transactions in foreign countries or in American dependencies; their capital is not to be less than $2,000,000; a majority of their stock must be American-owned. With the consent of the Federal Reserve Board they may purchase and hold stock or other certificates of ownership in any other corporation organized under the provisions of this act or under the laws of any foreign country, or a colony or dependency thereof, or under the laws of any State, dependency, or insular possession of the United States but not engaged in the general business of buying or selling goods, wares, merchandise, or commodities in the United States, and not transacting any business in the United States except such as in the judgment of the Federal Reserve Board may be incidental to its international or foreign business.

No corporation organized under the Act shall engage in commerce or trade in commodities except as specifically provided, nor shall it either directly or indirectly control or fix or attempt to control or fix the price of any such commodities. The charter of any corporation violating this provision shall be subject to forfeiture in the manner hereinafter provided in this section. It shall be unlawful for any director, officer, agent, or employee of any such corporation to use or to conspire to use the credit, the funds, or the power of the corporation to fix or control the price of any such commodities, and any such person violating this provision shall be liable to a fine of not less than $1,000 and not exceeding $5,000 or imprisonment not less than one year and not exceeding five years, or both, in the discretion of the court.

Any bank in the United States, of the required capital, may, if not against the law of its own state, by vote of two-thirds of its capital stock, become a corporation under the Act.

INTERSTATE COMMERCE AND RAILROAD (1920) ACT.

(Includes the Transportation Act of 1920.)

THE original act to regulate commerce, approved February 4, 1887, provided for an Interstate Commerce Commission consisting of five members. By various amendatory and supplementary enactments the powers of the commission have been increased and the scope of the regulating statute materially widened. Among the more important of these enactments are the acts of March 2, 1889; the Elkins Act, approved February 19, 1903; the Hepburn Act, approved June 29, 1906; the Mann-Elkins Act of June 18, 1910; the acts of August 24, 1912, and May 29 and August 9, 1917; and the *Transportation Act, 1920*. The number of commissioners was increased under the act of June 29, 1906, to seven members; under the act of August 9, 1917, to nine members; and under the Transportation Act, 1920, to eleven members. The commission appoints a secretary (who is its general administrative and executive officer), an assistant secretary, a chief counsel, and such attorneys, examiners, special agents, and clerks as are necessary to the proper performance of its duties.

The act to regulate commerce applies to all common carriers engaged in the transportation of oil or other commodities, except water, and except natural or artificial gas, by means of pipe lines, or partly by pipe lines and partly by railroad, or partly by pipe lines and partly by water, and to telegraph, telephone and cable companies (whether wire or wireless) engaged in sending messages from one State, Territory, or District of the United States to any other State, Territory, or District of the United States, or to any foreign country, and to common carriers engaged in interstate transportation of passengers or property wholly by railroad (or partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment); also, to express companies and sleeping-car companies; to bridges, ferries, car floats, and lighters, and all terminal and transportation facilities used or necessary in the interstate transportation of persons and property, and all instrumentalities and facilities used in connection with the transmission of intelligence and messages by the use of electric energy.

TRANSPORTATION ACT OF 1920.

The act to regulate commerce requires all rates to be just and reasonable and prohibits unjust discrimination and undue or unreasonable preference or advantage in transportation rates or facilities. As amended by the *Transportation Act, 1920*, the act provides that whenever in any investigation, including one instituted upon petition of the carriers concerned, there shall be brought in issue any rate, fare, charge, classification, regulation, or practice, made or imposed by any State authority, or by the President, during the period of Federal control, the authorities of the State or States interested must be notified of the hearings in such cases, and the commission may confer and hold joint hearings with the authorities of the interested States. If, after hearing, the commission finds such rate, fare, charge, classification, regulation, or practice causes undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce on the one hand and interstate or foreign commerce on the other hand, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce which is forbidden, it is authorized to prescribe the rate, fare, or charge, or the maximum or minimum, or maximum and minimum, thereafter to be charged, and the classification, regulation, or practice thereafter to be observed, in such manner as in its judgment, will remove such advantage, preference, prejudice, or discrimination.

The act as amended prohibits the charging of a higher rate for a shorter than for a longer haul, over the same line, in the same direction, the shorter being included within the longer haul, or the charging of any greater compensation as a through route than the aggregate of the intermediate rates subject to the act. It is provided, however, that the commission may, in special cases, after investigation, authorize carriers to charge less for longer than for shorter distances, and from time to time prescribe the extent to which such carriers may be relieved, subject, however, to the further proviso that in so doing the commission shall not permit the establishment of any charge to or from the more distant point that is not reasonably compensatory, or authorize a circuitous rail line, because of such circuity, to meet the charges of a more direct line to or from competitive points, and to maintain higher charges to or from an intermediate point on its line where the length of the haul on the petitioning line is not longer than that of the direct line between the competitive points, or authorize any such relief because of merely potential water competition not actually in existence.

The commission is authorized to require carriers to establish through routes and joint rates and it may act summarily in itself establishing, temporarily, through routes, when, in its opinion, shortage of equipment, congestion of traffic, or other emergency exists. The amended act requires that divisions of joint rates shall be just, reasonable, and equitable, and authorizes the commission upon complaint, or upon its own initiative, after hearing, to prescribe the just, reasonable, and equitable divisions of such rates, and it may require readjustment of such divisions if it finds they have been unjust, unreasonable, or inequitable in the past. The commission is also authorized to require carriers subject to the act to construct switch connections with lateral branch lines of railroads and private side tracks. The act provides that where two or more through routes and through rates shall have been established, shippers shall have the right to designate in writing via which of such through routes the property shall be transported to destination. The act as amended February 28, 1920, gives the commission authority over the routing of traffic after it arrives at the terminus or a junction point of a carrier and is to be there delivered to another carrier, in cases where routing instructions have not been given by the shipper. Where diversion of routed freight occurs which is not in compliance with an order, rule, or regulation of the commission the carrier or carriers so diverting the traffic are jointly and severally liable to the carrier deprived of its right to participate in the haul of the property.

Pooling of Freight.

The act *as amended February 28, 1920*, authorizes the commission, under certain circumstances, upon such terms and conditions, and subject to such rules and regulations as it may think just and reasonable, to permit the pooling of freights of different and competing railroads, and to divide the aggregate or net proceeds of the earnings of such railroads, and to permit the acquisition by one carrier of the control of another carrier in any manner not involving the consolidation of such carriers into a single system for ownership and operation. It requires the commission to prepare and adopt, as soon as practicable, a plan for the consolidation of railway properties of the continental United States into a limited number of systems. It authorizes carriers, with the approval of the commission, and subject to certain restrictions, to consolidate their properties or any part thereof. It authorizes a consolidation of four express companies, and relieves carriers, when permission is so granted, from the restraints of the anti-trust laws so far as may be necessary to effect such consolidations. The commission is required to make rates which will yield the carriers as a whole, or as a whole in each group or territory designated by the commission, a fair return upon the aggregate value of the property used by them in serving the public, and to fix such aggregate values from time to time as may be necessary. The rate of return is fixed at 5½ per cent., to which may be added in the discretion of the commission, not exceeding one-half of 1 per cent. for improvements, betterments or equipment, for the two years *beginning March 1, 1920*, and provides for the disposition of any earnings in excess thereof by distributing one-half of them to a reserve fund to be established and maintained by the carrier, the other half of such excess to be paid to the commission for the purpose of establishing and creating a contingent fund. The carrier is authorized to make certain uses of its reserve fund. The contingent fund created by the commission is to be used as a revolving fund to be administered by

the commission, out of which loans may be made to carriers, or transportation equipment and facilities purchased by the commission and leased to the carriers, in accordance with prescribed terms and conditions.

The commission has jurisdiction, upon complaint or in a proceeding instituted upon its own initiative, and after full hearing, to determine and prescribe reasonable rates, regulations, and practices, including minimum, and maximum and minimum, rates; and also minimum, and maximum and minimum, proportional rates to and from ports, and to award reparation to injured shippers. The *Transportation Act* also provides that actions at law by carriers to recover their charges shall be begun within three years from the time the cause of action accrues and not thereafter, and that complaints seeking reparation shall be instituted within two years from the time the cause of action accrues, except that where the carrier begins an action after the expiration of two years for the recovery of charges in respect of the same service, or within ninety days before such expiration, the proceeding before the commission may be begun within ninety days after such action by the carrier is begun. The act also provides that a cause of action against the carrier shall be deemed to accrue upon delivery or tender of delivery by the carrier, of the property involved. The commission may also require carriers to cease and desist from unjust discrimination or undue or unreasonable preferences. By the act *as amended February 28, 1920*, it is provided that an order of the commission shall continue in force until its further order, or for a specified period of time, according as shall be prescribed in the order, unless modified or set aside by the commission, or set aside by a court of competent jurisdiction. Carriers are required to publish and file rates, rules, and regulations applying to interstate traffic and are prohibited from engaging in interstate transportation unless such rates, rules, and regulations are published and filed. Severe penalties are provided in the statute for failure to observe the rates and regulations shown in the published tariffs.

By the act of May 29, 1917, *as amended on February 28, 1920*, the commission is given extensive jurisdiction over the use, control, supply, movement, distribution, exchange, interchange, and return of locomotives, cars, and other vehicles, including special types of equipment and the supply of trains. The commission may inquire into the management of the business of all common carriers, subject to the provisions of the act to regulate commerce, and may prescribe the accounts, records, and memoranda which shall be kept by the carriers, which shall be open to examination by the commission through its authorized agents or examiners. Carriers are required to file annual reports with the commission and such other reports as the commission may from time to time require.

Through Routes and Joint Rates

By the act of June 18, 1910 (Mann-Elkins law), the jurisdiction of the commission was increased as to through routes and joint rates, freight classification, switch connections, long and short hauls, filing or rejection of rate schedules, investigations on own motion, determining reasonable rates, suspension of proposed rates, and other matters. By the *Transportation Act, 1920*, the maximum period during which the commission may suspend the operation of proposed schedules is fixed at 150 days, and it is provided that if the proceeding upon suspension is not concluded within that time the proposed schedule shall go into effect at the end of such period, but that the commission may require the carriers to keep account in detail of all amounts received by reason of increases in such rates and charges and, if the decision of the commission be adverse, require the carrier or carriers to refund with interest such portions of such increased rates or charges as by its decision shall be found not justified.

By act approved August 24, 1912 (sec. 11), a new paragraph was added to section 5 of the act to regulate commerce, by which it is made unlawful after July 1, 1914, for any common carrier subject to the act to regulate commerce to own, lease, operate, control, or have any interest in any competing carrier by water. Jurisdiction is conferred upon the commission to determine questions of fact as to competition, after full hearing, on the application of any railroad company or other carrier, and to extend beyond July 1, 1914, the time during which such ownership or operation of vessels plying elsewhere than through the Panama Canal may continue, when it is found to be in the interest of the public and of advantage to the convenience and commerce of the people, and not in restraint of competition. At the same time section 6 of the act was amended by adding a new paragraph conferring upon the commission jurisdiction over transportation of property from point to point in the United States by rail and water, whether through the Panama Canal or otherwise, and not entirely within the limits of a single State, this jurisdiction under certain conditions, including power to establish physical connection between lines of the rail carrier and the dock of the water carrier by directing the rail carrier to make such connection, to establish through routes and maximum joint rates over such rail and water lines, and to determine the conditions thereof, and to determine to what traffic and in connection with what vessels and upon what terms and conditions such rates shall apply; and to require rail carriers entering into through routing arrangements with any water carrier to extend the privileges of such arrangements to other water carriers. By the act approved March 1, 1913, amending the act to regulate commerce, the commission is directed to investigate, ascertain, and report the value of all the property owned or used by every common carrier subject to the provisions of the act.

The act approved March 4, 1915, which became effective June 2, 1915, as amended August 9, 1916, makes common carriers liable for all loss, damage, or injury to property caused by them, and forbids, with certain exceptions, limitations of liability. *As amended February 28, 1920*, it is provided that where the loss, damage, or injury occurs while the property is in the custody of a carrier by water the liability of such carrier shall be determined by and under the laws and regulations applicable to transportation by water, and that the liability of the initial carrier shall be the same as that of such carrier by water except in connection with shipments to foreign destinations by water carriers whose vessels are registered under the laws of the United States, in which case it is made the duty of the carrier by railroad to deliver such shipments to the vessel as a part of its undertaking as a common carrier, but it is provided in this connection that the rail carrier shall not be liable after its delivery to the vessel.

It is further provided that the two-year period of the institution of suits against carriers for loss, damage, or injury shall be computed from the day when notice is given by the carrier to the claimant that the carrier has disallowed the claim or any part thereof.

Regulation of Issues of Securities.

The act *as amended February 28, 1920*, prohibits a carrier from issuing securities or from assuming obligations or liabilities as lessor, lessee, guarantor, indorser, surety, or otherwise, in respect of the securities of others from and after 120 days after the provision takes effect, except after having been authorized by the commission so to do; prescribes the conditions under which the commission may grant authorities to the carriers; the form and contents of applications which shall be made to the commission for such purposes; provides for the giving of notice by the commission of such applications to the governor of each State in which the applicant carrier operates; for hearings by the commission in respect of such applications; that carriers may issue certificates and assume obligations or liabilities without obtaining authority other than that of the commission, and for the issuance by the carrier without the consent of the commission of short-term notes in limited amounts, reports of which are, however, required to be filed with the commission. It is further provided that nothing in the act shall be construed to imply any guaranty or obligation as to such securities on the part of the United States. The act also provides for a right of action in favor of investors or purchasers in good faith and without notice of securities which, if not legally issued, are void, and for penalties against directors, officers, attorneys, or agents of carriers who knowingly assent to or concur in the issuance of securities, etc., contrary to the provisions of the commission's orders or grants of authority.

As amended February 28, 1920, the act also requires every common carrier by water in foreign com-

merce whose vessels are registered under the laws of the United States to file with the commission within thirty days after the provision becomes effective, and regularly thereafter as changes are made, a schedule, or schedules, showing for each of its steam vessels intended to load general cargo at ports in the United States for foreign destinations (*a*) the port of loading, (*b*) the dates upon which such vessels will commence to receive freight and dates of sailing, (*c*) the route and itinerary such vessels will follow and the ports of call for which cargo will be carried. It provides that such carriers by water shall, upon request, state their specific rates on any designated commodities and for any scheduled sailing and shall state any port charges not absorbed in the railroad rate to the port. The act provides also, for the publication and dissemination in compact form, for the information of shippers throughout the country, of the substance of such schedules and the furnishing of such publications to all railway carriers for distribution in such towns and cities as may be specified by the commission. The amended act further provides for the issuance of through export bills of lading, in connection with such water carriers, to the point of destination; that such bills of lading shall name separately the charges to be paid for railway transportation, water transportation, and port charges, if any, not included in the rail or water transportation charges, and that the commission shall, in such manner as will preserve for the carrier by water the protection of limited liability provided by law, make rules and regulations and prescribe the form of such through bills of lading; it provides that the issuance of such through bills of lading shall not be held to constitute "an arrangement for continuous carriage or shipment" within the meaning of this act.

RELATED ACTS AFFECTING INTERSTATE COMMERCE.

Elkins Act.—The act of February 19, 1903, commonly called the Elkins law, prohibits rebating, allows proceedings in the courts by injunction to restrain departures from published rates, and provides that cases prosecuted under the direction of the Attorney General in the name of the commission shall be included within the expediting act of February 11, 1903.

District Court Jurisdiction Act.—The urgent deficiency appropriation act approved October 22, 1913, provided that the Commerce Court should be abolished from and after December 31, 1913, and that the jurisdiction theretofore vested in the Commerce Court under act approved June 18, 1910, be transferred to and vested in the several district courts of the United States.

Expediting Act.—The act of February 11, 1903, provides that suits in equity brought under the act to regulate commerce wherein the United States is complainant may be expedited and given precedence over other suits, and that appeals from the circuit court (district court) lie only to the Supreme Court.

Federal Control Act.—The act known as the Federal Control Act, approved March 21, 1918, provides that the commission shall ascertain and certify to the President the average annual railway operating income, to be used by the President in making agreements for compensation for the use of the transportation systems of the country; that in case the amount of compensation is not adjusted, claims may be submitted to boards of referees appointed by the commission, and the findings of such boards shall be a maximum of compensation which may be paid to the carriers; that the President, in executing the Federal Control Act may avail himself of the advice, assistance and co-operation of the commission, its members and its employees; that the President may initiate rates, fares, charges, classifications, regulations, and practices by filing same with the commission; that the commission shall upon complaint enter upon a hearing and determine the justness and reasonableness of any rate, fare, charge, classification, regulation, or practice initiated by the President, taking into consideration the fact that the railroads are operated under unified control and such recommendations as the President may make as to the necessity of increasing railway revenues.

Transportation Act, 1920.—The Transportation Act, 1920, provides for the termination of Federal control and limits the powers the President may thereafter exercise under the Federal Control Act to those necessary to wind up and settle matters arising out of Federal control; for the turning over to the Secretary of War for operation and settling up of all matters arising out of Federal control in connection with boats, barges, tugs and other facilities on the inland, canal and coastwise waterways acquired by the United States under the Federal Control Act, and requiring him to provide terminal facilities for the interchange of traffic with carriers and renders the operation of the boats and facilities subject to the provisions of the inter-State commerce act to the same extent they would be if not owned by the United States. This act also authorizes the President to advance moneys to the carriers for certain purposes out of the revolving fund created by the Federal Control Act and requires the commission to ascertain and certify to the Secretary of the Treasury the amounts to be thus advanced to the carriers. It also provides for the appointment by the President of an agent to act as defendant in actions at law, suits in equity, proceedings in admiralty, and before the commission, based on matters arising out of Federal control, and confers upon the commission jurisdiction over all claims for the reparation pertaining to the Federal control period, whether arising in respect of intrastate or interstate traffic; that, pending actions, suits, proceedings, and reparation claims shall not abate, but that reparation awards in such cases shall be paid out of the revolving fund; that the period of Federal control shall not be computed as a part of the periods of limitation in actions against carriers or in claims for reparation based on causes of action arising out of matters pertaining to Federal control; and that a judgment in favor of the United States is the only one that may be levied against the property of the carrier where the judgment is based upon such matters.

The *Transportation Act* also continues in force until changed by lawful authority all rates, fares, charges, classifications, regulations, and practices *in effect on February 29, 1920*, and prohibits reductions of such rates, fares, and charges *prior to September 1, 1920*, except with the approval of the commission. It provides certain guaranties of compensation for a period of six months *from March 1, 1920*, to all carriers which were entitled to the same under the Federal Control Act, and which on or before *March 15, 1920*, filed with the commission a written statement that they accepted the provisions and conditions upon which such guaranties are made. A similar guaranty under the same conditions of acceptance is made to the American Railway Express Company that the contract between it and the Director General of Railroads shall remain in effect during the guaranty period in so far as the said contract constitutes a guaranty to the express company against a deficit in operating income. It provides for advances to the express company and the carriers to meet operating expenses, and fixed charges, and that the commission after the expiration of the guaranty period shall ascertain and certify to the Secretary of the Treasury the amount due any carrier under the guaranty, and the amount of and the times at which such loans or advances shall be made to any carrier. The Transportation Act also provides for the inspection of carriers' records by the President or his agents until the affairs of Federal control are concluded, and for the refunding of carriers' indebtedness to the United States. It also authorizes the Secretary of the Treasury to make new loans to carriers upon certain conditions and upon favorable certification by the commission and creates a revolving fund of $300,000,000 out of which said loans are to be made and out of which certain judgments, decrees, and awards are to be paid.

The *Transportation Act* also provides a plan for the settlement of controversies between carriers and their employees and subordinate officials through the medium of railroad boards of labor adjustment and a Railroad Labor Board. The latter consists of nine members, three of whom, representing the labor group, are to be chosen from not less than six nominees designated by the employees; three, representing the management, are to be chosen from not less than six nominees designated by the carriers. All nominations in both groups are made under rules and regulations prescribed by the commission. Three members, representing the public, are chosen directly by the President. All appointments are made by and with the advice and consent of the Senate.

Clayton Anti-Trust Act.—Jurisdiction is conferred upon the commission to enforce certain provisions

INTERSTATE COMMERCE ACT, WITH AMENDMENTS—*Continued*

of the act approved October 15, 1914, to supplement existing laws against unlawful restraints and monopolies in so far as such provisions relate to carriers subject to the act to regulate commerce. The act prohibits, with certain exceptions, carriers from discriminating between purchasers in sales of commodities, and from making leases or sales of commodities and from acquiring stock or capital of other corporations engaged in commerce tending to substantially lessen competition or create a monopoly; makes it a felony for a president or other specified officers to misappropriate a carrier's funds; and, as amended by act approved January 12, 1918, provides that, effective January 1, 1919, no carrier shall have dealings in securities or supplies, or contract for construction or maintenance to the amount of more than $50,000 in the aggregate in any one year with another corporation or organization when, by reason of common officers or otherwise, there exists a community of interest between the carrier and such other corporation or organization, except as a result of free competitive bidding under regulations to be prescribed by the commission. The commission is further authorized to investigate violations of the act by carriers and to require the guilty parties to cease therefrom, and its findings of fact in such investigations shall be conclusive when supported by testimony.

Government-Aided Railroad and Telegraph Act.—Under the act of August 7, 1888, all Government-aided railroad and telegraph companies are required to file certain reports and contracts with the commission, and it is the commission's duty to decide questions relating to the interchange of business between such Government-aided telegraph company and any connecting telegraph company. The act provides penalties for failure to comply with the act or the orders of the commission.

Railway Mail Service Pay Act.—The act making appropriations for the service of the Post Office Department, approved July 28, 1916, empowers the commission to fix and determine fair and reasonable rates and compensation for the transportation of mail matter by railway common carriers and services connected therewith, prescribing the method by weight or space, or both, or otherwise.

The commission, by the act of March 19, 1918, fixes the standard time zones; it has oversight of safety appliances, by the acts of March 2, 1893, and April 14, 1910; it compels accident reports by the act of May 6, 1910, and regulates hours of service by the act of March 4, 1907; it enforces the Ash Pan Act of May 30, 1908; regulates the carrying of explosives, by the act of May 30, 1908; looks after locomotives and their boilers by the acts of February 17, 1911, and March 14, 1915, oversees block signal and automatic train control devices by acts of 1913-1918; and, by the act of *February 28, 1920*, the commission is authorized to require carriers to install automatic train-stop or train-control devices or other safety devices.

THE OIL, COAL AND PHOSPHATE LAND ACT.

The President, Feb. 25, 1920, signed an Act of Congress throwing open for mineral development millions of acres of public lands in the West. Oil lands thus made available to prospectors were estimated at 6,700,000 acres, coal lands at 30,000,000 to 70,000,000 acres, and phosphate lands at 2,700,000 acres. All of the development is under the control of the Secretary of the Interior.

Coal lands are leased in tracts of 40 acres or multiples thereof, up to 2,560 acres to one applicant. Railroads may work one grant for each 200 miles of road. On coal leases the Government collects a royalty of not less than 5 cents a short ton, and a yearly rental of not less than 25 cents for the first year, not less than 50 cents an acre for the 2nd to 5th year, incl., and not less than $1 an acre a year for the rest of the term Leases are for indeterminate periods, not to exceed 20 years, renewable to a like extent. Individuals or associations may, in an emergency, be allowed to mine coal for their own use, with no royalty. Municipalities may lease coal lands for their own use.

Oil and gas lands, in tracts up to 2,560 acres, including Alaska, are leased for indeterminate periods, the royalty being 5 per cent. of the value of the production, and a rent of $1 an acre in the first quarter-area of the permit, the royalty rising to 12½ per cent. as the development proceeds over the rest of the area in the permit Oil and gas royalties may be demanded by the United States in oil and gas.

Oil shale lands are leased for indeterminate periods up to 20 years, in tracts, up to 5,120 acres, royalties to be fixed in the lease, and a yearly rental of 50 cents an acre. To encourage production, royalties and rentals may be waived for 5 years.

Sodium land leases are for tracts up to 2,560 acres, outside San Bernardino County, Calif., with royalties not less than 12½ per cent., and a yearly rent of 50 cents an acre, first year, and $1 an acre a year thereafter.

No person, association, or corporation, except as provided, shall have more than one coal, phosphate, or sodium lease during the life of such lease in any one State; not more than three oil or gas leases granted hereunder in any one State, and not more than one lease within the geologic structure of the same producing oil or gas field; no corporation shall hold any interest as a stockholder of another corporation in more than such number of leases; and no person or corporation shall take or hold any interest or intersts as a member of an association or associations or as a stockholder of a corporation or corporations holding a lease under the provisions hereof, which, together with the area embraced in any direct holding of a lease under this Act, or which, together with any other interest or interests as a member of an association or associations or as a stockholder of a corporation or corporations holding a lease under the provisions hereof, for any kind of mineral leased hereunder, exceeds in the aggregate an amount equivalent to the maximum number of acres of the respective kinds of minerals allowed to any one lessee under this Act. Any interests held in violation of the Act are forfeited to the United States.

Lessees may combine to build and operate refineries and pipe lines. No lands opened to mineral development shall be enjoyed as to land, product, pipe line, or refinery by "unlawful trusts." Pipe lines may be run across public lands and forest reserves. All pipe lines built under the Act must carry Government oil or that of any private developer, at non-discriminating rates.

JUVENILE COURTS ABROAD.

(By the Children's Bureau, United States Department of Labor.)

THE example set by the United States in establishing juvenile courts has now been followed by all the principal countries of Europe. Spain, the last to fall in line, has now adopted the viewpoint that delinquent children should not be treated as criminals, but rather as victims of adverse conditions and surroundings. In working out the details of the law Spanish authorities have followed America's experience. Under the Spanish law the children's judge is not necessarily a member of the bench. He is assisted by two advisory members appointed by the Commission for the Protection of Children Privacy is guarded very closely in the Spanish juvenile courts, no one except probation officers is allowed in the court except by special permission, and the press is forbidden to publish any information about cases of juvenile delinquents. Since Chicago established the first juvenile court in 1899, similar courts have been established in England, France, Belgium, Holland, Denmark, Switzerland, Italy, Germany, Russia, Austria and Hungary.

FEDERAL WATER POWER LAW.

THE Federal Water Power Act, passed by Congress and approved by the President, June 10, 1920, created a Federal Power Commission, composed of the Secretary of War, the Secretary of the Interior, and the Secretary of Agriculture. The work of the commission is done by and through those three departments. It is authorized to make investigations and collect data as to available power sites, etc., and it has the right to locate and license all power plants on, or affecting, "navigable waters," which are defined as "those parts of streams or other bodies of water over which Congress has jurisdiction under its authority to regulate commerce with foreign nations and among the several States, and which either in their natural or improved condition, notwithstanding interruptions between the navigable parts of such streams or waters by falls, shallows, or rapids compelling land carriage, are used for or are suitable for use for the transportation of persons or property in interstate or foreign commerce, including therein all such interrupting falls, shallows, or rapids; together with such other parts of streams as shall have been authorized by Congress for improvement by the United States or shall have been recommended to Congress for such improvement after investigation under its authority."

The commission decides whether a site should be developed by the United States or by private capital; over all licensees it is authorized to exercise power to compel reasonable rates and to have access to books and records; and it has the right to summon and examine persons under oath. Plans for dams, etc., are subject to the approval of the Chief of Engineers and the Secretary of War. Preliminary permits are good for not over three years, to give the proposing licensee a chance to look the ground over, and get capital, etc.

Licenses may not cover over 50 years. States and municipalities get the preference in power site applications. Licenses cannot be voluntarily transferred without the commission's approval. After the first 20 years of operation of a licensed water power plant, the licensee must establish a reserve fund out of surplus earnings. The commission fixes the annual rental due to the Government from the licensee, but States and municipalities pay no rent for power they devote to public purposes. Nor do plants of less than 100 horsepower pay yearly fees for a license.

A licensee should begin construction within two years, but his time may be extended two years, on good cause. The United States may take over and operate a plant, on two years' notice, paying the licensee his just dues. In times of emergency, the United States can take over, temporarily, any or all plants, for war use, etc. License fees are credited thus: "All proceeds from any Indian reservation shall be placed to the credit of the Indians of such reservation. All other charges shall be paid into the Treasury of the United States, subject to the following distribution: Twelve and one-half per centum credited to 'miscellaneous receipts'; 50 per centum of the charges from licenses for the occupancy of public lands, to the reclamation fund; and 37½ per centum of the charges from licenses for the occupancy and use of public lands within any State shall be paid to such State; and 50 per centum of the charges from all other licenses is to be expended under the direction of the Secretary of War in the maintenance and operation of dams and other navigation structures owned by the U. S. or in the construction, maintenance, or operation of headwater or other improvements of navigable waters of the U. S."

Plants used for public service purposes are subject to the regulations of State agencies of the kind; if a State has no such agency as a public service body, then the Federal Power Commission does the regulating and rate fixing. All unreasonable power rates to consumers are prohibited and declared unlawful. Parties subject to such regulation shall have rights of hearing, defense, and review the same as accorded in the Interstate Commerce Act. When a licensee cannot get by contract or pledge an unimproved dam site, the commission may do so by condemnation.

With the approval of the Federal Commission or a State agency, contracts may be made to supply power beyond the expiration of a license.

Existing rights of way are not voided, and owners may apply for a Federal license.

The act does not affect dams on non-navigable waters unless they interfere with navigable waters.

Entrance on settlers' lands is subject to future water power reservations, but settlers will be compensated for damage.

Violations of the act are misdemeanors, punishable by $1,000 to $2,000 fine, or imprisonment, or both.

When the Federal Courts revoke power licenses, on application of the Attorney General, the courts may sell the dams or power plants

Rights of States to use water for navigation, consumption, or other purposes, are not disturbed.

According to a revision by the Department of Commerce of the 1908 estimates of the United States Geological Survey, the water power in the United States ranges between 32,083,000 horsepower to 61,678,000 horsepower. Later estimates by the Government make the range from 27,942,000 to 53,905,000 horsepower. Assuming the latter minimum to be approximate, the horsepower is distributed, by sections of the country, as follows: New England, 868,000; Middle Atlantic, 1,357,000; East North Central, 832,000; West North Central, 902,000; South Atlantic, 2,346,000; East South Central, 1,087,000; West South Central, 353,000; Mountain, 8 694 000; Pacific, 11,504,000.

The developed water power in 1912, as reported for commercial and municipal central electric stations and as estimated for manufacturing plants, was 4,870,320, of which New York had 896,229; California, 440,243; Maine, 387 073. The developed water power in 1918, was estimated at 6,000,000 horsepower, as follows. In the National forest, 755,000; in the public domain, 173,000; through reservoir development, 72,000; requiring right of way over public lands, 1,000,000; in navigable streams, 1,000,000; on non-navigable streams and involving lands privately owned, 3,000,000.

According to A. T. Vogelsang, First Assistant Secretary of the Interior, the amount of the theoretical power per foot of fall in the St. Lawrence River, as shown by the mean annual flow, is 27,360 horsepower, and as a total fall of 92 feet is available in the international section of the river the theoretical power in that section is about 2,520,000 horsepower. Assuming that only 70 per cent. of this energy can be made available on account of losses in head and inefficiencies of water wheels and generating equipment, this strength of the river, owned equally by the United States and Canada, would furnish 1,764,000 horsepower or 882,000 horsepower to each. About 95,000 horsepower of the portion belonging to the United States has already been developed by the St. Lawrence River Power Co., by means of a canal which diverts a maximum of 30,000 second-feet from the river near the head of the Long Sault Rapids through the power house into Grass River, which joins the St. Lawrence below the Long Sault Rapids. Here a head of about 40 feet is developed. After the power utilized at this development is deducted from the power of the portion belonging to the United States the power not yet developed in that portion of the river amounts to about 790,000 horsepower.

WATER RIGHTS IN WESTERN IRRIGATED AREAS.

Use of streams and other surface water, for irrigation, is controlled by the States. Actual use is necessary to hold a right. Subterranean streams flowing in known and defined channels are subject to the same laws as surface streams. Artesian water belongs equally to all in the artesian basin. Ordinary percolating or well water belongs to the overlying land. Canal water is distributed in continuous flow, or in rotation to the farmers, or on demand.

THE UNITED STATES MERCHANT MARINE ACT.

THE Merchant Marine Act, approved June 5, 1920, says, in the opening paragraph: "Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it is necessary for the national defense and for the proper growth of its foreign and domestic commerce that the United States shall have a merchant marine of the best equipped and most suitable types of vessels sufficient to carry the greater portion of its commerce and serve as a naval or military auxiliary in time of war or national emergency, ultimately to be owned and operated privately by citizens of the United States; and it is hereby declared to be the policy of the United States to do whatever may be necessary to develop and encourage the maintenance of such a merchant marine, and, in so far as may not be inconsistent with the express provisions of this act, the United States Shipping Board shall, in the disposition of vessels and shipping property as hereinafter provided, in the making of rules and regulations, and in the administration of the shipping laws keep always in view this purpose and object as the primary end to be attained."

The act repeals all previous laws on shipping that are inconsistent, but does not affect contracts or agreements made by the United States Shipping Board; and it re-creates such a board, under the same name, consisting of seven commissioners, appointed by the President, subject to ratification by the Senate, for normal terms of six years, at $12,000 a year, he to name the chairman. The United States Merchant Marine already owned by or building for the Shipping Board is transferred to the new board, which is authorized to sell any or all ships it does not want, Americans to have the first option on the purchase, on the 15-year instalment plan, when so required by the board. This body lays out ship routes, regulates size of craft, sailings, etc., and may either operate them with its own ships or sell or charter ships to American citizens for such routes. The board may establish lines in competition with existing ones under private ownership. Mails are to be carried on American ships to whatever extent the board and the Postmaster General may decide. The board has authority to push port development, and advises with the Interstate Commerce Commission as to zoning and harmonizing water and rail routes.

The board may use, out of its revenues, $25,000,000 a year, for five years, as loans at interest to American steamship builders, advancing not more than two-thirds of the cost of construction, secured by liens on the ships. The Emergency Fleet Corporation ends as soon as the ships and war-emergency plants are disposed of. The board takes over the docks, warehouses, etc., acquired by the Government during the war under the act of March 28, 1918. It is unlawful to sell, transfer, mortgage or charter an American vessel to an alien without the board's consent, under penalty of forfeit. The coastwise trade is limited to American-owned vessels. The board can take steps to meet foreign competitors on ocean routes, as to rates, rules, etc. Common carriers by water are forbidden, under $25,000 penalty, from making deferred rebates or from preventing or attempting to prevent competition by fighting ships or by other discriminatory or unfair means Foreign-owned ships which discriminate against American vessels abroad may be excluded from American ports.

The coastwise laws are extended to the island territories and possessions, except the Philippines and the board is directed to give these possessions adequate steamship service, if possible by Feb. 1, 1922 Until then, foreign ships may carry passengers between Hawaii and the Pacific Coast. The Philippines come under the law later, by proclamation of the President.

The net income, for ten years, of American-owned ships in foreign trade is exempted from the income tax provided the owner invests the sum of his war profits and excess-profits taxes in building new ships, nor is there any tax on the proceeds of the sale of United States documented vessels built prior to 1914, provided the proceeds are used for building new American ships.

No corporation, partnership, or association shall be deemed a citizen of the United States unless the controlling interest therein is owned by citizens of the United States, and, in the case of a corporation, unless its President and Managing Directors are citizens of the United States and the corporation itself is organized under the laws of the United States or of a State Territory, district, or possession thereof, but in the case of a corporation, association, or partnership operating any vessel in the coastwise trade the amount of interest required to be owned by citizens of the United States shall be 75 per centum. The controlling interest in a corporation shall not be deemed to be owned by citizens of the United States (a) if the title to a majority of the stock thereof is not vested in such citizens free from any trust or fiduciary obligation in favor of any person not a citizen of the United States; or (b) if the majority of the voting power in such corporation is not vested in citizens of the United States: or (c) if through any contract or understanding it is so arranged that the majority of the voting power may be exercised, directly or indirectly, in behalf of any person who is not a citizen of the United States; or (d) if by any other means whatsoever control of the corporation is conferred upon or permitted to be exercised by any person who is not a citizen of the United States. The same is true as to coastwise, by making the requirement 75 per cent. instead of a majority of stock or voting power.

Section 34 of the act says: "In the judgment of Congress, articles or provisions in treaties or conventions to which the United States is a party, which restrict the right of the United States to impose discriminating customs duties on imports entering the United States in foreign vessels and in vessels of the United States, and which also restrict the right of the United States to impose discriminatory tonnage dues on foreign vessels and on vessels of the United States entering the United States should be terminated, and the President is hereby authorized and directed within 90 days after this act becomes law to give notice to the several governments, respectively, parties to such treaties or conventions, that so much thereof as imposes any such restriction on the United States will terminate on the expiration of such periods as may be required for the giving of such notice by the provisions of such treaties or conventions."

Asserting that Congress had no constitutional right to authorize or direct such a proclamation, President Wilson declined to issue a proclamation.

LAW OPENING UNITED STATES ARMY TO FOREIGNERS.

(Approved, June 14, 1920.)

AN act authorizing the enlistment of non-English speaking citizens and aliens.

So much of the act of Congress entitled "An act to regulate enlistments in the Army of the United States," approved Aug. 1, 1894, as provides that "in time of peace no person (except an Indian) who cannot speak, read, and write the English language" be, and the same is hereby repealed.

LAW FOR THE RETURN OF SEIZED PROPERTY OF ALIENS.

AN act of Congress was approved June 5, 1920, authorizing the return to the owners of property seized by or turned over to the Alien Property Custodian. The President can order the property returned, or it may be sued for. Creditors can sue to get claims on seized property. The act further says: "No money or other property shall be returned nor any debt allowed under this section to any person who is a citizen or subject of any nation which was associated with the United States in the prosecution of the war, unless such nation in like case extends reciprocal rights to citizens of the United States; nor in any event shall a debt be allowed under this section unless it was owing to and owned by the claimant prior to Oct. 6, 1917, and as to claimants other than citizens of the United States unless it arose with reference to the money or other property held by the Alien Property Custodian or Treasurer of the United States hereunder."

UNITED STATES CUSTOMS DUTIES.

(The following table covers only the articles of principal importance imported.)
(ad val.—ad valorem; n.s.p.f.—not specially provided for.)
* Effective March 1, 1914.

LITIGATION OF CUSTOMS CLAIMS.

(By the Board of United States General Appraisers.)

A statutory judicial remedy is given by the Customs Practise Act of June 10, 1890, and supplements thereto, for the return of money illegally exacted by the administrative customs officials, before a special statutory Court of Customs Claims called the Board of United States General Appraisers. If the valuation by the local appraiser of imported merchandise upon which an ad valorem duty is assessed is disputed by the importer he may appeal for a re-valuation (or re-appraisement as it is called) within ten days after the local appraiser has made the assessment. If the Importer is dissatisfied with the classification by the Collector of Customs at the port of entry, he may file a protest in writing within thirty days with such Collector, who thereupon must forward the papers to the Board, and the case is regularly docketed.

There is no limitation upon the amount involved in such litigation. It covers and includes merchandise imported by Parcel Post and claims arising from the assessment and classification of baggage not exempt from duty. The trial of the case is usually had at the port of entry or some nearby place. Regular dockets for the trial of such cases are held at New York, Philadelphia, Boston, Baltimore, Chicago, Cincinnati, St. Louis, St. Paul, Seattle, Portland, San Francisco and Los Angeles. In addition special dockets are held in other customs districts at the convenience and on request of the importers' attorneys. There are no court costs and the procedure is simple and expeditious yet includes all the safeguards and protections of an ordinary court trial. Numerous claims against the Government, arising from the administration of the customs laws, are thus litigated and involve in the aggregate large sums of money. Re-appraisement cases are heard by a single member of the Board with an appeal by either the Government or the importer from his judgment to a board of three. Classification cases, including contests over the legality of an appraisement, the legality of any administrative regulation promulgated by the Secretary of the Treasury, or the legality of other administrative action resulting in the levy of an excessive rate or amount of duty by the Collector of Customs, are decided by the Classification Board. An appeal lies from this Board's judgment to the Court of Customs Appeals at Washington from whence certiorari lies to the Supreme Court of the United States in treaty cases, constitutional cases and other cases which the Attorney General certifies as of sufficient importance.

The Clerk of the Board is De Witt P. Dutcher, 641 Washington Street, New York, N. Y. The Board consists of Jerre B. Sullivan (President) of Iowa, Byron S. Waite of Michigan, Eugene G. Hay of Minnesota, William B. Howell of New Jersey, Israel F. Fischer of New York, Geo. E. Weller of New York, Charles P McClelland of New York, George Stewart Brown of Maryland, and William C. Adamson of Georgia. The U. S. Court of Customs Appeals consists of James M. Smith, Presiding Judge; Orion M. Barber, Marion De Vries, and George E. Martin, Associate Judges. Clerk, Arthur B. Sheldon.

CHIEF NEW YORK STATE LEGISLATION OF 1920.

THE 1920 HOUSING LAWS.

ONE of the new New York State housing laws, effective Sept. 27, 1920, gives authority to exempt new homes from local taxation, saying: "The legislative body of a county, or the legislative body of a city with the approval of the Board of Estimate and Apportionment, if there be one in such city, or the governing board of a town, village or school district may determine that until Jan. 1, 1932, new buildings therein, planned for dwelling purposes exclusively, except hotels, shall be exempt from taxation for local purposes other than for assessments for local improvements during construction and so long as used or intended to be used exclusively for dwelling purposes, or if a building of four stories or more in height, used exclusively for dwelling purposes above the ground floor, provided construction was completed since April 1, 1920, or, if not so completed, that construction be commenced before April 1, 1922, and completion for occupancy be effected within two years after such commencement, or if now in course of construction within two years after this section takes effect."

The chief provisions of the other housing legislation of the New York Legislature in 1920 are as follows:

Chapters 133, 135, 137, 139, 942 and 947. These acts taken together prevent recovery of premises by landlords from holdover tenants until Nov. 1, 1922, except because (1) tenant is objectionable. (2) premises are needed for immediate use as residence by owner and his family; (3) when owner intends putting up new building; (4) where party seeking recovery is an individual stockholder in co-operative apartment plan. Landlord must prove, not merely claim, his exceptional right to proceed.

Excessive Rent Charge as Defense—Chapters 136, 944 and 945. Provide that in proceedings for non-payment of rent, where rent has been raised, tenant may defend on ground that new rent is excessive. Tenant must deposit in court one month's rent on old basis. Landlord must file a bill of particulars giving data to show reasonableness of increase—viz., gross income assessed valuation, taxes, number of apartments, number of rooms, etc. Court passes upon reasonableness.

Heat, Elevator, Telephone Service, etc.—Chapters 131 and 951 make it a misdemeanor for landlord, agent or janitor to cut off or neglect to furnish agreed for or implied heat, elevator, telephone or other normal service.

NEW YORK STATE COMPULSORY PART-TIME SCHOOL LAW.

Following is a summary of the provisions of this law, passed by the 1920 Legislature:

Cities and school districts having a population of 5,000 or more are required under penalty of forfeiture of school funds to establish part-time schools, which shall be maintained for the full school year

and on regular school days between 8 A. M. and 5 P. M. Part-time schools must be established in September, 1920, but cities and districts have until September, 1925, to provide a sufficient number of schools and classes to take care of all children required to attend.

All fourteen, fifteen, sixteen and seventeen year-old children not high-school graduates and not in regular attendance upon full-time school must attend part-time schools. The required attendance of minors on part-time school is for not less than four or more than eight hours a week. A minor who is out of regular employment must attend part-time school for twenty hours a week.

A parent who fails to send a child to part-time school is subject to penalty. Penalties are also prescribed for minors who fail to attend. Employers of children must excuse them to attend part-time school and must discontinue the services of children who fail or refuse to attend part-time school.

Attendance upon approved private or parochial part-time schools may be accepted in lieu of that required upon the public part-time schools.

State aid for part-time schools is given on basis of two-thirds of salary of first teacher and one-half of salary of each additional teacher, with a maximum of $1,000 of aid in any one case.

It is estimated that 70,546 young people of New York City, between the ages of 15 and 17, who had not completed the elementary course of study and who left school to go to work, were required to return to school in the fall of 1920 for four hours' instruction weekly. In September, 1921, the number will be augmented to 106,546; in 1922, to 134,304, and in 1923 to 166,131. When the new law regulating the continuation schools is in full operation, in the fall of 1924, the number will be increased to 186,131.

OTHER 1920 NEW YORK STATE EDUCATION LAWS.

Chapter 150 relates to the use of school buildings for the holding of primaries and elections. In cities the Board of Education may grant such use. In districts outside of cities the trustees or Board of Education are directed to call a special meeting of the district electors, upon the petition of at least 10 per cent of such electors, for the purpose of voting upon the question.

Chapter 502 restricts the award of State scholarships to citizens.

Chapter 752 amends the present State Teachers Retirement Fund Law by increasing the maximum amount of a teacher's annuity upon retirement from $600 to $800, and fixes the minimum of a full annuity at $400. All annuities existing Aug. 1, 1920 will be increased by 33⅓ per cent. In order to make this increase possible, the law increases the contributions by the cities and school districts, to be deducted from the public moneys apportioned thereto, from 1 per cent to 1½ per cent. of the salaries paid to teachers.

OTHER 1920 NEW YORK STATE LEGISLATION.

Absentee Voting—Law provides that qualified voters unavoidably absent on business on Election Day, railroad and Federal employees, commercial travellers and so on, may apply by affidavit to Board of Elections, receive a special ballot, mark it and send it to polling place by mail

Absences of State Employees on Military Duty—Chapter 624 Provides that absences of State employees in performance of ordered military or naval duty by members of National Guard or Naval Militia are to be permitted without deduction of salary.

Americanization—One law provides for teaching English history, civics, etc., to foreign born and native adults; another authorizes courses of study in normal schools to train teachers; a third provides for twenty-five industrial scholarships for vocational teachers

Arbitration—Chapter 275 Makes arbitration clauses in contracts valid.

Auto Laws—Eight motor bills became laws All motor vehicles must be equipped with approved lights before registration is granted The operator of a car carrying children to and from school outside of a city need not be a licensed chauffeur; and cars carrying school children may be registered as passenger vehicles and not as omnibuses. Commercial motor vehicles are defined Heavy motor Trucks on State Roads—Chapter 189. Amends Highway Law prescribes width, height, weight of motor trucks.

Auto Vehicle Fees—Chapter 96 For registration of twelve-, eight-, or six-cylinder motor vehicles, not less than $10, for any other motor vehicle, not less than $5

Auto Vehicle Identification—Chapter 119. Makes it a misdemeanor to remove, deface, cover, alter or destroy manufacturers' serial number or any other distinguishing or identification mark.

Auto Vehicles Lights—Chapter 684. Secretary of State must require proof that every motor vehicle for which registration is applied has proper lights

Banks, Savings—Chapter 167. Increases from $3,000 to $5,000 aggregate amount an individual may have on deposit.

Beer—Chapter 911. Permits manufacture and sale of 2 75 per cent. beer, not to be drunk on premises, except in eating places with meals.

Boxing—Chapter 912. Permits boxing bouts under certain restrictions; creates a Boxing Commission, and a License Commission; bouts are limited to fifteen rounds; there must be two judges and a referee at each bout; a license (no fee) is required for each meet

Corporation Debts—Chapter 606. Limits incurring of debts of corporations authorized to issue shares without nominal or par value to amount of capital paid in

Consumers' Co-Operative Associations—Chapter 166. Amends membership corporation law; provides that five or more persons not engaged in dairy, agriculture or horticulture may form a co-operative consumers' association, without capital stock and not to be conducted for profit.

False Information—Chapter 569. Makes the furnishing of false information for publication a misdemeanor.

Intangible Personal Property Exempt—Chapter 647. Exempts from taxation "intangible" personal property, meaning money, bank deposits, shares of stock, dividends of debt, etc.

Labor Law Amended—Chapter 601. Provides for physical examination of children fourteen to sixteen and permits cancellation of employment certificates in mercantile places as well as in factories

Liberty Bonds as Collateral—Chapter 66. Amends Banking Act by permitting bankers to accept Liberty Bonds as collateral on personal loans.

Military Cross—Chapter 627. Authorizes Governor to present conspicuous service crosses to citizens who received citations while serving in army, navy, Marine Corps or army female nurse corps during World War.

New Jersey Tunnel—Appropriates $1,000,000 as State's share for beginning New Jersey vehicular tunnel under Hudson River.

Non-Resident Tax Exemption—Chapter 691. Provides for credits to taxpayers, residents of other States, in cases where such other States provide for reciprocal exemptions.

Police Reserve—Chapter 711. Continues police reserve organized in 1917; reserve limited to 5,000 members, to serve without pay.

Policewomen—Chapter 509. Adds new section to New York City Charter authorizing appointment of women police.

Rehabilitation—Chapter 760 Accepts on behalf of State provisions of United States laws for rehabilitation.

Scholarships—Chapter 893. Provides for State scholarships for soldiers, sailors and marines.

Second Offenders—Chapter 711. Provides that second offenders *must* be sentenced to longest term for offense.

Suspended Sentence—Chapters 476, 568 and 844. Provide that in cases of suspended sentence or probation, persons on probation or serving a suspended sentence may be re-arrested on original charge and resentenced.

War Veterans Property Tax Exemption—Chapter 413. Provides for exemption up to $5,000 from taxation of real property purchased with proceeds of pension bonus or insurance.

UNITED STATES PATENT OFFICE PROCEDURE.

(Revised by the Patent Office at Washington.)

Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, or any new, original and ornamental design for an article of manufacture, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof or more than two years prior to his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned; upon payment of the fees required by law and other due proceedings had.

Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents, of the exclusive right to make, use, and vend the invention or discovery throughout the United States and the Territories, referring to the specifications for the particulars thereof.

If it appear that the inventor, at the time of making his application, believed himself to be the first inventor or discoverer, a patent will not be refused on account of the invention or discovery, or any part thereof, having been known or used in any foreign country before his invention or discovery thereof, if it had not been before patented or described in any printed publication.

Joint inventors are entitled to a joint patent: neither can claim one separately. Independent inventors of distinct and independent improvements in the same machine cannot obtain a joint patent for their separate inventions; nor does the fact that one furnishes the capital and another makes the invention entitle them to make application as joint inventors; but in such case they may become joint patentees by means of a deed of assignment.

No person otherwise entitled thereto will be debarred from receiving a patent for his invention or discovery, by reason of its having been first patented or caused to be patented by the inventor or his legal representatives or assigns in a foreign country, unless the application for said foreign patent was filed more than twelve months prior to the filing of the application in this country, and four months in cases of designs, in which case no patent shall be granted in this country.

If an inventor wishes to file an application for patent, a copy of the Rules of Practice, containing forms and instructions, will be sent upon request. It is advisable, however, in every case, that the services of a competent registered patent attorney be secured, as the value of patents depends largely upon the skilful preparation of the specification and claims. The Patent Office cannot recommend any particular attorney or firm, but advises applicants to avoid doing business with those who advertise the possession of unusual facilities for obtaining patents.

Applications for patents must be made in writing to the Commissioner of Patents. The applicant must file in the Patent Office a written description of the invention or discovery, and of the manner and process of making, constructing, compounding, and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which it appertains, or with which it is most nearly connected, to make, construct, compound, and use the same; and in case of a machine, he must explain the principle thereof, and the best mode in which he has contemplated applying that principle, so as to distinguish it from other inventions, and particularly point out and distinctly claim the part, improvement, or combination which he claims as his invention or discovery. The specification and claim must be signed by the inventor.

When the nature of the invention admits of drawings, the applicant must furnish a drawing of the required size, signed by the inventor or his attorney in fact. The applicant, if required by the Patent Office, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery, but a model should not be sent unless first called for by the Patent Office.

The applicant shall make oath that he verily believes himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement for which he solicits a patent; that he does not know and does not believe that the same was ever before known or used, and shall state of what country he is a citizen and where he resides, and whether he is the sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more that twelve months prior to his application in this country, or four months in cases of designs. If any application for patent has been filed in any foreign country by the applicant in this country or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned; that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States nor described in any printed publication or patent in this or any foreign country for more than two years prior to his application in this country. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any Minister, Chargé d'Affaires, Consul, or commercial agent holding commission under the Government of the United States, or before any notary public, Judge or Magistrate having an official seal and authorized to administer oaths in that country whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, except that no acknowledgment may be taken by any attorney appearing in the case.

On the filing of such application and the payment of the fees required by law, if, on examination, it appears that the applicant is justly entitled to a patent under the law, and that the invention is sufficiently useful and important, the Commissioner will issue a patent therefor.

Every patent or any interest therein shall be assignable in law by an instrument in writing; and the patentee or his assigns or legal representatives may, in like manner, grant and convey an exclusive right under his patent to the whole or any specified part of the United States.

A reissue is granted to the original patentee, his legal representatives, or the assignees of the entire interest when, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more that he had a right to claim as new, the original patent is inoperative or invalid, provided the error has arisen from inadvertence, accident, or mistake, and without any fraudulent or deceptive intention. Reissue applications must be made and the specifications sworn to by the inventors, if they be living.

Fees must be paid in advance, and are as follows: On filing each original application for a patent, $15. On issuing each original patent, $20. In design cases: For three years and six months, $10; for seven years, $15; for fourteen years, $30. On every application for the reissue of a patent, $30. On filing each disclaimer, $10. For certified copies of patents and other papers in manuscript, ten cents per hundred words and twenty-five cents for the certificate; for certified copies of printed patents, eighty cents. For uncertified printed copies of specifications and drawings of patents, five cents each. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, $1; of over three hundred and under one thousand words, $2; for each additional thousand words, or fraction thereof, $1. For copies of drawings, the reasonable cost of making them. The Patent Office is prepared to furnish positive photographic copies of the drawings of pending, patented or abandoned cases, in sizes and at rates as follows: Large size, 10x15 inches, twenty-five cents; medium size, 8x12½ inches, fifteen cents. Negative photographic copies of specifications and drawings of foreign patents, or of any page or part of page of any printed publication in the possession of the office, will be furnished on paper 7x11 inches for fifteen cents per sheet. Stamps cannot

PATENT OFFICE PROCEDURE—*Continued.*

be accepted by the Patent Office in payment of fees. Stamps and stamped envelopes should not be sent to the office for replies to letters, as stamps are not required on mail matter emanating from the Patent Office.

The most important changes in Patent Office practice put in effect in the past year are as follows:

In Rule 93. "An interference is a proceeding instituted for the purpose of determining the question of priority of invention between two or more parties claiming substantially the same patentable invention. In order to ascertain whether any question of priority arises the Commissioner may call upon any junior applicant to state in writing the date when he conceived the invention under consideration. All statements filed in compliance with this rule will be returned to the parties filing them. In case the applicant makes no reply within the time specified, not less than ten days the Commissioner will proceed upon the assumption that the said date is the date of the oath attached to the application. The fact that one of the parties has already obtained a patent will not prevent an interference, for although the Commissioner has no power to cancel a patent, he may grant another patent for the same invention to a person who proves to be the prior inventor."

In Rule 77: "If an applicant neglects to prosecute his application for one year after the date when the last official notice of any action by the office was mailed to him, the application will be held to be abandoned, as set forth in Rule 171."

REGISTRATION OF TRADE-MARKS IN THE UNITED STATES.

THE following are extracts from the new "Act to authorize the registration of trade-marks used in commerce with foreign nations, or among the several States or Indian tribes, and to protect the same," approved February 20, 1905, and later amendatory acts:

"The owner of a trade-mark used in commerce with foreign nations or among the several States, or with Indian tribes, provided such owner shall be domiciled within the territory of the United States, or resides in or is located in any foreign country, which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, may obtain registration for such trade-mark by complying with the following requirements: First, by filing in the Patent Office an application therefor, in writing, addressed to the Commissioner of Patents, signed by the applicant, specifying his name, domicile, location, and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to goods and the length of time during which the trade-mark has been used; a description of the trade-mark itself shall be included, if desired by the applicant or required by the Commissioner, provided such description is of a character to meet the approval of the Commissioner. With this statement shall be filed a drawing of the trade-mark, signed by the applicant, or his attorney, and such number of specimens of the trade-mark, as actually used, as may be required by the Commissioner of Patents. Second, by paying into the Treasury of the United States the sum of ten dollars, and otherwise complying with the requirements of this act and such regulations as may be prescribed by the Commissioner of Patents.

"A certificate of registration shall remain in force for twenty years, except that in the case of trade-marks previously registered in a foreign country such certificates shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed. Certificates of registration may be, from time to time, renewed for like periods on payments of the renewal fees required by this act, upon request by the registrant, his legal representatives, or transferees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificates of registration were issued or renewed. Certificates of registration in force at the date at which this act takes effect shall remain in force for the period for which they were issued, but shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of this act, and when so renewed shall have the same force and effect as certificates issued under this act.

"The registration of a trade-mark under the provisions of this act shall be prima facie evidence of ownership. Any person who shall, without the consent of the owner thereof, reproduce, counterfeit, copy, or colorably imitate any such trade-mark and affix the same to merchandise of substantially the same descriptive properties as those set forth in the registration, or to labels, signs, prints, packages, wrappers, or receptacles intended to be used upon or in connection with the sale of merchandise of substantially the same descriptive properties as those set forth in such registration, and shall use, or shall have used, such reproduction, counterfeit, copy, or colorable imitation in commerce among the several States, or with a foreign nation, or with the Indian tribes, shall be liable to an action for damages therefor at the suit of the owner thereof; and whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment therein for any sum above the amount found by the verdict as the actual damages, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs."

No trade-mark will be registered which consists of or comprises immoral or scandalous matter, or which consists of or comprises the flag or coat of arms or other insignia of the United States, or any simulation thereof, or of any State or municipality, or of any foreign nation, or which consists of or comprises any design or picture that has been adopted by any fraternal society as its emblem, or of any name, distinguishing mark, character, emblem, colors, flag, or banner adopted by any institution, organization, club or society which was incorporated in any State in the United States prior to the date of the adoption and use by the applicant; Provided, That said name, distinguishing mark, character, emblem, colors, flag, or banner was adopted and publicly used by said institution, organization, club, or society prior to the date of adoption and use by the applicant; unless it shall be shown to the satisfaction of the Commissioner of Patents that the mark was adopted and used as a trade-mark by the applicant or applicant's predecessors, from whom title is derived, at a date prior to the date of its adoption by such fraternal society as its emblem, or which trade-mark is identical with a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties, or which so nearly resembles a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties as to be likely to cause confusion or mistake in the minds of the public, or to deceive purchasers; or which consists merely in the name of an individual, firm, corporation, or association, not written, printed, impressed, or woven in some particular or distinctive manner or in association with a portrait of the individual, or merely in words or devices which are descriptive of the goods with which they are used, or of the character or quality of such goods, or merely a geographical name or term; no portrait of a living individual will be registered as a trade-mark, except by the consent of such individual evidenced by an instrument in writing; and no trade-mark will be registered which is used in unlawful business, or upon any article injurious in itself, or which has been used with the design of deceiving the public in the purchase of merchandise, or which has been abandoned.

Any mark, used in commerce with foreign nations or among the several States or with Indian tribes, may be registered if it has been in actual and exclusive use as a trade-mark of the applicant, or his predecessors from whom he derived title, for ten years next preceding the passage of the act of February 20, 1905.

By Act of Congress approved February 18, 1909, the second section of the trades-mark act was amended so as to read as follows:

"The application prescribed in the foregoing section, in order to create any right whatever in favor of the party filing it, must be accompanied by a written declaration verified by the applicant, or by a

REGISTRATION OF TRADE-MARKS—*Continued.*

member of the firm or an officer of the corporation or association applying, to the effect that the applicant believes himself or the firm, corporation, or association in whose behalf he makes the application to be the owner of the trade-mark sought to be registered, and that no other person, firm, corporation, or association, to the best of the applicant's knowledge and belief, has the right to use such trade-mark in the United States, either in the identical form or in such near resemblance thereto as might be calculated to deceive; that such trade-mark is used in commerce among the several States, or with foreign nations or with Indian tribes, and that the description and drawing presented truly represent the trade-mark sought to be registered. If the applicant resides or is located in a foreign country, the statement required shall, in addition to the foregoing, set forth that the trade-mark has been registered by the applicant or that an application for the registration thereof has been filed by him in the foreign country in which he resides or is located, and shall give the date of such registration, or the application therefor, as the case may be, except that in the application in such cases it shall not be necessary to state that the mark has been used in commerce with the United States or among the States thereof. The verification required by this section may be made before any person within the United States authorized by law to administer oaths or when the applicant resides in a foreign country, before any Minister, Charge d Affaires, Consul or commercial agent holding commission under the Government of the United States, or before any notary public, Judge or Magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States."

A fee of $10.00 is required by law to be paid with each application for the registration of a trade-mark, and this fee will include the certificate of registration, if the trade-mark be determined to be registrable.

An Act of Congress signed March 19, 1920, puts in effect the provisions of the International Trade-Mark Convention at Buenos Aires, August 20, 1910, by requiring registration of a facsimile of the trade-mark, name, residence of registrant, etc.

COPYRIGHT LAW OF THE UNITED STATES.

(Revised by Thorvald Solberg, Register of Copyrights.)

THE copyright law approved March 4, 1909, which took effect on July 1, 1909, provides that the application for registration of any work "shall specify to which of the following classes the work in which copyright is claimed belongs":

(a) Books, including composite and cyclopædic works, directories, gazetteers and other compilations, (b) periodicals, including newspapers; (c) lectures, sermons, addresses, prepared for oral delivery; (d) dramatic or dramatico-musical compositions; (e) musical compositions; (f) maps; (g) works of art, models or designs for works of art; (h) reproductions of a work of art; (i) drawings or plastic works of a scientific or technical character; (j) photographs; (k) prints and pictorial illustrations. The amendment of August 24 1912, adds: (l) motion picture photo-plays; (m) motion pictures other than photo-plays.

The application for registration of any article should distinctly specify to which one of these classes the work belongs. An article is not entitled to registration unless it is reasonably possible to class it under one or the other of the designations named in the statute.

For works reproduced in copies for sale or public distribution: 1. Publish the work with the copyright notice. The notice may be in the form "Copyright, 19.... (year date of publication) by..... (name of copyright proprietor), or in case of works specified above (f) to (k) the notice may consist of the letter C enclosed in a circle (C) accompanied by the initials, monogram, mark or symbol of the proprietor—provided that his name shall appear on some accessible part of the copies." 2. Promptly after publication send to the Copyright Office, Library of Congress, Washington, D. C., two copies (or if the work is by a foreign citizen and is first published in a foreign country, one copy only) of the best edition of the work, with an application for registration. In the case of motion picture photo-plays and of motion pictures other than photo-plays a description of the work must be filed, together with copies of the reels, and a money order payable to the Register of Copyrights for the statutory registration fee of $1.

In the case of books by American authors, or permanent residents of the United States, the copies deposited must be accompanied by an affidavit, under the official seal of an officer authorized to administer oaths, stating that the typesetting, printing and binding of the book have been performed within the United States. Affidavit and application forms will be supplied by the Copyright Office on request.

Books of foreign origin in a language or languages other than English are not required to be manufactured in the United States. In the case of a book in the English language published abroad before publication in this country, an *ad interim* copyright for 30 days from the day of the deposit of the foreign copy may be secured by depositing in the Copyright Office one complete copy of the foreign edition within 30 days after its publication abroad. If two copies of such book manufactured in this country are deposited with application for registration and fee ($1) published during the *ad interim* term, the copyright shall be extended for the full term of 28 years.

For works not reproduced in copies for sale: Copyright may also be had of certain classes of works (see a, b, c, below) of which copies are not reproduced for sale, by filing in the Copyright Office an application for registration, with the statutory fee of $1, sending therewith: (a) In the case of lectures or other oral addresses or of dramatic or musical compositions, one complete manuscript or typewritten copy of the work This privilege of registration, however, does not exempt the copyright proprietor from the deposit of printed copies of a dramatic or musical composition or lecture where the work is later reproduced in copies for sale A new application must be made in such cases and another fee of $1 paid. (b) in the case of photographs not intended for general circulation, one photographic print. (c) In the case of works of art (paintings, drawings, sculpture); or of drawings or plastic works of a scientific or technical character, one photograph or other identifying production of the work. In the case of a motion picture photo-play, a title and description and one print taken from each scene or act. In case of a motion picture other than a photo-play, a title and description with not less than two prints to be taken from different sections of a complete motion picture. In all these cases, if the work is later reproduced in copies for sale, two copies must then be deposited

For registration of any work subject to copyright, $1, which sum is to include a certificate of registration under seal. But only one registration at one fee is required in the case of several volumes of the same book deposited in the Copyright Office at the same time. For every additional certificate of registration, or copy of record under seal, 50 cents. In the case of photographs the fee shall be 50 cents where a certificate is not requested. For recording and certifying an assignment of copyright, or for a certified copy of an assignment, $1, if the instrument is not over three hundred words in length; if more than three hundred and less than one thousand words in length, $2, if more than one thousand words in length, $1 additional for each additional one thousand words or fraction thereof over three hundred words. For comparing a copy of an assignment with the record of such document in the Copyright Office and certifying the same under seal, $1. For recording the transfer of the proprietorship of copyright articles, 10 cents for each title of a book or other article, in addition to the fee prescribed for recording the instrument of assignment For recording an extension or renewal of copyright, 50 cents. Remittances should be made by money order payable to the Register of Copyrights. Forms for application for copyright registration will be furnished on request.

The original term of copyright runs for twenty-eight years. Within one year prior to the expiration of the original term, the author, if living, or the widow or widower of the author, or the children of the author if he be not living; or if none of these be living, then the author's executors, or in the absence of a will, the

author's next of kin may secure a renewal for a further term of twenty-eight years, making fifty-six years in all. In case of composite works, if the proprietor secured the original copyrights, he may also secure the renewal.

Copyrights are assignable by any instruments of writing Every assignment of copyright must be recorded in the Copyright Office within three calendar months after its execution in the United States or within six calendar months after its execution without the limits of the United States. "In default of which it shall be void as against any subsequent purchaser or mortgagee for a valuable consideration without notice, whose assignment has been duly recorded." Every assignment of copyright executed in a foreign country must be acknowledged by the assignor before a consular officer or Secretary of legation of the United States authorized by law to administer oaths or perform notarial acts. The certificate of such acknowledgment under the hand and official seal of such consular officer or Secretary of legation is *prima facie* evidence of the execution of the instrument.

COPYRIGHT AMENDMENT OF 1920.

An amendment to the United States Copyright Law approved December 18, 1919, has these features: Limits granting of copyright to foreign authors or proprietors domiciled in U. S. at time of first publication, or to citizens, or to subjects of states or nations which grant (by treaty, convention, agreement, or law) copyright benefits giving substantially equal protection to U. S. citizens, or whose state or nation is a party to an international agreement—the existence of such reciprocal conditions to be determined by proclamation of the President from time to time, such rights to last for fifteen months after the date of the President's proclamation of peace. In the case of a book first published abroad in English, the deposit of one complete copy of foreign editions, with request for reservation of copyright, shall secure an *ad interim* copyright good for four months after such deposit.

INTERNATIONAL COPYRIGHT RELATIONS.

Copyright is not secured in foreign countries by action in the Copyright Office, but only by complying with the legislation of such countries.

Copyright relations have been established with the following foreign countries by proclamation of the President: Austria, Belgium, Chile, Costa Rica, Cuba, Denmark, France, Germany, Great Britain and the British possessions, Italy, Luxemburg, Mexico, Netherlands and possessions, Norway, Portugal, Spain, Sweden, Switzerland, Tunis.

Copyright proclamations have been issued under Sec. 1 (e) of the act of 1909, securing copyright control of mechanical musical reproduction in the U. S. to citizens or subjects of Australia, Belgium, Cuba, France, Germany, Great Britain, Italy, Luxemburg, New Zealaud and Norway. The convention with Hungary includes such protection.

Copyright treaties have also been entered into with China, Japan and Hungary (the latter in effect on October 16, 1912). The Copyright Convention of Mexico of 1902 has been ratified by the United States and is effective from July 1, 1908, as between the United States and Costa Rica, Guatemala, Honduras, Nicaragua and Salvador. The Pan-American Copyright Convention signed at Buenos Ayres in 1910 was proclaimed July 13, 1914, and is effective as between the United States and Bolivia, Brazil, Costa Rica, Dominican Republic, Ecuador Guatemala, Haiti, Honduras, Nicaragua, Panama, Paraguay, Peru Salvador and Uruguay

President Wilson, on April 14, 1920, signed a proclamation granting to subjects of Great Britain and dominions except Canada, Australia New Zealand, South Africa and Newfoundland, copyright protection. Protection is also granted to records, perforated rolls and other devices for production of music work by mechanical means. The proclamation did not afford protection to works republished in either country since August 1, 1914, but provided protection for all works first produced or published after that date and before the President's proclamation of peace.

The British Government issued an Order in Council protecting works first published in U. S. between August 1, 1914, and termination of the war, conditional upon publication in England not later than six months after the termination of the war.

The State Department advises interested American authors and publishers to take immediate steps to obtain copyright protection in England for works published in this country since August 1, 1914, which have failed to obtain such protection in England.

NEW BRITISH COPYRIGHT LAW.

A new law of Great Britain requires that patents (of foreign manufacturers) be worked on a commercial scale within the United Kingdom within four years, and extends duration of patents to sixteen years—heretofore fourteen.

AUTHORITY OF THE COMMISSIONER OF PATENTS.

THE Commissioner of Patents is charged with the administration of the patent laws, and supervision of all matters relating to the granting of letters patent for inventions, and the registration of trade-marks. He is by statute made the tribunal of last resort in the Patent Office, and has appellate jurisdiction in the trial of interference cases, of the patentability of inventions, and of registration of trade-marks. Appeals lie from his decisions to the United States Court of Appeals of the District of Columbia.

The first Patent law in the U. S. was approved April 10, 1790. In the first year 3 patents were granted, one of them to Sam'l Hopkins for his method of making potash and pearlash, dated July 31, 1790. In the second year 33 patents were granted, and 11 in the third year. The Patent Office was burned, with most of the records, in 1836. Up to January 1, 1836, there had been 9,957 patents issued.

MIGRATORY BIRD LAW UPHELD.

(From a bulletin of the United States Department of Agriculture.)

It has long been realized that the conflicting laws employed by the various States have worked havoc with our most valuable game and migratory birds, so the migratory-bird treaty and the Lacey acts have had the support of every nature lover in this country and in Canada.

On April 19, 1920, the Supreme Court of the United States rendered a decision upholding the constitutionality of the treaty act In a suit brought by the State of Missouri against a Federal game warden the Supreme Court held that the Federal game laws were enforceable in a State whose game laws conflicted with the migratory-bird treaty act. The court defined the situation in the following paragraph taken from the opinion:

"Here a national interest of very nearly the first magnitude is involved. It can be protected only by national action in concert with that of another power The subject matter is only transitorily within the State and has no permanent habitat therein. But for the treaty and the statute there soon might be no birds for any powers to deal with. We see nothing in the Constitution that compels the Government to sit by while a food supply is cut off and the protectors of our forests and our crops are destroyed. It is not sufficient to rely upon the States. The reliance is vain, and were it otherwise the question is whether the United States is forbidden to act. We are of opinion that the treaty and statute must be upheld."

UNITED STATES SUPREME COURT UPHOLDS THE PROHIBITION AMENDMENT AND THE VOLSTEAD ACT.

THE Supreme Court of the United States in three separate decisions in 1920 validated the Volstead act and the Prohibition (Eighteenth) Amendment to the Federal Constitution.

TEXT OF DECISION UPHOLDING THE VOLSTEAD ACT.

The Supreme Court of the United States, Jan. 5, 1920, upheld (5 to 4) the validity of the Volstead Prohibition Enforcement Act, passed by Congress Oct. 28, 1919, over President Wilson's veto. The decision was rendered on the plea of Jacob Ruppert, a New York brewer, to enjoin the enforcement of the act against him. His suit was dismissed by the United States District Court at New York, and then went to the United States Supreme Court on appeal. Mr. Justice Brandeis delivered the opinion of the latter tribunal, as follows:

By the act of aug. 10, 1917, c. 53, sec. 15, 40 Stat. 276, 282, a war measure known as the Lever Act, Congress prohibited the use after Sept. 9, 1917, of food materials or feeds in the production of distilled spirits for beverage purposes and authorized the President to limit or prohibit their use in the production of malt or vinous liquors for beverage purposes, so far as he might, from time to time, deem it essential to assure an adequate supply of food, or deem it helpful in promoting the national security or defense. Under the power so conferred the President, by proclamation of Dec. 8, 1917, prohibited the production after Jan. 1, 1918, of any "malt liquors except ale and porter" containing more than 2.75 per centum of alcohol by weight. By proclamation of Sept. 16, 1918, the prohibition was extended to "malt liquors, including near beer, for beverage purposes, whether or not such malt liquors contain alcohol"; and by proclamation of March 4, 1919, the prohibition was limited "to intoxicating malt liquors." Under Section 2 of the act the duty of enforcing the above provisions was assigned to the Commissioner of Internal Revenue. This act contained no provision prohibiting the sale of intoxicating or other liquors. On Nov. 21, 1918, the so-called War-time Prohibition Act (c. 212, 40 Stat. 1045) was approved. It provided that:

"After May first, nineteen hundred and nineteen, until the conclusion of the present war and thereafter until the termination of demobilization, the date of which shall be determined and proclaimed by the President of the United States, no grains, cereals, fruits or other food product shall be used in the manufacture or production of beer, wine, or other intoxicating malt or vinous liquors for beverage purposes. After June thirtieth, nineteen hundred and nineteen, until the conclusion of the present war and thereafter until the termination of demobilization, the date of which shall be determined and proclaimed by the President of the United States, no beer, wine or other intoxicating malt or vinous liquor shall be sold for beverage purposes except for export. . . ."

On Feb. 6, 1919, the Commissioner of Internal Revenue ruled (Treasury Decision 2788) that a beverage containing as much as one-half of 1 per centum of alcohol by volume would be regarded as intoxicating within the intent of the act of Nov. 21, 1918; and that after May 1, 1919, persons would not be permitted to qualify as brewers, if the alcoholic content of their product equalled or exceeded that percentage. In so ruling the Commissioner adopted and applied to this prohibitory act the same classification of malt liquors which had been applied in administering the laws concerning the taxation of beer and other similar fermented liquors. For since 1902 (Treasury Decision 514) fermented liquor containing as much as one-half of 1 per centum of alcohol had been treated as taxable under Revised Statutes, Sections 3339 and 3242; and this classification was expressly adopted in the War Revenue Act of Oct. 3, 1917, c. 63, sec. 307, 40 Stat. p.311. The correctness of this construction of the act was promptly and earnestly controverted by the brewers, who insisted that Congress had intended to prohibit the production only of such beer or other malt liquors as were in fact intoxicating. The attempt was then made to remove the doubt by new legislation before May 1, 1919, when the act would by its terms become operative. On Feb. 26 the House Committee on the Judiciary reported favorably an Amendment to H. R. 13581 providing: "The words 'beer, wine or other intoxicating malt or vinous liquors' in the War Prohibition Act shall be construed to mean any liquors which contain in excess of one-half of 1 per centum of alcohol." The Sixty-fifth Congress ended on March 4 without acting on this bill; and the Sixty-sixth Congress did not convene in extra session until May 19. On June 30, the House Committee on the Judiciary reported substantially the same provision as Section 1 of Title I. of H. R. 6810; but it was not enacted until October 28, 1919, when as the Volstead act it was passed over the President's veto.

Immediately after the passage of the Volstead act this suit was brought in the District Court of the United States for the Southern District of New York by Jacob Ruppert against Caffey, United States Attorney, and McElligott, Acting Collector of Internal Revenue, to enjoin the enforcement as against the plaintiff of the penalties provided in the War-time Prohibition Act as amended by the Volstead act. It was heard below on plaintiff's motion for a preliminary injunction and defendants' motion to dismiss; and having been dismissed, was brought here by direct appeal under Section 238 of the Judicial Code. The bill alleged that plaintiff, the owner of a brewery and appurtenances, was on Oct. 28, 1919, engaged in the manufacture of a beer containing more than one-half of 1 per centum of alcohol by volume and less than 2.75 per centum by weight or 3 4 per centum by volume, and had then on hand a large quantity of such beer; and that this beer was not in fact intoxicating. Plaintiff contended (1) that the act of Nov. 21, 1918, had become void or had expired by its own terms before the bill was filed; (2) that its prohibition by its terms was limited to beer which was in fact intoxicating; (3) that the act of Oct. 28, 1919, Title I., Sec. 1, which purported to extend the prohibition to the manufacture and sale of beer not in fact intoxicating, exceeded the war power of Congress; and that thereby violation of rights guaranteed to plaintiff by the Fifth Amendment was threatened.

This case was heard and decided below with Dryfoos et al v. Edwards; and it was argued here on the same day with that case and Hamilton v. Kentucky Distilleries and Warehouse Company, decided Dec. 15, 1919. For the same reasons set forth in the opinion in those cases, the act of Nov. 21, 1918, was and remained valid as against the plaintiff and had not expired. For the same reasons Section 1 of Title I. of the act of Oct. 28, 1919, was not invalid, merely because it was new legislation. But it is insisted that this legislation is nevertheless void as against the plaintiff, because Congress could not, even under its full war powers, prohibit the manufacture and sale of non-intoxicants, and, at all events, could not without making compensation, extend the prohibition to non-intoxicating liquor acquired before the passage of the act. These objections require consideration.

First: May the plaintiff show as a basis for relief that the beer manufactured by it with alcoholic content not greater than 2.75 per centum in weight and 3.4 per centum in volume is not in fact intoxicating? The Government insists that the fact alleged is immaterial since the passage of the Volstead act by which the prohibition of the manufacture and sale is extended to all beer and other malt liquor containing as much as one-half of one per centum of alcohol by volume. If the war power of Congress to effectively prohibit the manufacture and sale of intoxicating liquors in order to promote the Nation's efficiency in men, munitions and supplies is as full and complete as the police power of the States to effectively enforce such prohibition in order to promote the health, safety and morals of the community, it is clear that this provision of the Volstead act is valid and has rendered immaterial the question whether plaintiff's beer is intoxicating. For the legislation and decisions of the highest courts of nearly all of the States establish that it is deemed impossible to effectively enforce either prohibitory laws or other laws merely regulating the manufacture and sale of intoxicating liquors, if liability or inclusion within the law is made to depend upon the issuable fact whether or not a particular liquor made or sold as a beverage is intoxicating. In

other words, it clearly appears that a liquor law, to be capable of effective enforcement must, in the opinion of the Legislatures and courts of the several States, be made to apply either to all liquors of the species enumerated, like beer, ale or wine, regardless of the presence or degree of alcoholic content; or if a more general description is used, such as distilled, rectified, spirituous, fermented, malt or brewed liquors, to all liquors within that general description regardless of alcoholic content; or to such of these liquors as contain a named percentage of alcohol; and often several such standards are combined so that certain specific and generic liquors are altogether forbidden and such other liquors as contain a given percentage of alcohol.

A test often used to determine whether a beverage is to be deemed intoxicating within the meaning of the liquor law is whether it contains one-half of 1 per cent. of alcohol by volume. A survey of the liquor laws of the States reveals that in sixteen States the test is either a list of enumerated beverages without regard to whether they contain any alcohol or the presence of any alcohol in a beverage, regardless of quantity; in eighteen States it is the presence of as much as or more than one-half of 1 per cent. of alcohol; in six States, 1 per cent. of alcohol; in one State, the presence of the "alcoholic principle"; and in two States, 2 per cent. of alcohol. Thus in forty-two of the forty-eight States—Maryland appears in two classes above—a malt liquor containing over 2 per cent. of alcohol by weight or volume is deemed for the purpose of regulation or prohibition, intoxicating as a matter of law. Only one State has adopted a test as high as 2.75 per cent. by weight or 3.4 per cent. by volume. Only two States permit the question of the intoxicating character of an enumerated liquor to be put in issue. In three other States the matter has not been made clear either by decision or legislation. The decisions of the courts as well as the action of the Legislatures make it clear—or, at least, furnish ground upon which Congress reasonably might conclude—that a rigid classification of beverages is an essential of either effective regulation or effective prohibition of intoxicating liquors.

Purity Extract Co. v. Lynch, 226 U. S. 192, determined that State legislation of this character is valid and set forth with clearness the constitutional ground upon which it rests: "When a State exerting its recognized authority undertakes to suppress what it is free to regard as a public evil, it may adopt such measures having reasonable relation to that end as it may deem necessary in order to make its action effective. It does not follow that because a transaction separately considered is innocuous it may not be included in a prohibition the scope of which is regarded as essential in the legislative judgment to accomplish a purpose within the admitted power of the Government." (p. 201) . . . "It was competent for the Legislature of Mississippi to recognize the difficulties besetting the administration of laws aimed at the prevention of traffic in intoxicants. It prohibited, among other things, the sale of 'malt liquors.' In thus dealing with a class of beverages which in general are regarded as intoxicating, it was not bound to resort to a discrimination with respect to ingredients and processes of manufacture which, in the endeavor to eliminate innocuous beverages from the condemnation, would facilitate subterfuges and frauds and fetter the enforcement of the law. A contrary conclusion logically pressed would save the nominal power while preventing its effective exercise." (p. 204) . . . "The State, within the limits we have stated, must decide upon the measures that are needful for the protection of its people, and having regard to the artifices which are used to promote the sale of intoxicants under the guise of innocent beverages it would constitute an unwarranted departure from accepted principle to hold that the prohibition of the sale of all malt liquors, including the beverage in question, was beyond its reserved power." (p. 205.)

That the Federal Government would, in attempting to enforce a prohibitory law, be confronted with difficulties similar to those encountered by the States is obvious; and both this experience of the States and the need of the Federal Government of legislation defining intoxicating liquors as was done in the Volstead act was clearly set forth in the reports of the House Committee on the Judiciary in reporting the bill to the Sixty-fifth Congress, 3d Session, Report 1143, Feb. 26, 1919, and to the Sixty-sixth Congress, 1st Session, Report 91, June 30, 1919. Furthermore recent experience of the military forces had shown the necessity of fixing a definite alcoholic test for the purpose of administering the limited prohibitory law included in the Selective Service Act of May 18, 1917, c. 15, sec. 12, 40 Stat. 76,82. And the Attorney General, calling attention specifically to the claim made in respect to the 2.75 per cent. beer, had pointed out to Congress that definition of intoxicating liquor by fixed standards was essential to effective enforcement of the Prohibition Law. It is therefore clear both that Congress might reasonably have considered some legislative definition of intoxicating liquor to be essential to effective enforcement of prohibition and also that the definition provided by the Volstead act was not an arbitrary one.

Plaintiff's argument is equivalent to saying that the war power of Congress to prohibit the manufacture and sale of intoxicating liquors does not extend to the adoption of such means to this end as in its judgment are necessary to the effective administration of the law. The contention appears to be, that since the power to prohibit the manufacture and sale of intoxicating liquors is not expressly granted to Congress, but is a power implied under Section 8 of Article I. of the Constitution, which authorizes Congress "to make all laws which shall be necessary and proper for carrying into execution" powers expressly enumerated, the power to prohibit non-intoxicants would be merely an incident of the power to prohibit intoxicants; and that it cannot be held to exist, because one implied power may not be grafted upon another implied power. This argument is a mere matter of words. The police power of a State over the liquor traffic is not limited to the power to prohibit the sale of intoxicating liquors supported by a separate implied power to prohibit kindred non-intoxicating liquors so far as necessary to make the prohibition of intoxicants effective; it is a single broad power to make such laws, by way of prohibition, as may be required to effectively suppress the traffic in intoxicating liquors. Likewise the implied war power over intoxicating liquors extends to the enactment of laws which will not merely prohibit the sale of intoxicating liquors but will effectually prevent their sale. Furthermore, as stated in Hamilton v. Kentucky Distilleries and Warehouse Company, supra, while discussing the implied power to prohibit the sale of intoxicating liquors: "When the United States exerts any of the powers conferred upon it by the Constitution no valid objection can be based upon the fact that such exercise may be attended by the same incidents which attend an exercise by a State of its police power . . ."

The distinction sought to be made by plaintiff between the scope or incidents of an express power and those of an implied power has no basis in reason or authority. Thus, the Constitution confers upon Congress the express power "to establish Post Offices and post roads" (Article I., Section 8, Clause 7). From this is implied the power to acquire land for Post Offices in the several States, Battle v. United States, 209 U. S. 36; and as an incident of this implied power to acquire land, the further power is implied to take it by right of eminent domain. Kohl v. United States, 91 U. S. 367. Likewise, the Constitution confers by Clause 3 the express power "to regulate commerce among the several States"; but there is implied for this purpose also the power to grant to individuals franchises to construct and operate railroads from State to State, California v. Pacific Railroad Co., 127 U. S. 1, 39. Incidental to this implied power to construct or authorize the construction of a railroad—is the further implied power to regulate the relations of the railroad with its employees, Second Employers' Liability Cases, 223 U. S. 1, 47; to require safety appliances upon cars, even when used in intrastate commerce, Southern Railway v. United States, 222 U. S. 20; and to regulate freight rates even to the extent of affecting intrastate rates, American Express Co. v. Caldwell, 244 U. S. 617. Whether it be for purposes of national defense, or for the purpose of establishing Post Offices and post roads or for the purpose of regulating commerce among the several States Congress has the power "to make all laws necessary and proper for carrying into execution" the

duty so reposed in the Federal Government. While this is a Government of enumerated powers it has full attributes of sovereignty within the limits of those powers. In re Debs, 158 U. S. 564. Some confusion of thought might perhaps have been avoided, if, instead of distinguishing between powers by the term express and implied, the term specific and general had been used. For the power conferred by Clause 18 of Section 8 "to make all laws which shall be necessary and proper for carrying into execution" powers specifically enumerated is also an express power. Since Congress has power to increase war efficiency by prohibiting the liquor traffic, no reason appears why it should be denied the power to make its prohibition effective.

Second: Does the fact that Title I. of the Volstead act took effect upon its passage render Section 1 invalid as against the plaintiff? Prohibition of the manufacture of malt liquors with alcoholic content of one-half of 1 per cent. or more is permissible only because, in the opinion of Congress, the war emergency demands it. If, in its opinion, the particular emergency demands the immediate discontinuance of the traffic Congress must have the power to require such discontinuance. To limit the power of Congress so that it may require discontinuance only after the lapse of a reasonable time from the passage of the act would seriously restrict it in the exercise of the war powers. Hardship resulting from making an act take effect upon its passage is a frequent incident of permissible legislation; but whether it shall be imposed rests wholly in the discretion of the law-making body. That the prohibition of the manufacture of non-intoxicating beer, if permissible at all, may be made to take effect immediately follows necessarily from the principle acted upon in Mugler v. Kansas, 123 U. S. 623, 669, since the incidents attending the exercise by Congress of the war power to prohibit the liquor traffic are the same as those that attend the States' prohibition under the police power. In the Mugler case, also, the breweries were erected at a time when the State did not forbid the manufacture of malt liquors; and there it was alleged that the prohibition, which became effective almost immediately, would reduce the value of one of the breweries by three-fourths and would render the other of little value. Here, as there, the loss resulting to the plaintiff from inability to use the property for brewery purposes, is an incident of the peculiar nature of the property and of the war need which, we must assume, demanded the discontinuance of use be immediate. Plaintiff cannot complain, because a discontinuance later would have caused him a smaller loss. This, indeed, appears to be conceded so far as concerns the brewery and appurtenences. The objection on the ground that the prohibition takes effect immediately is confined to the prohibition of the sale of the beer on hand at the time of the passage of the act. But as to that also we cannot say that the action of Congress was unreasonable or arbitrary.

Plaintiff contends, however, that even if immediate prohibition of the sale of its non-intoxicating beer is within the war power, this can be legally effected only provided compensation is made; and it calls attention to the fact that in Barbour v. Georgia, 249 U. S. 454, 459, following some earlier cases, the question was reserved whether, under the police power, the States could prohibit the sale of liquor acquired before the enactment of the statute. It should, however, be noted that, among the judgments affirmed in the Mugler case, was one for violation of the act by selling beer acquired before its enactment (see pp. 625, 627); and that it was assumed without discussion that the same rule applied to the brewery and its product (p. 669). But we are not required to determine here the limits in this respect of the police power of the States; nor whether the principle is applicable here under which the Federal Government has been declared to be free from liability to an owner "for private property injured or destroyed during the war by operations of armies in the field, or by measures necessary to their safety and efficiency," United States v. Pacific Railroad, 120 U. S. 227, 239; in analogy to that by which States are exempt from liability for the demolition of a house in the path of a conflagration, see Lawton v. Steele, 152 U. S. 132, 136; or for garbage of value taken, Reduction Co. v. Sanitary Works, 199 U. S. 306; Gardner v. Michigan, 199 U. S. 325; or for unwholesome food of value destroyed, North American Storage Co. v. Chicago, 211 U. S. 306; Adams v. Milwaukee, 228 U. S. 572, 584; for the preservation of the public health. Here as in Hamilton v. Kentucky Distilleries and Warehouse Company, supra there was no appropriation of private property, but merely a lessening of value due to a permissible restriction imposed upon its use.

It is urged that the act is particularly oppressive in respect to the beer on hand, because the plaintiff was engaged in manufacturing and selling a non-intoxicating beverage expressly authorized by the President in his proclamation of Dec. 8, 1917, and prohibited by him later, only when conservation of all the food products of the country became necessary. The facts afford no basis on which to rest the claim of an equity in the plaintiff's favor. The specific permission from the President to manufacture 2.75 per cent. beer was not on the ground that such beer was non-intoxicating; nor was it a declaration by him that this beer was in fact non-intoxicating. The permission extended to all "ale and porter," which every one knows, are intoxicating liquors. This permission to make 2.75 per cent. beer was withdrawn Dec. 1, 1918, under proclamation of Sept. 16, 1918; and no permission to manufacture specifically 2.75 per cent. beer was ever thereafter given by the President. His later proclamation (March 4, 1919) merely limited the prohibition of the use of foodstuffs to use in the production of "intoxicating liquors." Whether 2.75 per cent. beer was intoxicating was thus left by the President not only without a decision but without even an intimation. The statement of plaintiff that the 2.75 per cent. beer on hand was manufactured under permission of the President is wholly unfounded. It was not until July 1, 1919, when the War-time Prohibition Act became operative in this respect that there was any prohibition of the sale of any liquors. So far as appears, all the beer which the plaintiff had on hand at the time of the passage of the Volstead act was manufactured by the plaintiff long after the President had ceased to have any authority to forbid or to permit.

Justices McReynolds, Day and Van Devanter dissented, on the general ground that war, though technically still intended, was, in practical reality, at an end, and Congress—therefore no longer faced, when enacting the Volstead law, a war emergency. Justice Clarke also dissented from the majority views.

TEXT OF DECISION AGAINST REFERENDUM ON PROHIBITION AMENDMENT.

The United States Supreme Court unanimously decided, June 1, 1920, that amendments to the Federal Constitution are subject to action only by State Legislatures, and cannot be submitted to a referendum vote of the people in any of the States, not even if there be a referendum clause in a State Constitution. The case at issue was begun in Ohio, where the Legislature had ratified the Federal Prohibition Amendment. Thereupon, George S. Hawke, a citizen, sued to nullify the Legislature's action.

The decision of the Court, read by Justice Day, said, after reciting the history of the suit and the controverted legislation:

The question for our consideration is: Whether the provision of the Ohio Constitution, adopted at the general election, November, 1918, extending the referendum to the ratification by the General Assembly of proposed amendments to the Federal Constitution is in conflict with Article V. of the Constitution of the United States. The Amendment of 1918, provides: "The people also reserve to themselves the legislative power of the referendum on the action of the General Assembly ratifying any proposed amendment to the Constitution of the United States." Article V. of the Federal Constitution provides: "The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all

intents and purposes as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the ninth section of the first article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

The Constitution of the United States was ordained by the people, and, when duly ratified, it became the Constitution of the people of the United States. McCullough v. Maryland, 4 Wheaton, 316, 402. The States surrendered to the general Government the powers specifically conferred upon the Nation, and the Constitution and the laws of the United States are the supreme law of the land. The framers of the Constitution realized that it might in the progress of time and the development of new conditions require changes, and they intended to provide an orderly manner in which these could be accomplished; to that end they adopted the Fifth Article. This Article makes provision for the proposal of amendments either by two-thirds of both houses of Congress, or on application of the Legislatures of two-thirds of the States; thus securing deliberation and consideration before any change can be proposed. The proposed change can only become effective by the ratification of the Legislatures of three-fourths of the States, or by conventions in a like number of States. The method of ratification is left to the choice of Congress. Both methods of ratification, by Legislatures or conventions, call for action by deliberative assemblages representative of the people, which it was assumed would voice the will of the people.

The Fifth Article is a grant of authority by the people to Congress. The determination of the method of ratification is the exercise of a national power specifically granted by the Constitution; that power is conferred upon Congress, and is limited to two methods, by action of the Legislatures of three-fourths of the States, or conventions in a like number of States. Dodge v. Woolsey, 18 Howard, 331,348. The framers of the Constitution might have adopted a different method. Ratification might have been left to a vote of the people, or to some authority of government other than that selected. The language of the Article is plain, and admits of no doubt in its interpretation. It is not the function of courts or legislative bodies, national or State, to alter the method which the Constitution has fixed.

All of the amendments to the Constitution have been submitted with a requirement for legislative ratification; by this method all of them have been adopted.

The only question really for determination is: What did the framers of the Constitution mean in requiring ratification by "Legislatures"? That was not a term of uncertain meaning when incorporated into the Constitution. What it meant when adopted it still means for the purpose of interpretation. A Legislature was then the representative body which made the laws of the people. The term is often used in the Constitution with this evident meaning. Article I., Section 2, prescribes the qualifications of electors of Congressmen as "those requisite for electors of the most numerous branch of the State Legislature." Article I., Section 3 provided that Senators shall be chosen in each State by the Legislature thereof, and this was the method of choosing Senators until the adoption of the Seventeenth Amendment, which made provision for the election of Senators by vote of the people, the electors to have the qualifications requisite for electors of the most numerous branch of the State Legislature. That Congress and the States understood that this election by the people was entirely distinct from legislative action is shown by the provision of the amendment giving the Legislature of any State the power to authorize the Executive to make temporary appointments until the people shall fill the vacancies by election. It was never suggested, so far as we are aware, that the purpose of making the office of Senator elective by the people could be accomplished by a referendum vote. The necessity of the amendment to accomplish the purpose of popular election is shown in the adoption of the amendment. In Article IV. the United States is required to protect every State against domestic violence upon application of the Legislature, or of the Executive when the Legislature cannot be convened. Article VI. requires the members of the several Legislatures to be bound by oath, or affirmation, to support the Constitution of the United States. By Article I., Section 8, Congress is given exclusive jurisdiction over all places purchased by the consent of the Legislature of the State in which the same shall be. Article IV., Section 3, provides that no new States shall be carved out of old States without the consent of the Legislatures of the States concerned. There can be no question that the framers of the Constitution clearly understood and carefully used the terms in which that instrument referred to the action of the Legislatures of the States. When they intended that direct action by the people should be had they were no less accurate in the use of apt phraseology to carry out such purpose. The members of the House of Representatives were required to be chosen by the people of the several States. Article I., Section 2.

The Constitution of Ohio in its present form, although making provision for a referendum, vests the legislative power primarily in a General Assembly consisting of a Senate and House of Representatives. Article II., Section 1, provides: "The legislative power of the State shall be vested in a General Assembly consisting of a Senate and House of Representatives, but the people shall reserve to themselves the power to propose to the General Assembly laws and amendments to the Constitution, and to adopt or reject the same at the polls on a referendum vote as hereinafter provided." The argument to support the power of the State to require the approval by the people of the State of the ratification of amendments to the Federal Constitution through the medium of a referendum rests upon the proposition that the Federal Constitution requires ratification by the legislative action of the States through the medium provided at the time of the proposed approval of an amendment. This argument is fallacious in this—ratification by a State of a constitutional amendment is not an act of legislation within the proper sense of the word. It is but the expression of the assent of the State to a proposed amendment.

At an early day this court settled that the submission of a constitutional amendment did not require the action of the President. The question arose over the adoption of the Eleventh Amendment. Hollingsworth et al. v. Virginia, 3 Dallas, 378. In that case it was contended that the amendment had not been proposed in the manner provided in the Constitution as an inspection of the original roll showed that it had never been submitted to the President for his approval in accordance with Article I., Section 7, of the Constitution. The Attorney General answered that the case of amendments is a substantive act, unconnected with the ordinary business of legislation, and not within the policy or terms of the Constitution investing the President with a qualified negative on the acts and resolutions of Congress. In a footnote to this argument of the Attorney General, Justice Chase said: "There can, surely, be no necessity to answer that argument. The negative of the President applies only to the ordinary cases of legislation: He has nothing to do with the proposition, or adoption, of amendments to the Constitution." The court by a unanimous judgment held that the amendment was constitutionally adopted. It is true that the power to legislate in the enactment of the laws of a State is derived from the people of the State. But the power to ratify a proposed amendment to the Federal Constitution has its source in the Federal Constitution. The act of ratification by the State derives its authority from the Federal Constitution to which the State and its people have alike assented. This view of the amendment is confirmed in the history of its adoption found in 2 Watson on the Constitution, 1301 et seq. Any other view might lead to endless confusion in the manner of ratification of Federal amendments. The choice of means of ratification was wisely withheld from conflicting action in the several States.

But it is said this view runs counter to the decision of this court in Davis v. Hildebrant, 241 U. S. 565. But that case is inapposite. It dealt with Article I., Section 4, of the Constitution, which pro-

vides that the times, places and manners of holding elections for Senators and Representatives in each State shall be determined by the respective Legislatures thereof, but that Congress may at any time make or alter such regulations, except as to the place for choosing Senators. As shown in the opinion in that case, Congress had itself recognized the referendum as part of the legislative authority of the State for the purpose stated. It was held, affirming the judgment of the Supreme Court of Ohio, that the referendum provision of the State Constitution when applied to a law redistricting the State with a view to representation in Congress was not unconstitutional. Article I., Section 4, plainly gives authority to the State to legislate within the limitations therein named. Such legislative action is entirely different from the requirement of the Constitution as to the expression of assent or dissent to a proposed amendment to the Constitution. In such expression no legislative action is authorized or required. It follows that the court erred in holding that the State had authority to require the submission of the ratification to a referendum under the State Constitution, and its judgment is reversed and the cause remanded for further proceedings not inconsistent with this opinion.

SUFFRAGE AND PROHIBITION IN SAME BOAT.

Mr Hawke had sued also to annul Ohio's legislative action on the proposed Suffrage (Nineteenth) Amendment to the United States Constitution. The United States Supreme Court unanimously decided, June 1 1920, that a Suffrage Federal Amendment cannot be submitted to a referendum vote of the people for the same reasons given as to the Prohibition Amendment. Decision to the contrary by the Ohio Supreme Court was therefore reversed.

TEXT OF DECISION UPHOLDING EIGHTEENTH AMENDMENT, VOLSTEAD ACT, AND DEALING WITH "CONCURRENT POWERS."

The United States Supreme Court, June 7, 1920, again unanimously sustained the Eighteenth Amendment; also upheld unanimously the power of Congress under that amendment to enact a prohibition enforcement law; and held unanimously that the Volstead act was lawful in limiting alcoholic content to one-half of 1 per cent. The court dealt, too, with "concurrent power" of the States in enforcing prohibition. The decision ended injunctions sought by the States of Rhode Island and New Jersey, and by brewers and distillers in several States, against the enforcement of the amendment.

The text of the court's decision, rendered by Justice Van Devanter, was as follows:

Power to amend the Constitution was reserved by Article V., which reads: "The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose Amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a Convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the ninth section of the first article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate." The text of the Eighteenth Amendment, proposed by Congress in 1917 and proclaimed as ratified in 1919, 40 Stat. 1050, 1941, is as follows: "Section 1. After one year from the ratification of this article the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited. Section 2. The Congress and the several States shall have concurrent power to enforce this article by appropriate legislation." The cases have been elaborately argued at the bar and in printed briefs; and the arguments have been attentively considered, with the result that we reach and announce the following conclusions on the questions involved:

1. The adoption by both Houses of Congress, each by a two-thirds vote, of a joint resolution proposing an amendment to the Constitution sufficiently shows that the proposal was deemed necessary by all who voted for it. An express declaration that they regarded it as necessary is not essential. None of the resolutions whereby prior amendments were proposed contained such a declaration.

2. The two-thirds vote in each House which is required in proposing an amendment is a vote of two-thirds of the members present—assuming the presence of a quorum—and not a vote of two-thirds of the entire membership, present and absent. Missouri Pacific Ry. Co. v. Kansas, 248 U. S. 276.

3. The referendum provisions of State Constitutions and statutes cannot be applied, consistently with the Constitution of the United States, in the ratification or rejection of amendments to it. Hawke v. Smith, -- U. S. --, decided June 1, 1920.

4. The prohibition of the manufacture, sale, transportation, importation and exportation of intoxicating liquors for beverage purposes, as embodied in the Eighteenth Amendment, is within the power to amend reserved by Article V of the Constitution.

5. That amendment, by lawful proposal and ratification, has become a part of the Constitution, and must be respected and given effect the same as other provisions of that instrument.

6. The first section of the amendment—the one embodying the prohibition—is operative throughout the entire territorial limits of the United States, binds all legislative bodies, courts, public officers and individuals within these limits, and of its own force invalidates every legislative act—whether by Congress, by a State Legislature or by a Territorial Assembly—which authorizes or sanctions what the section prohibits.

7. The second section of the amendment—the one declaring "The Congress and the several States shall have concurrent power to enforce this article by appropriate legislation"—does not enable Congress or the several States to defeat or thwart the prohibition but only to enforce it by appropriate means.

8. The words "concurrent power" in that section do not mean joint power, or require that legislation thereunder by Congress, to be effective, shall be approved or sanctioned by the several States or any of them; nor do they mean that the power to enforce is divided between Congress and the several States along the lines which separate or distinguish foreign and interstate commerce from intrastate affairs.

9. The power confided to Congress by that section, while not exclusive, is territorially co-extensive with the prohibition of the first section, embraces manufacture and other intrastate transactions as well as importation, exportation and interstate traffic, and is in no wise dependent on or affected by action or inaction on the part of the several States or any of them.

10. That power may be exerted against the disposal for beverage purposes of liquors manufactured before the amendment became effective just as it may be against subsequent manufacture for those purposes. In either case it is a constitutional mandate or prohibition that is being enforced.

11. While recognizing that there are limits beyond which Congress cannot go in treating beverages as within its power of enforcement, we think those limits are not transcended by the provision of the Volstead Act (Title II., § 1), wherein liquors containing as much as one-half of 1 per cent. of alcohol by volume and fit for use for beverage purposes are treated as within that power. Jacob Ruppert v. Caffey, 251, U. S. 264.

Chief Justice White stated he concurred in the conclusions but was sorry the court had not made public the reasonings on which their conclusions were based. Justice McReynolds confined his concurrence to the disposition of the cases as ordered by the court. Justice McKenna doubted the views of the court on "concurrent power."

SUPREME COURT DECISION UPHOLDING UNITED STATES STEEL CORP.

On March 1, 1920, the Supreme Court of the United States, by a vote of 4 to 3, decided the United States Steel Corporation not a trust in violation of the anti-monopoly laws. Because of their legal activities against the defendant before they became members of the court, Justices McReynolds and Brandeis took no part in considering or deciding the case.

Thus it happened that a minority of the full court of nine members interpreted, as a "majority" of that tribunal, the law in this case. By the Judicial Code of the United States any six members of the Supreme Court constitute a quorum. Four members, therefore, were a majority of the quorum of seven in the steel case.

The majority opinion, rendered by Justice McKenna, and concurred in by Chief Justice White and Justices Van Devanter and Holmes, upheld the Federal District Court in dismissing the Government's suit against the corporation. That tribunal had four judges, two of whom thought the steel combine was not formed to restrain trade, but was a natural evolution of industrial conditions. The other two district judges held that the combine tried to be a monopoly, but found it couldn't and then trained with its competitors. All four judges decided that the corporation, whatever its motives, was not a monopoly.

The Supreme Court quoted at length from the views of the District judges, adding: "Both opinions were clear and confident that the power of the corporation never did and does not now reach to monopoly and their review of the evidence, and our independent examination of it, enables us to elect between their respective estimates of it, and we concur in the main with that of Judges Woolley and Hunt. And we add no comment except, it may be, that they underestimated the influence of the tendency and movement to integration, the appreciation of the necessity or value of the continuity of manufacture from the ore to the finished product. And there was such a tendency, and though it cannot be asserted it had become a necessity, it had certainly become a facility of industrial progress. There was, therefore, much to urge it and give incentive to conduct that could accomplish it. From the nature and properties of the industry, the processes of production were something more than the stage and setting of the human activities. They determined to an extent those activities, furnished their motives, and gave test of their quality, not, of course, that the activities could get any immunity from size, or resources, or energies, whether exerted in integrated plants or diversified ones."

"Our consideration," said the Supreme Court, "should be of not what the corporation had power to do or did, but what it has now power to do and is doing, and what judgment shall be now pronounced—whether its dissolution as the Government prays, or the dismissal of the suit as the corporation insists. * * It is against monopoly that the statute is directed, not against an expectation of it, but against its realization, and it is certain that it was not realized. * * The power attained was much greater than that possessed by any one competitor—it was not greater than that possessed by all of them. Monopoly, therefore, was not achieved, and competitors had to be persuaded by pools, associations, trade meetings, and through the social form of dinners, all of them, it may be, violations of the law, but transient in their purpose and effect. They were scattered through the years from 1901 (the year of the formation of the Corporation), until 1911, but, after instances of success and failure, were abandoned nine months before this suit was brought. There is no evidence that the abandonment was in prophecy of or dread of suit; and the illegal practices have not been resumed, nor is there any evidence of an intention to resume them, and certainly no "dangerous probability" of their resumption, the test for which *Swift & Co.* v. *United States*, 196 U. S. 396, is cited.

"It is our conclusion, therefore, as it was that of the judges below, that the practices were abandoned from a conviction of their futility, from the operation of forces that were not understood or were underestimated, and the case is not peculiar. And we may say in passing that the Government cannot fear their resumption, for it did not avail itself of the offer of the District Court to retain jurisdiction of the cause in order that if illegal acts should be attempted they could be restrained."

ROOSEVELT AND TENNESSEE COAL AND IRON.

The tribunal pointed out that the combine's acquisition of the Tennessee Coal and Iron Co. was submitted to President Roosevelt and he gave it his approval—"his approval, (says the Court) of course, did not make it legal, but it gives assurance of its legality, and we know from his earnestness in the public welfare he would have approved of nothing that had even a tendency to its detriment. And he testified he was not deceived and that he believed that the Tennessee Coal and Iron people had a property which was almost worthless in their hands, nearly worthless to them, nearly worthless to the communities in which it was situated, and entirely worthless to any financial institution that had the securities the minute that any panic came, and that the only way to give value to it was to put it in the hands of people whose possession of it would be a guaranty that there was value to it." Such being the emergency, it seems like an extreme accusation to say that the corporation which relieved it, and, perhaps, rescued the company and the communities dependent upon it from disaster, was urged by unworthy motives. Did illegality attach afterwards and how? And what was the corporation to do with the property? Let it decay in desuetude or develop its capabilities and resources? In the development, of course, there would be profits to the corporation, but there would be profit as well to the world. For this reason President Roosevelt sanctioned the purchase, and it would seem a distempered view of purchase and result to regard them as violations of law."

The Court said it was significant that no competitor or customer had been found by the Government to testify as to price control, but that on the contrary, competitors, and dealers and customers of the Steel Corporation swore that prices were due to natural conditions. "The situation," remarked the Court, "is indeed singular, and we may wonder at it, wonder that the despotism of the corporation, so baneful to the world in the representation of the Government, did nor produce protesting victims" adding, "the Corporation is undoubtedly of impressive size and it takes an effort of resolution not to be affected by it or to exaggerate its influence. But we must adhere to the law, and the law does not make mere size an offense or the existence of unexerted power an offense. It, we repeat, requires overt acts and trusts to its prohibition of them and its power to repress or punish them. It does not compel competition nor require all that is possible.

"We recall," the Court went on, "the distinction we made in the *Standard Oil* case between acts done in violation of the statute and a condition brought about which 'in and of itself' is not only a continued attempt to monopolize, but also a monopolization.' In such case, we declared, 'the duty to enforce the statute' required 'the application of broader and more controlling' remedies than the other. And the remedies applied conformed to the declaration; there was prohibition of future acts and there was dissolution of 'the combination found to exist in violation of the statute' in order to 'neutralize the extension and continually operating force which the possession of the power unlawfully obtained' had 'brought' and would 'continue to bring about.'

"The Anti-trust act," said the Court, "is clear in its denunciation of monopolies and equally clear in its direction that the courts of the Nation shall prevent and restrain them (its language is 'to prevent and restrain violations of' the act) but the command is necessarily submissive to the conditions which may exist and the usual powers of a court of equity to adapt its remedies to those conditions. In other words, it is not expected to enforce abstractions and do injury thereby, it may be, to the purpose of the law. It is this flexibility of discretion—indeed essential function—that makes its value in our jurisprudence—value in this case as in others. We do not mean to say that the law is not its own measure and that it can be disregarded, but only that the appropriate relief in each instance is remitted to a court of equity to determine

not, and let us be explicit in this, to advance a policy contrary to that of the law, but in submission to the law and its policy, and in execution of both."

The Court said the Government had failed to show how the Steel Trust could be dissolved here without killing its organization in foreign trade under the Webb Export Act's privileges: "We do not see how the Steel Corporation can be such a beneficial instrumentality in the trade of the world and its beneficence preserved, and yet be such an evil instrumentality in the trade of the United States that it must be destroyed." The Court then pointed out why, in its opinion, there was no such cause for a Steel dissolution as there was for the Standard Oil and Tobacco dissolutions, saying:

THE STANDARD OIL CASE.

"The Standard Oil Company had its origin in 1882 and through successive forms of combinations and agencies it progressed in illegal power to the day of the decree, even attempting to circumvent by one of its forms the decision of a court against it. And its methods in using its power was of the kind that Judge Woolley described as 'brutal,' and of which practices, he said, the Steel Corporation was absolutely guiltless. We have enumerated them and this reference to them is enough. And of the practices this Court said no disinterested mind could doubt that the purpose was 'to drive others from the field and to exclude them from their right to trade and thus accomplish the mastery which was the end in view.' It was further said that what was done and the final culmination 'in the plan of the New Jersey corporation' made 'manifest the continued existence of the intent . . . and impelled the expansion of the New Jersey corporation.' It was to this corporation, which represented the power and purpose of all that preceded, that the suit was addressed and the decree of the court was to apply. What we have quoted contrasts that case with this.

"The contrast is further emphasized by pointing out how in the case of the New Jersey corporation the original wrong was reflected in and manifested by the acts which followed the organization, as described by the Court. It said: 'The exercise of the power which resulted from that organization fortifies the foregoing conclusions (as to monopoly, etc.), since the development which came, the acquisition here and there which ensued of every efficient means by which competition could have been asserted, the slow but resistless methods which followed by which means of transportation were absorbed and brought under control, the system of marketing which was adopted, by which the country was divided into districts and the trade in each district in oil was turned over to the designated corporation within the combination and all others were excluded, all lead the mind up to a conviction of a purpose and intent which we think is so certain as practically to cause the subject not to be within the domain of reasonable contention.'

THE TOBACCO TRUST.

"The Tobacco Company case has the same bad distinctions as the Standard Oil case. The illegality in which it was formed, there were two American Tobacco Companies, but we use the name as designating the new company as representing the combinations of the suit continued, indeed progressed in intensity and defiance to the moment of decree. And it is the intimation of the opinion if not its direct assertion that the formation of the company (the word 'combination' is used) was preceded by the intimidation of a trade war 'inspired by one or more of the minds which brought about and became parties to that combination.' In other words, the purpose of the combination was signalled to competitors and the choice presented to them was submission or ruin, to become parties to the illegal enterprise or be driven 'out of the business.' This was the purpose and the achievement, and the processes by which achieved, this court enumerated to be the formation of new companies, taking stock in others to obscure the result actually attained, but always to monopolize and retain power in the hands of the few and mastery of the trade; putting control in the hands of seemingly independent corporations as barriers to the entry of others into the trade; the expenditure of millions upon millions in buying out plants not to utilize them but to close them; by constantly recurring stipulations by which numbers of persons, whether manufacturers, stockholders or employees, were required to bind themselves, generally for long periods, not to compete in the future.

"In the Tobacco case, therefore, as in the Standard Oil case, the court had to deal with a persistent and systematic lawbreaker masquerading under legal forms, and which not only had to be stripped of its disguises but arrested in its illegality. A decree of dissolution was the manifest instrumentality and inevitable. We think it would be a work of sheer supererogation to point out that a decree in that case or in the Standard Oil case furnishes no example for a decree in this.

"In conclusion we are unable to see that the public interest will be served by yielding to the contention of the Government respecting the dissolution of the company or the separation from it of some of its subsidiaries; and we do see in a contrary conclusion a risk of injury to the public interest, including a material disturbance of, and, it may be, serious detriment to, the foreign trade. And in submission to the policy of the law and its fortifying prohibitions the public interest is of paramount regard. We think, therefore, that the decree of the District Court should be affirmed. So ordered."

DISSENTING OPINION.

Justice Day, speaking also for Justices Pitney and Clarke, read a minority opinion, holding the Steel Corporation was organized in direct violation of law, and controlled prices for many years "by pools, associations, trade meetings, and as the result of discussion and agreements at the so-called 'Gary dinners,' where the assembled trade opponents secured co-operation and joint action through the machinery of special committees of competing concerns, and by prudent prevision took into account the possibility of defection, and the means of controlling and perpetuating that industrial harmony which arose from the control and maintenance of prices."

LIFEBOAT REQUIREMENTS.

(By the Steamboat Inspection Service of the Department of Commerce.)

Every inspected steam vessel and motor vessel navigating the ocean, Great Lakes, lakes, bays, or sounds, except ferry-boats, are required to be provided with sufficient lifeboat and liferaft capacity to carry every person on board, except that in the case of steamers navigating coastwise, the Great Lakes, lakes, bays and sounds the required capacity is reduced on steamers navigating shallow waters near land and in the warm season of the year. Ferry-boats, barges and steam vessels navigating rivers are required to be provided with such boats and rafts as in the judgment of the inspectors may be necessary, a minimum lifeboat capacity being required for these classes of vessels.

LIFE-PRESERVER REQUIREMENTS.

Every inspected vessel, except ferry-boats navigating rivers, is required to be provided with a life-preserver (or float on river steamers) for adults for every person carried, and on every vessel navigating the ocean, Great Lakes, lakes other than the Great Lakes, bays, or sounds, in addition thereto, a number of life-preservers suitable for children equal to at least 10 per cent of the total number of persons carried. Ferry-boats navigating rivers only are required to be provided with life-preservers or wooden floats according to deck measurement.

On the larger passenger steam craft navigating more than three miles off shore, not less than 75 per cent. of the total life-saving equipment shall be lifeboats, the rest in collapsible lifeboats or liferafts.

Besides the 299,363 widows on the roll in 1920, there were 4,422 dependents, 2,273 minors, 913 helpless children, and 109 nurses. Of the total number of pensioners on June 30, 1920, there were 243,520 Civil War soldiers, as against 271,391 a year before. Of the widows, 290,100 were of the Civil War, as against 293,244 a year before. To pensioners in foreign countries were paid $1,280,581, as against $1,188,188 the year before. In the year ended June 30, 1920, there were 27,871 Civil War soldiers who died, as against 27,703 in the previous year.

The largest number of Civil War soldiers on the pension roll, 745,822, was in the year ended June 30, 1898. On June 30, 1920, there were surviving 71 widows of the War of 1812, and also 148 soldiers and 2,423 widows of the War with Mexico, as well as 30,432 pensioners of the War with Spain.

INFORMATION AS TO SOLDIERS' PENSIONS.

(By Gaylord M. Saltzgaber, Commissioner.)

(1) Section 212, Act of October 6, 1917 (as amended), provides that existing pension laws shall not be applicable after that date to persons then in or thereafter entering the active military or naval service, except so far as rights under any such law shall have theretofore accrued. Hence, the Bureau of Pensions has no jurisdiction as to claims based on a military or naval service which terminated after October 5, 1917. Such claims are adjudicated by the Bureau of War Risk Insurance, Treasury Department, Washington, D. C., and all correspondence relating thereto should be addressed to that bureau.

(2) Any officer or enlisted or appointed man of the Army, Navy, or Marine Corps of the United States, disabled by a wound, injury, or disease, incurred in line of duty since March 4, 1861, in a term of service which ended prior to October 6, 1917, may be entitled to pension on account thereof under the provisions of Section 4692, Revised Statutes. Rates range from $6 to $100 per month, according to the degree of disability established. Pension commences from date of filing of declaration (Form 3-001), except in claims of certain insane persons.

(3) Act of May 1, 1920. Any person who served ninety days or more in the Army, Navy or Marine Corps of the United States during the Civil War, and who has been honorably discharged, or who, having so served less than ninety days, was discharged for a disability incurred in service in line of duty, may be entitled to a pension at the rate of $50 per month from the date of filing a valid declaration (Blank No. 3-026).

A rate of $72 per month is provided for any person who served as above and who is now, or hereafter may become, by reason of age and physical or mental disability, helpless or blind, or so nearly helpless or blind as to require the regular personal aid and attendance of another person, pension to commence from the date of the certificate of medical examination by a board of surgeons, establishing the existence of the requisite condition of disability, after May 1, 1920, the date of approval of the act. This act also provides increased rates for specific disabilities (Blank No. 3-026).

(4) Act of June 5, 1920. Any person who served ninety days or more in the military or naval service of the United States during the War with Spain, the Philippine insurrection, or the China relief expedition who has been honorably discharged therefrom, and who is suffering from any mental or physical disability of a permanent character, not the result of his own vicious habits, and thereby rendered unable to earn a support, may be entitled to a pension. Rates range from $12 to $30 per month, proportioned to the degree of inability to earn a support, pension to commence from date of filing claim upon proof that the disability then existed.

Any person who served as noted above and who has reached the age of 62 years is entitled to a pension of $12 per month; 68 years, $18 per month; 72 years, $24 per month, and 75 years, $30 per month. This act also provides increased rates for specific disabilities (Blank No. 3-026).

INFORMATION AS TO WIDOWS' PENSIONS.

(1) Act of May 1, 1920. Under the provisions of the act of May 1, 1920, the widow of any person who served in the Army, Navy, or Marine Corps during the Civil War for ninety days or more, and was honorably discharged, or regardless of the length of service was discharged for or died in service of a disability incurred in the service in line of duty, may be entitled to pension, without regard to her financial condition, provided she was married to him prior to June 27, 1905. The rate of pension is $30 per month, and $6 additional for each of his children under the age of sixteen years. Pension, if allowed, commences from the date of filing a valid declaration in the bureau. (Blank No. 3-015.)

(2) Under the provisions of Sections 4702 and 4703, Revised Statutes of the United States, the widow of an officer or enlisted man of the Army, Navy, or Marine Corps of the United States, whose death resulted from disability incurred in the service in line of duty, may be entitled to a pension from the date of his death, regardless of the date of her marriage to him or her financial status. The rate of pension ranges from $12 to $30 per month, according to the rank of the soldier or sailor, with $2 additional for each of his children under the age of sixteen years. (Application Blank No. 3-006.)

(3) Under the Acts of July 27, 1892, June 27, 1902, May 30, 1908, and March 4, 1917, the widow of an officer or enlisted man who served in any of the Indian wars, disturbances, or campaigns, mentioned in said acts, for the period stated therein, may be entitled to pension from date of approval of the act giving her a pensionable status, or, where soldier died subsequent to such date, from date of his death. No grant is made for minor children. The provisions of said acts are printed on the application form. (Application Blank 3-028.)

(4) Under the provisions of the Act of July 16, 1918, the widow of an officer or enlisted man of the Army, Navy, or Marine Corps of the United States, who served therein at least ninety days in the war with

Spain or the Philippine Insurrection or as a participant in the Chinese Boxer rebellion campaign and was honorably discharged therefrom, may be entitled to pension, if her marriage to him occurred prior to the passage of that act, without proving his death to be the result of his Army or Navy service, provided she has no means of support other than her daily labor and an actual net income not exceeding $250 a year. The rate of pension is $12 per month, and $2 additional for each of his children under the age of sixteen years. Pension, if allowed, commences from the date of filing a valid declaration in the bureau. (Application Blank No. 3-020.)

(5) The only general pension laws under which a widow may have title to pension based on service in the war with Spain or the Philippine Insurrection are Sections 4702 and 4703, Revised Statutes of the United States (see paragraph 2) and the Act of July 16, 1918 (see paragraph 4).

PERMANENT COURT OF ARBITRATION OF THE HAGUE.

(Provided for by the Convention, signed at The Hague, July 29, 1899.)

Argentina—E. S. Zeballos, L. M. Drago, C. R. Larreta, Joaquin V. Gonzalez; *Austria-Hungary*—H. Lammasch, Albert de Berzeviczy, Baron Ernest de Plener, Francois de Nagy; *Belgium*—Baron Descamps, Ernest Nijs, Arendt, J. van den Heuvel; *Bolivia*—S. F. Alonso, Claudio Pinilla, Ignacio Calderon, Eliodoro Villazon; *Brazil*—Ruy Barbosa, C. Bevilaqua, Ubaldino do Amaral Fontoura, Amaro Cavalcanti; *Bulgaria*—P. Hadji-Mischef, Ratcho Kossef; *Chile*—Miguel Cruchaga, Alejandro Alvarez, Eliodoro Yanez, Ventura Blanco Veil; *China*—Wu Ting-Fang, Hoo Wei-Teh, Lu She-Shun, J. van den Heuvel; *Colombia*—Marcelino Hurtado, Ignacio Gutierrez-Ponce; *Cuba*—Antonio Sanchez de Bustamente, Manuel Sanguily, Cosme de la Torriente, Juan de Dios Garcia Kohly; *Denmark*—J. H. Deuntzer, Axel Vedel, D. Nyholm; *Ecuador*—Honorato Vazquez, Victor-Manuel Rendon, Gonzalo F. Cordova, Augusto-Aguirre Aparicio; *France*—Leon Bourgeois, Baron d'Estournelles de Constant, Henri Fromageot; *Germany*—Mr. Kriege, Mr. Heinze, Mr. von Staff, Mr. von Martitz; *Great Britain*—Sir Charles Fitzpatrick, Count Desart, Viscount Bryce; *Greece*—Geirgios Streit, Michel Kebedgy, Nicholas Politis, Athanese-Typaldos Bassia; *Guatemala*—Antonio Batres Jauregui, Carlos Salazar, Antonio-Gonzalez Saravia, Alberto Mencos; *Haiti*—F. D. Legitime, Tertullien Guilbaud, Pierre Hudicourt Louis Borno; *Italy*—Victor Emmanuel Orlando Tommaso Tittoni, Charles Schanzer, Dionisio Anzilotto; *Japan*—Baron Nobushige Hozumi, Masaakira Tomii, Kojuro Shidehara; *Luxemburg*—H. Vannerus; *Montenegro*—Eugene Popoviteh, Pierre Chotch; *Nicaragua*—Desire Pector, Leon Vallez; *Norway*—G. Gram, G. F. Hagerup, Sigurd Ibsen, H. J. Horst; *Panama*—Belisario Porras, Ramon M. Valdes; *The Netherlands*—Jonkheer G. L. M. H. Ruys de Beerenbrouck, P. W. A. Cort van der Linden, Jonkheer A. P. C. van Karnebeek, J. A. Loeff; *Peru*—Luis F Villaran, Manuel Alvarez Calderon, Lizardo Alzamora, Mariano H. Cornejo; *Persia*—Mirza Hassan-Khan Moucher-ed-Dovleh; *Portugal*—F. Mattoso Santos, Jose Capello Franco Frazao, Count of Penha Garcia, Arthur Pinto de Miranda Montenegro; *Roumania*—Th. G. Rosette, C. G. Dissescu; *Russia*—Mr. Tagantzeff, Baron Michel de Taube, Baron Nolde; *Salvador*—Manuel Delgado, Salvador Gallegos, Salvador Rodriguez Gonzalez, Alonso Reyes Guerra; *Serbia*—G. Pavlovitch, R. Vesnitch; *Siam*—Eldon Revare James; *Spain*—E. Dato, Manuel Garcia Prieto, Marquis de Alhucemas, Juan Alvarado y de Saz; *Sweden*—K. Hj. L. de Hammarskjold, J. F. I. Afzelius, J. Hellner, Baron C. N. D. Bildt; *Switzerland*—Ch. Ed. Lardy, E. Huber, G. Carlin; *Turkey*—Osman Bey, Haladjian Effendi, Cheref Bey; *United States*—George Gray, Oscar S. Straus, Elihu Root, John Bassett Moore; *Uruguay*—J. P. Castro, Juan Zorrilla de San Martin, Jose Pedro Massera, Manuel B. Otero; *Venezuela*—Carlos F. Grissanti, Santiago Key Ayala, Jose Santiago Rodriguez, Pedro Itreago Chacin.

General Secretary—Baron Michiels van Verduynen.

Mexico and *Paraguay* have not appointed members to the court.

LIST OF CASES BEFORE THE PERMANENT COURT OF ARBITRATION.

The Pious Fund Case (Mexico v. United States), sentence dated Oct. 14, 1902.

The Venezuelan Preferential Case (Germany, Great Britain and Italy v. Venezuela et al.), sentence dated Feb. 22, 1904.

The Japanese House Tax Case (France, Germany and Great Britain v. Japan), sentence dated May 22, 1905.

The Muscat Dhows Case (France v. Great Britain), sentence dated Aug. 8, 1905.

The Casablanca Case (France v. Germany), sentence dated May 22, 1909.

The Grisbadarna Case (Norway v. Sweden), sentence dated Oct. 23, 1909.

The North Atlantic Coast Fisheries Case (Great Britain v. United States), sentence dated Sept. 7, 1910.

The Orinoco Steamship Company Case (United States v. Venezuela), sentence dated Oct. 25, 1910.

The Savarkar Case (France v. Great Britain), sentence dated Feb. 24, 1911.

The Canevaro Case (Italy v. Peru), sentence dated May 3, 1912.

The Russian Indemnity Case (Russia v. Turkey), sentence dated Nov. 11, 1912.

The "Manouba" Case (France v. Italy), sentence dated May 6, 1913.

The "Carthage" Case (France v. Italy), sentence dated May 6, 1913.

The Tavignano, Camouna and Gaulois Cases (France v. Italy). The parties reached a direct agreement before the sentence was pronounced.

The Island of Timor Cases (Netherlands v. Portugal), sentence dated June 25, 1914.

Case relative to the seizure of religious property in Portugal (Spain, France and Great Britain v. Portugal), pending.

Case relative to French loans to Peru (France v Peru), pending.

VOCATIONAL REHABILITATION.

Since June 2, 1920, when the President signed the Industrial Rehabilitation Act, industrial rehabilitation has become a fact, and persons injured in industry or otherwise now have a distinct claim upon the Government. No phase of vocational education is more directly occupied with the promotion of social and individual welfare. Vocational rehabilitation embraces the ideals of vocational education in general, which are summed up in the word "efficiency," and embraces in addition the ideals of restoration and elimination of vocational disability of whatever origin, whether of disease or of accident or of inheritance.

The following States (as of September, 1920) have accepted the provisions of the Federal act: Alabama, Arizona, Arkansas, Delaware, Indiana, Iowa, North Dakota, North Carolina, Ohio, Oregon, South Carolina, Tennessee, and West Virginia. Some definite action leading toward the vocational rehabilitation of disabled persons has been taken in twenty-four States. Before the act made Federal aid possible twelve States—Massachusetts, Novada, North Dakota, New Jersey, Minnesota, Rhode Island, California, Illinois, Pennsylvania, New York, Oregon, and Virginia, in the order named—realizing their responsibility, had made provision for their handicapped workers. Anticipating the passage of the Industrial Rehabilitation Act, three of these States included its acceptance within their original State acts. These States were Nevada, Minnesota, and New York. Other acts authorized co-operation with the Federal Government in any similar legislation that might be enacted.

THE MONROE DOCTRINE.

THE Monroe Doctrine dates from a declaration of December 2, 1823, by James Monroe, President of the United States, in his seventh annual message to Congress. Brazil had declared its independence of Portugal the year before. Troubles in the latter country had caused a modification of the Constitution. In Spain a revolution had occurred, and the dominion of Peru was lost. The Holy Alliance, formed in 1815 by Russia, Austria and Prussia, was threatening, so it was alleged, to help Spain recover its control in South America. Russia and the United States were in controversy over their Pacific Coast boundaries. Mr. Monroe in his message took up the Russian matter first, saying:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been judged proper for asserting, as a principle in which the rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European powers."

The President then spoke of Spain and Portugal in this wise:

"Of events in that quarter of the globe with which we have so much intercourse and from which we derive our origin we have always been anxious and interested spectators. The citizens of the United States cherish sentiments the most friendly in favor of the liberty and happiness of their fellowmen on that side of the Atlantic. In the wars of the European powers, in matters relating to themselves, we have never taken any part, nor does it comport with our policy so to do. It is only when our rights are invaded or seriously menaced that we resent injuries or make preparation for our defence. With the movements in this hemisphere we are of necessity more immediately connected, and by causes which must be obvious to all enlightened and impartial observers. The political system of the allied powers is essentially different in this respect from that of America. This difference proceeds from that which exists in their respective Governments. And to the defence of our own, which has been achieved by the loss of so much blood and treasure, and matured by the wisdom of their most enlightened citizens, and under which we have enjoyed unexampled felicity, this whole nation is devoted. We owe it, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety.

"With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the Governments who have declared their independence and maintained it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them, or controlling, in any other manner, their destiny, by any European power, in any other light than as the manifestation of an unfriendly disposition towards the United States."

CLEVELAND'S DECLARATION IN 1895.

When President Grover Cleveland, in 1895, urged Great Britain to arbitrate her dispute over the boundary between Venezuela and British Guiana, he said (December 17) in a message to Congress:

"The doctrine "(Monroe) "upon which we stand is strong and sound because its enforcement is important to our peace and safety as a nation, and is essential to the integrity of our free institutions and the tranquil maintenance of our distinctive form of government. It was intended to apply to every stage of our national life, and cannot become obsolete while our Republic endures. If the balance of power is justly a cause for jealous anxiety among the Governments of the Old World and a subject for our absolute non-interference, none the less is an observance of the Monroe Doctrine of vital concern to our people and their Government. * * * If a European power, by an extension of its boundaries, takes possession of the territory of one of our neighboring republics against its will and in derogation of its rights, it is difficult to see why to that extent such European power does not thereby attempt to extend its system of government to that portion of this continent which is thus taken. This is the precise action which President Monroe declared to be 'dangerous to our peace and safety,' and it can make no difference whether the European system is extended by an advance of frontier or otherwise. * * * The Monroe Doctrine finds its recognition in those principles of international law which are based upon the theory that every nation shall have its rights protected and its just claims enforced."

PRESIDENT WILSON'S WORDS IN 1915.

President Wilson said of the Monroe Doctrine (December 7, 1915) in an address to a joint session of Congress: "There was a time in the early days of our own great nation and of the republics fighting their way to independence in Central and South America when the Government of the United States looked upon itself as in some sort the guardian of the republics to the south of her as against any encroachments or efforts at political control from the other side of the water; felt it its duty to play the part even without invitation from them; and I think that we can claim that the task was undertaken with a true and disinterested enthusiasm for the freedom of the Americas and the unmolested self-government of her independent peoples. But it was always difficult to maintain such a rôle without offence to the pride of the peoples whose freedom of action we sought to protect and without provoking serious misconceptions of our motives, and every thoughtful man of affairs must welcome the altered circumstances of the new day in whose light we now stand, when there is no claim of guardianship or thought of wards but, instead, a full and honorable association as of partners between ourselves and our neighbors, in the interest of all America, north and south.

"Our concern for the independence and prosperity of the states of Central and South America is not altered. We retain unabated the spirit that has inspired us throughout the whole life of our Government and which was so frankly put into words by President Monroe. We still mean always to make a common cause of national independence and of political liberty in America. But that purpose is now better understood so far as it concerns ourselves. It is known not to be a selfish purpose. It is known to have in it no thought of taking advantage of any Government in this hemisphere or playing its political fortunes for our own benefit. All the Governments of America stand, so far as we are concerned, upon a footing of genuine equality and unquestioned independence."

U. S. REPLY TO SALVADOR ON MONROE DOCTRINE, 1920.

The Republic of Salvador, early in 1920, asked the United States Government for an interpretation of the Monroe Doctrine, saying, in part: "My government recognizes that the Monroe Doctrine consolidated the freedom of the Latin Continental States and removed them from the great danger of European intervention. It understands that the doctrine is the determining cause of the existence of the democratic regime in this continent and that it put a dike against the colonization by Europe. But as the compact of the League of Nations does not point out the scope or determine a positive criterion for international relations in America, and as the doctrine will be transformed presently, by virtue of the full sanction of the nations, into a principle of universal public law, juris te de juris, I ask your Excellency, if you consider it well, to be good enough to state the authentic concept of the Monroe Doctrine, such as it is at present understood at the present historic moment for its future projects by the Government of the White House, which should understand that my government keenly desires a declaration that will avoid the anarchy of the reigning criteria, which state of things, as is well known, is not the most propitious for the promotion of the true ideals of Pan-Americanism.

"Contrary to the authoritative and respected opinion of ex-Secretary Root, by virtue of its inclusion in the compact of the League of Nations, the Monroe Doctrine will be converted, there is no doubt, into the genesis of international American law."

The U. S. State Department, in replying, quoted from President Wilson's public utterances to the effect that removal of doubts and suspicions on the part of the states of America by their uniting in guaranteeing to each other absolute political independence and territorial integrity.

AMERICAN CASUALTIES IN WAR WITH GERMANY.

FINAL revised figures of American Army casualties in the war with Germany were announced by the Adjutant General Feb. 7, 1920. They show that the total casualties were 302,612, with deaths numbering 77,118. Prior figures, based on weekly casualty summaries, issued by the War Department, gave the total as 293,061, with 77,635 deaths. The revised figures are as follows:

Killed in action	34,248	Other known causes	489	Wounded slightly	91,189
Died of disease	23,430	Causes undetermined	1,839	Wounded severely	83,390
Died of wounds	13,700	Presumed dead	650	Wounded, degree undetermined	46,480
Died of accident	2,019	Total dead	77,118	Total wounded	221,050
Drowned	399	Prisoners unaccounted for	15	Missing in action	3
Suicide	272	Prisoners died	147		
Murder or homicide	154	Prisoners repatriated	4,270		
Executed by sentence of court martial	10	Total prisoners	4,432	Grand total	302,612

NEW YORK STATE LOSSES.

New York led the list of casualties with a total of 40,222. In detail these are:

	Officers.	Men.	Total.		Officers.	Men.	Total.
Killed in action	254	4,528	4,782	Murder or homicide	1	16	17
Died of disease	70	1,888	1,958	Other known causes	3	40	43
Died of wounds	84	1,755	1,839	Cause undetermined	5	188	193
Died of accident	44	162	206	Presumed dead	5	64	69
Drowned	0	42	42				
Suicide	10	37	47	Totals	476	8,720	9,196

PRISONERS AND WOUNDED.

War with Germany	April 6, 1917	Nov. 11, 1918 (Armistice)	527,000	*382,000 †3,091,000	4,000,000

*National Guard. † National Army.

The late conflict is called "The War of 1917" by the Historical Branch of the United States Dept. of War The figures for The War of 1917 were furnished by the office of the Chief of Staff, U. S. A.

Figures for the French and Tripoli Wars of 1798 and 1801 show only the naval forces. In the Civil Wa the Confederates had over 750,000 troops actually engaged.

The Continental Army was organized by the Continental Congress, June 15, 1775, under George Wash ington as Maj.-Gen. and Commander-in-Chief. The so-called Continentals in the Revolution totale 231,462. The War Department was established, August 7, 1789. The standing army was organized September, 1790.

In addition to the 2,772,408 troops furnished the United States Government, 1861-65, there wor 86,724 men who paid commutation, raising the total to 2,859,132. The Army of the Potomac was or ganized, July, 1861, under Maj.-Gen. G. B. McClellan.

UNION ARMY LOSSES IN THE CIVIL WAR.

(From "Regimental Losses in the American Civil War," by William F. Fox, Lieutenant-Colonel, U. S. V.)

Date	Battle	Killed.	Wounded.	Missing.	Aggregate.
July 1-3, 1863	Gettysburg	3,070	14,497	5,434	23,001
May 8-18, 1864	Spottsylvania	2,725	13,413	2,258	18,396
May 5-7, 1864	Wilderness	2,246	12,037	3,383	17,666
September 17, 1862	Antietam	2,108	9,549	753	12,410
May 1-3, 1863	Chancellorsville	1,606	9,762	5,919	17,287
September 19-20, 1863	Chickamauga	1,656	9,749	4,774	16,179
June 1-4, 1864	Cold Harbor	1,844	9,077	1,816	12,737
December 11-14, 1862	Fredericksburg	1,284	9,600	1,769	12,653
August 28-30, 1862	Manassas	1,747	8,452	4,263	14,462
April 6-7, 1862	Shilob	1,754	8,408	2,855	13,047
December 31, 1862	Stone River	1,730	7,802	3,717	13,249
June 15-19, 1864	Petersburg (assault)	1,688	8,513	1,185	11,386

The Union losses at Bull Run (first Manassas), July 21, 1861, were: Killed, 470; wounded, 1,071 captured and missing, 1,793; aggregate, 3,334

Confederate Losses in the Civil War

The Confederate losses in particular engagements were as follows: Bull Run (first Manassas), July 21 1861, killed, 387; wounded, 1,582; captured and missing, 13; aggregate, 1,982. Fort Donelson, Tenn., February 14-16, 1862, killed, 466; wounded, 1,534; captured and missing, 13,829; aggregate, 15,829. Shiloh, Tenn., April 6-7, 1862, killed, 1,723; wounded, 8,012; captured and missing, 959; aggregate, 10,694. Seven Days' Battle, Virginia, June 25-July 1, 1862, killed, 3,478; wounded, 16,261; captured and missing, 875; aggregate, 20,614. Second Manassas, August 21-September 2, 1862, killed, 1,481; wounded and missing, 7,627; captured and missing, 89; aggregate, 9,197. Antietam campaign, September 12-20, 1862, killed 1,886; wounded, 9,348; captured and missing, 1,367; aggregate, 12,601. Fredericksburg, December 13, 1862 killed, 596; wounded, 4,068; captured and missing, 651; aggregate, 5,315. Stone River, Tenn., December 31, 1862, killed, 1,294; wounded, 7,945; captured and missing, 1,027; aggregate, 10,266. Chancellorsville, May 1-4, 1863, killed, 1,665; wounded, 9,081; captured and missing, 2,018; aggregate, 12,764. Gettysburg July 1-3, 1863, killed, 2,592; wounded, 12,706; captured and missing, 5,150; aggregate, 20,448. Chickamauga, September 19-20, 1863, killed, 2,268; wounded, 13,613; captured and missing, 1,090; aggregate, 16,971

Gettysburg was the greatest battle of the war; Antietam the bloodiest. The largest army was assembled by the Confederates at the seven days' fight; by the Unionists at the Wilderness.

Combined Losses of North and South in the Civil War.

The number of casualties in the volunteer and regular armies of the United States during the war of 1861-65, according to a statement prepared by the Adjutant-General's office, was as follows: Killed in battle 67,058; died of wounds, 43,012; died of disease, 199,720; other causes, such as accidents, murder, Confederate prisons, etc., 40,154; total died, 349,944; total deserted, 199,105. Number of soldiers in the Confederate service who died of wounds or disease (partial statement), 133,821; deserted (partial statement), 104,428. Number of United States troops captured during the war, 212,608; Confederate troops captured, 476,169. Number of United States troops paroled on the field, 16,431; Confederate troops paroled on the field, 248,599. Number of United States troops who died while prisoners, 30,156; Confederate troops who died while prisoners, 30,152.

Note—British merchant vessels sunk, 2,479, of 7,759,000 tons; lives lost, 14,287. Fishing vessels sunk, 675, of 71,765 tons; lives lost, 434. In addition, 592 lives were lost on vessels damaged or molested but not sunk. The causes of the warship losses were as follows: 289 by submarine, 225 by mine, 43 in action, 93 by collision, 77 wrecked, 18 by fire, 1 destroyed to avoid capture, and 69 by various unknown causes.

France: *Battleships* (4)—Bouvet (12,000), March 18, 1915; Suffren, Nov. 26, 1916; Gaulois, Dec. 27, 1916; Danton, March 19, 1917. *Armored Cruisers* (2)—Leon Gambetta (12,352), April 26, 1915; Admiral Charner (4,680), Feb. 8, 1916. *Cruisers* (3)—Kleber, June 27, 1917; Chateaurenault, Dec. 14, 1917; Dupetit Thouars, Aug. 7, 1918.

Other losses were: gunboats, 2; torpedo gunboats, 1; sloops, 1; destroyers, 11; torpedo boats, 10; submarines, 15; mine layers, 2; auxiliary cruisers, 3; armed merchant cruisers, 2; special vessels, 1. *Grand Total*—57.

Russia: *Battleships* (4)—Svobodnaya Rossiyu, June 18, 1918; Imperatritza Mariya, Oct. 20, 1916; Peresvyet, Jan. 4, 1917; Slava, Oct. 17, 1917. *Armored Cruisers* (1)—Pallada (7,775), Oct. 11, 1914. *Cruisers* (2)—Chemtchug (3,130); Oct. 28, 1914; Prut (ex Medjidieh), May, 1918.

Other losses were: gunboats, 3; armed auxiliaries, 1; mine layers, 1; destroyers, 23; submarines, 10; hospital ships, 3; mine layers, 1; auxiliary cruisers, 1.

Japan: *Battleships* (1)—Kawachi, July 12, 1918. *Battle Cruisers* (1)—Tsukuba, Jan. 1, 1917. *Light Cruisers* (3)—Kasagi, July, 1916; Otowa; Takashiho, July, 1917.

Other losses were: destroyers, 2; torpedo boats, 1; training ships, 1; special service ships, 4. *Grand Total*—13.

Italy: *Battleships* (3)—Benedetto Brin (13,215), Sept. 28, 1915; Leonardo da Vinci (22,022), Aug., 1916; Regina Margherita, Dec. 11, 1916. *Armored Cruisers* (2)—Amalfi (9,958), July 7, 1915; Garibaldi (7,234), July 18, 1915. Other losses: mining vessels, 1; monitors, 1; flotilla leaders, 1; destroyers, 8; torpedo boats, 4; submarines, 8; gunboats, 1; transports, 1; auxiliary cruisers, 2. *Grand Total*—31. Note—The Leonardo da Vinci was raised and towed to a dry dock, in 1919, and restored. **Portugal:** One river gunboat. **Roumania:** One torpedo boat. **Greece:** One destroyer.

WAR VESSELS LOST BY BELLIGERENTS—*Continued.*

Germany: *Battleships* (1)—Pommern (12,997), May 31, 1916. *Battle Cruisers* (2)—Lutzow (28,000), May 31, 1916; Goeben (22,635) (sold to Turkey), Aug. 13 1914. *Armored Cruisers* (6)—Yorck (9,350), Nov. 3, 1914; Schornborst (11,420), Dec. 8, 1914; Gneisenau (11,420), Dec. 8, 1914; Friedrich Karl (8,858), Dec., 1914; Bluecher (15,550), Jan 25 1915. Prinz Adalbert (8,858), Oct. 23 1915. *Smaller Cruisers* (18) (ranging from 2,000 to 5,000 tons)—Breslau (sold to Turkey), Aug. 13, 1914; Magdeburg, Aug. 27, 1914; Mainz, Aug. 28, 1914; Koeln and Ariadne, Aug. 28 1914; Hela, Sept. 13, 1914; Karlsruhe, Nov. 4, 1914; Emden, Nov. 9, 1914, Leipzig, Dec. 8 1914; Nurnberg, Dec. 8, 1914; Dresden, March 14, 1915, Konigsberg, July 11, 1915; Undine, Nov 7, 1915; Bremen Dec 17, 1915; Elbing, May 31, 1916; Weisbaden, Rostock and Frauenlob, May 31, 1916. *Light Cruisers* (1)—Elbing, May 31, 1916.

Other losses were: mining vessels, 28 gunboats, 11; destroyers, 60; torpedo boats, 29; Submarines, 197; mine layers, 6; auxiliary cruisers, 20, including the Cap Trafalgar (18,710), Sept. 14, 1914; and the Kaiser Wilhelm der Grosse (13,952), Aug. 26, 1914; survey ships, 2; armed auxiliaries, 16, including some of those interned by the U. S. and other powers.

The ships sent to Scapa Flow, where the scuttling by their crews occurred, were: (dreadnoughts) von der Tann, Moltke, Kaiser, Friedrich der Grosse, Kaiserin, Koenig Albert, Prinz Regent Luitpold, Seidlitz, Koenig, Grosser Kurfurst, Markgraf, Kronprinz Wilhelm, Derfflinger, Hindenburg, Baden, Bayern; (protected cruisers) Strassburg, Dresden, Emden, Frankfurt Koln, Nurnberg, Brummer, and Bremser.

Austria-Hungary: *Battleships* (3)—Szent Istvan, June 10, 1918; Wien, Dec. 10, 1917; Viribus Unitis, Nov. 1, 1918. *Cruisers* (2)—Zenta (2,264), Aug. 16, 1914; Kaiserin Elizabeth (3,937), Nov. 7, 1914. Other losses: river monitors, 1; training ships, 1; destroyers, 5; torpedo boats, 5; submarines, 12. *Grand Total*—29.

Turkey: *Battleships* (2)—Mussudyeh (10,000), Dec. 14, 1914; Barbarossa (9,900), Aug. 8, 1915. *Cruisers* (1)—Medjidieh (3,330), April 3, 1915. Other losses: light cruisers, 1 (Breslau); armed auxiliaries, 1; gunboats, 13; torpedo vessels, 1; destroyers, 3; torpedo boats, 6; submarines, 2 (both German); mine layers, 2. *Grand Total*—32.

LOSSES OF AMERICAN VESSELS DURING THE LATE WAR.

THE following is a list, according to the most authentic information on file in the Office of Naval Intelligence, of all naval losses from April 6, 1917, to November 11, 1918:

NAME.	Class.	Tonnage.	Lives Lost.	Date.	Remarks.
BY SUBMARINES.					
Antilles	Transport	6,878 gross	70	Oct. 17, 1917	Torpedoed.
Alcedo	Armed yacht	981 gross	20	Nov. 5, 1917	Torpedoed.
Jacob Jones	Destroyer	1,265 gross	62	Dec. 6, 1917	Torpedoed.
Lake Moor	Cargo steamer	1,955 gross	45	April 11 1918	Torpedoed.
Rockefeller, Wm.	Tanker	7,157 gross	3	May 18, 1918	Torpedoed.
President Lincoln	Transport	18,167 gross	26	May 31, 1918	Torpedoed.
Covington	Transport	16,339 gross	6	July 1, 1918	Torpedoed.
Westover	Army supply	8,800 gross	8	July 11, 1918	Torpedoed.
Westbridge	N. O. T. S.	5,660 gross	4	Aug. 15, 1918	Torpedoed.§
Montanan	Army account	6,659 gross	5	Aug. 16, 1918	Torpedoed.
Mt. Vernon*	Transport	18,372 gross	36	Sept. 5, 1918	Torpedoed.
Buena Ventura	Army cargo	4,881 gross	64	Sept. 16, 1918	Torpedoed.
Tampa	C. G. C.	1,181 displacement	112	Sept. 26, 1918	Torpedoed.
Ticonderoga	Animal cargo	5,130 gross	‡216	Sept. 30, 1918	Shelled and torpedoed.
BY MINES.					
Pratt, Herbert L. †	Tanker	7,145 gross	None.	June 2, 1918	
Californian	Cargo	5,658 gross	None	June 23, 1918	
San Diego	Cruiser	13,680 displacement	50	July 19, 1918	
Minnesota†	Battleship	16,000 displacement	None.	Sept. 29, 1918	
Saetia	N. O. T. S.	2,873 gross	.....	Nov. 9, 1918	
BY COLLISION.					
Mohawk	Revenue cutter	1,148 displacement	None	Oct. 1, 1917	
Chauncey	Destroyer	592 displacement	18	Nov. 19, 1917	
S. C. No. 141	Submarine chaser	75 gross	None.	Dec. 13, 1917	
F 1	Submarine	.....	19	Dec. 17, 1917	
Zaanland	Cargo	5,417 gross	None.	May 13, 1918	
Wakiva II	Yacht	853 gross	2	May 22, 1918	
Schurz	Cruiser	1,630 displacement	1	June 21, 1918	
Oosterdijk	Cargo	8,251 gross	None.	July 11, 1918	
S. C. No. 187	Submarine chaser	75 gross	None.	Aug. 4, 1918	
S. C. No. 60	Submarine chaser	75 gross	2	Oct. 1, 1918	
Herman Frasch	Transport (Army)	3,803 gross	16	Oct. 4, 1918	
S. C. No. 397	Submarine chaser	75 gross	None	Oct. 5, 1918	With 0-13.
Westgate	Cargo (Army)	8,800 dead-weight	7	Oct. 7, 1918	
Shaw	Destroyer	1,100 displacement	12	Oct. 9, 1918	
Tarantula	Special patrol	.....	None.	Oct. 28, 1918	
MISCEL. SINKINGS.					
Rehoboth	Armed trawler	254 gross	None.	Oct. 8, 1917	
S. C. No. 117	Submarine chaser	75 gross	None.	Dec. 22, 1917	Burned; Norfolk Navy Yard.
Bauman	Trawler	304 gross	None.	Jan. 12, 1918	
Guinevere	Yacht	499 gross	None.	Jan. 25, 1918	Struck rock.
Elfreda	Yacht	164 displacement	None	Feb. 21, 1918	
Mariner	Tug	220 gross	None.	Feb. 26, 1918	Foundered.
Cherokee	Tug	272 gross	23	Feb. 26, 1918	Foundered.
Cyclops	Collier	19,360 displacement	293	April 21, 1918	Mysteriously disap'r'd.
No. 3429	Motor patrol	.....	2	July 10, 1918	German shore battery.
Montauk	Patrol boat	641 gross	7	Aug. 21, 1918	Driven ashore.
S. C. No. 209	Submarine chaser	75 gross	17	Aug. 27, 1918	Shelled by mistake.
S. C. No. 219	Submarine chaser	75 gross	4	Oct. 9, 1918	Internal explosion.
Lake Borgne	Army account	2,100 gross	None.	Oct. 22, 1918	Struck rock.
Ophir	N. O. T. S.	7,089	None.	Nov. 11, 1918	Internal explosion.

* Torpedoed; made port. † Mined; made port. ‡ 216 lost, 2 captured. § Salvaged

Number (54)	12 16", 50 cal.	16 6", 53 cal.	4 3", 50 cal.	2 21"	.....	.....

None of the ships of the above class has any torpedo tubes above water. In addition to the guns mentioned in the table, the Colorado, Maryland, Washington, and West Virginia have 4 6-pdr. saluting cannon. Number of men includes marines, also chief petty officers.

In May, 1919, the Navy Department opened bids for two dreadnoughts, the Iowa and Massachusetts, mean trial displacement 43,000 tons each; over-all length, 684 feet; breadth, 106 feet; mean draft, 33 feet; speed, 33 knots, with an 8,000-mile radius. They will cost, unarmed, over $22,000,000 apiece. The average time required to build a battleship is 2 years 7 months.

The Tennessee went in commission June 3, 1920.

CORRESPONDING GRADES IN ARMY, NAVY, AND MARINE CORPS.

Navy.	Army and Marine Corps.	Navy.	Army and Marine Corps.
Admiral	General.	Commander	Lieutenant Colonel.
Vice-Admiral	Lieutenant General.	Lieutenant Commander	Major.
Rear Admiral, first nine	Major General.	Lieutenant	Captain.
Rear Admiral, second nine	Brigadier General.	Lieutenant, junior grade	First Lieutenant.
Commodore	Brigadier General.	Ensign	Second Lieutenant.
Captain	Colonel.		

Superdreadnought—Name given to some vessels of the dreadnought type. The displacement is 25,000 tons or more. The speed attained may be twenty-five knots or sea miles (a sea mile is 2,000 yards), and the main battery consists of guns of 13.5 inches calibre or better.

Torpedo—A development of great importance in naval warfare. It is associated with the names of Whitehead, an Englishman, and other inventors. The modern so-called automobile torpedo in general use is of the shape of a cigar. It carries in its nose or head a charge of 250 pounds of guncotton, which is exploded by concussion when it strikes the object aimed at. Abaft the explosive chamber is an air chamber containing the compressed air which supplies the motor power. Behind this air chamber is a balance chamber containing the steering apparatus for directing the rudders. Behind this again are the engines to revolve the shaft running to two screw propellers.

Torpedo Boats—Small vessels whose main offensive armament is a torpedo shot through a tube. They rely upon high speed, small size and a few light guns for defense.

COST OF U. S. WARSHIPS—DATE OF COMMISSION.

1916	Repulse	26,500	6 15"	22.0
	Grand total, 32 armored cruis.	411,400		

The Princess Royal and the New Zealand were built for New Zealand. The Australia was built for that commonwealth.

The British Navy also included in 1920 82 light cruisers and 16 monitors, besides submarines, etc.

The armored cruisers in the above table did not appear in the 1920 official naval list because they were no longer regarded by the Admiralty as a fighting unit.

The merchant marine of France in June, 1920, consisted of 1,116 vessels, of 1,926,471 tons, of which 17 vessels were above 10,000 tons each, 23 were of 7,000 to 10,000 tons, 70 were of 5,000 to 7,000 tons, and 482 were of less than 401 tons each.

GERMANY.

The Armistice and the Peace Treaty ended the German Navy as a fighting force. At Scapa Flow, June 21, 1919, the Germans scuttled 10 battleships, 5 battle cruisers, 5 light cruisers, and 30 destroyers; 3 light cruisers and 18 destroyers were beached. Other ships were surrendered and delivered to the Allies, including the United States.

By the Peace Treaty Germany is allowed 6 battleships of the pre-dreadnought *Deutschland* or *Lothringen* type (about 13,000 tons displacement each, with 4 11-inch guns and 14 6-7-inch guns each); 6 light cruisers; 12 destroyers; no submarines. A navy may be recruited and maintained on a volunteer basis, with not over 1,500 officers and 15,000 total personnel.

AUSTRIA-HUNGARY.

Neither Austria nor Hungary has a fighting navy, under the Peace Treaty. Austria-Hungary surrendered to the Allies 3 battleships, 3 light cruisers, 9 destroyers, 12 torpedo boats, and minor craft.

OTHER FOREIGN NAVIES.

(Figures in parenthesis are tons displacement.)

Argentina—2 dreadnoughts (27,940); 2 pre-dreadnoughts (2,336); 4 armored cruisers (6,840); 1 light cruiser (4,500).

Brazil—2 dreadnoughts (19,281); 2 coast defense ships (3,200); 2 cruisers (3,500); 1 smaller cruiser.

Chili—1 pre-dreadnought (6,966), 2 cruisers (7,030-8,500); 4 protected cruisers (2,080 to 4,420); submarines; destroyers.

China—4 cruisers (3,000 to 4,300) 2 smaller cruisers for cadets; gunboats.

Cuba—1 cruiser.

Denmark—1 old battleship; 2 small cruisers; monitors, torpedo boats, submarines.

Ecuador—2 gunboats and 2 destroyers.

Mexico—Several gunboats and torpedo boats.

Netherlands—6 coast defense ships (5,000 to 6,830); 5 cruisers (3,900 to 7,205).

Nicaragua—1 gunboat.

Norway—4 cruisers (3,900 to 4,200); gunboats; destroyers, torpedo boats; submarines

Paraguay—3 gunboats (200).

Peru—3 cruisers (1,700 to 6,400); submarines; destroyer.

Portugal—3 cruisers (1,772 to 4,253); gunboats; torpedo boats; submarines, etc.

Roumania—1 cruiser (1,320); gunboats and torpedo boats.

Spain—3 dreadnoughts (15,700; 1 pre-dreadnought (9,890); 7 cruisers (1,950 to 10,062); destroyers, torpedo boats; gunboats.

Sweden—13 cruisers (3,600 to 7,180), 10 destroyers; 4 gunboats; 3 torpedo boats; submarines.

Turkey—2 battleships (9,876-22,640); 1 cruiser (3,800); gunboats; destroyers; torpedo boats.

Uruguay—2 small cruisers.

Venezuela—1 small cruiser; gunboats and torpedo boats.

WAR LOSSES OF AMERICAN MERCHANT SHIPPING.

This record of the Bureau of Navigation, Department of Commerce, covers August 3, 1914, to November 11, 1918.

The table does not include losses of vessels of the American Army or Navy or lives sacrificed in connection therewith, recorded by the War and Navy Departments, nor does it include several cases of losses with respect to which the causes have not yet been fully determined.

Of the entire losses of life, 655 were due to submarine torpedoes, 38 to gunfire, and 34 to drifting enemy mines.

NAVAL EDUCATION SYSTEM OF THE U. S.

THE Bureau of Navigation of the Navy Department is charged with the training and education of the line officers of the navy, and each staff bureau with the training of the staff officers. Midshipmen, when appointed, are given four years instruction on general and technical subjects at the Naval Academy. Upon graduation these midshipmen are commissioned as line officers and are ordered to sea duty. None is sent to any special schools until he has had at least one year at sea. Officers who have shown special qualifications and interest in the subjects mentioned below are selected for special instruction. In recent years 40 per cent. to 80 per cent. of each Naval Academy class have received special instruction in some one of these subjects. The following courses are maintained by the Bureau of Navigation:

War College—Newport, R. I., one year, for officers of command or flag rank. This course includes theoretical instruction in the art of naval warfare, and war games played on game boards.

Post Graduate Work—Naval Academy, Annapolis, Md., and various educational institutions; two years The first year of this course is at the Naval Academy and consists of the preparation and technical ground work. This work merges into the specialization course continued at the institution, offering the best available facilities in the given work, viz.: ordnance, marine, gas, electrical and radio engineering. Columbia University, Massachusetts Institute of Technology, George Washington and Harvard are among the institutions at which special instruction is given. As a part of this course practical work during the summer is given to student officers at such places as navy yards, naval gun factory, Bureau of Mines, Bureau of Standards and large industrial plants.

Naval Construction—Naval Academy and Massachusetts Institute of Technology; two to three years First year at post-graduate work at Naval Academy and the remainder at Massachusetts Institute of Technology, studying design and construction of ships. These officers are transferred from the line to the construction corps.

Submarines—New London, Conn.; three months. This course is practical training in handling submarines and firing torpedoes from them

Torpedoes—Naval Torpedo Station, Newport, R. I; five months. Theoretical and practical instruction in the assembly, firing, care and maintenance of various types of torpedoes.

Aviation—Pensacola, Fla., nine months Training in both heavier than air and lighter than air craft

Law—Judge Advocate General's office and George Washington University; three years. Certain officers while on duty in the Judge Advocate's office take the law course at George Washington University, giving special attention to military law and procedure.

Optical Instruments and Gyroscopic Instruments—Naval gun factory, Ford instrument works and other industrial plants From time to time officers are sent to places where such instruments are manufactured, to learn the details and principles of manufacturing while others are given shorter courses in the care, operation and maintenance of these instruments.

Languages—Office of Naval Intelligence. Officers connected with this office are given opportunity in this country and abroad to learn to read and speak numerous foreign languages.

Besides the special courses mentioned above for line officers, the staff officers have schools for their own corps that enable these officers to keep familiar with the latest developments in their profession and to assist them in research work, and other advancement.

EDUCATION AND TRAINING OF ENLISTED MEN IN THE NAVY.

There are shore training stations at Newport, R. I.; Hampton Roads, Va.; Great Lakes, Ill.; San Francisco, and Gulfport, Miss. At the Newport and San Francisco training stations there are special schools for enlisted men who desire to enter the Naval Academy. Trade schools are maintained at the stations and at several of the navy yards and naval air stations. The course of training for apprentice seamen and firemen, third class, at training stations, is four months. Upon the completion of the course of training at training stations, apprentice seamen will be rated seamen, second class, or firemen, third class, and granted the usual leave before being transferred to ships. Every endeavor is made to qualify those who are unable to swim 50 yards. This is particularly desirable in the case of line petty officers, and no man shall be made a coxswain or a member of a power boat's crew who has not so qualified.

Men need not be continuous service men to be eligible for entrance to a trade school, but, except in the case of recruits who will enter immediately after enlistment, no men will be detailed who will not have at least two years to serve on their current enlistment after they have completed their course. A recruit must have enlisted for at least three years to be eligible for entrance to any trade school having a course of six months or more. A recruit who has enlisted for two years or more is eligible for entrance to a trade school having a course of less than six months. Men who complete a course of instruction in any service trade school are not qualified for furlough without pay or discharge by purchase or by special order during the remainder of the enlistment in which the course was completed. A man who applies for instruction in any service trade school shall be so informed and required to sign a statement that he has no intention of requesting furlough without pay or discharge by purchase or special order during his current enlistment, and that no reason exists or can be anticipated to necessitate such discharge. Men who have completed one course of instruction in any trade school, whose course is six months or longer, will not be considered eligible for entrance to another trade school except that men entering the apprentice courses in the aviation mechanics' school may be advanced through the higher trade schools of his specialty if his aptitude and progress warrant. Men qualifying for a rating prior to the completion of a course are to be rated and transferred to receiving ships for general detail.

SOLDIERS' HOMES.

NATIONAL HOME FOR DISABLED VOLUNTEER SOLDIERS.

President of the Board of Managers.....George H. Wood, National Military Home, Ohio.

There are branches of the National Home at Dayton, Ohio; Milwaukee, Wis.; Togus, Me.; Hampton, Va.; Leavenworth, Kan.; Santa Monica, Cal.; Marion, Ind.; Danville, Ill.; Johnson City, Tenn., and Hot Springs, S. Dak. The aggregate number of members cared for is about 25,000.

REQUIREMENTS FOR ADMISSION.

1. An honorable discharge from the United States service during a war in which it was engaged.
2. Disability which prevents the applicant from earning his living by labor.
3. Applicants for admission will be required to stipulate and agree to abide by all the rules and regulations made by the Board of Managers, or by its order; to perform all duties required of them, and to obey all the lawful orders of the officers of the Home. Attention is called to the fact that by the law establishing the Home the members are made subject to the Rules and Articles of War, and will be governed thereby in the same manner as if they were in the Army of the United States.
4. A soldier or sailor must forward with his application for admission his Discharge Paper, and when he is a pensioner, his Pension Certificate, which papers will be retained at the branch to which the applicant is admitted, to be kept there for him, and returned to him when he is discharged. This rule is adopted to prevent the loss of such papers and certificates, and to hinder fraudulent practices; and no application will be considered unless these papers are sent with it. If the original discharge does not exist, a copy of discharge, certified by the War or Navy Department, or by the Adjutant General of the State, must accompany the application.

There are State Homes for disabled volunteer soldiers provided by the States of California, Colorado, Connecticut, Idaho, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Dakota, Vermont, Washington, Wisconsin and Wyoming.

Minnesota	Minnehaha.	Oklahoma	Oklahoma City.	Wyoming	Buffalo.

UNITED STATES SOLDIERS' HOME FOR THE REGULAR ARMY.

The United States Soldiers' Home in the District of Columbia receives and maintains discharged soldiers of the *regular* army. All soldiers who have served twenty years as enlisted men in the army, or who have served in any war, and all soldiers of less than twenty years' service who have incurred such disability, by wounds, disease, or injuries *in the line of duty while in the regular army*, as unfits them for further service, are entitled to the benefits of the Home.

Pensions of inmates are drawn by the Treasurer of the Home and the money held in trust for the pensioner, to whom it is paid in such sums as the Governor of the Home deems proper while he is an inmate of the Home, the balance being paid in full when he takes his discharge and leaves the Home.

Inmates are comfortably lodged, fed, and clothed, and receive medical attendance and medicine, all without cost to them. There were (September 27, 1918) 824 resident soldiers, 133 on outdoor relief, 43 in St. Elizabeth's Hospital, 181 on furlough, 1 absent without leave, and 106 at the United States Army Hospital, Fort Bayard, N. M.

Applications for admission to the Home may be addressed to the "Board of Commissioners, U. S. Soldiers' Home, Washington, D. C.," and must give date of enlistment and date of discharge, with letter of company and number of regiment for each and every term of service, and rate of pension, if any, and must be accompanied by a medical certificate showing nature and degree of disability if any exists.

Governor—Major Gen. Tasker H. Bliss (retired). *Dep. Governor*—Major Parker W. West (retired) *Secretary-Treasurer*—Brig. Gen. I. W. Littell (retired), U. S. A. *Attending Surgeon*—Col. H. P. Birmingham (retired), U. S. A.

MILITARY EDUCATIONAL SYSTEM OF THE UNITED STATES.

(Prepared by the Adjutant-General's Office, U. S. A.)

THE Military Educational System of the United States is under the supervision and co-ordination of the General Staff of the Army. The system provides for the military education of the officers and enlisted men of the Army. It contemplates that all officers upon being newly commissioned from West Point, from the ranks, from civil life, or from any other source, shall pursue a year's basic course at the special service school of their respective arms. Upon completion of this, they are assigned to duty with troops of their arm of the service for a minimum period of two years.

I. *The War Plans Division* of the General Staff is charged with the supervision of all military, educational, and vocational training throughout the Army. It is in charge of a director, who is an assistant to the Chief of Staff.

II. *Special Service Schools* are maintained for each arm of the service as follows: The Infantry School, Camp Benning, Georgia; the Cavalry School, Fort Riley, Kansas; the Field Artillery Schools, Fort Sill, Oklahoma, and Camp Knox, Kentucky; the Coast Artillery School, Fort Monroe, Virginia; the Engineer School, Camp Humphreys, Virginia; the Signal Corps School, Fort Leavenworth, Kansas; the Signal Corps School, Camp Alfred Vail, New Jersey; the Air Service Schools at the various flying fields; the Tank Corps School, Camp Meade, Maryland; the Ordnance School of Application, Aberdeen Proving Ground, Maryland; the Ordnance School of Technology, Watertown, Mass.; the Ordnance School of Operation, Maintenance and Repair, Raritan Arsenal, New Jersey; the Army Medical School, Washington, D. C.; the Motor Transport School, Camp Holabird, Maryland; the Chemical Warfare School, Lakehurst, N. J., and the Finance School, Fort Washington, Maryland.

These schools are under the direct supervision and control of the chiefs of the respective arms or services. The object of the courses for officers is to develop and standardize the instruction and training of officers in the technique and tactics of their respective arm or service.

Basic courses, where officers are sent upon their initial entry into the Regular Army, are maintained at the five special service schools of the combatant arms of the service, viz.: Infantry, cavalry, field artillery, coast artillery, and engineers. These basic courses have for their object: So to qualify all officers upon their initial entry into the service that they may function intelligently on being assigned to duty with their arm of the service.

Advanced courses for the training of officers are maintained. They are of such scope as will completely fit the graduates for the performance of all duties that devolve upon officers of their grade in their respective arm or service.

III. *General Service Schools*, including (*a*) the School of the Line and (*b*) the General Staff School located at Fort Leavenworth, Kansas, and (*c*) the General Staff College, Washington, D. C., are under the direct supervision and control of the Chief of Staff of the Army. It is contemplated that the officer will spend his first school year at the School of the Line. On the recommendation of the school faculty, which is based on his competitive class standing, he is eligible for the course at the General Staff School the succeeding year. The third year of his military education is to be spent, if practicable, on duty with troops of arms of the service other than that with which he has previously served. Having received the recommendation of the General Staff School faculty at the end of his second year, the officer is eligible to enter the General Staff College at the beginning of his fourth year. This course continues for one year, at the end of which period the officer's school education is complete and he is eligible for detail on the War Department General Staff after having complied with the law as to eligibility for detached duty from his own arm of the service.

The School of the Line, Fort Leavenworth, Kansas. The object of this school is to train officers (*a*) in the combined use of all arms and services functioning with a division; including the functioning of corps and army troops and services, in their relation to the division, in accordance with a uniform doctrine approved by the War Department; (*b*) in the duties and responsibilities of field officers with regard to education and training in the Army.

The General Staff School, Fort Leavenworth, Kansas. The object of this school is to train selected officers, who have completed the course in the School of the Line, for higher tactical command and duty as General Staff officers with tactical units. In addition, special courses are conducted for general officers and selected officers of the technical and administrative services.

The General Staff College, Washington, D. C. The object of this institution is to train selected officers who have completed the course in the General Staff School for high command and for duty in the War Department, General Staff. In addition, special courses are conducted for general officers, and for selected officers of the technical and administrative services.

IV. *Unit Schools for Officers.* These schools include those for officers which are under the direct control of territorial or tactical commanders. Their primary object is the training and instruction of officers of all grades with a view to securing uniform and efficient training of the troops or personnel under their respective commands. The courses are conducted concurrently with and closely co-ordinated with the training schedules or work of the troops or personnel under the student officers.

V. *Unit Schools for Enlisted Men.* These schools include schools for the military training and instruction of enlisted men. They have for their object (*a*) to prepare non-commissioned officers, selected privates, and enlisted specialists to carry out efficiently the schedule of training or work in progress; (*b*) to insure proper uniformity and co-ordination in the training or work of different elements of the same command; (*c*) to provide such additional technical and tactical instruction as may be practicable and suited to the needs of the students.

VI. *Special Service Schools for Enlisted Men.* Courses are established at the special service schools enumerated in paragraph II. above, for the special training and instruction of enlisted men. The objects of the schools are (*a*) to train selected non-commissioned officers in the duties of junior officers of their respective arm of service; (*b*) to give special training to selected enlisted men in the duties of non-commissioned officers and enlisted specialists of their respective arm or service.

VII. *The Reserve Officers' Training Corps* consists of units established under the provisions of Section 40-53 of the National Defence Act (act of June 3, 1916) in civil educational institutions under a system of regulations and instructions prescribed by the Secretary of War. These units are composed of students and represent the various branches of the military service. The military instruction is conducted by Army officers detailed for the purpose who are designated as professors of military science and tactics. The Reserve Officers' Training Corps consists of a senior division organized in general in colleges and universities which require four years of collegiate study for a degree and a junior division established at other approved institutions. Military training in the Reserve Officers' Training Corps is carried on from three to five hours each week throughout the four academic years, and also includes attendance at a Summer camp of six weeks' duration. Upon the satisfactory completion of the four-year course, including the camp training, the students are eligible for appointment as Second Lieutenants in the Officers' Reserve Corps of the Army.

VIII. *General and Vocational Education of Soldiers.* The Army school system provides for the enlisted personnel, elementary and advanced education, and vocational training. Education is voluntary, except for illiterates and non-English speaking recruits. Recruit educational centers have been established within the several territorial departments where intensive specialized training is given this class of student. In the advanced general education, an opportunity is given the soldier to pursue work preparatory to college and to West Point. Vocational training is offered with the dual purpose of providing the

Army with the technicians needed, and to qualify the soldier for a place in the industrial world on his return to civil life. The courses now offered are automotive, electrical, building, textile, food, animal transportation, metals, printing, medicine, highway construction and topography, steam, gas and electrical power, music, leather, machine, business, agriculture and miscellaneous. The "applicatory" or "learning by doing" method of instruction is followed in both the general education and vocational courses. Funds are provided by Congressional appropriation. The instructors are qualified civilians and officers and soldiers within the service. A special educational school has been established for the purpose of developing courses along vocational and general educational lines, and for the instruction of teachers to insure uniform standards of achievement throughout the Army. Any Army recruiting officers will furnish detailed information concerning courses, and posts, camps and stations at which such courses are taught

THE SPECIAL SERVICE SCHOOLS.

IX. *The Infantry School*, Camp Benning, Georgia; *The Cavalry School*, Fort Riley, Kansas; *The Field Artillery Schools*, Fort Sill, Oklahoma, Camp Knox, Kentucky, and Camp Bragg, North Carolina; *The Coast Artillery School*, Fort Monroe, Virginia, and *The Engineer School*, Camp Humphrey, Virginia, are established for the purpose of (*a*) training officers for their specific duties in command of troops; (*b*) the tactical and technical training of their arms and services; (*c*) training selected non-commissioned and enlisted specialist for their respective arms and services.

X. *The Signal Corps School*, Fort Leavenworth, Kansas, for the training of officers and selected enlisted men for the tactical duties of the Signal Corps.

XI. *The Signal Corps School*, Camp Alfred Vail, New Jersey, for the training of officers and enlisted men in the technical duties of the Signal Corps.

XII. *The Air Service Schools* are maintained at the several flying fields for the practical training of officers and enlisted men as aviators, and the duties incident thereto.

XIII. *The Tank Corps School*, Camp Meade, Maryland, for the training of officers and enlisted men of the Tank Corps in the technique, tactics, and practical mechanical operation of military tanks.

XIV. *The Ordinance School of Application*, Aberdeen Proving Ground, Maryland, for the instruction of officers of the Ordnance Department in mechanical and chemical engineering.

XV. *The Ordnance School of Technology*, Watertown, Mass., for the instruction of officers in shop practice, shop administration, and the general administration of the Ordnance Department, except that of the field service thereof.

XVI. *The Ordnance Operation, Maintenance and Repair School*, Raritan Arsenal, New Jersey, for the training of officers and enlisted men in the specialized branches of ordnance work.

XVII. *The Army Medical School*, Washington, D. C., for the training of officers and selected enlisted men in the administrative work and medical procedure pertaining to the Medical Corps. The Army Medical School at Washington provides a course of training and instruction for prospective officers of the Medical Corps covering a period of one year.

XVIII. *The Motor Transport School*, Camp Holabird, Maryland, provides practical courses of training for officers and enlisted men in the technical and mechanical operation of motor transport. They also have excellent vocational training schools in which enlisted men may pursue a sixteen weeks' course to qualify in the several trades pertaining to motor industry.

XIX. *The Chemical Warfare School*, Lakehurst, N. J., for the training of officers and enlisted men in the technical and tactical duties of the Chemical Warfare Service.

XX. *The Army Band Leaders*, Fort Jay, Governor's Island, N. Y., for the training of band masters and selected enlisted men for service with Army bands. The Institute of Musical Art, of New York, give a number of scholarships to students at the school. Graduates of the school are eligible for appointment as band leaders in the service.

XXI. *School for Bakers and Cooks*. At many of the large cantonments a specially prepared course of training for enlisted men to qualify them for duty as bakers and cooks in the service. These schools operate under the direction of the Quartermaster Corps.

ORIGIN OF U. S. MILITARY DECORATIONS.

(By the National Geographical Society)

The Medal of Honor was instituted by act of Congress in 1861 and was the earliest American decoration. It applied at that time only to enlisted men of the Navy. In the following year enlisted men of the Army were included, and by an act approved March 3, 1863, its provisions were extended to include officers in the Army, but naval officers were not eligible for this decoration until 1915. The conditions under which the Army Medal of Honor may be awarded have been changed from time to time. To-day the law provides that: "The President is authorized to present, in the name of Congress, a Medal of Honor only to each person who, while an officer or enlisted man of the Army, shall hereafter, in action involving actual conflict with an enemy, distinguish himself conspicuously by gallantry and intrepidity at the risk of his life, above and beyond the call of duty."

The Distinguished Service Medal, the American decoration which is second only to the Medal of Honor, can be awarded by the President to "any person who, while serving in any capacity with the Army of the United States shall distinguish himself or herself by specially meritorious service to the Government in a duty of great responsibility." The Distinguished Service Medal for the Navy is awarded under exactly the same conditions as for the Army and was established by act of Congress in February, 1919.

Distinguished Service Crosses are presented by the President, or by his authority, to persons who while serving in any capacity with the Army of the United States since April 6, 1917, distinguish themselves by extraordinary heroism in connection with military operations against an armed enemy.

UNITED STATES MILITARY ACADEMY AT WEST POINT.

Each Senator, Congressional district and Territory, including Porto Rico, Alaska and Hawaii, is entitled to have two cadets at the academy; the District of Columbia, four cadets. There are also eighty-two appointments at large, two of whom are appointed upon the recommendation of the Vice-President, specially conferred by the President of the United States. The law (act of May 4, 1916) authorizes the President to appoint cadets to the United States Military Academy from among enlisted men in the Regular Army and National Guard, the total number not to exceed one hundred and eighty at any one time.

Appointments are usually made one year in advance of date of admission, by the Secretary of War, upon the nomination of the Senator or Representative. These nominations may either be made after competitive examination or given direct, at the option of the Representative. The Representative may nominate two legally qualified second candidates, to be designated first and second alternates. The alternates will receive from the War Department a letter of appointment, and will be examined with the regular appointee, and the better qualified will be admitted to the academy in the event of the failure of the principal to pass the prescribed preliminary examinations. Appointees to the Military Academy must be between seventeen and twenty-two years of age, except in the following case: that during the calendar years 1919, 1920 and 1921 any appointee who has served honorably and faithfully not less than one year in the armed forces of the United States or allied armies in the late war with Germany, and who possesses the other qualifications required by law, may be admitted between the ages of seventeen and twenty-four years: *Provided*, that whenever any member of the graduating class shall fail to complete the course with his class by reason of

sickness or deficiency in his studies, or other cause, such failure shall not operate to delay the admission of his successor.

Appointees must be free from any infirmity which may render them unfit for military service, and able to pass, unless a satisfactory certificate is submitted, a careful examination in English grammar, English composition, English literature, algebra through quadratic equations, plane geometry, United States history, and the outlines of general history. The Secretary of War is authorized to permit not exceeding four Filipinos to be designated, one for each class, by the Governor-General of the Philippine Islands, to receive instruction at the United States Military Academy at West Point: *Provided*, that the Filipinos undergoing instruction shall receive the same pay, allowances and emoluments as are authorized by law for cadets at the Military Academy appointed from the United States, to be paid out of the same appropriations; *And provided further*, that said Filipinos undergoing instruction, on graduation shall be eligible only to commissions in the Philippine Scouts; serve for eight years, unless sooner discharged.

The course of instruction, which is quite thorough, requires four years; *Provided*, that any person heretofore nominated in accordance with regulations, for appointment to fill a vacancy which would have resulted from the graduation of a cadet during the present year, may be so appointed notwithstanding the retention of such cadet at the academy; *Provided further*, that any cadet now at the academy may at his option, exercised prior to June 11, 1920, continue at the academy one additional year and postpone thereby his prospective graduation, and cadets not electing so to prolong their course shall be graduated in the years assigned to their respective classes prior to the passage of this Act.

The course is largely mathematical and professional. The principal subjects taught are mathematics, English, French, drawing, drill regulations of all arms of the service, natural and experimental philosophy, chemistry, chemical physics, mineralogy, geology, electricity, history, international, constitutional and military law, Spanish, civil and military engineering, art and science of war, and ordnance and gunnery.

From about the middle of June to the end of August cadets live in camp, engaged only in military duties and receiving practical military instruction. Cadets are allowed but one leave of absence during the four years' course, and this is granted at the expiration of the first two years. The pay of a cadet is $1,174.20 per year and with proper economy is sufficient for his support.

Upon graduating, cadets are commissioned as Second Lieutenants in the United States Army. The whole number of cadets graduated from 1802 to 1920, inclusive, has been 6,809. It is virtually absolutely necessary for a person seeking an appointment to apply to his Senator or Member of Congress. The Superintendent is Brig-Gen. Douglas MacArthur, U. S. A., and the military and academic staff consists of fifteen persons. Number of cadets, June 15, 1920, was 701.

UNITED STATES NAVAL ACADEMY AT ANNAPOLIS.

THE students of the Naval Academy are styled midshipmen. Five midshipmen are allowed for each Senator, Representative and Delegate in Congress, five for the Resident Commissioner from Porto Rico, five for the District of Columbia, and fifteen appointed each year from the United States at large. The appointments from the District of Columbia and fifteen each year at large are made by the President. It is the custom of Presidents to give the appointments of midshipmen at large to the sons of officers of the army and navy, for the reason that officers, owing to the nature of their duties, are usually not in a position to establish permanent residences.

The selection of candidates, by competitive examination or otherwise, for nomination for vacancies in the quota of Senators, Representatives and Delegates in Congress is entirely in the hands of each Senator, Representative, and Delegate in Congress having a vacancy; and all applications for appointment or inquiries relative to competitive examinations should be addressed accordingly. Two examinations for admission are held each year, the first on the third Wednesday in February, the second on the third Wednesday in April.

The law authorizes the appointment of one hundred enlisted men each year to be selected as a result of a competitive examination of enlisted men of the regular navy and Marine Corps, and members of the Naval Reserve force on active duty, who must not be more than twenty years of age on April 1 of the year they enter, and who will have been in the service at least one year by August 15 of that year. The mental and physical requirements, as well as the amount of money to be deposited upon admission, are the same for these candidates as for other candidates for midshipmen. The competitive examination of these enlisted men is held on the third Wednesday in April of each year. Candidates may also be accepted on certificate. For details write Bureau of Navigation, Navy Department, Washington, D. C.

All candidates are required to be citizens of the United States and must be not less than sixteen nor more than twenty years of age on April 1 of the calendar year in which they enter the Naval Academy.

The course for midshipmen is four years. Examinations on the ground covered are held at the end of each academic term. During the summer, midshipmen of the first, second and third classes go to sea for about three months. Midshipmen after graduation are commissioned as Ensigns in the navy, and occasionally to fill vacancies in the Marine Corps and in certain of the staff corps of the navy. The act of June 29,1906, prescribes that the Secretary of the Navy shall notify in writing each Senator, Representative and Delegate in Congress of any vacancy that will exist at the Naval Academy and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative or Delegate, if said recommendation is made by the fourth day of March of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, Congressional district or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, Congressional district or Territory.

The height of candidates for admission shall not be less than five feet two inches between the ages of sixteen and eighteen years, and not less than five feet four inches between the ages of eighteen and twenty years; and the minimum weight at sixteen years shall be one hundred and eleven pounds, with an increase of not less than three pounds for each additional year, or fraction of a year over one-half. Any marked deviation in the height and weight relative to the age of a candidate will add materially to the consideration for rejection. Candidates must be unmarried, and any midshipman who shall marry, or who shall be found to be married before his final graduation, shall be dismissed from the service. Each candidate who has passed the required examinations must, before being admitted as a midshipman, deposit the sum of $350 to cover the cost of his initial outfit—clothing, uniforms, text books and equipment.

Each candidate before admission will be required to sign articles by which he binds himself to serve in the United States Navy during the pleasure of the President of the United States (including his time of probation at the Naval Academy) unless sooner discharged. The pay of a midshipman is $780 a year.

ORIGIN OF THE UNITED STATES NAVAL ACADEMY.

The United States Naval Academy was founded at Annapolis, Md., in 1845 by George Bancroft, who then was Secretary of the Navy. Owing to the Civil War it was removed to Newport, R. I., in May, 1861, but was re-established at Annapolis in September, 1865

UNITED STATES MARINE CORPS.

(As of June, 1920, prepared by the Commandant.)

John A. Lejeune Major General Commandant. Headquarters, Navy Building, 18th and B Streets, N. W., Washington, D. C. The authorized strength of the corps is (September 1, 1919): 1,093 officers, 100 warrant officers, 42 pay clerks, and 27,400 enlisted men, as follows: 1 major general commandant, 1 major general (permanent), 1 major general (temporary), 3 brigadier generals, staff; 6 brigadier generals, line, 33 colonels, 44 lieutenant colonels, 124 majors, 329 captains, 276 first lieutenants, 275 second lieutenants, 56 marine gunners, 50 quartermaster clerks, 42 pay clerks, 73 sergeants major, 368 quartermaster sergeants, 3 drum majors 413 first sergeants, 399 gunnery sergeants, 1,853 sergeants, 3,303 corporals, 41 drummers, 320 trumpeters 4,225 privates first class, 16,335 privates, 1 leader of band, 1 second leader, 9 principal musicians, 25 first-class musicians, 20 second-class musicians, 11 third-class musicians.

GENERAL OFFICERS OF THE MARINE CORPS, IN ADDITION TO THE COMMANDANT.

Brigadier Generals, Staff—Henry C. Haines, Adjutant and Inspector; Charles L. McCawley, Quartermaster; George Richards, Paymaster. *Major Generals, Line*—Wendell C. Neville. *Brigadier Generals, Line*—Joseph H. Pendleton, Eli K. Cole, Smedley D Butler, Charles G. Long, Logan Feland, Harry Lee.

The losses to June 12,1920, so far as reported to that date, had been: Killed in action, 1,452; died of wounds, 1,006; died of disease, 303; accidentally killed, 27; died of other causes, 17; total, 2,805. Wounded severely, 1,361; wounded slightly, 2,977; wounded, degree undetermined, 5,337; total, 9,675. In hands of the enemy, none; missing, none. Total casualties, 12,470.

Commissioned officers are appointed from graduates of the Naval Academy and from worthy noncommissioned officers of the Marine Corps.

San Francisco Dist.—320 Market St.
Portland Dist.—3rd and Alder Sts., Portland, Ore.
Seattle Dist.—101 Yesler Way.

Information regarding pay, allowances, etc., may be obtained by addressing the officer in charge of recruiting at any of the above addresses, or the officer in charge of recruiting, headquarters, United States Marine Corps, Washington, D. C. Re-enlistments are also made at all marine barracks, posts and stations.

UNITED STATES COAST GUARD.

HEADQUARTERS, TREASURY DEPARTMENT, WASHINGTON, D. C.

THE United States Coast Guard was created by an act of January 28, 1915, and succeeded the U. S. Revenue Cutter Service. The original Revenue Cutter Service was organized by act of Congress approved August 4, 1790. The Life-Saving Service was originally operated under the Revenue Cutter Service, but on June 20, 1874, Congress created it a separate service to operate under the Treasury Department.

The Coast Guard operates: (a) Eighteen seagoing cutters engaged in the assistance of vessels in distress, the enforcement of the navigation laws, the protection of the seal fisheries in Alaska, the destruction of derelicts, the conduct of the International Ice Observation and Ice Patrol Service off the Grand Banks of Newfoundland and other maritime duties; (b) A number of harbor tugs, inland water patrol vessels, and launches engaged in the service of the customs; (c) 273 Coast Guard stations engaged in saving life and property along the coast, (d) A coast patrol system guaranteeing early assistance to vessels and persons in distress; (e) A communication system linking by telephone all Coast Guard stations and practically all light houses with each other and the commercial systems of the country and with the navy radio and radio compass stations; (f) One aviation station for the protection of life and property along the coast and at sea contiguous thereto.

The commissioned line officers of the service are appointed by the President by and with the advice and consent of the Senate from cadets who have completed a three-year course at the Coast Guard Academy, New London, Conn., practically identical with the course given at Annapolis. Engineer officers are appointed similarly from those who have completed a special course of one year at the academy. Cadetships, line and engineer, are filled by the appointment of candidates who have passed the competitive entrance examination held annually throughout the United States. The age limits for line cadets are 18 to 24 years. No cadet engineer may be appointed who is less than 20½ years of age and no person may be appointed an Ensign (engineering) from Cadet Engineer who is less than 21 nor who is more than 26 years of age. The pay of officers and men is assimilated to that of the navy and, when operating with the navy in time of war or when the President so directs, officers and men of the service have the same authority as officers and men of the navy of corresponding ranks or rates.

The Revenue Cutter Service took an active part in every war in which the United States had been engaged up to 1915, and the Coast Guard participated as part of the navy in the World War. The service was represented overseas by six cutters and by officers in command of other naval units engaged in convoy duty through the submarine zones off the coasts of France and England and in the Mediterranean. The service lost in action by torpedo attack the cutter Tampa with all hands and suffered the loss of other personnel in other convoy operations. The efficiency of its vessels on this duty was commended by senior naval officers. The Commandant of the Coast Guard is Commodore W. E. Reynolds, U. S. C. G., with headquarters in Washington, D. C.

IT TOOK 395 SHELLS TO KILL ONE MAN.

Dr. Mercher, member of the French Academy of Medicine, after an extended investigation has determined that during a period of five months in 1917 a total of 3,090,000 shells fell on the fronts of the three French armies. The shells, Dr. Mercher estimates, killed 13,265 men and wounded 55,412. According to his figures it took a total of 395 shells to kill one man and half as many to wound one.

The German shells that fell in France destroyed 600,000 houses and 11,500 factories; and, with the enemy armies, laid waste 75,000,000 acres of farm land, 25,000 miles of highways, and 3,000 miles of railways.

REAR ADMIRALS IN THE AMERICAN NAVY.

(In the order of seniority, as of Oct. 28, 1920. First year is that of birth; second, that of appointment to the navy. The retirement age is sixty-four years.)

HENRY T. MAYO, 1856, 1872; Reynold T. Hall, 1858, 1880; Augustus F. Fechteler, 1857, 1873; Albert Gleaves, 1858, 1873; Herbert O. Dunn, 1857, 1873; James H. Glennon, 1857, 1874; William L. Rodgers, 1860, 1874; Harry McL. P. Huse, 1858, 1874; George W. McElroy, 1858, 1874; Robert S. Griffin, 1857, 1874; George E Burd, 1857, 1874; James H. The military departments include the coast artillery districts, forts and camps within their limits

In October, 1920, the War Department transferred from New York to Boston control of the Eastern half of Long Island Sound, including Forts Wright, Terry and Michie, and the defenses of Block Island.

The Porto Rico district of the Eastern Military Department has headquarters at San Juan.

The Southern Military Department has its Arizona district headquarters at Douglas, Ariz.; its Big Bend district headquarters are at Marfa, Tex.; the Brownsville district headquarters are at Brownsville, Tex.; El Paso district headquarters are at El Paso, Tex.

The Western Military Department has its Southern California district headquarters at Camp Kearny.

The American forces in Germany headquarters is at Coblenz, with Base Section 9 headquarters at Antwerp, Belgium

TACTICAL DIVISIONS

The Tactical Divisions into which the United States is divided, with their headquarters, are as follows: *First*, Camp Zachary Taylor, Ky.; *Second*, Camp Travis, Tex.; *Third*, Camp Pike, Ark.; *Fourth*, Camp Dodge, Ia.; *Fifth*, Camp Gordon, Ga; *Sixth*, Camp Grant, Ill; *Seventh*, Camp Funston, Kan.; *First and Second Provisional Brigades*, Coblenz, Germany.

GENERAL ARMY HOSPITALS

The General Hospitals of the army are located at Hot Springs, Ark (also navy); Denver, Colo; Staten Island, N. Y.; Ft. McPherson, Ga.; Presidio, San Francisco; Ft. Sheridan, Ill.; Oteen, No Car.; Manila, Philippines; Honolulu, Hawaii; Takoma Park at Washington, D. C., and El Paso, Tex.

General Service Schools—School of the Line and General Staff School, Ft Leavenworth, Kan.; General Staff College, Washington Barracks, D. C.

THE AMERICAN ARMY, AS REORGANIZED, 1920.

(The following data are from the Act of June 3, 1916, as amended by the Army Reorganization Act of June 4, 1920.)

THE Army of the United States consists of the Regular Army; the National Guard while in the service of the United States, and the Organized Reserves, including the Officers' Reserve Corps, and the Enlisted Reserve Corps.

Composition of the Regular Army—The Regular Army of the United States shall consist of the Infantry, the Cavalry, the Field Artillery, the Coast Artillery Corps, the Air Service, the Corps of Engineers, the Signal Corps, which shall be designated as the combatant arms of the line of the Army; the General Staff Corps; the Adjutant General's Department; the Inspector General's Department; the Judge Advocate General's Department; the Quartermaster Corps; the Finance Department; the Medical Department; the Ordnance Department; the Chemical Warfare Service; the officers of the Bureau of Insular Affairs; the officers and enlisted men under the jurisdiction of the Militia Bureau; the chaplains; the professors and cadets of the United States Military Academy; the present military storekeeper; detached officers; detached enlisted men; unassigned recruits; the Indian Scouts; the officers and enlisted men of the retired list; and such other officers and enlisted men as are now or may hereafter be provided for.

Except in time of war or similar emergency when the public safety demands it, the number of enlisted men of the Regular Army shall not exceed 280,000, including the Philippine Scouts.

The Regular Army consists of one General (Pershing, the office expiring with him); 21 Major Generals and 46 Brigadier Generals of the line, 599 Colonels, 674 Lieutenant Colonels, 2,245 Majors, 4,490 Captains, 4,266 First Lieutenants, 2,694 Second Lieutenants, and also officers of the Medical Department, chaplains and storekeeper. The Army shall at all times be organized so far as practicable into brigades, divisions and army corps, and, whenever the President may deem it expedient, into armies. For purposes of administration, training and tactical control, the continental area of the United States shall be divided on a basis of military population into corps areas. Each corps area shall consist of at least one division of the National Guard or Organized Reserves, and such other troops as the President may direct. The President is authorized to group any or all corps areas into army areas or departments. In the reorganization of the National Guard and in the initial organization of the Organized Reserves, the names, numbers and other designations, flags, and records of the divisions and subordinate units thereof that served in the World War between April 6, 1917, and November 11, 1918, shall be preserved as such as far as practicable.

Pay of Enlisted Men—On and after July 1, 1920, the grades of enlisted men shall be such as the President may from time to time direct, with monthly base pay at the rate of $74 for the first grade, $53 for the second grade, $45 for the third grade, $15 for the fourth grade, $37 for the fifth grade, $35 for the sixth grade, and $30 for the seventh grade. Existing laws providing for continuous service pay are repealed to take effect July 1, 1920, and thereafter enlisted men shall receive an increase of 10 per centum of their base pay for each five years of service in the Army, or service which by existing law is held to be the equivalent of Army service, such increase not to exceed 40 per centum. Under such regulations as the Secretary of War may prescribe, enlisted men of the sixth and seventh grades may be rated as specialists, and receive extra pay therefor per month, as follows: First class, $25; second class, $20; third class, $15; fourth class, $12; fifth class, $8; sixth class, $3. All laws and parts of laws providing for extra duty pay for enlisted men are repealed, to take effect July 1, 1920: Provided, that nothing in this section shall operate to reduce the pay which any enlisted man is now receiving, during his current enlistment and while he holds his present grade, nor to change the present rate of pay of any enlisted men now on the retired list.

General Staff—The War Department General Staff consists of a Chief of Staff, four assistants, chosen by the President from the general officers of the line, and 88 other officers not below Captain in grade. Detail to the General Staff is for four years. The members may be taken from the Regular Army, the National Guard, and the Officers' Reserve Corps. The duties of the General Staff shall be to prepare plans for national defense and the use of the military forces for that purpose, both separately and in conjunction with the naval forces, and for the mobilization of the manhood of the Nation and its material resources in an emergency, to investigate and report upon all questions affecting the efficiency of the Army of the United States, and its state of preparation for military operations; and to render professional aid and assistance to the Secretary of War and the Chief of Staff. All policies and regulations affecting the organization, distribution and training of the National Guard and the Organized Reserves, and all policies and regulations affecting the appointment, assignment, promotion, and discharge of reserve officers, shall be prepared by committees of appropriate branches or divisions of the General Staff, to which shall be added an equal number of reserve officers, including reserve officers who hold or have held commissions in the National Guard, and whose names are borne on lists of officers suitable for such duty, submitted by the Governors of the several States and Territories.

The War Council—The Secretary of War, the Assistant Secretary of War, the General of the Army, and the Chief of Staff shall constitute the War Council of the War Department, which council shall from time to time meet and consider policies affecting both the military and munitions problems of the War Department. Such questions shall be presented to the Secretary of War in the War Council, and his decision with reference to such questions of policy, after consideration of the recommendation thereon by the several members of the War Council, shall constitute the policy of the War Department with reference thereto.

The Adjutant General's Department consists of the Adjutant General, ranking as Major General, one assistant, ranking as Brigadier General, and 115 officers in grades from Colonel to Captain. The Inspector General (a Major General) has 61 officers, from Colonel to Captain, as assistants. The Judge Advocate General (a Major General) has 111 assistants, from Colonel to Captain. The Quartermaster General (a Major General) has three Brigadier Generals and 1,050 lower officers down to Second Lieutenant, as assistants.

Finance Department—There is created a Finance Department, to consist of one Chief of Finance with the rank of Brigadier General, 141 officers in grades from Colonel to Second Lieutenant, inclusive, and 900 enlisted men. The Chief of Finance, under the authority of the Secretary, is charged with the disbursement of all funds of the War Department, including the pay of the Army and the mileage for officers and the accounting therefor, and with such other fiscal and accounting duties as may be required by law, or assigned to him by the Secretary of War.

The Chief of Engineers (a Major General) has a Brigadier General and 600 lesser officers as assistants, and a corps of 12,000 enlisted men. The Chief of Ordnance (a Major General) has a Brigadier General and 350 lesser officers as assistants, and a corps of 4,500 enlisted men. The Chief of Chemical Warfare (a Brigadier General) has 100 officers to assist, and a corps of 1,200 enlisted men. The Chief Signal Officer (a Major General) has 300 officers as assistants, and a corps of 5,000 enlisted men. The Chief of the Air Service (a Major General) has a Brigadier General and 1,514 lesser officers as assistants, and a corps of 16,000 enlisted men, including not over 2,500 flying cadets. There is one chaplain to every 1,200 officers and men. They rank from First Lieutenant to Lieutenant Colonel by term of service. The Chief Chaplain is a Colonel.

Infantry—One Chief of Infantry (a Major General), 4,200 lesser officers and 110,000 enlisted men. Tank units class as infantry.

Cavalry—One Chief (a Major General), 950 lesser officers and 20,000 enlisted men.

Field Artillery—One Chief (a Major General), 1,900 lesser officers and 37,000 enlisted men.

Coast Artillery—One Chief (a Major General), 1,200 lesser officers and 30,000 enlisted men.

Filling of Vacancies—Not less than one-half of the total number of vacancies caused by this Act, exclusive of those in the Medical Department and among chaplains, shall be filled by the appointment, to date from July 1, 1920, and subject to such examination as the President may prescribe, of persons other than officers of the Regular Army who served as officers of the United States Army at any time between April 6, 1917, and the date of the passage of this Act. A suitable number of such officers shall be appointed in each of the grades below that of Brigadier General, according to their qualifications for such grade as may be determined by the Board of General Officers provided for in this section. No such person above the age of fifty years shall be appointed in a combatant branch, or above the age of fifty-eight in a non-combatant branch. No such persons below the age of forty-eight years shall be appointed in the grade of Colonel, or below the age of forty-five years in the grade of Lieutenant Colonel, or below the age of thirty-six years in the grade of Major.

Enlistments—Hereafter original enlistments in the Regular Army shall be for a period of one or three years at the option of the soldier, and re-enlistments shall be for a period of three years. Existing laws providing for the payment of three months' pay to certain soldiers upon re-enlistment are hereby repealed, and hereafter an enlistment allowance equal to three times the monthly pay of a soldier of the seventh grade shall be paid to every soldier who enlists or re-enlists for a period of three years, payment of the enlistment allowance for original enlistment to be deferred until honorable discharge.

Discharge on Account of Dependent Relatives—When by reason of death or disability of a member of the family of an enlisted man, occurring after his enlistment, members of his family become dependent upon him for care or support, he may, in the discretion of the Secretary of War, be discharged from the service of the United States.

Officers' Reserve Corps—For the purpose of providing a reserve of officers available for military service when needed, there shall be organized an Officers' Reserve Corps consisting of general officers, of sections corresponding to the various branches of the Regular Army, and of such additional sections as the President may direct. The grades in each section and the number in each grade shall be as the President may prescribe. Reserve officers shall be appointed and commissioned by the President alone, except general officers, who shall be appointed by and with the advice and consent of the Senate. Appointment in every case shall be for a period of five years, but an appointment in force at the outbreak of war, or made in time of war, shall continue in force until six months after its termination. Any reserve officer may be discharged at any time in the discretion of the President. A reserve officer appointed during the existence of a state of war shall be entitled to discharge within six months after its termination if he makes application therefor. In time of peace, a reserve officer must, at the time of his appointment, be a citizen of the United States or of the Philippine Islands, between the ages of twenty-one and sixty years.

Any person who has been an officer of the Army at any time between April 6, 1917, and June 30, 1919, or an officer of the Regular Army at any time, may be appointed as a reserve officer in the highest grade which he held in the Army or any lower grade; any person now serving as an officer of the National Guard may be appointed as a reserve officer in his present or any lower grade; no other person shall in time of peace be originally appointed as a reserve officer of Infantry, Cavalry, Field Artillery, Coast Artillery, or Air Service in a grade above that of Second Lieutenant. In time of peace appointments in the Infantry, Cavalry, Field Artillery, Coast Artillery, and Air Service shall be limited to former officers of the Army, graduates of the Reserve Officers' Training Corps, as provided in section 47B hereof, warrant officers and enlisted men of the Regular Army, National Guard, and Enlisted Reserve Corps, and persons who served in the Army at some time between April 6, 1917, and November 11, 1918. Promotions and transfers shall be made under such rules as may be prescribed by the President, and shall be based so far as practicable upon recommendations made in the established chain of command, but no reserve officer shall be promoted to any grade in time of peace until he has held a commission for at least one year in the next lower grade. So far as practicable, reserve officers shall be assigned to units in the locality of their places of residence. Nothing in this Act shall operate to deprive a reserve officer of the reserve commission he now holds. Any reserve officer may hold a commission in the National Guard without thereby vacating his reserve commission.

The President may order reserve officers to active duty at any time and for any period; but except in time of a national emergency expressly declared by Congress, no reserve officer shall be employed on active duty for more than fifteen days in any calendar year without his own consent. A reserve officer shall not be entitled to pay and allowances except when on active duty. When on active duty he shall receive the same pay and allowances as an officer of the Regular Army of the same grade and length of active service, and mileage from his home to his first station and from his last station to his home, but shall not be entitled to retirement or retired pay.

Reserve Officers' Training Corps—The President is authorized to establish and maintain in civil educational institutions a Reserve Officers' Training Corps, one or more units in number, which shall consist of a senior division organized at universities and colleges granting degrees, including State universities and those State institutions that are required to provide instruction in military tactics under the Act of Congress of July 2, 1862, donating lands for the establishment of colleges where the leading objects shall be practical instruction in agriculture and the mechanic arts, including military tactics, and at those essentially military schools not conferring academic degrees, specially designated by the Secretary of War as qualified, and a junior division organized at all other public and private educational institutions, and each division shall consist of units of the several arms, corps, or services in such number and such strength as the President may prescribe. The Secretary of War is authorized to maintain camps for the further practical instruction of the members of the Reserve Officers' Training Corps, no such camps to be maintained for a longer period than six weeks in any one year, except in time of actual or threatened hostilities; to transport members of such corps to and from such camps at the expense of the United States so far as appropriations will permit, to subsist them at the expense of the United States while travelling to and from such camps and while remaining therein so far as appropriations will permit.

The President alone, under such regulations as he may prescribe, is authorized to appoint as a reserve officer of the Army of the United States any graduate of the senior division of the Reserve Officers' Training Corps who shall have satisfactorily completed training, or any graduate of the junior division who shall have satisfactorily completed the courses of military training prescribed for the senior division and the further training provided for in this Act, and shall have participated in such practical instruction subsequent to graduation as the Secretary of War shall prescribe, who shall have arrived at the age of twenty-one years and who shall agree, under oath in writing, to serve the United States in the capacity of a reserve officer of the Army of the United States during a period of at least five years from the date of his appointment as such reserve officer, unless sooner discharged by proper authority: *Provided*, That no reserve officer appointed pursuant to this Act shall be entitled to retirement, or to retired pay, and shall be eligible for pension only for disability incurred in line of duty in active service or while serving with the Army pursuant to provisions of this Act.

Training Camps—The Secretary of War is authorized to maintain, upon military reservations or elsewhere, schools or camps for the military instruction and training, with a view to their appointment as reserve officers or non-commissioned officers, of such warrant officers, enlisted men, and civilians as may be selected upon their own application.

The Enlisted Reserve Corps—The Enlisted Reserve Corps shall consist of persons voluntarily enlisted therein. The period of enlistment shall be three years, except in the case of persons who served in the Army, Navy, or Marine Corps at some time between April 6, 1917, and November 11, 1918, who may

enlisted for one year periods and who, in time of peace, shall be entitled to discharge within ninety days if they make application therefor Enlistments shall be limited to persons eligible for enlistment in the Regular Army who have had such military or technical training as may be prescribed by regulations of the Secretary of War. The President may form any or all members of the Enlisted Reserve Corps into tactical organizations similar to those of the Regular Army, similarly armed, uniformed, and equipped, and composed so far as practicable of men residing in the same locality, may officer them by the assignment of reserve officers or officers of the Regular Army, active or retired, and may detail such personnel of the Army as may be necessary for the administration of such organizations and the care of Government property issued to them.

Members of the Enlisted Reserve Corps may be placed on active duty, as individuals or organizations, in the discretion of the President, but except in time of a national emergency expressly declared by Congress no reservist shall be ordered to active duty in excess of the number permissible under appropriations made for this specific purpose, nor for a longer period than fifteen days in any one calendar year without his own consent. While on active duty they shall receive the same pay and allowances as other enlisted men of like grades and length of service.

THE NATIONAL GUARD

Original enlistments in the National Guard shall be for a period of three years and subsequent enlistments for periods of one year each: *Provided*, That persons who have served in the Army for not less than six months, and have been honorably discharged therefrom, may, within two years after the passage of this Act, enlist in the National Guard for a period of one year and re-enlist for like periods.

Men enlisting in the National Guard of the several States, Territories, and the District of Columbia, shall sign an enlistment contract and subscribe to the following oath of enlistment: "I do hereby acknowledge to have voluntarily enlisted this —— day of ——, 19—, as a soldier in the National Guard of the United States and of the State of ——, for the period of three (or one) year —, under the conditions prescribed by law, unless sooner discharged by proper authority. And I do solemnly swear that I will bear true faith and allegiance to the United States of America and to the State of ——, and that I will serve them honestly and faithfully against all their enemies whomsoever, and that I will obey the orders of the President of the United States and of the Governor of the State of——, and of the officers appointed over me according to law and the rules and Articles of War."

An enlisted man discharged from service in the National Guard, except when drafted into the military service of the United States under this Act, shall receive a discharge in writing in such form and with such classification as is or shall be prescribed for the Regular Army, and in time of peace discharges may be given prior to the expiration of terms of enlistment under such regulations as the President may prescribe.

Each enlisted man belonging to an organization of the National Guard shall receive compensation at the rate of one-thirtieth of the initial monthly pay of his grade in the Regular Army for each drill ordered for his organization where he is officially present and in which he participates for not less than one and one-half hours, not exceeding eight in any one calendar month, and not exceeding sixty drills in one year: *Provided*, That no enlisted man shall receive any pay under the provisions of this section for any month in which he shall have attended less than 60 per centum of the drills or other exercises prescribed for his organization: *Provided further*, That this Act shall not operate to prevent the payment of enlisted men actually present at any duly ordered drill or other exercise: *And provided further*, That periods of any actual military duty equivalent to the drills herein prescribed (except those periods of service for which members of the National Guard may become lawfully entitled to the same pay as officers and enlisted men of the corresponding grades in the Regular Army) may be accepted as service in lieu of such drills when so provided by the Secretary of War.

Persons hereafter commissioned as officers of the National Guard shall not be recognized as such under any of the provisions of this Act unless they shall have been selected from the following classes, and shall have taken and subscribed to the oath of office prescribed in this Act: officers or enlisted men of the National Guard officers, active or retired, reserve officers and former officers of the Army, Navy, or Marine Corps, enlisted men and former enlisted men of the Army, Navy, or Marine Corps, who have received an honorable discharge therefrom; graduates of the United States Military and Naval Academies; and graduates of schools, colleges, universities, and officers' training camps, where they have received military instruction under the supervision of an officer of the Regular Army who certified their fitness for appointment as commissioned officers; and for the technical branches or Staff Corps and departments, such other civilians as may be specially qualified for duty therein

NATIONAL GUARD RESERVE

Hereafter, men duly qualified under regulations prescribed by the Secretary of War may enlist in the National Guard Reserve for a period of one or three years, under such regulations as the Secretary of War shall prescribe, and on so enlisting they shall subscribe to the following enlistment contract and take the oath therein specified: "I do hereby acknowledge to have voluntarily enlisted this —— day of ——, 19—, as a soldier in the National Guard Reserve of the United States and of the State of ——, for a period of one (or three) year), unless sooner discharged by proper authority, and I do solemnly swear that I will bear true faith and allegiance to the United States of America and to the State of ——, and that I will serve them honestly and faithfully against all their enemies whomsoever and that I will obey the orders of the President of the United States and the Governor of the State of ——, and of the officers appointed over me according to law and the rules and Articles of War."

Members of said reserve, officers and enlisted men, when engaged in field or coast defense training with the active National Guard, shall receive the same Federal pay and allowances as those occupying like grades on the active list of said guard when likewise engaged: *Provided further*, That, except as otherwise specifically provided in this Act, no commissioned or enlisted reservist shall receive any pay or allowances out of any appropriation made by Congress for National Guard purposes

Pay for the National Guard Officers—Captains and Lieutenants belonging to organizations of the National Guard shall receive compensation at the rate of one-thirtieth of the monthly base pay of their grades as prescribed for the Regular Army for each regular drill or other period of instruction authorized by the Secretary of War, not exceeding five in any one calendar month, at which they shall have been officially present for the entire required period, and at which at least 50 per centum of the commissioned strength and 60 per centum of the enlisted strength attend and participate for not less than one and one-half hours. Captains commanding organizations shall receive $240 a year in addition to the drill pay herein prescribed. Officers above the grade of Captain shall receive not more than $500 a year, and officers below the grade of Major, not belonging to organizations, shall receive not more than four-thirtieths of the monthly base pay of their grades for satisfactory performance of their appropriate duties under such regulations as the Secretary of War may prescribe

National Guard when drafted into Federal service—When Congress shall have authorized the use of the armed land forces of the United States for any purpose requiring the use of troops in excess of those of the Regular Army, the President may, under such regulations, including such physical examination, as he may prescribe, draft into the military service of the United States, to serve therein for the period of the war or emergency, unless sooner discharged, any or all members of the National Guard and of the National Guard Reserve. All persons so drafted shall, from the date of their draft, stand discharged from the militia, and shall be subject to such laws and regulations for the government of the Army of the United States as may be applicable to members of the Army, whose permanent retention in the military service is not contemplated

THE NATIONAL GUARD—*Continued.*

by law, and shall be organized into units corresponding as far as practicable to those of the Regular Army or shall be otherwise assigned as the President may direct. The commissioned officers of said organizations shall be appointed from among the members thereof; officers with rank not above that of Colonel to be appointed by the President alone, and all other officers to be appointed by the President by and with the advice and consent of the Senate. Officers and enlisted men while in the service of the United States under the terms of this section shall have the same pay and allowances as officers and enlisted men of the Regular Army of the same grades and the same prior service. On the termination of the emergency all persons so drafted shall be discharged from the Army, shall resume their membership in the militia, and, if the State so provide, shall continue to serve in the National Guard until the dates upon which their enlistments entered into prior to their draft, would have expired if uninterrupted

UNITED STATES ARMY CAMPS.

The following table shows the names of the United States army camps, with the names of the places at or near which they are located The figures before the names of places indicate number of miles camp is distant therefrom.

Camp.	Location.	State	Camp	Location.	State

AVIATION CASUALTIES IN WAR WITH GERMANY.

Revised figures of the United States War Department show that the American flying forces at the front sustained 583 casualties during the war The casualties were distributed as follows:

American Armies.	Number	Per Cent	American Armies	Number	Per Cent	American Armies	Number.	Per Cent
Pursuit pilots	184	31	Balloon flyers	4	1	With Italian	3	1
Observers	150	26	Total with A. E F.	491	84			
Observation pilots	105	18	With British	64	11	Total	583	
Bombing pilots	48	8	With French	25	4			

Of the 583 casualties 36 per cent. consisted of deaths in combat, while 11 per cent occurred at aerodromes. The record in this respect follows:

	Number	Per Cent		Number	Per Cent		Number	Per Cent
Killed in combat	208	36	Killed in action	41	7	Interned	3	1
Prisoners	145	25	Missing in action	29	5			
Wounded in action	132	22	Injured in accident	25	4	Total	583	

THE TWENTY-ONE LEADING AMERICAN "ACES."

The following are the names of those who won victories against enemy airplanes and balloons. The figures under the column "Airplanes" and "Balloons" represent the victories officially credited. Where a name is in italics the bearer was killed in action. This list does not include victories obtained by members of the United States Air Service prior to their becoming such while in the service of Allied countries.

Name	Rank	Airplanes.	Balloons	Total	Name.	Rank	Airplanes.	Balloons.	Total

FEWER LYNCHINGS IN FIRST HALF OF 1920.

There was a decrease in the number of lynchings during the first six months of 1920, according to a statement prepared by R. R. Moton, Principal of Tuskegee Institute, and made public. The total was 12, compared with 17 in the corresponding period of 1919, and 33 in the same period in 1918.

All of those lynched were negroes, eight of whom were accused of assaulting white women. The largest number lynched in any one State was three in Minnesota. There were two in Alabama and one each in Florida, Kentucky, Kansas, Texas and South Carolina.

ORIGIN OF THE NAMES OF THE STATES AND TERRITORIES.

ALABAMA—Alibama was the Indian name of a tribe in Southern Alabama—a Mushhogean tribe of the Creek Confederacy. Alibamu is from the Choctaw words alba aya mule, meaning "I open or clear the thicket."

ALASKA—From "Al-ay-es-ka," a native Eskimo or Innuit word, meaning Great Country.

ARIZONA—From Ariconae, "Few Springs." Papago name of a ranch in Sonora.

ARKANSAS—Algonkin name of the Quapaw Indians

CALIFORNIA—Spanish "Calida formax," a hot furnace.

COLORADO—Spanish, meaning red.

COLUMBIA, DISTRICT OF—A poetical adoption of the name of Columbus; applied to the territory in 1791 by the Federal Commissioners who laid it out.

CONNECTICUT—Indian, "Quonecktacut," Long River or River of Pines.

DELAWARE—Named after Lord De La War, of England, Governor of Virginia, who entered the Bay in 1610.

FLORIDA—Spanish words, "Pascua Florida," Feast of Flowers (Palm Sunday), on which day it is said to have been named, in 1512, by Juan Ponce de Leon.

GEORGIA—Named after King George II of England.

HAWAII—English spelling of Owhyhee, where Capt. Cook was killed by the natives in 1779

IDAHO—Indian words, "Edah hoe," Light on the Mountains

ILLINOIS—Indian word, by some translated "The River of Men. A form of the word Iliniwek. "Ilini" meant "man," "iw" meant "is," and "ek," was a plural signification.

INDIANA—Named after Indians State of Indians.

IOWA—The Ioways, or Alaouez, or Alaouas, were an Indian Sioux tribe. The word means "sleepy ones."

KANSAS—Name of a tribe of the Sioux.

KENTUCKY—From Choctaw Indian word Kantak, applied to the China brier or China root plant, known to science as *Smilax Pseudo-China.*

LOUISIANA—Named by the Mississipi River navigator Robert de la Salle, in 1682, after King Louis XIV of France.

MAINE—From Maine, an ancient province of France, south of Normandy, owned by Queen Henrietta Maria of England, wife of King Charles I.

MARYLAND—Named in honor of the foregoing. Queen Henrietta Marie.

MASSACHUSETTS—An Algonkin Indian name from Massachu-es-et, meaning "great-hill-small place," indicating a place at or about the big little hills.

MICHIGAN—The Mishigamaw or Mishawiguma were Indians. The word means "big lake" and was applied to Lake Michigan. "Michi" meant "great," and "gama" meant "water."

MINNESOTA—Sioux word for cloudy or smoky water.

MISSISSIPPI—Indian words, "Miche-sepe," Father of Waters.

MISSOURI—The Missouri were Indians of that name.

MONTANA—Spanish for mountainous; used now by Peruvians as a name for their Andean districts.

NEBRASKA—An Omaha Indian name for the "wide river," Platte.

NEVADA—A Spanish word, meaning "snow clad."

NEW HAMPSHIRE—Named, in 1629, after the County of Hampshire England, by the patentee, Capt. John Mason of the Plymouth Council

NEW JERSEY—In 1664 the Duke of York, of England, granted to Lord John Berkeley and Sir George Carteret a patent or deed to the present boundaries to be called Neva Caesaria, or New Jersey. Caesarea, or Caesaria, was the ancient name of the Island of Jersey of which Carteret had been administrator.

NEW MEXICO—Mexico is a word derived from the Aztec word "mexitli," title of their national war god.

NEW YORK—So called in honor of the Duke of York (1664) who got the patent from his brother, King Charles II of England, and sent an expedition and took possession of New Netherlands.

NORTH CAROLINA—The Carolinas were originally named, it is said, in honor of King Charles IX of France by Jean Ribault, whose expedition (1562) was financed by Admiral Coligny. "Carline" is the Latin word for Charles In 1663, King Charles II granted a patent to the land under the name of Carolina.

NORTH DAKOTA—"Dakota" means "alliance of friends," and is a Sioux Indian word. Koda in Santee dialect and Kola in Teton dialect are the root words

OHIO—Iroquois name, denoting fine or good.

OKLAHOMA—Choctaw word for "red people."

OREGON—The Oregon State Librarian, Cornelia Marvin, says various origins of the name have been suggested as follows: *Origanum,* a wild sage found on the coast; *Orejon,* or Oregones, a Spanish name for big-eared (Indian) men; Orgon, a river in Chinese Tartary; *Oyer-un-gen,* a Shoshone Indian word for "place of plenty;" *Aura agua,* Spanish word meaning gently falling waters: *Ouragan,* a French word for hurricanes; *Wau-re-gan,* an Algonkin word for "beautiful water."

PENNSYLVANIA—Penn-sylvania, from Penn; and Sylva, Latin word for grove or woods. Groves of Penn; so called in honor of William Penn, who, in 1681, got a deed for the State from King Charles II of England, in settlement of a debt which the British Government owed Penn's father. William called the country Sylvania, and the King prefixed it with "Penn."

PHILIPPINES—Spanish, "Islas Filipinas," discovered in 1521 by Magellan, whom the natives killed in a skirmish; named in honor of King Philip II of Spain by a colonizing expedition from Mexico.

PORTO RICO—From the Spanish "Puerto Rico," Rich Port.

RHODE ISLAND—"Isles of Rhodes" was the name, chosen by the General Court of the colony, in 1644. The name of one of the islands had been Aquedneck. The name of Providence Plantations then gradually lapsed.

SOUTH CAROLINA—(See North Carolina).

SOUTH DAKOTA—(See North Dakota).

TENNESSEE—Called, from 1784 to 1788, the State of Franklin. "Tennessee" is an Anglicized Indian word—Ten-asse said to mean "a curved spoon."

TEXAS—According to Elizabeth H. West, State Librarian at Austin, "Texas is an Indian word meaning Friends or Allies. So far as I know, it has not an Aztec origin. It applied, originally, in the Indian usage to the Indian tribes about the early Spanish missions around Eastern Texas; and later to tribes ranging as far west as the Rio Grande, to designate a large number of tribes who were ordinarily allied against the Apaches."

UTAH—Named after the Utes, an Indian tribe.

VERMONT—From Verd and Mont, two French words meaning Green Mountains. The name is said to have been bestowed by Samuel de Champlain when he saw from the lake, later called after him, green hills to the East.

VIRGINIA—Named in honor of Elizabeth, daughter of Henry VIII, sometimes called by her courtiers the "Virgin Queen" of England. The name was bestowed by one of the courtiers, Sir Walter Raleigh, who fitted out the expedition of discovery in 1584.

WASHINGTON—Named after George Washington. When the bill creating the Territory of Columbia was introduced in the 32nd Congress, second session, the name was changed in the bill to Washington because of the existence of the District of Columbia.

WEST VIRGINIA—(See Virginia).

WISCONSIN—An Indian name which, according to Reuben Goldthwaites, was originally spelled "Ouiscousin" by the French missionaries and in old French-American documents; also was spelled "Misconsing," "Ouisconching," "Ouiskensing." The Yankee settlers spelled it "Wiskonsan," then "Wiskonsin;" but Congress changed it to "Wisconsin."

WYOMING—(By the State Historian, Eunice G. Anderson)—What we would determine to be the most authentic publication upon the derivatives of the name of our State gives the following: "The word Wyoming was taken from Wyoming Valley, Pennsylvania, rendered famous from Campbell's beautiful poem, 'Gertrude of Wyoming.' The word means 'mountains and valleys alternating.' Or, as we construed it, 'Here God has bent down the backs of His mountains for man to make his habitations.'" This is given by Gen. Freeman.

MOTTOES OF THE STATES OF THE UNION.

STATE.	When Adopted	Motto
United States...	20 June, 1782	E Pluribus Unum (Many in One.)
Alabama.....	29 Dec., 1868	Here We Rest.

From time to time Congress has been asked to adopt a national flower, but has taken no step to that end

BIRTH STONES.

January—Garnet. February—Amethyst. March—Bloodstone and aquamarine. April—Diamond May—Emerald. June—Pearl and moonstone. July—Ruby. August—Sardonyx and peridot. September—Sapphire. October—Opal and tourmaline. November—Topaz. December—Turquoise and lapis-

SOBRIQUETS OR BY-NAMES OF CITIES IN THE UNITED STATES.

Albany—The Capital City.
Atlanta—The Gate City of the South.
Baltimore—The Monumental City
Birmingham—Birmingham the Beautiful
Boston—The Hub, Bean Town, Athens of America
Brooklyn—The City of Churches
Buffalo—The Queen City of the Lake.
Charleston, S. C.—The Palmetto City.
Chicago—The Windy City and Garden City
Cincinnati—The Queen City and Porkopolis.
Cleveland—The Forest City
Dallas—The City of the Hour
Dayton—The Gem City
Denver—The City of the Plains.
Des Moines—The City of Certainties.
Detroit—The City of the Straits.
Duluth—The Zenith City of the Unsalted Sea
Galveston—The Oleander City
Hannibal, Mo.—The Bluff City
Hartford—Insurance City and Charter Oak City
Indianapolis—The Railroad City
Jacksonville—The Gateway City.
Kansas City, Mo.—The Heart of America.
Keokuk, Iowa—The Gate City.
Little Rock—The City of Roses
Los Angeles—The Metropolis of the West and The City of the Angels.
Louisville—The Falls City
Lowell—The City of Spindles
Lynn—The City of Shoes.
Madison, Wis.—The Lake City
Memphis—The Bluff City
Milwaukee—Milwaukee the Bright Spot and The Cream City.
Minneapolis—The Flour City.
Nashville—The City of Rocks
Newark—Newark Knows How
New Bedford—The Whaling City
New Haven—The City of Elms.
New Orleans—The Crescent City.
New York—The Empire City, Gotham, The Metropolis
Omaha—The Gate City of the West.
Paterson—The Silk City and the Lyons of America.
Philadelphia—The City of Brotherly Love and The Quaker City.
Pittsburgh—The Iron City and The Smoky City
Portland, Me.—The Forest City
Portland, Ore.—The Rose City.
Providence—The Gateway of Southern New England.
Reading—The Pretzel City
Rochester—The Flour City.
St. Joseph—The City Worth While.
St. Louis—The Mound City.
St. Paul, Minn.—The Saintly City and The Gem City
Salt Lake City—The City of the Saints
San Francisco—The Golden Gate City
Savannah, Ga.—The Forest City of the South
Scranton—The Electric City
Seattle—The Queen City.
Springfield, Ill.—The Flower City.
Springfield, Mass.—The City of Homes
Syracuse—The Salt City and the Central City of the Empire State
Toledo—The Corn City
Troy—The Collar City.
Washington—The City of Magnificent Distances.
Worcester—The Heart of the Commonwealth

RACES OF MANKIND.

THE following is compiled from the arrangement by Ethnologist Figuier and others:

	WHITE RACE	
European Branch	Teutonic Family	Scandinavians Germans, English.
	Latin Family	French, Spaniards Italians Moldo-Wallachians
	Slavonian Family	Russians Finns, Bulgarians, Servians, Magyars, Croats, Tchecks, Poles, Lithuanians
	Greek Family	Greeks Albanians
Aramean Branch	Libyan Family	Egyptians Berbers.
	Semitic Family	Arabs, Jews, Syrians.
	Persian Family	Persians, Afghans Kurds Armenians, Ossetines
	Georgian Family	Georgians
	Circassian Family	Circassians Mingrelians
	YELLOW RACE	
Hyperboreon Branch	Lapp Family	Samoiede Kamtschadale, Esquimau, Tenisslan, Jukaghirite, and Koriak Families
Mongolian Branch	Mongol Family	Mongols Kalmucks Buriats
	Tunguse Family	Tunguses Manchus
	Turk Family	Turcomans, Kirghis, Nogays, Osmanlis
	Yakut Family	Yakuts
Sinaic Branch	Chinese Family	Chinese
	Japanese Family	Japanese
	Indo-Chinese Family	Burmese, Siamese
	BROWN RACE	
Hindoo Branch	Hindoo Family	Sikhs, Jats, Rajpoots Mahrattas Bengalese, Cingalese
	Malabar Family	Malabars Tamals Telingas
Ethiopian Branch	Abyssinian Family	Abyssinians, Berabras Galtas
	Fellan Family	Fellans
Malay Branch	Malay Family	Malays Javanese Battas Bougis Maccassars, Dyaks, Togals.
	Polynesian Family	Maoris Tongas Tahitians Pomotouans, Marquesans, Sandwichians
	Micronesian Family	Ladrone Caroline, and Mulgrave Islanders
	RED RACE	
Southern Branch	Andian Family	Quichuas (or Incas), Antis, Andians, Araucanians
	Pampean Family	Patagonians Puelches Charruas, Tobas, Moxas, Abipous, etc.
	Guarani Family	Guaranis Bocotudos
Northern Branch	Southern Family	Aztecs Mayas, Lencas Othomis, Tarascas, etc
	Northeastern Family	Cherokees, Hurons Iroquois, Sioux, Apaches, Comanches, Creeks, etc
	Northwestern Family	Chinooks, Digger Indians, Nootkans, etc
	BLACK RACE.	
Western Branch	Caffre Family	
	Hottentot Family	
	Negro Family	
Eastern Branch	Papuan Family	Fijians, New Caledonians, etc
	Andaman Family	Andamans, Australians

SHOPS, BY NUMBER OF WAGE EARNERS, 1914.

Establishments employing:	No. establishments	Average No. wage earners	Establishments employing:	No. establishments.	Average No. wage earners
No wage earners	32,856	.....	251 to 500 wage earners	3,108	1,075,108
1 to 5 wage earners	140,971	317,216	501 to 1,000 wage earners	1,348	926,828
6 to 20 wage earners	54,379	606,594	Over 1,000 wage earners	648	1,255,259
21 to 50 wage earners	22,932	742,529			
51 to 100 wage earners	11,079	791,726	Total	275,791	7,036,337
101 to 250 wage earners	8,470	1,321,077			

In 1910 the wage earners in New York City were thus classified: Employed by individuals, 126,839; employed by corporations, 312,747; employed by others, 145,693. The same classification for Chicago was: 27,532; 265,955; 20,223. Philadelphia: 39,215; 166,706; 45,365. Detroit: 4,397; 91,757; 3,449.

In New York State in 1914 there were 48,203 establishments with 182,605 salaried employees and 1,057,857 wage earners; capital, $3,334,278,000, salaries, $242,729,000; wages, $631,042,000; cost of materials, $2,108,607; value of products, $3,814,661,000.

Figures for 1916, 1917, and 1918 are from Bradstreet's New York means Manhattan and Bronx, and the figures do not include alterations.

Building contracts awarded during the first half of 1919 in that portion of the United States east of the Mississippi River and north of the Ohio River totalled $989,904,000, according to statistics compiled by the F. W. Dodge Company. This indicates an increase of 23% over the similar periods of the five years preceding.

In the New York and Northern New Jersey District, of the total amount of building started from January 1, 1919, to June 1, 1919, 43% was residential and 13½% industrial In Manhattan, there has been a great amount of changing of old houses and stores into modern apartments. In the suburban districts around New York City, the building of small houses has developed to large proportions. Contracts awarded in full calendar years in the district east of the Mississippi River and north of the Ohio River were valued in dollars as follows:—1918, 1,689,242,000; 1917, 1,618,157,000; 1916, 1,356,989,397; 1915, 940,089,334.

TABLE OF DEPRECIATION IN BUILDINGS

(By R. M Hurd)

Construction and Occupancy.	Term of Life in Years.	Rate of Fund Proposed in %	Term of Sinking Fd. @ 3% in Years	Construction and Occupancy	Term of Life in Years	Rate of Fund Proposed in %	Term of Sinking Fd. @ 3% in Years

Increase in assets over previous year was $228,276,044; increase in membership was 277,925. There were decreases in membership in Ohio, Cal, Tenn, and N. Mex. New Jersey figures are as of May 1, 1919 Maryland figures are those of State Tax Commission for 1918.

NATIONAL WEALTH.

In June, 1920, in a paper read before the Bankers' Institute, London, Edgar Crammond estimated the national wealth of chief countries as follows: United States, $350,000,000,000 to $400,000,000,000; United Kingdom, $120,000,000,000; France, $92,500,000,000; Germany, $83,000,000,000; Italy, $35,500,000,000; Belgium $12,000,000,000; Japan, $23,500,000,000. The foregoing figures are based on post-war money values in the respective countries, of the currency of those currencies, which he estimated as representing the following percentages of their pre-war values: United Kingdom, 40; United States, 70; France, 50; Germany, 50; Italy, 50; Belgium, 50 He made no estimate for Japan.

War losses were thus figured including money borrowed, shipping and cargoes destroyed, capitalized value of war pensions, etc.: United Kingdom, $16,000,000,000 to $17 250,000,000; France, $27,250,000,000; Germany, $43,500,000,000; Italy, $9,500,000,000; Belgium, $2,750,000,000.

In 1900, 1904, and 1912 the Census Bureau at Washington estimated the national wealth of the United States on the following basis:

FORM OF WEALTH.	1904.	1912	FORM OF WEALTH.	1904.	1912
	Dollars.	*Dollars.*		*Dollars.*	*Dollars.*

Including live stock on farms and ranges and in cities and towns.

United States National wealth in previous years: (1850), $7,135,780,000; (1860), $16,159,616,000; (1870), $30,068,518,000; (1880), $43,642,000,000; (1890), $65,037,091,000; (1895), $77,000,000,000; (1900), $88,517,306,775.

An unofficial estimate of the National wealth of the United States, as of December 31, 1917, was $220,000,000,000.

United Kingdom—The national or capital wealth of the British Empire was estimated officially, in 1917, in Parliament, by a Crown Minister, at $130,000,000,000, divided as follows: United Kingdom, $80,000,000,000; Canada, $10,000,000,000; Australia, $6,000,000,000; New Zealand, $1,500,000,000; South Africa, $3,000,000,000; India and Ceylon $18,000,000,000; Crown colonies and protectorates, including Egypt, $8,000,000,000. The national annual income of the Empire was estimated in Parliament at $17,500,000,000, of which $10,500,000,000 was allotted to the United Kingdom, and $3,000,000,000 to India and Ceylon.

National wealth of other nations—Argentina (1916), $13,865,000,000; Denmark (1900), $2,000,000,000; Germany (1908), $83,000,000,000; Russia in Europe, $60,000,000,000; Italy, $20,000,000,000; Belgium, Serbia, Roumania, $15,000,000,000; Austria-Hungary, $55,000,000,000; Turkey, Bulgaria, $4,000,000,000. The figures for Russia and countries following that in the list were compiled by Prof. E. L. Bogart for the Carnegie Endowment for International Peace.

BUSINESS FAILURES IN UNITED STATES, JAN.-JUNE, 1920.

Total		$43,200,931,000		$279,014,908,000

Austrian figures include 60 per cent and Hungarian figures include 31 per cent of the Austro-Hungarian debt.

Czecho-Slovakia's national debt (Nov 20) was officially put at $570,000,000, reckoning the crown as worth about 2 cents.

The United Kingdom's debt (March 31, 1920) was estimated by the Chancellor of the Exchequer at £7,835,000,000.

Britain's net income from abroad for 1920 was estimated by Sir George Paish at about $486,650,000. This included interest on foreign securities held by residents of the United Kingdom

UNITED STATES GOVERNMENT LOANS TO FOREIGN COUNTRIES
(As of Aug. 15, 1920.)

Great Britain	$4,277,000,000	Serbia	26,780,465
France	3,047,974,777	Roumania	25,000,000
Italy	1,666,260,179	Cuba	10,000,000
Belgium	350,428,793	Liberia	5,000,000
Russia	187,729,750		
Czecho-Slovakia	67,329,041	Total	$9,711,739,636
Greece	48,236,629		

Some of the wartime loans made by our Government to its Allies already had been paid off.

SECURITIES LISTED ON THE NEW YORK STOCK EXCHANGE.

(As of October 15, 1920)

THE listed issue of any security in this list is not necessarily the total authorized issue. Large amounts of some listed issues are not immediately available for delivery, having been retired from circulation by collateral trust loans, by corporate purchase for control, or otherwise

The largest day's sales on the New York Stock Exchange in 1919 was November 12, when 2,632,835 shares were dealt in, as against 1,732,409 on the largest day, May 16, in 1918. The largest bond sales, $42,965,000 were on December 30, 1919. Total bond sales on the exchange in 1919 were $3,771,217,764.

NEW YORK CLEARING HOUSE ASSOCIATION DATA.

(Prepared for the Almanac by the Manager, William J. Gilpin.)

THE association is now composed of 25 national banks, 13 State banks, and 14 trust companies. The Federal Reserve Bank of New York and the Assistant Treasurer of the United States at New York also make their exchanges at the Clearing House. The Clearing House Collection Department also exchanges at the Clearing House, making 55 clearing institutions. There are 12 banks and trust companies in the city and vicinity, not members of the association, which make their exchanges through banks that are members, in accordance with constitutional provisions. *President*—Albert H. Wiggin, Chairman of the Chase National Bank. *Secretary*—Herbert K. Twitchell, President of Chemical National Bank *Manager*—William J. Gilpin. *Assistant Manager*—Clarence E. Bacon. *Examiner*—Charles A. Hanna

VALUE AND WEIGHT OF GOLD.

(By the United States Assay Office, New York.)

THE unit in weighing gold is the troy ounce. A "fine" ounce means an ounce of pure gold. The mint value of gold does not fluctuate, but remains constant at $20.67183462 per fine ounce. Troy measure is used in weighing gold. The grain is the same in both troy and avoirdupois measure, but the ounce and the pound are not the same. The troy ounce contains 480 grains and the troy pound 5,760 grains, there being 12 ounces to the pound. The troy pound is never used in weighing gold, even when the weights of large quantities are to be computed. The avoirdupois ounce contains 437½ grains and the avoirdupois pound contains 7,000 grains, there being 16 ounces to the pound.

CONDITION OF MEMBERS, N. Y. CLEARING HOUSE ASSOCIATION.

For the week ending October 23, 1920. The figures are six-day averages, except as to capital and net profits. The last named item covers the period from the foundation of the institution.

Subsidiary silver coins are included in silver circulation

Gold coin in circulation in 1918 and 1919 included, respectively, $533,909,560 and $799,301,860, credited to Federal Reserve agents in gold-settlement fund deposited with the Treasurer of the United States.

Gold and silver cannot be stated separately prior to 1876. From 1862 to 1875, inclusive, gold and silver were not in circulation except on the Pacific Coast, where it is estimated that the average specie circulation was about $25,000,000, and this estimate is continued for the three following years under the head of gold. After that period gold was available for circulation. As the result of special investigation by the Director of the Mint a reduction of $135,000,000 was made in the estimate of gold coin in circulation on July 1, 1907, as compared with the basis of previous years, and on September 1, 1910, a reduction of $9,700,000 was made in the estimate of silver coin.

PER CAPITA WEALTH OF UNITED STATES.

Distribution of the money in the country outside of the amount held in the Treasury and Federal system was estimated at $51 06 per capita on Sept. 1, 1920, or an increase of $13.18 over July 1, 1917, by the Federal Reserve Board, which put the general stock of money in the country on Sept. 1 at $7,997,080,820, the amount held in the Treasury at $485,884,277, the amount held by Federal Reserve Banks at $2,031,514,938 and the amount held outside those Government agencies at $5,479,681,605

1863 internal revenue figures cover nine months.

20,000 "MILLIONAIRES" IN THE UNITED STATES.

More than 20,000 residents of the United States reported to the Internal Revenue Bureau in 1920 that their income reached $50,000 or over in the year ending June 30. War profits are known to have increased the millionaire group. In 1917 it numbered slightly more than 26,000. Returns showing incomes of $50,000 to $750,000 a year were filed by 15,917 heads of families, while ninety confessed to annual incomes ranging from $750,000 to $1,000,000. Persons with incomes of more than $1,000,000 in the 1919 return are estimated at 162. More than 4,000,000 heads of families filed returns. At least one-half represent families whose annual income was $2,000 or less. With a population estimated at 105,000,000 the United States now has a "millionaire group" numbering one in each 2,100.

There are two men in the country who have incomes above $3,000,000 annually, twenty-eight with incomes above $2,000,000, and thirteen with incomes between $1,500,000 and $2,000,000. Officials said that 16,000 men had incomes of $50,000 to $750,000. Among the rich men there are 1,271 in the $50,000 to $60,000 income class; 901 in the $60,000 to $70,000 class; 658 who have $70,000 to $80,000; 472 who have $80,000 to $90,000; 374 who have $90,000 to $100,000; 1,084 who have $100,000 to $150,000; 476 who have $150,000 to $200,000; 263 who have $200,000 to $250,000; 131 who have $250,000 to $300,000; 134 who have $300,000 to $400,000; 74 who have $400,000 to $500,000. More than 6,000 of the men with incomes of more than $50,000 live in New York State, and about half of these reside in New York City. Of the twenty-eight richest men in the United States about half live in New York State. Two of them reside in Delaware and are said to have engaged in munition making. Another lives in Michigan. One lives in Ohio, two in Pennsylvania, one in Texas and one in Rhode Island.

More than 5,600,000 firms and individuals filed in 1920 income tax returns; and, of the number, 4,900,000 swore to incomes of $5,000 or less.

*Thousands.

Total surtax is the total of the instalments for the income considered.

Exemption $2,000. No allowance is made for credit for dividends or interest on Liberty bonds, if any, included in net income.

The exemption is $1,000 in case of a single person, or married person not living with husband or wife.

DUE DATES FOR FEDERAL REVENUE TAX RETURNS, 1921.

March 1—Annual withholding returns (forms 1013, 1042 and 1098).

March 15—Information returns (forms 1096, 1099 and 1096B).

March 15—Return for income and excess profits taxes (corporations, partnerships, individuals and fiduciaries).

March 15—Payment of income and excess profits taxes—first instalment.

June 15—Payment of income and excess profits taxes—second instalment.

June 15—Payment of tax withheld.

July 31—Return for Federal capital stock tax.

July 31—Return for and payment of occupational taxes (under Title X. of the Revenue Act).

September 15—Payment of income and excess profits taxes—third instalment.

December 15—Payment of income and excess profits taxes—fourth instalment.

Returns and payments required monthly or at other than fixed dates are not included.

PERSONS LIABLE TO INCOME TAX.

Every citizen of the United States, wherever resident, is liable to the tax, even though he may have no assets within the United States and receives no income from sources therein. Every resident alien individual is liable to the tax, even though his income is wholly from sources outside the United States. Every non-resident alien individual is liable to the tax on his income from sources within the United States. Estates and trusts are also subject to the tax.

Every person born in the United States subject to its jurisdiction, or naturalized in the United States, is a citizen. When any naturalized citizen has left the United States and resided for two years in the foreign country from which he came, or for five years in any other foreign country, he is presumed to have lost his American citizenship; but this presumption does not apply to residence abroad while the United States is at war.

DEDUCTIONS FROM GROSS INCOME ALLOWED INDIVIDUALS.

The following deductions (exemptions) are allowed from gross income of individuals, in computing net income subject to the tax: (1) Dividends received from a corporation taxable upon its net income, or dividends from a personal service corporation paid out of earnings upon which income tax has been imposed; (2) Interest not wholly exempt from tax received upon obligations of the United States and bonds of the War Finance Corporation; (3) Personal exemption (noted over and under table).

No deductions are allowed for personal, living or family expenses; nor for moneys paid out for permanent improvements to, or restorations of, property.

Life insurance is taxed 8 cents on each $100 of insurance or fractional part; on weekly or monthly payment insurance not in excess of $500, 40 per cent. of first weekly, or 20 per cent. of first monthly premium; casualty insurance, 1 cent on each dollar (or fractional part) of premium; 40 per cent. of first weekly, or 20 per cent. of first monthly, premium.

Further deductions allowed in computing net income are: Ordinary and necessary expenses of carrying on trade or business, including salaries and other compensation paid for personal services and rentals; interest paid (or accrued) on indebtedness; United States, State and local taxes (except income, war-profits and excess profits taxes); losses during taxable year not compensated for by insurance (but in case of non-resident aliens only as to transactions or property within the United States); worthless debts; a reasonable

INCOME TAX LAW—*Continued*

allowance for wear and tear of trade or business property, and a reasonable amount for amortization for buildings, machinery, equipment, etc., for production of articles for war purposes, and for vessels for carrying articles or men; in case of mines, gas or oil wells; other natural deposits and timber; a reasonable amount for depletion and depreciation of improvements; gifts to religious, charitable, scientific or educational societies, or for prevention of cruelty to animals or children, or to vocational rehabilitation fund.

CORPORATIONS

Practically the same amount of income taxes is imposed on corporations as on individuals, viz., for 1919 and subsequent years 10 per cent. of net income in excess of interest on United States obligations and bonds of War Finance Corporation, excluding war profits and excess profits taxes, and practically the same deductions (i. e., necessary trade or business expenses, salaries, rentals, etc.). There is an exemption of $2,000 allowed to domestic corporations instead of $4,000, as allowed to citizens and resident individuals.

Organizations exempt from taxation are chiefly those not run for profit, such as agricultural, labor, horticultural, scientific, educational, charitable and religious; for prevention of cruelty to children and to animals, Chambers of Commerce, Boards of Trade, fraternal societies, civic and social welfare leagues, mutual or co-operative fire, cyclone and hail insurance companies, clubs for pleasure and recreation, mutual savings and co-operative banks without capital, cemetery companies for members only, domestic and national building and loan associations, Federal land banks and personal service corporations (i. e , those whose income is due to activities of its stockholders and in which capital is not a producing factor).

Provision is made for re-examination and credit for return of overpaid taxes.

A full schedule of the various taxes on estates, transportation, beverages, etc , was published in the 1920 ALMANAC.

Totals	3,957,701,374.72	1,450,374,093.28	5,408,075,468.00

1920 income and profits tax figures include the third and fourth installments of the 1918 and the first and second installments of the 1919 income and profits tax.

EXPENSES.

According to Internal Revenue Commissioner W. M. Williams, the approximate expenses of operation in the fiscal year 1920 was $29,700,000, excluding $195,000 in rejected offers of compromise. There is included in the expenditures for fiscal year 1920 the expenditures for enforcing the Child-Labor, the

EXPENSES OF COLLECTING INTERNAL REVENUE.—*Continued.*

Narcotic, and the Prohibition laws, which are regulatory rather than revenue-producing measures. Approximately $90,000 was expended for enforcing the provisions of the Child-Labor act, $467,000 for enforcing the provisions of the Narcotic laws, and $2,100,000 for enforcing the provisions of the Prohibition laws, an aggregate of $2,657,000. Deducting this amount from the total amount expended, $29,700,000, leaves $27,043,000 as the net expenditure for collecting the internal-revenue taxes for the fiscal year 1920, which is equivalent to a cost of 50 cents for each $100 collected.

The following table gives a recapitulation of receipts by sources for the fiscal year 1920:

Sources	Amt. Collected	Sources	Amt. Collected.
	Dollars.		*Dollars.*
Income and profits tax	3,957,699,870 70	Specl taxes, incl. corp. cap stk tax	105,508,052 20
Estates	103,628,104.69	Stamp taxes (documentary, and playing cards)	84,349,027.47
Transportation, etc., and insurance	307,808,095.38	Child-labor tax	2,380.20
Beverages of all kinds	197,353,438 99	Miscellaneous collections	6,501,289.83
Cigars, tobacco, and manuf. thereof	294,813,072 87		
Admissions and dues	81,931,780 64		
Excise taxes, manufacturers', etc	268,480,355.03	Total	5,408,075,468.00

Income tax on Alaska railroads, included, was $28,044 29 for 1918 and $21,167 86 for 1919.

1916 figures include 1917 income and profits tax.

1919 income and profits tax figures include first and second instalment of 1918 income and profits tax.

The receipts for 1919 do not include the third and fourth instalments of the tax, which, under provisions of the Revenue Act of 1918, are payable September 15 and December 15, respectively.

Nor do they include, in the miscellaneous taxes column, $10,199,466.51, realized from internal revenue stamps on parcel post packages; nor $42,348 05, from stamps on Philippine products.

In the last fiscal year the people of the United States spent $22,700,000,000 for luxuries, according to Government returns—$750,000,000 for face powder, cosmetics and perfumery; $300,000,000 for furs; $800,000,000 for cigarettes; $510,000,000 for cigars; $500,000,000 for jewelry; $250,000,000 for musical instruments; $2,000,000,000 for autos; $350,000,000 for soft drinks; $400,000,000 for toilet soaps; $800,000,000 for tobacco and snuff; $250,000,000 for ice cream; $50,000,000 for chewing gum; $350,000,000 for cake and candy; $3,000,000,000 for "luxurious services;" $5,000,000,000 for food luxuries; $3,000,000,000 on joy rides, pleasure resorts and races.

APPROPRIATIONS MADE BY CONGRESS.

APPROPRIATIONS BY SECOND SESSION, SIXTY-SIXTH CONGRESS, 1920.

(Covering fiscal year ending June 30, 1921.)

CHANCERY FUNDS IN GREAT BRITAIN.

(By Consul General Robert P. Skinner, London, March 8, 1920.)

From time to time the American press contains reports of fabulous estates "in Chancery" awaiting claimants in Great Britain, with the frequent result that persons in the United States are led to believe that they are entitled to these funds. Every consul in the United Kingdom receives letters from claimants who make inquiries, and it may be well, therefore, to advise all persons that there are no such estates and that it is useless to pay any serious attention to the matter. It is provided in the Supreme Court Funds rules that a list of the dormant funds in court shall be prepared and published every three years. Such a list was issued on March 3, 1920. These dormant funds now aggregate about $7,250,000, distributed over more than 4,100 separate accounts Considerably more than one-half of these funds do not exceed $730, and only about one-twentieth exceed $4,867. A person desiring information as to a fund in court may apply, in writing only, to the Assistant Paymaster General, Royal Courts of Justice, London, England. The Accountant General, Four Courts, Dublin, has charge of funds under the control of the Supreme Court in Ireland. Funds are not lodged in court in Scotland, but inquiries may be addressed to the Accountant of Court, New Register House, Edinburgh

FOREIGN COINS VALUED IN UNITED STATES MONEY.

(Proclaimed by the Secretary of the Treasury as of October 1, 1920.)

ENTRIES of merchandise liquidated upon the values proclaimed herein will be subject to reliquidation upon the order of the Secretary of the Treasury whenever satisfactory evidence shall be produced to him showing that the values in United States currency of the foreign money specified in the invoices were at the date of certification at least ten per centum more or less than the values herein proclaimed.

MONETARY SYSTEM OF THE UNITED STATES.

(Revised by the Director of the Mint.)

GOLD COIN—Weight, 25.8 grains to the dollar; fineness, 900-1000, unlimited as to issue; denominations, $2.50, $5, $10, $20; legal tender, unlimited; receivable for all public dues; exchangeable for gold certificates and subsidiary and minor coin.

STANDARD SILVER DOLLARS—Weight, 412 5 grains; fineness, 900-1000; ratio to gold, 15.988 to 1; coinage ceased in 1905; legal tender, unlimited, unless otherwise contracted; receivable for all public dues; exchangeable for silver certificates and smaller coins.

SUBSIDIARY SILVER COIN—Weight, 385.8 grains to the dollar; fineness, 900-1000; ratio to gold, 14.953 to 1. Limit of issue, needs of the people. Denominations 10 cents, 25 cents, 50 cents; legal tender not to exceed $10; receivable for all dues up to $10; exchangeable for minor coin; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

MINOR COIN—Weight 5 cent piece, 77.16 grains, 75 per cent. copper, 25 per cent. nickel; 1 cent piece; 48 grains, 95 per cent copper, 5 per cent. tin and zinc; limit of issue, needs of the people; legal tender not to exceed 25 cents; receivable for all dues up to 25 cents; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

GOLD CERTIFICATES—Limit of issue for gold bullion, to two-thirds of the amount of gold certificates outstanding; for gold coin, unlimited, unless gold coin reserve against United States notes (greenbacks) falls below $100 000,000; denominations, $10, $20, $50, $100, $500, $1,000, $5,000, $10,000; gold certificates are not a legal tender; receivable for all public dues; redeemable in gold coin at the Treasury.

SILVER CERTIFICATES—Unlimited as to issue for standard silver dollars; denominations, $1, $2, $5, $10, $20, $50, $100; not a legal tender; receivable for all public dues; redeemable in silver dollars at the Treasury.

UNITED STATES NOTES—Limit of issue, $346,681,016; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; legal tender for all debts, public and private, except Customs and interest on the public debt; receivable for all public dues; redeemable in gold at the Treasury.

TREASURY NOTES OF 1890—No further issues; volume steadily diminishing by redemption in silver dollars; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; legal tender, unlimited, unless otherwise contracted; receivable for all public dues; redeemable in gold or silver dollars at the Treasury.

NATIONAL BANK NOTES—Limit of issue not to exceed capital of banks; denominations, $5, $10, $20, $50, $100, $500, $1,000; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE BANK NOTES—Issue unlimited, except by the required security, and by the discretion of the Federal Reserve Board; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE NOTES—Limit of issue same as Federal Reserve Bank notes; denominations, $5, $10, $20, $50, $100, $500, $1,000, $5,000 $10,000; not a legal tender; receivable for all public dues; redeemable in gold at the Treasury, and in gold or "lawful money" at any Federal Reserve Bank.

Commercial values of silver for single years may be ascertained by multiplying fine ounces by annual average prices of silver.

For 1915 figures of the previous year are repeated for those countries from which no returns were received.

A large proportion of the figures in 1920 column are somewhat preliminary, and they relate to that year or to the latest previous year for which figures are available. For later data on separate items see Index. Population is continental. Net ordinary receipts and disbursements do not include loans, Treasury notes or general postal expenses or revenues. 1920 commercial failures cover first six months. Mineral production is mainly for 1917. A reduction of $350,000,000 in the capital stock of the United States Grain Corporation is reflected in both receipts and disbursements for 1920.

FACTS ABOUT THE EARTH.

(Revised by the National Geographic Society of Washington, D. C., from the latest available figures and estimates.)

THE superficial area of the earth is 196,940,000 square miles—140,295,000 square miles of water and 56,255,000 square miles of land. The three great oceans comprise the Atlantic, 41,321,000 square miles; Pacific, 68,634,000 square miles, and Indian, 29,430,000 square miles. There are about 1,000,000 square miles of lake and river surface on the land, and 1,910,000 square miles of islands in the seas. The diameter of the earth at the equator is 7,926 miles, and through the poles 7,899 6 miles. The average elevation of the land above sea level is 2,300 feet. The average depth of the ocean below sea level is 12,600 feet. The deepest place in the ocean yet found is off Mindanao, Philippine Islands, 32,088 feet. The highest mountain is Mount Everest, in the Himalayas, 29,002 feet. This gives a range of 61,090 feet or more, 11½ miles, between the bottom of the oceans and the top of the land.

AREA AND POPULATION OF THE EARTH BY CONTINENTS.

CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.		CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.	
		Number.	Per Sq. Mile.			Number.	Per Sq. Mile.
Africa	11,622,619	142,751,000	12 3	Australasia	3,312,613	16,228,591	4.9
America, N.	8,589,257	150,000,000	16.3	Europe	3,872,561	464,681,000	120.
America, S.	7,570,015	56,337,775	7 4	Polar Regions	5,081,935	.....	.....
Asia	17,206,000	872,522,000	50.7	Total	57,255,000	1,702,520,366	29.6

The best estimates of the earth's area place the fertile regions at 29,000,000 square miles; steppes at 14,000,000 square miles; deserts at 4,861,000 square miles; and polar regions at 6,970,000 square miles.

The population of the earth at the death of Emperor Augustus, estimated by Bodio, was 54,000,000. The population of Europe hardly exceeded 50,000,000 before the fifteenth century.—*Mulhall.* The population of the earth, at its present ratio of gain will be about 4,000,000,000 in 2014.

The proportion of females to each 1,000 males in 1910 was: United States 934; England 1,068; Germany, 1,026. In France (1901), 1,033.

HIGHEST AND LOWEST CONTINENTAL ALTITUDES.

CONTINENTS	HIGHEST POINT.	Elevation (Ft.).	Lowest Point.	Below Sea Level (Ft.).

POPULATION IN INDUSTRIAL OCCUPATIONS IN UNITED STATES AND EUROPE.

THE following table gives the percentages of total occupied population for the principal groups in the eight leading industrial countries prior to the war:

OCCUPATION GROUP.	Great Britain.	France.	Germany.	Austria.	Hungary.	Italy.	Belgium.	United States.
Agriculture	12.66	41.42	35.11	60.80	70 15	59 06	21.90	See separate classification below.
Commercial occupations	11.39	6.54	6.30	3.34	2.56	3.43	11.79	
Conveyance of men, goods and messages	8.20	2 89	2.89	1.70	1.55	3.12	2.03	
Mines and quarries	5.00	1.59	3.25	1.56	.78	.89	6.46	
Metals, machines, implements and conveyances	7.89	4 35	6.99	2.78	2.15	2.14	5.95	
Building and works of construction	6.77	4.20	6.99	2.96	1 48	5.02	7.28	
Textile fabrics	6.92	4.55	3.75	3.26	37	4 81	6.86	
Dress	7.23	8.05	5.39	3.92	2.85	6.64	7.86	

A distinct classification adopted by United States Census Bureau based on 1910 census is as follows: All occupations, 38,167,336 (consisting of 30,091,564 males and 8,075,772 females) with per cent. in parentheses showing distribution of total. Agriculture, forestry, and animal husbandry, 12,659,203 (33.2), extraction of minerals, 964,824 (2.5); manufacturing and mechanical industries, 10,658,881 (27 9); transportation, 2,637,671 (6.9); trade, 3,614,670 (9 5); public service (not elsewhere classified), 459,291 (1.2); professional service, 1,663,569 (4 4); domestic and personal service, 3,772,174 (9.9); clerical occupations, 1,737,053 (4.6).

INDUSTRIAL POPULATION IN UNITED STATES, IN 1917.

According to figures collected by Provost Marshal Gen. Crowder, the Selective Service Draft showed the industrial population of the United States to be occupied, by chief classes, as follows: Agriculture, forestry and fishing, 19,271,834; domestic and manual service, 4,208,862; laborers, in general, not otherwise classified, 4,053,385; professional, 2,202,609; trade and merchandise, 4,708,908; building industries, 2,878,792; transportation (steam), 1,236,867; all other industries and occupations, approximately, 17,000,000.

The Census of Ireland in 1821 is the first which was made on such a basis as to afford a comparison with those of subsequent decades.

Since 1831 the total included Army, Navy and Merchant Service at home.

JEWISH POPULATION OF THE WORLD.

According to a computation, made early in 1920, by David Trietsch, the statistician, of London, the Jewish population of the world is approximately 15,430,000. Of this number, he says, 3,300,000 live in Poland; 3,300,000 in the Ukraine districts of the former Russian Empire in Europe; 3,100,000 in the United States; 900,000 in Soviet Russia; and 300,000 in the British Isles. By other estimates, there are in Austria and Hungary 2,250,000; in France, 100,000; in Germany, 600,000; Holland, 107,000; Roumania, 240,000; Palestine, 100,000; Armenia, 175,000; Argentina, 110,000; Morocco, 104,000. These are the chief countries. In New York State, it is estimated, there are over 1,600,000; in Pennsylvania, 325,000; Illinois, 250,000; Massachusetts, 190,000; New Jersey, 150,000; Ohio, 167,000. In Chicago there are 250,000; Philadelphia, 210,000; Cleveland, 100,000.

AMERICAN JEWISH YEAR BOOK ESTIMATE

The American Jewish Year Book estimates the Jewish population of the world, on pre-war data, at 15,744,662; in North America, 3,379,668; in South America, 116,557; in Europe, 11,435,968; in Asia, 433,332; in Africa, 359,722, and in Australia, 19,415. It is noted that in 1818 only 3,000 Jews lived in the whole United States and by 1907 that number had grown to 1,777,185. The book calculates from 1918 figures that there are 1,500,000 Jews in New York City.

VITALITY OF LAST CHILDREN.

The old belief, still common, that first-born children are endowed by nature with greater vitality and longevity than last-born, has induced Dr. Alfred Ploetz of Munich, Germany, to make a study to ascertain if this were true. He compiled the returns from a large number of families of the nobility, and his figures show, generally speaking, that the vitality of first to ninth-born children varied very little, but that from the tenth to the nineteenth-born the mortality was markedly greater.

In the following table Dr. Ploetz has made groupings of first-born children, second-born, and so on, and it was his object to find out how many of these died before the fifth year. Order or birth, number of children, and per cent. died, as follows:

First-born	614	26 4	Fifth-born	311	26 0	Tenth to nineteenth-born	302	34.4
Second-born	539	24 9	Sixth-born	249	26 1			
Third-born	455	26 4	Seventh to ninth-born	463	26 3		3,319	26.7
Fourth-born	386	25 6

Cities in the United States are increasing in population seven and a half times as fast as the rural districts, according to the 1920 count. The urban population increased at a rate of 25.2 per cent., while that of the rural districts, including the villages and towns under 2,500 population was 3.4 per cent. For the strictly farm territory, the rate was 3 2 per cent. and that of the villages was 4.7 per cent.

The population of Oklahoma includes, in 1890 and 1900, the population of the Indian Territory, which was in 1890—180,182, and in 1900—392,060. The total for 1890 includes the population (325,462) of Indian Territory and Indian Reservations especially enumerated in 1890 but not included in the general report on population.

For 1890 the rank of Arizona advances from 48 to 47 and that of Oklahoma advances from 46 to 39 when the population specially enumerated in Indian Territory and on Indian reservations is included.

North Dakota included in South Dakota in 1860, 1870, and 1880.

The ranking of Oklahoma in 1900 was 38 and Indian Territory 39. The present ranking for the same census is based on the combined population of Oklahoma and Indian Territory.

For 1890 the rank of South Dakota advances from 37 to 35 when the population specially enumerated on Indian reservations is included

New England Division—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut Middle Atlantic Division—New York, New Jersey, Pennsylvania. East North Central Division—Ohio, Indiana, Illinois, Michigan, Wisconsin. West North Central Division—Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, Kansas. South Atlantic Division—Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida. East South Central Division—Kentucky, Tennessee, Alabama, Mississippi. West South Central Division—Arkansas, Louisiana, Oklahoma, Texas. Mountain Division—Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada. Pacific Division—Washington, Oregon, California.

The population in 1910, according to United States Census Bureau estimates, of the outlying possessions was as follows: Alaska, 64,366; Hawaii, 192,389; Porto Rico, 1,119,987; Philippines, 8,276,802; Virgin Islands (1917), 26,051. Samoa (1916), 7,426; Guam (1912), 12,240.

TERRITORIAL EXPANSION OF THE UNITED STATES.

The area of the original thirteen States (years 1783-1817) was 892,135 square miles.

DIVISION.	Yr.	Added. Square Miles.	DIVISION.	Yr.	Added. Square Miles.	DIVISION.	Yr.	Added. Square Miles.
Louisiana purchase..	1803	827,987	Gadsden purchase...	1853	29,670	Addit'nal Philippines	1901	68
Gained through treaty with Spain.	1819	13,435	Alaska.....	1867	590,884	Panama Canal Zone.	1904	436
Florida	1819	58,666	Hawaiian Islands...	1898	6,449	Danish West Indies (now Virgin Isl.)..	1917	142
Texas.....	1845	389,166	Porto Rico.....	1898	3,435			
Oregon.....	1846	286,541	Guam.	1898	210			
Mexican cession....	1848	529,189	Philippine Islands...	1898	114,958	. Total added area..	..	2,851,313
			Samoa.....	1899	77	Total United States including original 13 States,		3,743,448

Payments for above were made by the United States as follows: Louisiana purchase, $15,440,000; Gadsden purchase, $10,000,000; Alaska, $7,200,000; Florida, $5,000,000; Hawaiian Islands, public debt assumed to the amount of $4,000,000; Mexican cession, $8,250,000.

The Treaty of Paris, of December 10, 1898, terminating the Spanish-American War, provided for a money payment to Spain (for relinquishing claim to Porto Rico, Guam, and Philippine Islands) of $20,000,000, and a subsequent treaty of November 7, 1900, provided for a further payment of $100,000 for other Philippine Islands.

By the first treaty the Philippine Islands were ceded to the United States, and the later treaty of November 7, 1900, ceded certain outlying islands of the Philippines not included in the first cession.

The United States did not acquire, by the Isthmian Canal Convention of November 18, 1903, any title to territory in the Republic of Panama, but merely a perpetual right of occupation, use, and control of and over a zone of land ten miles in width. For this privilege it paid to the Republic of Panama the sum of $10,000,000, and undertook to pay the sum of $250,000 annually so long as such occupancy continued, such payments beginning on February 26, 1913

For the Danish West Indies, consisting of the islands of St. Croix, St. Thomas and St. John, the United States paid $25,000,000, and took possession on March 31, 1917. They then had 32,000 population.

No money payments were made upon the acquisition of the other Territories mentioned in the list.

Bronx County organized from New York County in 1914. Kings, New York (county) and Queens figures are not strictly comparable by reason of change in county boundary between 1910 and 1920.

Though only fifty-seven farms are listed for Kings County (Brooklyn) there are hundreds of vacant blocks and other small tracts, in the outlying districts, under intensive cultivation, mostly by Italians, who grow corn, cabbage, tomatoes, and other "garden truck" for the city markets.

NOTE—The above table covers the fiscal year ended June 30, 1920. There are no available immigration totals in cases where the table contains no figures, with the following exceptions—figures for Austria include old Austria-Hungary; those for Denmark include Norway and Sweden; those for England include Ireland, Scotland and Wales; those for Turkey in Asia include all of the former Turkish dominions. This explanation applies only to the second column of figures and not to those for 1920.

Total United States immigration figures (33,630,104) are for all the years since and including 1820. The immigration totals for other countries cover from and including—Austria-Hungary, 1861; Belgium, Greece, Mexico, Portugal, Roumania, Turkey, and West Indies, 1894; British North America, 1865; China, 1853; Denmark, Norway and Sweden (Scandinavia), 1820; France, Germany, Holland, Italy, Russia, Switzerland, and United Kingdom (England, Ireland, Scotland, and Wales), 1820; Japan, 1893; Poland, 1886.

1919	141,132	83,272	57,860	26,373	97,341	17,418	8,626	2,561	507	443	2,827

Under 16 years in 1918, also 16 to 44 years.

The second deported column, after 1910, includes persons deported without time limit; 1911, 71; 1912, 54; 1913, 79; 1914, 215; 1915, 196; 1916, 249; 1917, 133; 1918, 237; 1919, 324. For the years prior to 1895 the figures in the last two columns are for persons over 16 years; for 1895 to date for persons 14 years of age and over. "Under 14 years" includes those under 15 until 1899; "14 to 45" means 15 to 50 until 1899; "45 and over" means 40 and over until 1899.

The increases are based on number, exclusive of counties not reporting in 1916. A minus sign (—) denotes decrease. The above figures are exclusive of 44 counties in South Carolina and 9 unorganized counties in South Dakota and Texas for which no marriage statistics are available South Carolina requires neither a marriage license nor a return or record of marriages

In 1916, for the first time since 1910, the Bureau of the Census made a nation-wide compilation of marriage and divorce statistics. The marriages totalled 1,040,778; the divorces, 112,036. Of the latter, details as to causes, etc, were got in 108,702 cases. The causes classify as follows:

Cause.	Total.	Per Cent.	Granted to Husb	Per Cent	Granted to Wife.	Per Cent.
Unfaithful	12,486	11 5	6,850	20 3	5,636	7 5

In Baltimore in 1916 there were 7,022 marriages and 617 divorces; in Boston and suburbs (not including Cambridge), 9,322 marriages and 700 divorces; in Newark, N. J., including Essex County, 6,386 marriages and 233 divorces; in Hudson County, N. J., including Jersey City and Hoboken, 8,465 marriages and 234 divorces; in Los Angeles, Cal., 6,910 marriages and 1,319 divorces; in San Francisco, 5,981 marriages and 1,375 divorces; in Chicago, including Cook County, 34,235 marriages and 4,575 divorces; in Cleveland, O., including Cuyahoga County, 10,113 marriages and 930 divorces; in Cincinnati, including Hamilton County, 4,603 marriages and 510 divorces; in Philadelphia, Pa., 17,289 marriages and 995 divorces.

The number of divorces per 100,000 population was 112 in 1916; as against 84 in 1906, and 73 in 1900; and 53 in 1890. By States, in 1916, the divorces per 100,000 population were as follows:

CONTESTED AND UNCONTESTED DIVORCES, 1916.

Brought by husband—Contested, 4,636; uncontested, 29,173.

Brought by wife—Contested, 10,143; uncontested, 64,750

In New York State, of divorces granted to the husband, in 1916, there were 202 contested and 891 uncontested cases; of divorces granted to the wife, 478 were contested and 1,671 were uncontested.

Of the husbands who got divorces in the United States, in 1916, there were 20,862 who lived in the State where the action was brought; 8,150 lived in some other State; and the residence of 4,797 was unknown.

Similarly, as to wives who were granted divorces, 47,575 lived in the State where the suit was brought; 16,282 lived in some other State; and the residence of 11,036 was unknown.

Of the husbands who got divorce, in 1916, there were 20,784 who lived in the State in which they had married; 8,117 had moved to some other State with their wives, prior to the action for divorce; 1,244 marriages had taken place abroad; and the facts were unknown in 3,664 cases. And as to divorces got by wives, the marriage had taken place in that same State in 48,252 cases; it had taken place in some other State in 16,617 cases; the couple had been wedded abroad in 2,240 cases; and the facts were unknown in 7,784 cases.

In New York State, out of 3,269 divorces in 1916, the couples in 215 known cases had been married in a foreign country.

CHILDREN AND DIVORCE.

Of the 33,809 husbands who were granted divorce, 9,403 had children by the union, and 19,837 had none. Of the 74,893 wives who were granted divorce, 31,606 had children by the union, and 36,814 had none.

In New York State, of the 1,093 husbands who received divorce decrees, 501 had children, and 550 reported none, of the 2,149 wives who got decrees, 955 had children, and 1,136 had none.

In the Southern States, desertion, and in the Northern States, adultery, were the chief allegations in divorce complaints.

In Maine, a Prohibition State, drunkenness was the alleged cause of divorce action in 14 per cent. of the suits brought by husbands against wives. The percentage rose to 16 5 in Illinois and deserted to 0 1 in New York State.

ALIMONY—Of the 33,809 husbands who were given decrees, 1,946 asked for alimony (and 1,564 of them got it); of the 78,893 wives to whom the court granted divorce, 19,980 asked for alimony, with the result that 14,928 got it.

In New York State, 139 out of 1,093 suing hubbies begged the Judge for alimony, and 113 won their plea. Of the 2,149 New York women suing for divorce, 938 wished alimony, and 763 had that wish granted.

In Nevada only 56 out of 374 wives asking divorce wanted alimony, and 33 got the same.

SINGLE, MARRIED, WIDOWED, AND DIVORCED, 1910.

According to the 1910 census, the number of single, married, widowed, and divorced persons in the United States in that year was as follows:

United States	White, Males	Colored, Males	White, Females	Colored, Females	United States.	White, Males	Colored, Males.	White, Females	Colored, Females
Single.....	11,360,282	1,189,847	8,091 249	841,921	Unknown.....	134,312	21,212	57,286	10,886
Married.....	16,253,940	1,838,660	15,852,011	1,832,676					
Widowed.....	1,274,388	197,002	2,705,990	470,238	Total.....	29,158,125	3,267,680	26,857,337	3,189,988
Divorced.....	135,203	20,959	150,801	34,267					

DIVORCE GROWING IN ENGLAND AND WALES.

In England and Wales 2,688 divorce petitions were filed in 1918. Of the petitions 1,807 were by husbands and 516 by wives. The increase in five years is as follows: 1918, 2,323; 1917, 1,423; 1916, 1,163; 1915, 1,143; 1914, 1,075. Average, 1,425.4. Of the 2,567 marriages in England and Wales 801 took place in registry offices, not in churches. As regards the conditions of the couples before marriage, 2,559 were bachelors, 2,591 spinsters, 37 widowers and 72 widows. Only 19 of each sex had been divorced previously. Of the wives 859 and of the husbands 216 were under twenty-one. In the occupation groups of husbands professional employments account for 826 cases, manufacturers 744, trade 591, inland transport 204, mining 95, navigation and fishing 63, agriculture 61, and domestic service 34.

Of the couples seeking divorce 40 per cent. were childless.

INDIAN POPULATION OF THE UNITED STATES.

Alabama	909	Iowa	358	Nevada	5,840	South Dakota	22,829
Arizona	42,346	Kansas	1,441	New Hampshire	34	Tennessee	216
Arkansas	460	Kentucky	234	New Jersey	168	Texas	702
California	16,215	Louisiana	780	New Mexico	20,581	Utah	3,048
Colorado	821	Maine	892	New York	6,460	Vermont	26

The table does not include still births, nor deaths of soldiers, sailors and marines.
Deaths of children under 1 year in 1918 were 13 2 per cent. of the total deaths at all ages—a steady reduction from 20.2 per cent in 1906.

UNITED STATES NEGRO POPULATION, 1920.

Figures announced by the Census Bureau show the population of the State of Delaware to be divided as follows: White, 192,614; negro, 30,341; all other, 48. The white population constitutes 86.4 per cent. of the total, as compared with 84 6 per cent. in 1910.

The negro population of Baltimore, Md., is 108,390. The total white population is 625,074. The increase of the negro population since 1910 was 23,641, or 27.9 per cent, while the increase of whites was 151,687, or 32 per cent

The negro population of Cincinnati was announced by the bureau as 29,630, an increase of 9,097, or 50 9 per cent., in the past decade. The total white population was 371,500, an increase of 27,621, or 8 per cent.

The negro population of Louisville, Ky., decreased 404, or one-tenth of 1 per cent. The white population was 194,737, an increase of 11,347, or 6 2 per cent.

Chinese, Japanese, Indians and others in Baltimore numbered 362, in Cincinnati 71 and Louisville 36.

Other figures as to the negro population of cities announced by the Census Bureau are as follows:

Dayton, Ohio, 9,029, an increase of 4,187, or 86.5 per cent ; white population, 143,492, an increase of 31,785, or 28 5 per cent ; Chinese, Indians and all others, 38.

Schenectady, N. Y , 390, an increase of 116; white population, 88,242, an increase of 15,749, or 21.7 per cent.; Chinese, Indians and all others, 91.

Harrisburg, Pa., 5,256, an increase of 721, or 15.9 per cent.; white population, 70,644, an increase of 11,008, or 18 5 per cent ; Chinese, Indians and all others, 17.

Lancaster, Pa., 916, an increase of 113, or 14.1 per cent.; white population, 52,226, an increase of 5,811, or 12.5 per cent ; Chinese, Indians and all others, 8.

Peoria, Ill., 2,131, an increase of 562, or 35 8 per cent.; white population, 73,977, an increase of 8,616, or 13.2 per cent ; Chinese, Indians and all others, 13.

Fort Wayne, Ind., 1,476, an increase of 904; white population, 85,051, an increase of 21,711, or 34.3 per cent.; Chinese, Indians and all others, 22.

FEDERAL COUNCIL, CHURCHES OF CHRIST.

At the opening, at Boston, Dec 1, 1920, of their quadrennial convention, Dr. Robert E. Speer, of Englewood, N. J., was elected President of the Federal Council of Churches of Christ in America. He is the council's fifth President, and his term is for four years. The organization includes thirty denominations, with a total membership of more than 20,000,000.

Dr Speer succeeds the Rev. Dr. Frank Mason North, of Madison, N. J., who is a secretary of the Methodist Board of Foreign Missions. President Wilson sent a letter of greeting to the council, addressing it to the Rev. Dr. Charles S. MacFarland, of New York City, General Secretary of the council.

IMPEACHMENTS IN UNITED STATES HISTORY.

THE Constitution of the United States, Article II., Section IV., provides that civil officers of the United States may be removed from office on impeachment and conviction of treason, bribery or other high crimes and misdemeanors; that the House of Representatives has the sole power of impeachment, and the Senate the sole power to try impeachments; that the Vice President shall preside at impeachments except when the President is tried, when the Chief Justice of the Supreme Court shall preside; and that two-thirds of the members present must vote for conviction before a person impeached shall be deemed guilty. Only eight persons have been impeached and tried before the Senate, and only two of them have been convicted. The record is as follows:

William Blount, Senator from Tennessee, impeached July 7, 1797, for conspiring to wage war with Spain in favor of Great Britain, to excite the Cherokee Indians against Spain, and to create disaffection among the Indians toward the United States; trial Dec 17, 1798, to Jan. 14, 1799; vote, 11 guilty, 14 not guilty; verdict, acquittal.

John Pickering, Judge of the District Court of the United States for the District of New Hampshire; impeached 1803 for drunkenness and disregard of the terms of the statutes; trial March 3 to March 12, 1803; vote, 19 guilty, 7 not guilty; verdict, guilty; punishment, removal from office.

Samuel Chase, Associate Justice of the Supreme Court of the United States; impeached 1804 for misconduct at trials of persons charged with breach of the Sedition Law; trial Nov. 30, 1804, to March 1, 1805; vote, 9 guilty, 30 not guilty, and 15 guilty, 19 not guilty, on different counts; verdict, acquittal.

James Peck, Judge of the District Court of the United States for the District of Missouri; impeached for tyrannous treatment of counsel, 1830; trial May 11 to May 30, 1830, and from Dec 13, 1830, to Jan. 31, 1831; vote, 22 guilty, 21 not guilty; verdict, acquittal.

West H. Humphreys, Judge of the District Court of the United States for the District of Tennessee, impeached 1862 for supporting the secession movement and unlawfully acting as Judge of the Confederate; District Court; trial May 22 to June 26, 1862; vote, 32 guilty, 4 not guilty; verdict, guilty; punishment, removal from office.

Andrew Johnson, President of the United States, impeached for usurpation of the law, corrupt use of the veto power, interference at elections and high crimes and misdemeanors; trial, March 30 to May 26, 1868; vote, guilty, 35, not guilty, 19; verdict, acquittal.

William W. Belknap, Secretary of War of the United States, impeached for accepting bribes; trial April 5 to Aug. 1, 1876; vote, guilty, 5, not guilty, 25; verdict, acquittal.

Charles Swayne, Judge of the District Court of the United States for the District of Florida; impeached 1905 for misconduct in office; trial Feb. 6 to Feb 27, 1905; vote, 55 guilty, 37 not guilty; verdict, acquittal.

Robert W. Archbald, Associate Judge of United States Commerce Court, was impeached July 11, 1912, on thirteen articles charging him with corrupt collusion with coal mine owners and railroad officials while in office. The Senate began his trial Dec 3, 1912, and ended Jan 13, 1913. Verdict, guilty; removed from office.

On June 12, 1914, District Judge Alston G Dayton was impeached. Proceedings dropped March 3, 1915.

ANTIDOTES FOR POISONS.

FIRST. Send for a physician.

SECOND. INDUCE VOMITING, by tickling throat with feather or finger Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalies, and vice versa.

WHEN THE BOAT OVERTURNS.

DON'T go out in a pleasure boat without being assured that there are life-saving buoys or cushions aboard sufficient to float all on board in case of an upset or collision. All persons should be seated before leaving shore, and no one should attempt to exchange seats in midstream or to put a foot on the edge or gunwale of the boat to exchange seats. Where the waters become rough from a sudden squall or passing steamers never rise in the boat, but settle down as close to the bottom as possible, and keep cool until the rocking danger is passed. If overturned, a woman's skirts, if held out by her extended arms, while she uses her feet as if climbing stairs, will often hold her up while a boat may pull out from the shore and save her. A non-swimmer, by drawing his arms up to his side and pushing down with widely extended hands, while stair-climbing or treading water with his feet, may hold himself several minutes, often when a single minute means a life; or throwing out his arms, dog fashion, forward, overhand and pulling in, as if reaching for something—that may bring him in reach of help.

RULES IN CASE OF FIRE.

CRAWL on the floor. The clearest air is the lowest in the room. Cover head with woollen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Ex-Chief Hugh Bonner, of the New York Fire Department, gives the following rules applying to houses, flats, hotels, etc.:

Familiarize yourself with the location of hall windows and natural escapes. Learn the location of exits to roofs of adjoining buildings. Learn the position of all stairways, particularly the top landing and scuttle to the roof. Should you hear cry of "fire," and columns of smoke fill the rooms, above all KEEP COOL. Keep the doors of rooms shut. Open windows from the top. Wet a towel, stuff it in the mouth, breathe through it instead of nose, so as not to inhale smoke. Stand at a window and get benefit of outside air. If room fills with smoke keep close to floor and crawl along by the wall to the window.

Do not jump unless the blaze behind is scorching you. Do not even then if the firemen with scaling ladders are coming up the building or are near. Never go to the roof, unless as a last resort and you know there is escape from it to adjoining buildings. In big buildings fire always goes to the top. Do not jump through flame within a building without first covering the head with a blanket or heavy clothing and gauging the distance. Don't get excited; try to recall the means of exit, and if any firemen are in sight DON'T JUMP.

If the doors of each apartment, especially in the lower part of the house, were closed every night before the occupants retired there would not be such a rapid spread of flames.

MARCH'S WEATHER TIP.

According to temperature figures taken at New Haven since 1778 the entire spring has been warm or cold according as March has been warm or cold in 115 years; in 12 years when March has been warm or cold the spring has been normal, and in only 8 out of 139 years has the Spring been the opposite of March.

Therefore forecasts of Spring weather based on March weather prove correct forecasts in 83 per cent. of the years; in only 6 per cent. are they entirely wrong, or, omitting the twelve indecisive cases, about 90 per cent. of the indications verify.

BENEFACTIONS OF 1920.

The public gifts of John D. Rockefeller, through his boards, exceeded in 1920 those of any other person or institution. He brought the endowment of the Laura Spelman Rockefeller Memorial up to $63,763,357, in commemoration of his late wife, the funds to be devoted to bettering the welfare of women and children throughout the world. She worked chiefly through the Young Women's Christian Association. That gift brought the total of announced contributions to charities and works of public welfare to above $475,000,000. Some of the prominent items in round numbers are: Testified to in 1915 by his son, $250,000,000; from 1915 to November, 1920, Rockefeller Foundation, $82,000,000; General Education Board, $70,000,000; Rockefeller Institute, $10,000,000. Announced in December: The Laura Spelman Rockefeller Memorial, $63,000,000. Grand total, $475,000,000.

The Rockefeller Foundation gave $6,000,000 to the London University College Hospital and Medical School, for teaching and research

George Eastman and the General Education Board have given the University of Rochester, N. Y., a $9,000,000 School of Medicine, Surgery and Dentistry. Of this sum the General Education Board gives $5,000,000 and Mr Eastman $4,000,000. This is in addition to the Rochester Dental Dispensary which Mr. Eastman recently built and endowed with $1,500,000. The new school will contain the most modern laboratories for the study of anatomy, physiology and pathology and a teaching hospital containing 250 beds. This hospital will be to the medical school what the dispensary will be to the dental school.

The trustees of the General Education Board and the Rockefeller Foundation announced in June, 1920, appropriations for the development of medical schools and for purposes of general education which aggregate $20,261,900. A large portion of this fund will be used to raise the salaries of instructors in most of the 250 educational institutions which applied for aid from the $50,000,000 fund created by Mr. Rockefeller, December, 1919. The announcement stated that to accomplish the results desired it will be necessary that the funds in the possession of the board be supplemented by funds from other sources in the ratio of two or three to one All the appropriations have been made contingent upon the raising of additional amounts.

The following is a list of the appropriations to medical schools in the United States made by the General Education Board, while those institutions in Brussels and Halifax were voted by the Rockefeller Foundation:

Washington University Medical School, St. Louis, Mo., for endowment, $1,250,000, and for additional laboratory facilities and equipment, $70,000.

Yale Medical School, for endowment, $1,000,000 toward a total of $3,000,000.

Harvard Medical School, for improved facilities in obstetrics, $300,000, and for the development of teaching psychiatry, $350,000.

Johns Hopkins Medical School, for development of a new department in pathology, $400,000 toward a total fund of $600,000.

Dalhousie University Medical School, Halifax, $400,000 for additional buildings and equipment and $100,000 for endowment.

Medical Research Foundation of Elizabeth Queen of the Belgians, Brussels, for the purpose of general medical research, 1,000,000 francs.

For co-operation with State universities and State Departments of Education in the Southern States, in the field of secondary and rural education, the sum of $287,350.

For negro schools, appropriations aggregating $943,500. For general endowment, $500,000; for current expenses and equipment, $443,500.

Howard University, Washington, D. C., $250,000, Grinnell College, $500,000; Wesleyan University, $400,000; Teachers' College, N. Y., $1,000,000; Middlebury College, $250,000; Smith and Mount Holyoke Colleges, $500,000 each.

John D. Rockefeller, Jr., gave $250,000 to the Interchurch World Movement, and $300,000 to the Y. W. C. A. for a working girls' hotel at New York.

CARNEGIE LEFT $23,247,161.

The appraisal of the estate of Andrew Carnegie at $23,247,161, net, somewhat cut his bequests. His wife inherited $11,338,347. The Carnegie Foundation gave $69,000 to Harvard, $58,000 to Columbia, $57,000 to Yale, and $38,000 to Cornell for teachers' pensions and allowances. These were the largest beneficiaries. The total to all colleges for the year was $875,000 for teachers' pensions. The Carnegie Endowment for International Peace gave $50,000 for relief in Russia; and $50,000 toward restoring Westminster Abbey, London. The Carnegie Corporation gave $70,000 to Bryn Mawr College; $5,000,000 to the National Academy of Sciences and the National Research Council. The Carnegie Fund gave $100,000 to the N. Y. City Bar Association for its library.

H. C. Frick, New York, to Princeton, $15,000,000; to Harvard, $5,000,000; to New York City for art gallery, $15,000,000—over $60,000,000 in all to public institutions.

Mrs Levi Shoemaker, Wilkes-Barre, Pa., to Yale, $200,000.

Mayor James Couzens, Detroit, to local hospitals and homes, $2,000,000.

J. J. Schmidlapp, Cincinnati, to charities, $1,000,000, including $250,000 to P. E. Cathedral of St. John, N. Y.

Mrs. M. C Knight, Boston, to charities, $550,000, and to her maid, $250,000.

John D. Rockefeller, to Baptist missionary societies, $2,000,000.

George Eastman, Rochester, N. Y., to Mass. Institute of Technology, a total of $11,000,000; to the University of Rochester, $4,125,000; to other Rochester institutions, $3,000,000.

Gaby Deslys, for founding a girls' hospital at Marseilles, France, her fortune.

Jackson Barnett, Creek Indian, Muskogee, Okla., for Indian hospital and other charities, $1,500,000.

J. Ogden Armour, Chicago, to Armour Institute, 80 acres of land, and $5,000,000 for buildings.

O. C. Barber, Akron, O., for agricultural school, $4,500,000.

Mrs. W. M. Brasher, Brooklyn, to Church Charity Foundation, $500,000.

A. H. Bull, Elizabeth, N. J., to charity, over $1,000,000.

The widow of Robert Bacon, for an American Hospital at Paris, $989,000.

E. S. Harkness, N. Y., to Mount Holyoke College, $100,000.

Mrs. C. B. Kimball, Boston, to Harvard and other institutions, $1,170,000.

J. A Scrymser, N. Y., to charity, at widow's death, $2,400,000.

M. G. Mennes and sister, Detroit, for a Cornell University dormitory, $100,000.

Capt. J. R De Lamar, to Columbia, Harvard and Johns Hopkins, $5,541,401 each; to the Association for Improving Condition of the Poor, $500,000.

Cardinal J. M. Farley, N. Y., to the church, $500,000.

D. G. Carroll, N. Y., to church charities, $500,000

The family of Henry Phipps, to Phipps Institute, University of Pennsylvania, $500,000.

Theodore N. Vail of N. Y., to educational institutions, $400,000, of which, $200,000 to Dartmouth College.

Edward Hines, Chicago, for Catholic University, $500,000.

G. W. Perkins, J. P. Morgan, J. H. Schiff, and others, for outings of the poor at Bear Mountain, on Hudson, $1,000,000.

Nathan Straus, N. Y., for Jewish relief in Europe, $100,000.

A. K. Hills, New York, to found boys' industrial school at Hudson, N. Y., $500,000.

H. C Kelsey, Trenton, N. J., to charity, $300,000.

M. L. Ward, Newark, N. J., for bachelors' and widows' home, $2,000,000.

A. J. Eddy, Chicago, to the Art Institute, $600,000.

Dr. Thos. W. Coe, Bangor, Me., to Bowdoin College and University of Maine, each, $150,000; to Coe's Northwood Academy at Durham, N. H., $70,000.

Mrs. Eleanor, widow of J. C. Black, Chicago, to clerks in husband's bank, $250,000; rest to charity, $1,500,000.

W. K Vanderbilt, Sr., New York, to Vanderbilt University, $250,000; to St. Mark's P. E. Church, Islip, L. I., $50,000; to the Metropolitan Museum of Art, New York, paintings.

BENEFACTIONS OF 1920—*Continued.*

Mrs. Nellie A. Black, Chicago, to charities and the Art Institute, $2,000,000

Miss Annette P. Rogers, Boston, to Radcliffe College, $175,000; to American Unitarian Association, $50,000; to Massachusetts Association for Promoting Interest of Adult Blind, $50,000.

W. F. Armstrong, New York, to Wesleyan University, $300,000, and to charity, $700,000, mostly Methodist.

C. F. Kettering, Dayton, O., to the College of Homeopathy, $400,000

August Heckscher, New York, to Cornell University, $500,000.

Gen. R. C. Hawkins, New York, to the University of Vermont, $100,000.

Mrs. J. C. Jordan, Moneton, N. B., to a sanatorium, $90,000.

R. K. Tyler, Washington, D. C., to Dartmouth College, $500,000.

E. P. Tuck, Paris, to Dartmouth College, $160,000.

Mrs. Russell Sage, to Dartmouth College, $500,000.

A. C. James, New York, to Amherst College, $250,000.

Adele E. Flint, Larchmont, N. Y., to the Presbyterian Hospital and the Society for the Prevention of Cruelty to Animals, each, $100,000.

Mrs. J. H. Williams, New York, to Vassar College, $110,000.

Viscount Rothermore, to Oxford University, for a Chair of American History, $100,000

Jacob Wertheim, New York, to Jewish charities, $100,000.

James M. Cox, Dayton, O , to Wittenberg College, $75,000.

Francis Hendricks, Syracuse, N. Y., to Syracuse University, $500,000.

F. A. Schermerhorn, New York, to Columbia University, the New York Institution for the Blind, and the New York Trade School, $1,808,000.

Mrs. S. W. Bridgham, New York, to Columbia University, $530,000; to charities, $370,000.

A Barton Hepburn, N. Y. banker, $150,000 to Williams College, for a Chair of Economics.

THE WORLD WAR COST UNITED STATES $24,010,000,000.

The net cost of the war to the American Government is fixed by Secretary Houston at $24,010,000,000. This, he says, represented the "adjusted" expenditure of the Treasury, excluding all outlays which had no relation to the actual prosecution of the war during the period from April 6, 1917, to June 30, 1920, which covered the extremes of the Government's war-time fiscal operations.

Total expenditures by the Government during the period covered, excepting postal disbursements from postal revenues, were $38,830,812,895, the Treasury figures showed. Of this amount $16,078,844,097 was obtained in taxes and revenue from sources other than borrowed money

Mr. Houston said that a deduction of $9,523,000,000, the amount loaned to foreign Governments, should be made from the grand total, since these loans would be repaid, and consequently could not be charged as an actual expenditure.

The Secretary made other deductions, aggregating about $4,500,000,000, which, he said, represented the excess cost of Government operations for the three years and three months over what they would have been in normal times.

COST OF FORMER WARS TO THE UNITED STATES.

WAR OF 1812 WITH GREAT BRITAIN, FROM JUNE 18, 1812, TO FEB 17, 1815.

YEAR.	Total.	War.	Navy.
1812 ...	$20,280,000	$11,817,000	$3,959,000
1813 ..	31,681,000	19,652,000	6,446,000
1814 ..	34,720,000	20,350,000	7,311,000
1815.....	32,943,000	14,794,000	8,660,000

WAR WITH MEXICO, FROM APRIL 24, 1846, TO JULY 4, 1848.

YEAR.	Total.	War.	Navy.
1846....	$27,261,000	$10,413,000	$6,455,000
1847 . .	54,920,000	35,840,000	7,900,000
1848 . ..	47,618,000	27,688,000	9,408,000
1849.....	43,499,000	14,558,000	9,786,000

CIVIL WAR, FROM 1861 TO 1865.

YEAR.	Total	War	Navy.
1860	$63,201,000	$16,472,000	$11,514,000
1861 .	66,650,000	23,001,000	12,387,000
1862 .	469,569,000	389.173,000	42,640,000
1863 .	718,733,000	603,314,000	63,261,000
1864	864,968,000	690,391,000	85,705,000
1865.....	1,295,099,000	1,030,690,000	122,617,000

SPANISH-AMERICAN WAR, FROM APRIL 21, 1898, TO DEC. 10, 1898.

YEAR	Total.	War.	Navy.
1897 . ..	$365,774,000	$48,950,000	$34,561,000
1898	443,368,000	91,992,000	58,823,000
1899 .	605,071,000	229,841,000	63,942,000
1900.....	487,713,000	134,774,000	55,953,000

At the end of the Revolutionary War the United States national debt was $170,000,000.

AUTOMOBILING COSTS AMERICANS SIX BILLIONS A YEAR.

The capital tied up in automobiling in the United States is estimated at over $6,000,000,000, as against the $18,900,000,000 capitalized value of the railroads of the country, according to the Railway Age, which figures it out as follows:

Depreciation on 7,623,551 cars at 20 per cent. on an average cost of $1,200 each..... .. .	$1,829,000 000
Interest—7,623,551 cars average cost of $1,200 each, or a total of $9,148,261,200, at 6 per cent .	549,000,000
Gasoline consumption of 2,178,729,000 gallons at 25 cents per gallon	554,682,250
Lubricating oil—7,623,551 cars, average consumption per car of 8.33 gallons at $1.25 per gallon	729,280,225
Tires—30,000,000 manufactured at an average cost per tire of $33..... .	1,000,000,000
Accessories and parts used in repairs, etc.....	621,722,048
State license fees.....	65,000,000
Insurance premiums—60 per cent of all cars insured, at $72 per car..	329,337,432
Garage storage and service charges, average $15 per car per month.....	1,372,239,180
Labor cost for repairs—63,026 garages and service stations employing an average of five men each at an annual wage of $1,000 each.....	310,180,000
Total cost of operation, maintenance and depreciation in 1919.	5,497,555,220
Increase in costs of operation, maintenance and depreciation, based on increase in the number of cars in operation in 1920, of 725,290 cars, or 9 5 per cent..	522,267,746
Total cost of operation, maintenance and depreciation in 1920.....	6,019,822,966

"These estimates," says the journal quoted, "include nothing for expenditures made by the public for the construction and maintenance of highways for the automobiles to run on Nor do they include anything for the economic cost of automobile accidents. If data regarding these points were available they probably would disclose the astonishing fact that even after the advance of $1,580,000,000 in railway rates has been made, the American public will be spending as much for its automobile transportation, most of which is a luxury, as for its railway transportation, most of which is a necessity. It is estimated that the number of new cars which will be built and sold in 1920 will be 2,250,000, while the number that will be retired from service will be about 1,525,000. This would result in a net increase in cars of service of 725,000, or 9½ per cent"

WORLD'S LOSSES BY STRIKES.

According to statistics compiled by the Manchester (England) *Guardian*, in the period between January and June, 1920, 8,977,798 people took part in strikes. This includes all branches of industry, commerce and agriculture at home and abroad. Special note was taken of the number of workdays wasted on accounte of these strikes. The total number amounts to 114,814,980 days. The tables herewith give details from which these figures are calculated in Germany and other foreign countries, but it should be noted that the figures are, if anything, underestimates, for it has been impossible to obtain statistics of every small disturbance. In two-thirds of the strikes recorded the strikers failed to achieve their objects, so that in only one-third of these industrial wars did the attackers gain advantage.

THE TIMUR RUBY.

(From the London Times.)

THE diamond known as the Koh-i-Noor (Mountain of Light) has formed part of the British regalia since 1850, and the gem known in the days of the Mogul Empire as the Khiraj-i-Alam (Tribute of the World) and to European experts as the Timur Ruby has been included among the Crown jewels of England for nearly as many years. Some experts have supposed it lost. It is the largest spinel ruby known, weighing just over 352 carats, uncut but polished, and was probably discovered in one of the old ruby mines of Badakshan. The romantic history of the jewel has been investigated. The earliest historical records show that it was seized along with many other precious stones by the Ameer Timur, commonly called Tamerlane by European historians, when he plundered Delhi in 1398. The Tartar conqueror stayed in India for little over a year and returned to Samarkand, taking all his booty with him. On his death the ruby descended to his son, Mir Shah Rukh, and in due time to his son and successor, Mirza Ulugh Beg. By this time the Tartar Empire was on the wane, and in the general dislocation during one of the wars between the Tartars and Persians the ruby came into the possession of the Kings of Iran. Shah Abbas I., the greatest of the Safavi Kings of Persia, who in conjunction with the British forces took the Island of Ormuz from the Portuguese in 1622, was a friend and ally of the Mogul Emperor Jehangir, and presented the ruby to him in 1612. At that time the gem was inscribed with the names of Timur's son and grandson and of Shah Abbas himself.

These inscriptions no longer exist, and it is uncertain whether they have been obliterated in the course of time or were removed by the order of Jehangir himself. That Emperor had the names of himself and his father, Akbar the Great, engraved upon it. Authentic records show that when Jehangir's favorite wife, Nur Jehan, remonstrated with him for spoiling the gem by this inscription, he replied: "This jewel will more certainly hand down my name to posterity than any written history. The house of Timur may fail; but as long as there is a King this jewel will be his." The ruby next passed to Shah Jehan, who also had his name inscribed upon it, and finally had it placed in the famous Peacock Throne. On his deposition by his son, Aurungzeb, or Alamgir Shah, the gem went with the rest of the jewels. Following the example of preceding Mogul owners, Aurungzeb added his name and the date on which he acquired it. The last of the Delhi Emperors to inscribe his name was Mahomed Farukh Siyar. In the reign of his successor Nadir Shah invaded India and sacked Delhi (1739). The loot carried away to his capital, then Ispahan, included the Timur Ruby, as is shown by the following inscription engraved in the cryptic style affected by Persian scholars of the day: "This (is) the ruby from among the 25,000 genuine jewels of the King of Kings the Sultan Sahib Qiran, which in the year 1153 from the (collection of) jewels of Hindustan reached this place." The date is that of the Hijra era and corresponds with 1740 A. D. Sahib Qiran ("the Lord of the auspicious conjunction") is the name by which Timur has always been known in Asia and the Moslem world.

The latest name on the jewel is that of Ahmad Shah, commonly known as Abdali or Durani, who, at the time of Nadir Shah's assassination in 1747, held an important command in his victorious army. On hearing of the murder he attempted to seize the throne, but succeeded only in securing a large amount of booty, which he took with him when he marched south at the head of his Usbeg troops and founded the Kingdom of Afghanistan. On his death in 1772 his son, Timur Shah, succeeded to the throne of Kabul, and the ruby eventually passed to the latter's youngest son, Shah Suja. On his expulsion by Dost Mahomed he took refuge in the Punjab, and Maharaja Ranjit Singh forced him to surrender both the Koh-i-Noor and the Timur Ruby. On the annexation of the Punjab in 1849, the Board of Administration took over all the state jewels. The Koh-i-Noor was sent direct by the hands of a special officer to England and at once delivered to the late Queen Victoria. Some of the more valuable gems and articles found in the *Toshakhana* (treasure house), including the Timur Ruby, were packed up in Lahore and sent via Karachi and Bombay to London. These were all displayed in the Great Exhibition of 1851, and when this was closed the Court of Directors of the East India Company presented the ruby to Queen Victoria.

AUTOS KILLED 3,808 IN UNITED STATES IN 1919.

A total of 3,808 persons were killed in automobile accidents, or died as a result of injuries therefrom, during 1919, the Census Bureau says in a statement offering suggestions for traffic improvement. An automobile accident death rate of 14.1 out of every 100,000 population was reported for 1919—an increase over every year since 1915 when the rate was 8.0, and an increase of 245 in the total number of deaths over 1918. "Each year it becomes more and more dangerous for a person to walk the streets," the Census Bureau said. "The reason usually given, and probably the correct one, is that the number of automobiles in use is constantly increasing. How then shall this ever-increasing danger be lessened? The obvious remedy is to improve constantly the traffic regulations to keep pace with the ever-increasing number of automobiles. This call for better and better traffic regulations is not a fanciful one. Every one is familiar with the necessity for slow and orderly progress when a crowd emerges from a circus tent and, similarly automobile traffic must be slowed down, controlled until it becomes safe. The 1919 rates for Kansas City, Mo , San Antonio and Cleveland, all much lower than for 1918, furnish a ray of hope that we are finally waking up."

Suggestions made by the Bureau for Traffic Improvement follow: Erection at street crossings of curbed safety islands, which at the most dangerous spot, should be very close together. Construction of additional crossings in the middle of blocks where automobiles can approach from only two directions. Demonstration of great skill in driving each machine before granting a driver's license for that machine. Reduction of the speed limit, especially at crossings. Fine, revocation of license and imprisonment, each to have its place as an actual penalty

Youngstown, Ohio, heads the list of sixty-six cities in the automobile death rate with 28.5 per 100,000, but showed a decrease from the previous year when the rate was 31.9. Richmond, Va., had the lowest rate, with 5.9, but showed a slight increase over 1918 when it was 5.4.

New York had the largest total number of deaths with 780, an increase of 89 over the previous year and more than double the number in 1915. New York's automobile death rate was 14.0 per 100,000 persons.

Chicago's total deaths numbered 328, an increase of 37, with a death rate of 12.3. Statistics for other cities of 250,000 or more population follow:

Philadelphia, total 191, decrease 35, rate 10 96.
Detroit 139, increase 14, rate 14.4.
Cleveland 126, decrease 42, rate 16.0
St. Louis 105., increase 12, rate 13.7.
Boston 125, increase 17, rate 16.8.
Baltimore 106, increase 4, rate 14 6
Pittsburgh 94, decrease 11, rate 16.1.
Los Angeles 119, increase 28, rate 21.1.
San Francisco 85, increase 11, rate 16.9
Buffalo 68, decrease 22, rate 13.6.
Milwaukee 60, increase 12, rate 13.2.
Washington 58, increase 4, rate 13 4.
Newark 82, increase 20, rate 20.0.
Cincinnati 67, increase 8, rate 16 7.
New Orleans 36, increase 8, rate 9.4.
Minneapolis 38, decrease 5, rate 10.1.
Kansas City, Mo., 42, decrease 22, rate 13.1.
Seattle 50, increase 10, rate 16.0.
Indianapolis 26, decrease 1, rate 8.4.
Jersey City 40, increase 10, rate 13 5
Rochester 32, increase 7, rate 10.9
Portland, Ore., 31, no change, rate 12.1
Denver 41, decrease 2, rate 16 1

WORLD'S SUGAR CROP, 1920-21.

Preliminary estimates by Willett & Gray (in long tons) for the 1920-21 crop

FOREIGN TRADE OF GERMANY, 1919-20.

The table below, reprinted from the Economiste European for Oct. 1, 1920, shows the foreign trade of Germany, by months, for the calendar year 1919 and the first five months of 1920. The figures of trade as here given were recently published by the German Government. The figures for 1920 appear abnormally large when compared with the corresponding figures for 1919, but a large proportion of the increase is due to the depreciation of the mark. In August, 1919, the average value of the mark in New York was about 5.29 cents, but the mark declined steadily until February, 1920, when it stood barely above 1 cent. The average monthly quotations for the first five months of 1920 have been as follows: January, 1.675 cents; February, 1.0586; March, 1.2648; April, 1.6513; May, 2.182 cents. Converted at these monthly rates, the imports for the first five months of 1920 show a value of $444,100,000 and the exports $385,648,000. Throughout 1919 the imports largely exceeded the exports. For January-March, 1920, the imports were $244,547,000 and the exports $152,362,000. In April and May, 1920, the exports exceeded the imports for the first time, the respective values being $199,553,000 for imports and $233,286,000 for exports.

The trade, by months, is shown in the following table:

CHEWING GUM STATISTICS.

The domestic consumption in the United States exceeds many times the exports, judging by the quantities of chicle imported, less the amounts re-exported, as shown in the following table:

Year.	Imports		Re-exports.		Year.	Imports		Re-exports.	
	Pounds.	Value.	Pounds.	Value.		Pounds	Value	Pounds.	Value.
1914.....	5,896,556	$2,178,053	2,304,442	$179,125	1917.....	6,117,922	$3,073,484	65,027	$30,905
1915.....	7,916,893	2,903,018	463,589	156,285	1918.....	7,251,022	3,917,104	76,753	44,831
1916.....	7,250,336	3,198,153	489,029	168,356	1919.....	9,445,538	6,216,987	268,790	155,239

The total imports of chicle in 1914, the last normal year before the war, were 5,896,556 pounds, invoiced at $2,178,053, or $0.37 per pound, as compared with 9,445,538 pounds, valued at $6,216,987, or $0.658 per pound, in the peace year 1919. Re-exports of 2,304,442 pounds, worth $779,125, averaged $0.338 per pound in 1914, while 268,790 pounds, invoiced at $155,239, averaged $0.57 per pound in 1919. Imports in 1919 gained by 2,194,516 pounds in quantity and $2,299,883 in value over corresponding returns for 1918. Re-exports also show an increase of 192,037 pounds and $110,408 as compared with 1918

Large quantities of chicle are imported from British Honduras, Colombia, Venezuela, and the Central American States, but Mexico is the leading source. This commodity is received largely through North Atlantic seaports, and thence shipped by rail to dessicating plants in Canada where the lumps or chunks are broken up, dried, and impurities such as dirt, twigs, and leaves extracted. The resulting semi-manufactured product, known as refined or dessicated chicle, is then shipped to the various gum factories in the United States. The imports of chicle by countries during 1919, as compared with 1918, were:

CLIFF HABITATIONS.

THE highest form of cliff habitation in the New World is the cliff pueblo, which is practically a village built in a large natural cave. When the cliff dwellers of Colorado had arrived at such perfection in masonry that they could construct a village like the Cliff Palace of the Mesa Verde National Park they had progressed far beyond the primitive cave house. This was the highest and most characteristic American form of stone cliff dwelling north of Mexico, and its counterpart is not known in the Old World.

There are true cliff houses of this type in Asia as well as in America. The cliff temple of the Mienshan Mountains lies in a great cave in Shaosi, the northern Province of China, which reminded Boerschmann of the "Cave of Winds" behind Niagara Falls Although there is no architectural resemblance between this temple and a cliff dwelling in Arizona, both are constructed under an overhanging cliff and the country in which both occur is semiarid A necessity for shelter is not so evident in the Chinese cliff houses as in Colorado, but the same thought is apparent in the choice of the sites of these cliff houses. They show that in localities thousands of miles apart, where geological conditions favor the custom of constructing villages in natural caverns, there these structures have been found.

As the cave life is probably older in the Old World than in the New, so the cave dwelling of that continent is the most highly developed architecturally. Many of the rock temples of Egypt—as the far-famed rock temple of Abu-simbel—China and India are among the highest known examples of man's skill and expertness in rock cutting. Of all these none surpasses in interest and beauty the ancient far-famed cliff city of the Syrian deserts, called Petra. Situated not far from an old caravan route across the desert from Damascus to Mecca, and protected from nomadic marauders by its marvellous position, Petra has been occupied successively from most ancient times by Edomites, Phoenicians, Egyptians, and Romans, all of whom have left examples of their art in its rock-hewn temples and amphitheatres, shrines, and house walls. After passing through a narrow defile called the Sik, whose perpendicular walls tower above on each side, a visitor suddenly beholds the magnificent "Treasury of Ptolemy" cut on the side of the cliff. This beautiful temple, empty because without cave behind it, is but the beginning of a series of facades covering the high cliffs in the enlargement of the canyon, at the base of which lies in ruins the fallen walls.

Although examples of prehistoric tunnelling occur in several localities in the New World, none of these can compare in extent with the subterranean passages of Syracuse in Sicily As in the Old World, so in the New, the cave is a resort for the priest who remains there to intercede with supernatural beings. As a place of burial it is sacred and in it at times are kept the sacred images and paraphernalia of worship. A fear of the cave due to superstition is not wholly confined to the Old World, but is also found in the New. Neither Navaho nor Ute, successors of the cliff-house people, would enter the cliff dwellings in early times before white men took the lead. Such an act would, they believed, bring direful ills, as blindness or even death, to any one who ventured within these old habitations.

OLD EGYPT FLOGGED PROFITEERS.

Ancient Egypt flogged its profiteers in the market places, and medieval England passed maximum wage laws, according to a communication by Ralph A. Graves to the National Geographic Society, which says: Following the devastation of the Black Death in England in 1348-1349, cultivation of the fields was utterly impossible, and there were not even enough able-bodied laborers to gather the crops which had matured. Cattle roamed through the corn unmolested and the harvest rotted where it stood. Out of the situation which resulted from the impoverishment of the labor resources of the kingdom grew the first great clash in England between capital and labor. The peasants became masters of the situation. In some instances they demanded double wages, and whereas formerly land-owners had paid one-twelfth of every quarter of wheat as the harvesting wage, they were now forced to pay one-eighth.

Parliament hurriedly passed drastic laws in an effort to meet the new condition. Statutes provided that "every man or woman, bond or free, able in body and within the age of threescore years, not having his own whereof he may live, nor land of his own about which he may occupy himself, and not serving any other, shall be bound to serve the employer who shall require him to do so, provided that the lords of any bondsman or land-servant shall be preferred before others for his service; that such servants shall take only the wages which were customarily given in 1347" (the year prior to the first appearance of the plague).

Violation of the statute meant imprisonment; and it was further provided that any reaper, mower, or workman leaving service should be imprisoned If workmen demanded more than the regulation wage, they were to be fined double, and the land-owner who paid more than the prescribed sum was to be fined treble that amount. Runaway laborers were to be branded with an "F" as a perpetual sign of their falsity. No bail was to be accepted for any of these labor offenses.

The first ordinance in English history designed to curb the greed of the middleman was passed nearly a century earlier (in 1258), when there was a bountiful harvest, but rains caused the crops to rot.

But England did not originate food control measures. A low Nile in 967 A. D. resulted in a famine the following year, which swept away 600,000 people in the vicinity of the city of Fustat. G'awhar, a Mohammedan Joseph, founded a new city (the Cairo of to-day) and organized relief measures.

The Caliph Mo'izz lent every assistance to his lieutenant, sending many ships laden with grain; but the price of bread still remained high, and G'awhar, being a food controller who had no patience with persuasive methods, ordered his soldiers to seize all the millers and grain dealers and flog them in the public market place. The administrator then established central grain depots and corn was sold throughout the two years of the famine under the eyes of a government inspector.

MILITARY ORDER OF THE LOYAL LEGION OF THE UNITED STATES.

Commander in Chief—Lieut. Gen. Samuel B. M. Young, U. S. A. *Recorder in Chief*—Brevet Lieut. Col. John P. Nicholson.

The Military Order of the Loyal Legion of the United States was organized by officers and ex-officers of the Army, Navy and Marine Corps of the United States who took part in the war of 1861-65. Total membership of the Loyal Legion is 5,941 (July 31, 1920).

Original companions of the first class—Commissioned officers and honorably discharged commissioned officers of the United States Army, Navy and Marine Corps, regular or volunteer, including officers of assimilated or corresponding rank by appointment of the Secretary of War or Navy, who were actually engaged in the suppression of the Rebellion prior to the 15th day of April, 1865, or who served under the President's call of the 15th day of April, 1861; or who, having served as non-commissioned officers, warrant officers or enlisted men, during the War of the Rebellion, have since been or may hereafter be commissioned as officers in the United States Regular or Volunteer Army, Navy or Marine Corps. All midshipmen in the United States Navy and all cadets of the United States Army, who, while pursuing their course in the United States Naval Academy or the United States Military Academy at West Point, actually rendered service.

Hereditary companions of the first class—The direct male lineal descendants, who shall have attained the age of 21 years, of deceased original companions of the first class, and of deceased officers and members of the order, but who were eligible as such, and whose direct descent shall in every case be traced anew from the original founder of the membership in the order, or from the deceased eligible officer, and not otherwise.

Any original companion having no direct lineal male descendant, may, by writing filed with the Recorder of his Commandery, nominate a companion of the second class from among the collateral male members of his family, descending only from his own brother or sister, and the person so nominated when he shall have attained the age of 21 years shall become eligible to membership for life in the second class.

Second class—The sons, and if there be no sons, the grandsons, of living companions of the first class, whether original, in succession, or by inheritance, who shall have attained the age of 21 years, shall be eligible to membership.

Third class—Companions of the third class are those gentlemen who in civil life during the Rebellion were specially distinguished for conspicuous and consistent loyalty to the National Government and were active and eminent in maintaining the supremacy of the same; and who, prior to the 15th day of April, 1890, were elected members of the order pursuant to then existing provisions of the Constitution, the power to select such having ceased at that date.

Abrasion of Coins—It is reported officially in Switzerland that the comparative abrasion of various coins was tested by placing equal weights of many varieties inside a drum which was revolved for forty continuous hours. The result was as follows, in percentages: Ten-rappen piece of alum. alloy, 11.27; 1-franc piece of 0.835 silver, 0.165 copper, 7.79; 5-rappen piece of brass (100 rappen = 1 franc), 4.01; 10-rappen piece of copper-nickel, 2.45; 1-rappen piece of bronze, 1.23; 20-rappen piece of pure nickel, .59.

THE ORIGIN OF THE HORSE.

(By E. Prisse d'Avennes.)

THE horse was not known to the Egyptians before the close of the twelfth dynasty, after the campaigns of Osortassin in Asia. Without doubt it was with the invading shepherds that the horse first made its appearance and became naturalized in the valley of the Nile. A searching study of these Pharonic palaces enables us to state positively that there is not a single representation of a horse on any of the Egyptian edifices erected before the invasion of the Hyksos, or shepherd kings. Only after the overthrow, and more generally after the expulsion of these Asiatic conquerors, do we find depicted on the Egyptian monuments military scenes in which horses and war chariots play a considerable part in determining the great changes in the tactics of the Egyptian army. Moreover, the ancient historians, like Herodotus, Diodorus Siculus, and Strabo, are unanimous in omitting any mention of the appearance of this noble animal prior to the epoch of the Hyksos invasion. Had the horse been indigenous to the valley of the Nile the early Egyptians, who were accustomed to deify the more remarkable animals and plants of their country, would certainly not have neglected to give to one of their gods the head of the hardy and spirited courser who shared with man the dangers of the battlefield.

If they did not raise altars to him, as they did to so many sacred beasts, it is only because they held in abhorrence the people to whom the introduction of the beautiful animal was due. Finally, if the first Egyptians did not institute sacrifices of horses, like the assouame' d' ha of the Hindoos, it was because the flesh was tabooed on account of the inveterate hatred that the customs of the Hyksos had left among the earlier inhabitants of the land. Nevertheless, the Egyptians esteemed the horse too highly to employ him in agriculture, and never, except in one little bas-relief on the temple of Khons at Karnak, do we find horses harnessed to a plow. After the expulsion of the Hyksos, about two thousand two hundred years before the Christian era, the Egyptians began to give much attention to the equine race, and the care they lavished upon their breeding soon resulted in a great numerical increase.

The Arabian horse is par excellence the king of horses. In every case where the blood is pure it presents the most perfect type, and in every case of mixture its offspring show some remarkable qualities. Almost alone it seems to have the faculty of improving the various breeds with which it is crossed and of perpetuating through successive generations its characteristic traits. As every one knows, Arabian horses are wonderfully intelligent. Story after story is told of their extraordinary affection and sagacity. Moreover, they possess other admirable qualities. More than any other horse an Arabian can stand hunger, thirst, extreme fatigue, and bad weather. Consequently he makes an ideal war horse. The Arabian horse was acclimated in France about the time of the first Crusades and is the foundation of our beautiful and powerful races of Limousin, Brittany, Ardennes, Aubergne, and others almost as well known. The Romans valued most highly as a war mount the Numidian horse. They used them with great success in their expeditions against the Germans, the Gauls, and the Scythians. During the Crusades the Frankish peoples brought home numbers of Oriental horses.

All the famous horses of history—that of Richard Coeur de Lion at Medina, of Philip Augustus at Bouvines, of William the Conqueror at Hastings, of Saint Louis at Massoure, of Francis the First at Pavia, of Henry the Second at the tournament in which he was killed, of Henry the Fourth at Arques de Ivry, of Louis XIV. in his wars and fetes, and, finally, of Napoleon at Marengo and Austerlitz—all these horses were "Arabians" or "Barbs."

The Arabian horse is easily recognized by a peculiar physiognomy. He has always a remarkable expression which is not found in any other race and which seems to signalize him as the type of the species. His head is square and sharply chiseled; in front it is large and sometimes bulgy; the back of the skull is also well developed. The eyes are large, prominent, and ordinarily very beautiful, with the characteristic black lashes. The ears are small, well placed, and mobile. The lower jaw is a little strong; the forehead is hollow rather than prominent; the muzzle is sharp; the nostrils large and susceptible of great dilation when the horse is excited. The mouth is of medium size, with a small lower lip. A well-attached head and easy curve of neck and shoulder give an elegance to the animal. The neck is long enough to bend gracefully, and, when the horse runs, is thrown back to form what is termed the "stag neck." This conformation, looked upon somewhat as a fault, is natural to all animals who run long distances.

The omens which the Arabs draw from markings and other signs on their horses are remarkable. A black horse without any spot will bring misfortune. A black stripe on the back from the neck to the tail is an enviable sign. Black spots on the fetlock joint diminish by at least one-half the value of a stallion or colt. The horse with a hard cornea is not only swift, but very patient into the bargain, while a restive animal has, as a rule, small eyes and narrow nostrils. Horses with tawny hair around the pasterns are good for breeding. "Look out," says the Arab, "for spots which are not exactly centred in the forehead. Any horse which has a white star and no white feet will carry you to destruction. Horses with black spots on the mouth are unlucky, wicked, and inclined to bite and kick. A horse with white on his lips and mouth will run faster than the wind. A horse whose white face stops on its nose will rear continually and throw the best of riders. If the upper lip is white underneath near the gums it is a favorable sign; if it is black it is unfavorable. A white mark on each side of the chest, back of the stirrup, indicates speed and safety; they are called 'the wings.' The horse with long white stockings is a dangerous brute. If the white runs higher on the right side than the left, sell him or prepare your burial garment. The horse with the chest of a lion, the hindquarters of a wolf, and the legs of a gazelle, long may he live."

PUBLIC MARKETS IN NEW YORK CITY.

THE public markets are West Washington, Gansevoort, Washington, Jefferson and Delancey in Manhattan, and Wallabout in Brooklyn.

Washington Market, at Fulton and West Streets, covers an area of 175 x 203 feet, and was established in 1812. Meat, fish and game, butter, eggs, cheese, fruits and vegetables are sold there. The city charges for space in this market.

West Washington Market, established in 1889 at Gansevoort and West Streets, covers 369 x 400 feet. There are ten buildings—two-story structures in blocks of twenty stands, with marketing space on the first floor and offices on the second. It is a wholesale market in which meat, garden produce and live poultry are sold. The stalls are leased.

Jefferson Market, at Greenwich Avenue and Sixth Avenue, occupies 36,000 square feet. This is a retail market. Space is rented by the city to dealers.

Gansevoort Market, an open square bounded by West, Little West Twelfth, Washington and Gansevoort Streets, has no buildings of any kind. It is by legislation restricted to the use of farmers and gardeners for the sale of products they themselves have grown. Each farmer is charged 25 cents daily. It is mostly a wholesale market for dealers.

Delancey Street Market is under the approach to Williamsburg Bridge at Pitt and Willett Streets, where fish, vegetables and fruits and miscellaneous dry goods are sold. It occupies a space 400 x 100 feet.

Harlem Market—Under Harlem Bridge, 130th Street and 3d Avenue. Things are sold at retail.

Queensboro Market, retail, under Queensboro Bridge; Manhattan approach, 1st Avenue, Avenue A, 59th and 60th Streets.

Wallabout Market has an area of thirty-six acres. It extends from Clinton Avenue to East Avenue, to Wallabout Basin. The city owns the land and the ground is leased. Many farmers use this market to sell their produce to dealers, and pay 25 cents a day for each wagon space in the market. Mostly all the purchases are wholesale.

DISBURSEMENTS BY FEDERAL PROHIBITION DIRECTORS.

(In the year ended June 30, 1920.)

CURIOUS FACTS ABOUT TEETH.

(Prepared by the American Museum of Natural History, N. Y. City, in connection with an exhibition.)

THE "Aristotle's lantern" of the sea-urchin consists of five pyramidal jaws, each carrying a long, slender tooth of continuous growth, which moves forward in the jaws as it becomes worn away at the point. The horse-shoe or king crab wears his teeth on his legs, at the first joints of which is a series of spines and sharp points. The food is torn to bits on these teeth and worked into the mouth opening. The lobster does his chewing with teeth which are to be found on his fourth to ninth appendages. Some of these teeth are adapted to seizing the food, others to grinding it, etc. The beetle and worm boast teeth as useful and efficient as any. Of course there are teeth of many kinds. But the typical tooth of a vertebrate or back-boned animal, consists of (1) pulp contained in a cavity, which by deposition of lime in its exterior portion becomes (2) dentine, ivory or bone, forming the body of the tooth, (3) enamel, overlying the dentine on the crown of the tooth, and (4) cement, usually surrounding the base of the tooth and sometimes covering part or all of the enamel of the crown.

The teeth of some animals, however (the sperm whale, for example), have no enamel whatsoever. In man, as in most mammals, the teeth are set in distinct, separate sockets, called by the initiated "alveolas," and are separated by a membrane from the surrounding bone. But nature has other ways of implanting teeth. The extinct sea reptile known to the scientist as Ichthyosaurus had his teeth planted in a continuous shallow groove, as was the habit with certain birds which lived many centuries ago. Modern birds, however, have adopted the fashion of going toothless. Another sort of attachment of the teeth is by means of a bony union of the outer side of the teeth with the inner side of the jaw. In a fourth case the base of the tooth is completely fused with the side of the jaw. It is another evidence of a beneficial nature that man, the only creature who is given to having his teeth extracted, does not have his teeth implanted in this last way. Some animals have the advantage of teeth which are more or less movable, due to the fact that they are attached to the jaws by ligaments. This is the case with many fishes and some reptiles. With snakes this arrangement facilitates the swallowing of the food.

Some animals, less fortunate than man, have only one set of teeth, which are expected to last them through an entire life-time. Most mammals, like man, have two sets—a temporary or milk set and a permanent set. No mammal has more than two sets of teeth. Generally a tooth is replaced by the formation below it of another tooth. As the new tooth increases in size, the roots of the old one are absorbed until finally it falls out and gives place to the new. Most reptiles and fishes, however, are well supplied with teeth, having several series, which provides for a more or less continuous loss and replacement. The shark is not worried by the fear of a toothless old age, for he has several rows of teeth, one behind the other, and as fast as the teeth in the outer row are lost they are replaced by those just back of them. Replacement may be accomplished by the formation of a new tooth beside the old one, which is absorbed at the point of contact until the developing tooth enters the base and replaces it. That is the way crocodiles and lizards do it. Or teeth may be formed at the back of the series, these moving forward to take the place of those worn away. The teeth of the elephant are developed at the back of the jaw, and the entire row moves slowly forward, the front part of each tooth coming into use first and wearing away as it is pushed forward. While six teeth are developed on each side of either jaw, not more than parts of two teeth are in use at any one time.

Teeth, according to their make-up, vary in growth. Some teeth grow for only a limited time. Others, more energetic, continue to grow throughout lifetime. In the first case the interior cavity occupied by the pulp fills up and growth ceases. In the latter instance the pulp cavity remains open, the tooth is continually pushed outward and layer after layer of dentine forms at the base. The continuous growth of some teeth is illustrated by a section of an elephant's tusk containing a wrought iron bullet. The bullet was fired into the hollow base of the young tusk, and the continual formation of dentine resulted in embedding the bullet in solid ivory. Not all animals wear their teeth in their mouths. As has been said, some are partial to the location of their teeth on their legs, while others consider the stomach the ideal situation. And even among those animals who consider that the tooth's sphere is the mouth, there are differences of opinion as to just where teeth can be worn with propriety.

The frog grows teeth only on his upper jaw. The animal known as Hoffman's sloth has teeth only on the hinder parts of both jaws. The gazelle's teeth are permitted to grow on both jaws, with the exception of the front of the upper jaw. Despite these and similar eccentricities, however, most animals, including the majority of mammals, have their teeth grow continuously on the edges of both jaws. The form and arrangement of the teeth of various animals differ to meet the various circumstances. The teeth (or saw) of the saw-fish, far removed from the mouth, are designed for wounding or killing the prey. The teeth of the python are made for seizing and grasping, and are long and recurved so as to hold the prey while the gullet is worked over it. The teeth of the ray, which feeds on shellfish, are adapted to crushing. The lion's teeth are shaped for cutting, rending and killing. His posterior teeth act as scissors.

The teeth of the beaver are long, sharp and chisel-shaped—requisite tools for his life's work of gnawing. The fangs or front teeth of the poisonous snake are really tubes which serve as hypodermic syringes to inject the poison. An opening at the base of the fang connects with the poison sac. Reserve fangs back of the ones in use soon replace those lost, so that removing the fangs of a poisonous snake renders him only temporarily harmless. The elephant grinds his food between teeth whose roughened surfaces act like mill-stones. The whale strains or sifts the water with which he fills his mouth by ejecting it through his teeth—sieves formed by plates of baleen. In this way he retains in his mouth, on the inner, hairy surface, the small animals left by the receding water, on which he dines.

TROOPS FURNISHED BY EACH STATE IN WORLD WAR.

THE AMERICAN BISON.

(By the late "Buffalo" Jones.)

The bison is an animal perfectly trained to take every advantage of his environments. His instinct surpasses that of the shrewdest ranchman—because for ages he maintained himself where the cattle of the ranchman are now dying. There is no waste grass left on the four-foot swath which the animal cuts in feeding. The herd rises at dawn and commences to graze. When filled they start for the trail, led usually by an old cow, who gives the signal for starting by sounding a grunt not unlike that of a hog, only much louder. The remainder of the herd drop in behind, following exactly in her footprints until they reach the path which leads them to their drinking place. This path never exceeds twelve inches in width. It is the same path along which the ancestors of these buffalo have traveled for countless ages.

When the pool, lake or stream is reached the buffalo step in, fill themselves and immediately return to the banks instead of lingering in the water and polluting it, as domestic cattle do. Thus, by keeping to one track, they have saved the grass over which the cattle straggle to water, and they have kept the water pure and fresh. After resting an hour or so they wend their way over a well defined trail for miles and miles, without cutting a blade of the grass which is so necessary for their subsistence. If the man who "causes two blades of grass to grow where only one has grown" is a benefactor of the race, how much more is the buffalo a benefactor, who preserves thousands of blades that other animals ruthlessly destroy?

The buffalo never yields to disease. He is clean in his domestic habits and in consequence always drinks pure water, eats clean, fresh grass, does not besmear himself with filth and consequently never suffers from any of the skin diseases common to domestic or range cattle. His thick underfur and the "pantalets" which cover his legs make him unaware of the existence of flies in summer and allow him to fatten where domestic cattle grow thin and die on account of these pests. When winter comes he adds an additional robe of fur to his robe of fat, and turning his head to the storm eats quietly along to the front in the face of the fiercest blizzards that ever blew.

There are many small traits of the buffalo that are lacking in cattle. The buffalo cow never allows her calf to be destroyed by the coyote. The buffalo never mire in swamps or pools, as so many cattle do. When they find that they are becoming stuck they throw themselves on their sides and swim or paddle through the mud as would a hog. In spring time they curry themselves by rolling in wallows, made in the hard, dry clay, thus removing their winter coats and loosening up their skins, so as to take on flesh. They always lie with their backs up a hill so as to rise early, and always have guards out day and night to warn the herd of approaching danger. They always face a storm, and never "drift," as do cattle. They lie down with their heads to the fiercest storm, throwing their heads around on their sides and sleeping contentedly, while the great mass of fur on their high humps shields the more exposed parts of their bodies from the winds.

A strange thing about a buffalo is that the younger females always follow the old grandmothers. They seem to propagate in families, and the families can be distinguished by peculiar facial resemblances. No person ever saw a herd of buffalo move in a straight line. They always take a zig-zag course. My explanation is this: A buffalo is a very cautious animal. Their shaggy foreheads prevent their seeing objects on either side of them. To prevent a surprise from an enemy they walk obliquely to the right, and then to the left, and in that way get an unobstructed view of the surrounding country.

HARE HUNTING, ANCIENT AND MODERN.

Xenophon, in 350 B. C., hunted Attic hares in the country around Scillus. Edward III., of England, in his campaign in France maintained 60 couple of harriers; while Queen Elizabeth, the first lady to hold the office of Master of Hounds, kept both hunting harriers and beagles. James I., maintained his jelly dogs in style, paying Sir Patrick Houme, Master of the Priory Harriers, "for his fee £126 per annum, and for keeping one footman, four horses, and twenty couple of dogs, another hundred," Richard Gwynne, Groom of the Harriers to the Prince, also receiving 13d. per diem and 20 shillings a year for his livery. Although William III.'s pack were called beagles, they looked far more like foot harriers, and were evidently hunted on horseback, for at a noted meet at Welbeck in 1695 the field is reported to have totalled over 400 horsemen. George IV.'s beagles were a foot pack.

Britain has always been celebrated for its hounds; and as long ago as A. D. 264 Oppian in his "Cynegatica" (Book I., p. 468) describes what we may take to be the earliest ancestors of the harrier. According to Oppian, "Those excellent kind of scenting dogs were bred by the fierce nation of painted Britons, who called them Agassaeus; in size they are small, resembling worthless, greedy house dogs who gape under tables, They are crooked, lean, coarse-haired, and dull-eyed (the same defects we find Xenophon deploring in his pack); but armed with deadly teeth and powerful claws and are of most excellent nose." From this indigenous race, crossed no doubt with the hounds introduced by Saxon and Danish ancestors when they settled in the country, and recrossed with the Normandy hounds and the black and white St. Huberts, were gradually evolved the slow, old-fashioned hounds known as the Southern and the Talbot. Big, lumbering hounds, standing a good 26 inches high, slow as a man according to modern ideas, and possessing many glaring defects in make and shape, they also possessed wonderful patience and scenting powers and grand voices—"Matched in mouth like bells, each under each."

Although these big, heavy hounds were used to hunt hare in several parts of England as late as the middle of the 18th century, the majority of Masters of harriers were beginning to follow Beckford's advice, and were crossing this old Southern hound with the active, nimble North country beagle, endeavoring to get as much bone and strength in as small a compass as possible, and to reproduce in their own kennels Somerville's portrait of the perfect hound.

STRENGTH OF THE ARMY AND THE GUARD.

THE Regular Army and National Guard are keeping pace with each other in the development of strength under the Government's plans for military reorganization, and in officers and enlisted men these two arms of the military service have (Nov. 30, 1920) an aggregate of 297,671 officers and men, according to figures made public by Major Gen. Peter C. Harris, the Adjutant General of the Army.

The Regular Army consists of 13,461 officers and 208,364 enlisted men, while the latest figures for the National Guard show that it contains 4,159 officers and 71,687 enlisted men. In the guard and regulars combined there are now 17,620 officers and 280,051 enlisted men. During the past month 8,858 officers and men have been added to the Regular Army, while 4,135 have been added to the National Guard.

New York State leads the States in the strength of its National Guard. The authorized strength of the National Guard of New York is 20,857. Figures given out to-day show that the New York guard now has a strength of 10,244, of which 508 are officers and 9,736 are enlisted men. This is about one-seventh of the entire National Guard strength of the whole country. On April 1 last the strength of the New York guard was 5,617, while on July 1 it stood at 7,635.

The distribution of the strength of the Regular Army on Nov. 30 follows:

UNITED STATES TREASURY ESTIMATES, 1921-1922.

Estimates of $4,653,856,759.36 for the maintenance of the Government during the fiscal year ending June 30, 1922, were submitted to Congress Dec. 6, 1920, by Secretary Houston of the Treasury Department. The estimates fall short by $211,000,000 of the amount asked for 1921, which was the largest sum ever asked for peace-time expenditures. Estimates for the current fiscal year are:

Legislative.	$19,292,433.95	Navy.....	$695,763,767.47
Executive..	2,449,461.90	Interior....	366,305,513.42
State.....	13,683,528.94	Post Office.	2,399,020.00
Treasury...	1,624,483,694.98	Post. service	585,406,902.00
Ind. offices.	250,079,746.00	Agriculture.	53,739,384.00
Dist. of Col.	26,419,644.99	Commerce.	29,976,481.00
War.....	938,227,567.26	Labor.....	10,835,565.75
Pan. Canal.	16,187,255.40	Justice.....	18,606,792.30

The cost of the Postal Service, $585,406,902, will be deducted from the total estimates because the expense will be paid by revenues received by the department. This deduction leaves an ultimate balance of $4,068,449,857.36. The sum of $1,300,776,360.87 for permanent annual appropriations is included in the total of $4,653,856,759.

The War Department estimate is $270,000,000 less than the amount asked last year. Increase for the Navy Department is $145,000,000. Secretary Baker wants $699,275,502 93 for the Army, Military Academy and National Guard Last year he received for these $394,700,577.70. Secretary Daniels asks for $658,522,211.47. Congress gave him $24,325,498.40 last year. The Army Air Service would cost $60,000,000, according to the estimates. Navy aviation needs $35,000,000, Secretary Daniels estimates.

The United States Shipping Board asks for $147,898,520, as against $442,500,000, which it received, last year.

Pensions take up $265,190,000 of the amount asked by John Barton Payne, Secretary of the Interior. The War Risk Insurance Bureau should cost $160,000,000, so Secretary Houston reports.

Items in the State Department's request are $1,799,000 for diplomatic salaries, $1,250,000 for the contingent expenses of foreign missions, $3,884,000 for consular salaries, $1,500,000 for their expenses and $1,000,000 for the "entry of aliens into the United States."

Attorney General Palmer wishes $300,000,000 for the enforcement of the National Prohibition Act and $2,650,000 for the detection and prosecution of general crime. Prohibition enforcement as well as the enforcement of the Narcotic Law will cost $7,500,000, according to Secretary Houston. The salary list of the Prohibition Bureau would come to $5,135,300, as against $1,657,405.55 expended in 1920.

The annual permanent appropriations totalling $1,300,776,360 carry $265,751,000 for the sinking fund and $922,650,000 for interest on the public debt.

The Interior Department wants $25,686,000 for the reclamation service; the War Department, $68,000,000 for army engineers' work on rivers and harbors, $35,676,000 for fortifications and $71,476,000 for military posts, and the Department of Agriculture $666,000 for stamping out the pink bollworm.

UNITED STATES SHIPPING BOARD BALANCE-SHEET 1917-1920.

THE Shipping Board made public Dec. 10, 1920, a "consolidated balance sheet as of June 30, 1920," giving financial transactions of the Board and the Emergency Fleet Corporation from their inception in 1917 to that date. It showed total liabilities of $3,537,380,726.94 and assets of the same amount.

The liabilities given in the "consolidated balance sheet" included appropriations by Congress of $3,213,217,110, "reserves" of $735,618,316 and other liabilities of more than $100,000,000, the whole totalling $4,050,746,866. The total liabilities of $3.537,380,726 represented the difference between the $4,000,000,000 total and the excess of expenses over revenues from operations, sales and the like, which was placed at $513,336,139.

Revenues from operations, sales of ships, etc., were given as $1,148,928,155 and expenses as $1,662,294,294. Revenues from operations of vessels were $817,271,541 and expenses of the operations $1,002,396,579, the apparent net loss from operations being $185,125,037. Vessels sold brought $296,515,344, while they cost the Board $339,083,676, making the total loss on these transactions $42,568,331.

In its capital assets the Board listed the vessels owned at $2,670,612,755, this sum representing expenditures for construction, purchases and reconditioning. The value of shipyards property and equipment, fuel oil stations, real estate and buildings, automobiles launches, and the like was placed at $158,895,243. Expenditures for construction of and improvements to housing projects and transportation facilities were given as $69,604,977. It was explained that all of these figures represented war costs and not the present value. Current assets listed in the balance sheet included accounts receivable of $293,792,558; general cash and cash fund, $96,547,951; investments, $30,917,587; notes receivable, $70,248,537, and materials, supplies, ships' stores and the like, $143,400,297.

On the actual operation of its fleet the Board claimed a gross revenue of $440,549,001, the revenues from voyages being placed at $768,077,700, while voyage expenses were only $328,527,999. Maintenance, insurance, depreciation and other expenses, however, more than ate up these excess revenues. Under the head of shrinkage due to appraisals the Board showed a total loss of $98,038,507 on materials of all kinds, while the loss on contract cancellations was placed at $105,176,811. Depreciation of the value of the fleet itself was estimated at $209,465,323, insurance at $140,393,528 and maintenance at $86,321,576.

PEACE COMMISSION COST U. S. $1,651,191.

PRESIDENT WILSON informed the Senate, in an official communication, Dec. 8, 1920, that the actual expenses incurred on behalf of the American Peace Commission that represented this country at Paris totalled $1,651,191.09. The President submitted an itemized expense bill as follows: Expenses Dec. 1, 1918, to Dec. 31, 1919—Travel and subsistence, $28,442.27; subsistence, $193,629.90; salaries, $200,871.84; stationery, office supplies, printing, newspapers, etc., $55,898.57; wages employees at Hotel de Crillon, $131,507.00; rents, $176,853.91; food, hotel and kitchen supplies, $283,560.47; hire and launder of linen, Hotel de Crillon, $64,969.53; repairs and upkeep boilers, Hotel de Crillon, $5,525.50; telephone hire, $166.17; fuel, heat, light and compressed air, $52,457.21; water rent, $5,155.05; inventories and legal services, $12,529.16; copies of German and Austrian treaties, $3,453.32; maps to accompany treaties, $1,183.85; damages and loss of property at Hotel de Crillon, $125,870.82; taxes on premises, No. 4 Place de la Concorde, $1,524.58.

Special allotments—Gen. McKinstry (proposed reparations commission), $73,375.46; Col. E. E. Riggs, missions to Russia and Austria, $19,000.00; Ellis Loring Dresel, mission to Germany, $1,000.00; W. C. Bullitt, mission to Russia, $5,000.00; Lieut. Col. W. Greene, mission to Baltic provinces, $15,000.00; Pierrepont B. Noyes, Inter-Allied Rhineland Commission, $25,112.20; Capt. Earl Bassett, representative Inter-Allied Commission to Posen, $1,000.00; H. C. King and C. R. Crane, Inter-Allied Commission on Mandates in Turkey, $10,900.00; Henry Morgenthau, mission to Poland, $21,900.00; Brig. Gen. H. H. Bandholtz, Inter-Allied Mission of Generals in Hungary, $28,838.48; General commission to negotiate peace at Warsaw, $5,000.00; Brig. Gen. Chaney, Inter-Allied Commissioner concerning evacuation of Baltic provinces, $10,000.00; Col. W. N. Haskell, Inter-Allied High Commissioner in Armenia, $4,500.00; Mr. Rathbone (Reparations Commission), $20,000.00; automobiles for Mr. Morgenthau and Col. Greene, $14,602.96; confidential expenses Presidential party, $17,534.16; disbursements Department of State, $88,149.58; total, $1,703,712.06; less repays and gain by exchange, $52,520.97; total actual expenses, $1,651,191.09.

The complete itemized bill gave the salaries of all employees. The expenditures in minute detail by all disbursing officials, the refunds and by whom made, each item being listed separately and by voucher number. The refunds included one by President Wilson of 914.70 francs for expenses while at Rome, by Col. House of 10,402 francs for official entertainment from Dec. 1, 1918, to June 3, 1919, and by Secretary Lansing of 1,589 francs for tips.

There were a number of items which gave the amounts expended by Rear Admiral Cary T. Grayson, all these being listed under the caption "Confidential Expenses of the President." The items credited for this purpose varied in amount from $65 to $1,500.

One of the largest single items in the account is $125,870 for "damages and loss of property at Hotel de Crillon." The Hotel de Crillon was the building on the Place de la Concorde where the American Peace Commissioners and many of the employees of the commission lived and had their offices during the Peace Conference. The hotel was taken over by the U. S. Government. Very few alterations were made in the hotel. The item of more than $125,000 for damages and loss of property represented the claims of the hotel ownership after the American commission's lease expired.

Commissioners Lansing, House, White and Bliss had apartments in the Hotel de Crillon. A large number of the employees of the America commission took their meals in the hotel, whose restaurant was under American management. It is noted in the statement from President Wilson that all expenses incurred by the wives or other relatives of persons attached to the commission had been refunded promptly. In most instances the refund was in payment of board bills.

The mission to Soviet Russia of W. C. Bullitt, who afterward told the Senate Committee on Foreign Relations of confidential conversations with Secretary Lansing, cost $5,000.

UNITED STATES FOREIGN TRADE IN 1920.

THE ASSEMBLY OF THE LEAGUE OF NATIONS.

THE first meeting of the Assembly of the League of Nations was held at Geneva, Switzerland, November 15, 1920, at the call of President Wilson. Forty-one nations were represented. The United States, Germany, Russia, Austria and Hungary were not members, and consequently had no delegates present. Paul Hymans, of Belgium, provisional chairman, was chosen president of the assembly, in a secret ballot, receiving thirty-five votes.

The following were chosen as officers of the six committees of the assembly:

No. 1 Committee, dealing with general organization—Mr. Balfour (Great Britain), chairman; Mr. Wellington Koo (China), vice-chairman.

No. 2 Committee, dealing with technical organization—Signor Tittoni (Italy), chairman; M. Toma Jonescu (Roumania), vice-chairman.

No. 3 Committee, dealing with courts of justice—M. Bourgeois (France), chairman; Senhor Costa (Portugal), vice-chairman.

No. 4 Committee, which deals with finance—Senor Quinones de Leon (Spain), chairman; Dr. Pestrepo (Colombia), vice-chairman.

No. 5 Committee, which deals with the admission of new members—Don Hunerus (Chile), chairman; Dr. Blanco (Uruguay), vice-chairman.

No. 6 Committee, which deals with mandates, armaments, and the economic weapon—M. Branting (Sweden), chairman; Dr. Aguero, (Cuba), vice-chairman.

The six Vice-Presidents of the Assembly were elected November 18, by secret ballot. Five only obtained a majority of the 39 votes—namely, Viscount Ishii (Japan), 32; M. van Karnebeeck (Holland), 31; Senor Pueyrredon (Argentina), 28; M. Benes (Czecho-Slovakia), 26; and Sir George E. Foster (Canada), 22. Senhor Octavio (Brazil), obtained 18 and three others eight each. A discussion arose on the President's suggestion that a second ballot should be held between Senhor Octavio and the eldest of the three which had gained eight—namely, Dr. Nansen. M. Viviani protested, and another ballot among all the available delegates without restriction was taken, with the result that Senhor Octavio was elected with 22.

PUBLIC DEBT OF THE UNITED STATES, OCT. 31, 1920.

(On the basis of daily Treasury statements.)

Total gross debt Sept. 30, 1920		$24,087,356,128.65
Public-debt receipts Oct. 1 to 31, 1920	$263,098,832.98	
Public-debt. disbursements Oct. 1 to 31, 1920	287,945,288.67	
Decrease for period		24,846,455.69
Total gross debt Oct. 31, 1920		$24,062,509,672.96

NOTE—Total gross debt before deduction of the balance held by the Treasurer free of current obligations, and without any deduction on account of obligations of foreign Governments or other investments, was as follows:

BONDS.		
Consols of 1930	$599,724,050.00	
Loan of 1925	118,489,900.00	
Panama's '16-'36	48,954,180.00	
Panama's '18-'38	25,947,400.00	
Panama's of 1961	50,000,000.00	
Conversion bonds	28,894,500.00	
Post. S'v'gs Bonds	11,612,160.00	
		$883,622,190.00

Where there are no figures, data are lacking.

PUBLIC SCHOOLS LOSE $190,000,000 ANNUALLY.

(By H. R. Bonner, Bur. of Educ., U. S. Dept. of Interior.)

THE average person who completed his education in 1918 had attended school for only 1,076 days. This is equivalent to a little less than six years of schooling of 180 days each. We are a "Nation of sixth graders."

Although most States provide twelve years of elementary and secondary schooling the average child attends school for only about one-half of this time. Are compulsory attendance laws sufficiently stringent when they accomplish such meagre results?

ATTENDS ONE-NINETEENTH OF REMAINING LIFE.

If the average child had gone to school continuously for the 1,076 days, he would have been under instruction for a little less than three calendar years. The United States mortality statistics show that the expectation of life after the age of 5 is almost 57 years. The average child, therefore, attends school for only one-nineteenth of his remaining lifetime.

Let us measure the product of our educational machinery from another angle. Although the average length of the school term in the United States is a little over 160 days, the average child enrolled in school attends 120 days, or about three-fourths of the time. In other words, one-fourth of the school term is wasted by irregular attendance. The teacher has been provided, the school building has been heated, the necessary school supplies have been purchased, the educational feast has been spread, yet one-fourth of those who are expected to be present are not there. No commercial organization could long exist if one-fourth of its expected customers failed each day to appear. It costs the United States annually to make provision for the 5,000,000 children who are daily absent from school the enormous sum of $190,000,000.

ALL THE STATES LOSE HEAVILY.

Alabama fails to take advantage of 40.6 per cent. of its school term for the maintenance of which it spends $6,066,204. It spends, therefore, $2,462,879 for children who are not at school. New York State spends almost $18,000,000; Pennsylvania over $13,000,000; and California almost $10,000,000 annually for children who are absent. Although the waste cannot be wholly eliminated, it is reasonable to expect that in efficiently administered school systems not more than one-tenth of the children will be absent from school each day because of excusable necessity. Assuming that this proportion of absence may be expected, we still must face the fact that an additional 15 per cent. of those enrolled in school are out of school daily.

BIRD CRIES AT NIGHT.

(From the London Times.)

Dwellers in London are sometimes puzzled on foggy November nights by the mysterious bird cries that come from above the housetops. One is a flute-like whistle of two syllables, heard first at a distance, then close at hand, and again further off. By listening intently, the plaintive cadence of it may still be caught again and again, each time fainter, until at last the sound is completely lost in silence. This is the callnote of the golden plover, and it comes from a migrating flock that have lost their bearings in the fog, and are dazzled by the unaccustomed glare of artificial lights. Sometimes the loud cry of a passing curlew will surprise and delight the London bird lover who recognizes it—a long-drawn whistling call that is not badly expressed in the bird's name—though "curlieee" fits it better. Some people describe it as a "melancholy wail," or "unearthly scream;" to others it is real music.

The calling of such birds—golden plover, curlew, and other waders—over London usually heralds the approach of colder weather, the birds we hear being part of the great hosts which move southward when frost binds the north. Occasionally one may even distinguish the clanging music of a skein of wild greylag geese, carried out of their usual line of flight by northwest winds, often the coldest that blow in winter. A much more frequent and much smaller, but still distinctly audible, sound in the stillness of a November night of fog and mist is the thin whispered scream of the redwing, a small but handsome migrant thrush from Scandinavia, which visits Britain in winter, and is common enough then nearly everywhere, often in hard weather frequenting London parks and squares. Throughout their stay these redwings keep together in flocks, and lead a wandering life, parties of them often passing over London by night.

FINAL ALLOTMENTS TO THE LIBERTY LOANS, BY STATES.

(Corrected to Oct. 31, 1920.)

IS TIME REVERSIBLE?

(From the London Times.)

At the meeting of the Aristotelian Society, the Very Rev. W. R. Inge, the new president, set a puzzle for the philosophers. He said that it was possible to compare the sequence of events in time with a cinematograph film. This was presented to us moving in the direction which we regard as normal. But it was possible to throw it on the screen in the reverse order.

We might then see, for example, a public swimming-bath with unruffled surface, broken by a splash, followed by the emergence of a pair of feet, next a human body describing a graceful upward curve, till a bather with uplifted arms stood on the margin of the pool in the attitude of one preparing to dive. It was already clear that any particular event in a time series might be past for one observer, while it was still future for another observer. But our perception was always of the past. One person heard a church clock two seconds after it was heard by a listener standing closer to the place where it had been striking. But it had struck before either heard it. Was there, however, any objection to thinking that what we call the past and the future were simply the order in which events happened to appear to us? We happened to be moving away from 1900 and towards 1930, just as the earth happened to revolve in one direction and not in the other. But could 1900 and 1930 not both be equally real, each holding its fixed position in an unchangeable series?

Were that so, the direction of the stream of time would have a meaning only for us, and might have the opposite meaning for other consciousnesses and no meaning for an absolute consciousness. The interest of the speculation extended from time to cause and effect. A common conception of causation involved the idea of a transaction between two things of which the one was active, the other passive. But this interpretation of cause was being replaced in science by the idea that "cause" and "effect" indicated nothing more than different positions in the time sequence. When we spoke of the past determining the future, we might also speak of the future justifying, explaining or even determining the past. Past and future, cause and effect, might indeed be mere aspects of a timeless reality.

HISTORY OF BUBONIC PLAGUE IN THE UNITED STATES.

The following history of bubonic plague in the United States is quoted from an article by Dr. W. H. Kellogg, of the California State Board of Health, in the American Journal of Public Health: "The first appearance of plague on the North American Continent was in 1900 at San Francisco, when the body of a Chinese, dead of this disease, was discovered in the Chinese quarter. We had been on the lookout for plague, as it was present in Honolulu, which it had reached in December, 1899. This case was proven bacteriologically, and the Board of Health of San Francisco, on receipt of the preliminary findings, placed the entire district known as Chinatown, comprising about twelve square blocks, in quarantine, the quarter being roped off and police placed on guard. The disease continued to manifest its presence by the discovery of cases now and then until a total of 121 cases and 113 deaths had been reached by February, 1904, when the last case of this series was found.

"In May, 1907, plague was again discovered in San Francisco. A sailor taken to the Marine Hospital from a tug in the bay was found to be suffering from plague, but he died without being able to give any account of himself, and the tug was lost off the Mendocino coast, thus effectually blocking any further investigation. On August 12, the second case of the epidemic appeared, followed by 13 others before the end of the month. The epidemic lasted six months, and the total number of cases was 160, with 77 deaths; this time not in the Chinese quarter alone, but scattered all through the city. The last case of the series occurred on June 30, 1908. During the year 1907 seven cases were found in Seattle, Wash. In the years intervening between February 1, 1908, and the end of the year 1915, inclusive, sporadic cases of human plague of squirrel origin occurred in California to the total number of 13 in the counties of Los Angeles, Alameda, Santa Clara, San Benito, Contra Costa, San Joaquin and Monterey. During the years 1916, 1917 and 1918 no cases of human plague are known to have occurred anywhere in the United States. Extension of the infection to the ground squirrel population of the rural territory adjacent to San Francisco was first demonstrated in August, 1908, although it is probable that the infection was carried from rats to squirrels in the vicinity of the Port Costa warehouses during the first epidemic in 1900-1904. This probability is indicated by the occurrence of two deaths from plague in widely separated locations in Contra Costa County in August, 1903. The ground squirrels of this State have, therefore, harbored the infection for nearly twenty years, and if it is not eliminated from among them by a very wide and expensive campaign of extermination there seems little room for doubt that a permanent endemic focus has been established. The extent of plague prevalence among the ground squirrels is shown by the following figures from the Public Health Reports of recent date. For the period of the report, which varies with different counties from a few days to three months, ending July 10, 1920, infected squirrels were found as shown below. Alameda County 28, Contra Costa County 46, Merced 1, Monterey 3, San Benito 16, San Mateo 3, San Joaquin 4, Santa Clara 12, Santa Cruz 26, and Stanislaus 2.

"The figures for the total number of infected rodents found since the beginning of the work in 1907 are startling. In San Francisco the number of rats found was 398, the last one having beeen discovered in October, 1908, and in Oakland 126 rats, the last one in December, 1908. Alameda County has a record of 431 squirrels, the last being found in September, 1919. Contra Costa County holds the record, the total number of infected squirrels found being 1,698. Following the decade ending with 1918, plague showed a tendency toward recrudescence. In Oakland a series of 13 pneumonic cases occurred in August, 1919, the first of the series having its origin in exposure to plague-infected ground squirrels. In October, 1919, plague reappeared in New Orleans, following an interval of nearly four years since its first appearance in that city. This was followed by three more in October, three in November and five in December.

"So far during 1920 plague has occurred in California (one sporadic case of squirrel origin), in New Orleans (three cases in May and June), in Galveston, Texas (two cases), in Pensacola, Florida (four cases in June and three in July), in Beaumont, Texas (seven cases between June 26 and July 18), and in Port Arthur, Texas (one case in July). Rat examination by the Public Health Service in the above-named cities discloses a rat epizootic in Pensacola, Beaumont, Galveston and New Orleans. The disease is present in so many countries now that a list of those harboring it would include most of the nations of the world. In Europe it has been reported recently in Greece, England, Italy, Malta, Russia and France. In July, 1919, a dock laborer in Liverpool died of plague, and there is little doubt that the infection prevails among the rats of that city. Human cases have recently been reported from Hawaii, and a sharp outbreak is in progress in Vera Cruz, Mexico, where it was first discovered in May of this year. Several cases have occurred recently in Newfoundland."

CURIOSITIES OF ARSENIC.

Arsenic is so extensively used in the industries and arts that it is believed that there are few of us who have not a little of it in our bodies, says the London Mail. Formerly a good deal of chronic poisoning resulted from arsenic in wall-paper, the poison being given off in powder and also as a gas in warm, moist weather. Many wall-papers still contain very small quantities of the poison. It is also present in some artificial flowers, in carpets, furs, dress fabrics dyed with aniline dyes, and in black stockings. It has been found in many cosmetic preparations which women use to improve the complexion and brilliancy of the eyes, accidents from these preparations being on record. Dr. Murrell examined a number of colored tobacco and cigarette covers and found arsenic in one-third of them. Used as an insecticide for spraying fruit, it remains on the skins and is sometimes eaten.

Glucose very frequently contains arsenic, and thence it finds its way into jams and beer. Many persons were poisoned in Manchester some years ago by arsenic in beer made with glucose, and the analyses of the Government analyst show that the poison is present in small quantities in many samples of beer. Of course, these minute doses seldom do any harm, but in some people they produce chronic poisoning, with loss of hair, neuritis, and other evil results.

This drug is poisonous to all animals with a central nervous system (brain or spinal cord) and to most of the higher plants. Mice show the greatest resistance, and next come hedgehogs, rabbits, dogs and cats. It is believed that the smallest fatal dose for an adult human being is 2 grains, but people have taken a very much greater quantity and recovered. By practice one can get used to large doses; the mountaineers of Styria eat as much as 8 grains two or three times a week and find the dose a good tonic.

Long ago arsenic was extensively used for the purposes of murder, and Mme. Toffania, an Italian, has become immortal in the annals of crime from her preparation, the "Aqua Toffana," made from animals poisoned with arsenic. Although many deaths still occur by accident or suicide, arsenic is seldom used for criminal poisoning by intelligent people now, because the analyst can find it in the body for years after death. It has a peculiarly preservative effect, and in one case of exhumation after 37½ months' burial (that of John Flanagan, of Liverpool, in 1884) the face and body could easily be identified.

There have been great epidemics of accidental arsenic poisoning. The most remarkable case was that in Paris in 1828, when 40,000 people were poisoned. Also there have been many accidents from weed-killers, and in 1903 an analysis of sweets in the Isle of Wight revealed the presence of 1-15th of a grain per pound. A curious fact is that when a person takes arsenic it finds its way into the hair within about two weeks and stays there for years.

THE DAIRY INDUSTRY IN NEW YORK STATE.

(By the Department of Farms and Markets, Division of Agriculture, Albany.)

A CENSUS giving the amount of milk consumed in liquid form in New York State during 1918 was taken by agents of the Division of Agriculture of the Department of Farms and Markets. This census included every city, village, and hamlet of more than 200 inhabitants. As far as possible actual records of average daily distribution were taken. Through the courtesy of the Bureau of Markets of the United States Department of Agriculture, the reports on milk products for 1918 were made available for use in this bulletin. These reports were made to the Bureau of Markets of the Federal Government by the manufacturers of dairy products, on blanks furnished by the Government and sworn to as correct. The census indicates approximately 1,023,034 milk producing cows in the State, value estimated at $102,303,400.

New York State ranks first in the value of its dairy products. In 1918 there were 2,341,401,288 pounds of milk consumed in the State of New York in liquid form, and there were 2,095,531,125 pounds of milk used to be made into manufactured products. The total value of milk consumed in liquid form and milk used for manufacturing purposes was $124,725,847.89. The average production for the year per cow was 4,337 pounds; the average income per cow, $121.91. In this average no allowance was made for milk-fed calves. The census shows over 1,742 places or establishments where milk is manufactured or received for shipment in the State, and divided as follows: 630 cheese factories, 136 butter and cheese factories, 8 cream and powdered milk plants, 213 creameries, 59 condenseries, 6 milk platforms, 633 milk stations, 28 skimming stations, and 19 combination milk stations and condensery plants. The value of the dairy farms is $129,540,000.

Agriculture, State Schools of—At Alfred University, Alfred (where also is located the State School of Clay Working and Ceramics); at Farmingdale, L. I.; at Morrisville, Madison County; at St. Lawrence University, Canton; at Cohleskill, Schoharie County, and at Delhi, Delaware County (in connection with the State School of Domestic Science).

The State Agricultural Experiment Station is at Geneva.

The State College of Agriculture is at Cornell University Ithaca, both of which institutions are managed by the State and its representatives.

Architect, State—Lewis F. Pilcher, of Brooklyn.
Banks Supt. of—George V. McLaughlin.

Blind, Commission for—Hall of Records, New York City.

Boxing Commission—*Chairman*, Joseph J. Johnson, Jr., Edward L. Ditmars, Walter G. Hooke; *Secretary*, Chas. White.

Licensing Committee—Chairman, Maurice McGuire, D. Walter Wear, Chas. E. Walsh; *Secretary*, Harry Lewis.

Bridge and Tunnel Commission, State—*Chairman*, George R. Dyer, of N. Y. The plan is to connect New York and New Jersey under the Hudson River. Both States are co-operating.

Canal Board—Composed of the Lieut.-Gov., Sec. of State, Comptroller, Treasurer, Atty. Gen., Eng. and Surveyor and Supt. of Public Works.

Charities, State Board of—*President*, W. R. Stewart, N. Y.; *Vice President*, Wm. H. Gratwick, Buffalo. *Other Members*—Lee K. Frankel, Michael J. Mulqueen, and Victor F. Ridder of N. Y.; Dr. J. R. Kevin, Brooklyn; Mrs. Martin H. Glynn, Albany; Mrs. E. W. Higley, Hudson Falls; Ceylon H. Lewis, Skaneateles; Daniel W. Burdick, Ithaca; Mrs. Lillie B. Werner, Rochester; Hy. Marquand, Bedford Hills; *Superintendent New York City*, John B. Prest; *Secretary to Commission*, Chas. H. Johnson, Albany.

The State Charitable Institutions are—Custodial Asyl. for Feeble-Minded Women, Newark; Instit. for Feeble-Minded Child., Syracuse; Custodial Asyl., Rome; Craig Colony for Epilept., Sonyea; Letchworth Village (epileptics and feeble minded), Thiells; Hosp. for Crippl. and Defor. Child., W. Haverstraw; Hosp. for Treat. of Incip. Pulm. Tuberc., Raybrook; Soldiers and Sailors' Home, Bath; Woman's Relief Corps Home, Oxford; School for Blind, Batavia.

INSTITUTIONS FOR THE DEAF AND DUMB.

The several institutions for the deaf and dumb receive $325 a year per capita from the State for such pupils, between the ages of twelve and twenty-five years, as may receive appointments from the Commissioner of Education. Pupils between five and twelve years of age are received as county pupils at the annual charge to counties of $300, upon the order of an overseer of the poor or a county supervisor. As a rule the grounds and buildings of these institutions belong exclusively to private corporations, who appoint the superintendent or principal.

N. Y. Instit. for the Instruct. of the Deaf and Dumb (opened May 20, 1818), New York.

Le Couteulx St. Mary's Instit. for the Improv. Instr. of Deaf-Mutes (opened November, 1862), Buffalo.

Instit. for the Improv. Instr. of Deaf Mutes (opened March 1, 1867), New York.

St. Joseph's Instit. for Improv. Instr. of Deaf Mutes: Fem. Dept. (opened 1870), Westchester; fem. branch (opened 1874), Brooklyn; male dept. (opened 1875), Westchester.

Central N. Y. Instit. for Deaf Mutes (opened March 22, 1875), Rome.

Western N. Y. Instit. for Deaf Mutes (opened October 4, 1876), Rochester.

Northern N. Y. Instit. for Deaf Mutes (opened Sept. 10, 1884), Malone.

Albany Home School for the Oral Instr. of the Deaf (opened Sept. 17, 1889), Albany.

Fiscal Supervisor of State Charities, Frank R. Utter, of Friendship.

INMATES IN N. Y. STATE ASYLUMS AND REFORMATORIES.

Indians—Each tribe has an attorney, appointed by the Governor of the State.

Indian Reservations in New York.

Allegany Reservation, in Cattaraugus County, 30,469 acres.

Cattaraugus Reservation, in Erie, Cattaraugus and Chautauqua Counties, 21,680 acres.

Oneida Reservation, four miles south of Oneida station on the N. Y. C. R. R., 400 acres. The Oneidas hold their lands in severalty.

Onondaga Reservation, near the City of Syracuse, 7,300 acres.

St. Regis Reservation, in Franklin County, fronting on the St. Lawrence River, 14,030 acres.

Shinnecock Reservation, near South Hampton on Long Island, includes the Poospatuck, about 400 acres.

Tonawanda Reservation, in the Counties of Erie and Genesee, 7,548 acres.

Tuscarora Reservation, in the County of Niagara, 6,249 acres.

Enumeration in 1915 was exclusive of whites.

The Thomas Indian School is at Iroquois, in Erie County. *Superintendent*—Mrs. Emily F. Lincoln.

Each reservation is looked after for the State and the tribe by an agent or attorney appointed by the Governor.

Insane—See Hospital Commission.

Insurance, Supt. of—Jesse S. Phillips, of Hornell. *First Deputy*—Hy. D. Appleton

Labor, Dept. of (State Industrial Commission): *Chairman*—Edward F. Boyle of New York City. *Other members*—Edward P. Lyon, Brooklyn; H. D. Sayer, Richmond Hill, L. I.; Jas. M. Lynch, Syracuse; Frances Perkins (Mrs. Paul Wilson), New York City. *Secretary*—Edw. W. Buckley.

Military Training Commission—It is headed by the Maj. Gen. commanding the National Guard.

Parks—The State Parks and Forest Preserve in the Adirondacks are under the Conservation Commission. Fire Island State Park, the Palisades Interstate Park, the Newtown Battlefield Reservation, the State Reservation at Niagara, and the Watkins Glen Reservation are managed by separate boards.

Port Wardens of N. Y. Port—M. H. Blake, C. W. Ferry, and Louis Jacobson, of N. Y. City; W. W. Smith, Patchogue; J. B. Montgomery, Newburgh; Ambrose O. Neal, N. Y. City; Richard O'Brien, Portchester; Wm. J. Maxwell, Brooklyn; Thomas Rock, N. Y. City.

Public Service Commission (Up-State), Second District—Chas. B. Hill, Buffalo; Joseph A. Kellogg; Geo. R. Van Namee, Frank Irvine, Ithaca, and John A. Barhite, Rochester. *Secretary*—F. X. Disney.

Prisons, Supt. of—Charles F. Rattigan, of Auburn. *Deputy*—J. L. Long.

The Supt. of State Prisons is Chairman of the *Board of Parole.*

Prisons, State Commission of: *President*—Henry Solomon, of N. Y. *Secretary*—John F. Tremain.

The Board of Examiners of Feeble Minded,

NEW YORK STATE GOVERNMENT—*Continued.*

Criminals and other defectives is headed by Chas. H. Andrews, of Buffalo.

Probation Commission: *President*—Edmond J. Butler, of New York. *Secretary*—Chas. L. Chute.

Racing Commission, State—Geo. W. Loft of N. Y.; H. F. Sinclair, J. W. Wadsworth, Genesee. *Secretary*—J. A. Reilly, headquarters, N. Y. City.

Reformatories, State—The institutions located at Elmira and Napanoch are reformatories for men, and those at Albion and Bedford and the State Farm at Valatie are for women. The State Industrial School at Industry is for boys, as is also the New York House of Refuge, located on Randall's Island, and the New York State Training School for Boys, located at Yorktown Heights. Each of the institutions is supported by the State, but the House of Refuge on Randall's Island is under private management. There is a State Training School for Girls at Hudson, and an Industrial Farm Colony for Men at Green Haven. Each reformatory has its own managers.

Tax Dept., State: *Commissioners*—M. J. Walsh, *Pres.*, Yonkers; John J. Merrill of Alfred, and Jas. D. Smith. *Secretary*—Geo. M. Haight.

There are about 20,000 men in the New York State Guard.

THE NATIONAL GUARD IN OTHER STATES.

Fourteen States had no National Guard troops recognized by the Federal Government on June 30, 1920, according to the annual report of Major Gen. Jesse Carter, Chief of the United States Army Militia Bureau. They were Arkansas, Delaware, Illinois, Indiana, Louisiana, Massachusetts, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Dakota, South Dakota, and West Virginia. The recognized units of the guard had a total strength of 56,100 officers and men at the end of the fiscal year, the report said, against an authorized strength of 106,300, great difficulty having been encountered in obtaining recruits during the year. Gen. Carter noted general public antipathy toward military affairs as among influences against which the reorganization of the guard was proceeding. Discontent with the National Guard service, he added, had been fostered by "tales of unfair treatment during the war spread by men with grievances, many of which found their way into the public press." Such complaints, Gen. Carter said, could not be substantiated upon investigation.

Enlistments brisked up in the second half of 1920, nearly 6,000 men joining in July alone.

Plans for the allotment of National Guard troops to the newly established army corps were taken up with the corps area commanders and the State authorities late in 1920 by Reserve and National Guard officers of the General Staff of the army, who, under orders issued by the War Department, began to visit each corps area headquarters to advise with reference to the organization of the National Guard divisions to be allocated to the various corps areas.

The Second Corps area, with headquarters at Governor's Island, New York, will embrace the National Guard of New York, New Jersey and Delaware. The department will send officers to Governor's Island to confer with Gen. Bullard, the Second Corps commander, relative to the allocation of the new National Guard forces of New York, New Jersey and Delaware in the formation of divisions, which will operate with the regular and reserve forces in that corps area.

The minimum allotment will be 9,000 men for New York State in the beginning, on the basis of 200 for each member of Congress; 2,800 for New Jersey and 600 for Delaware, a total of 12,400 for the three States. This will be increased by 1924 to 36,000 for New York, 11,200 for New Jersey and 2,400 for Delaware. In the beginning the minimum for the three States will be 12,400 men, and at the end of four years it will be 49,600 men. "The plan for the development of the National Guard furnished to corps area commanders," says the department's statement, "represents the work of a committee of the War Department General Staff, composed of regular, National Guard and reserve officers who served in the army throughout the war and who represent wide and broad experience in National Guard affairs."

1908 figures cover only five months, because the excise year was changed so as to begin Oct. 1 instead of May 1.

Figures for 1917, and later, cover years ended June 30.

FINANCIAL SUMMARY OF NEW YORK STATE GOVERNMENT.

Revenue Receipts.	Fiscal Year Ended— June 30, 1920.	Fiscal Year Ended— June 30, 1919.	Expenditures.	Fiscal Year Ended— June 30, 1920.	Fiscal Year Ended— June 30, 1919.
General property taxes...	$15,058,317.01	$15,067,918.55	Ordinary expenditures, etc.	$78,302,494.61	$64,861,667.90
Special taxes.....	93,018,032.15	58,060,162.80	State debt services.....	13,591,720.86	13,330,145.11

Note—The death rate is per 100,000 population. There are no official data covering the spaces where there are no figures.

The death rate per 1,000 pop. in N. Y. State outside N. Y. City, in 1920 was: Jan., 15.2; Feb., 25.1; Mch., 16.4; April, 14.7; May, 14.6; June, 12.6. The rate in N. Y. City was: Jan., 16.0; Feb., 23.6; Mch., 13.7; April, 12.6; May, 11.1; June, 9.7.

THE BIRTH RATE.

During the four years 1914-1917, the average annual birth rate for the entire State of New York was 23.8 per thousand of the total population; in 1918 it fell to 22.7, and in 1919 it declined further to 20.8. The birth rate during the first eight months of 1920 was 21.7.

LOSS OF LIFE FROM INFLUENZA.

In 1917 there occurred 1,455 deaths of females between the ages of 15 and 49 years in New York State from all forms of influenza and pneumonia combined, but in 1918 there occurred 15,779, an excess of 14,324 over the year preceding. This excess may be attributed to the epidemic, and it may be estimated that not less than 50 per cent. of the women of these ages were married and that in this group there normally obtained a birth rate of between 150 to 200 per thousand, with the actual rate probably nearer 200. On this basis the loss of life by reason of the deaths of prospective mothers in this group was somewhere between 1,000 and 1,500 children, the latter being probably nearer the true figure.

DEATHS, CHIEF CAUSES, CHIEF CITIES, NEW YORK STATE, 1919.

Cities.	Diphtheria.	Influenza.	Tuberculosis of Lungs.	Cancer.	Bronchopneumonia.	Lobar Pneumonia and Unqualified.	Diarrhoea, Enteritis, Under 2 Years.	External Causes.

Total deaths, 1919, other causes—Typhoid, 364; measles, 354; scarlet fever, 270; whooping cough, 293; cerebro spinal meningitis, 288; tuberculosis, other than lung, 1,646.

Deaths in important State and other asylums, hospitals, etc., have been resolved into the districts where the inmates actually resided before entering the institution.

The deficiency in infant births due to the World War is estimated at 19,000 a year while men of the State were in the military service. Other contributing causes were loss in immigration and influenza.

The figures of the criminal insane for 1900 cover Matteawan only; and in 1908 these figures include transfers.

In 1912, when the State Hospital Commission studied the problem of "Immigration and the insane," it was found that 23.1% of the foreign-born patients came from Italy; 20.3% from Ireland; 17% from Germany. The percentages from other countries were: Austria 5.3; Canada, 4; England and Wales, 5.5; France, 0.2; Hungary and Bohemia 2.6; Russia and Poland, 12.6; Scandinavia, 1.8; Scotland, 0.2; all other countries, 7.3. Of the native-born patients in 1912 about 49% were males; of the foreign-born 43.3% were males. In 1911, of the first admissions from New York City, 1,195 were native-born, and 2,006 were foreign-born. Of the 5,660 first admissions in 1911 3,518 had a common school education, 1,427 being foreign-born.

CENSUS OF THE INSANE IN NEW YORK STATE—JULY 1, 1919.

(By Horatio M. Pollock, Ph. D., Statistician, State Hospital Commission.)

Psychoses.	Males.	Females.	Psychoses.	Males.	Females.
Trumatic	43	4	Manic-depressive	1,171	2,405
Senile	428	839	Involution melancholia	222	634
With cerebral arteriosclerosis	281	240	Dementia praecox	10,240	11,796
General paralysis	1,041	352	Paranoia or paranoic conditions	594	999
With cerebral syphilis	85	50	Epileptic psychoses	565	591
With Huntington's chorea	6	13	Psychoneuroses and neuroses	61	123
With brain tumor	.....	5	With constitut'l psychopathic infer'ity	245	364
With other brain or nervous diseases	47	60	With mental deficiency	681	692
Alcoholic	1,143	502	Undiagnosed psychoses	482	354
Due to drugs and oth. exogenous toxins	14	18	Not insane	12	12
With pellagra	1	2			
With other somatic diseases	45	145	Total	17,407	20,200

The average age of the Austrian, Italian, and Russian patients is younger than that of the Germans and Irish. In 1911 over 23% of the Russian-born inmates were 20-24 years old, and nearly 53% were under 30 years.

Many immigrants, especially women, become insane through homesickness, after having been in the United States six months or more, it is said.

NEW YORK STATE MILITARY CENSUS RETURNS.

(Summer of 1917. Includes all persons between 16 and 50 years.)

Automobile dealers in New York State numbered 2,681 in March, 1920, of whom 820 were in New York City. A total of 4,150 foreign cars was registered. Exempt cars numbered 2,725, of which 1,085 were in New York City.

By the end of 1920, over 600,000 automobiles had been licensed in New York State.

Deaths from autos in New York State: (1915) 659, (1916) 729, (1917) 837, (1918) 1,189, (1919) 1,388, including 118 at railway grade crossings.

The total expenditures for construction work during the year 1919, was $17,761,545.21. The total amount expended for maintenance work during 1919, was $6,219,190.47.

GEOLOGICAL HISTORY OF NEW YORK STATE.

(By John M. Clarke, Director of the State Museum.)

The geological history of New York can be traced back to the Precambrian era, the oldest recognizable in the rocks of the earth. These earliest rocks, the Grenville metamorphosed sediments (gneisses, marble, etc.) are, however, not the oldest which ever existed in the State. The Grenville rocks are exposed in the Adirondacks and the Hudson Highlands. They prove that in Grenville time, Northern, Eastern and probably Southwestern New York was under the sea. After the deposition of the Grenville sediments igneous activity took place on a large scale and huge masses of molten rock (granite, anorthosite, babbro, synite) were pushed into the sediments from below. Some time after the whole Adirondack region was subjected to enormous pressure and intensely folded, and then the great mass of Grenville sediments was upraised well above the sea.

At the beginning of Cambrian time, when organic life becomes first recognizable in the State, only the eastern margin was submerged, but toward the end (Potsdam time) the sea covered the whole region except the central and northwestern Adirondacks. At the close of Cambrian time Northern New York was, however, above sea level. In the long Ordovician period, during which the Beekmantown, Chazy, Black River limestones, and the Utica, Frankfort and Lorraine shales and sandstones were deposited, the State was most of the time submerged under the Ordovician sea, except for the Adirondack Island. Toward the end of that period, however, the Green and Taconic Mountains arose along the eastern border of the State and practically all of Northern, Central, Eastern and Northeastern New York became dry land. In the following Silurian period were deposited the Medina and Oneida sandstone and conglomerate, the Clinton shale, sandstone, limestone and iron ore, the Rochester shale, the Lockport and Guelph dolomites, the Salina shales, salt and waterlime, etc. During the early part of this period the sea had spread over only Central and Western New York, while during the late Silurian it had extended over practically all the State west and east of the Adirondack region. The strata of the next, or Devonian era, comprise the whole Catskill and southwestern plateau provinces and cover more than a third of the State. These rocks abound in fossils and show that the sea continued to cover at least the southern half of the State. The sea of the Carboniferous period hardly came over the boundary of the State from Pennsylvania. At the end of Palaeozoic time New York, except for a small area at the mouth of the Hudson, was raised during the Appalachian revolution well above the sea, never to be invaded again until the end of the glacial period. During the long Mesozoic period New York was dry land; in Triassic time considerable volcanic activity prevailed in Southeastern New York, when sheets of lava (the trap of the Palisades) was forced into non-marine Triassic beds. During the next or Jurassic period the State was above the sea and actively eroded, but in the following Cretaceous period Staten and Long Islands disappeared under the sea. At the end of this period the State, which had been eroded nearly to a plain, was uplifted 2,000-3,000 feet. After this time in the Tertiary period the present drainage and relief of the State were developed in its major features. Finally came the glacial period, which enriched the State with thousands of lakes and waterfalls. It ended with the Champlain subsidence, during which the sea came for the last time into New York; namely, into the Champlain Basin and the Hudson Valley. A recent elevation has again drained these regions.

NEW YORK STATE WORKMEN'S COMPENSATION INSURANCE FUND.

THE NEW YORK STATE FOREST PRESERVE.

(Specially prepared for the ALMANAC by the State Conservation Commission.)

NEW YORK STATE'S great Forest Preserve was established by act of the Legislature in 1885. It includes large areas in the two great forested sections of the State, the Adirondack and Catskill Mountains. Article 7, Section 7, of the State Constitution, adopted in 1894, assured its integrity for all time. It provided that "The lands of the State, now owned or hereafter acquired, constituting the forest preserve as now fixed by law, shall be forever kept as wild forest land. They shall not be leased, sold or exchanged, or be taken by any corporation, public or private, nor shall the timber thereon be sold, removed or destroyed. But the Legislature may by general laws provide for the use of not exceeding three per centum of such lands for the construction and maintenance of reservoirs for municipal water supply, for the canals of the State, and to regulate the flow of streams. Such reservoirs shall be constructed, owned and controlled by the State, but such work shall not be undertaken until after the boundaries and high flow lines thereof shall have been accurately surveyed and fixed, and after public notice, hearing and determination that such lands are required for such public use. The expense of any such improvements shall be apportioned on the public and private property and municipalities benefited to the extent of the benefits received."

The objects for which the Forest Preserve were established may be briefly stated as follows:

First—Forests are the great conservers of water supply. The leaves of the forest trees prevent rapid evaporation of moisture from the ground and the soft sponge-like duff of the forest floor hoards the water from melting snow and from rain, allowing it to run gradually into the brooks and rivers. The streams of Europe and Asia have shrunk as the forests have been cut away, and in many parts of our own country the water courses have diminished from the same cause.

Second—Forests increase the fall of rain. As the moisture laden winds from the lakes and ocean sweep over them, their lower temperature precipitates the vapor as rain or snow. Thus the forests are not only conservers of water supply but are also, for all practical purposes, actual producers of water supply.

Third—Forests are great equalizers of climate and temperature. It is a fact of common knowledge that the localities which have the most equable climates, which are most free from violent winds, from periods of drought, and from excessive heat and cold, are the sections which have a considerable forest cover over them or in their immediate vicinity.

Fourth—Because of the pace of our modern civilization, forests have become invaluable as recreation grounds for all the people. In fact their use for this purpose has increased so tremendously within the last twenty years that it is now one of the chief purposes for which a forest preserve should be maintained. Forested regions are also important as sanitary and health resorts, and are absolutely essential for the preservation of fish and game.

Fifth—Without preservation of the forest under State ownership, the supply of timber for the future will be seriously endangered. Private ownership of forest land has proved almost universally to be wasteful and to lead ultimately to complete denudation.

Since the establishment of the Forest Preserve, the State of New York has spent $5,136,845 in the acquisition of land for its extension. In addition large areas of other land have been acquired by tax sales, with the result that January 1, 1920, the area of the Forest Preserve in both the Adirondack and Catskill Mountains aggregated 1,886,550 acres.

Jurisdiction over the Forest Preserve is exercised by the Conservation Commission, which has charge, besides, of the State Reservation at Saratoga Springs, the St. Lawrence Reservation, the Cuba Reservation, and the John Brown Farm in the Town of North Elba, Essex County. Besides administrative control over this property, the commission also has entire charge of the fighting of forest fires upon both public and privately owned land in the large forested regions.

For the prompt detection of forest fires, fifty-two observation stations are maintained upon mountain tops throughout the Adirondacks and Catskills. All of these stations are connected by telephone lines with the ranger headquarters. Observers are on duty at these stations throughout the entire dry season from Spring until Fall. A force of sixty-five forest rangers and five district rangers is also maintained, to attend to the administration of the State owned land and the fighting of fires upon both State and private land.

The work of reforestation of State land and the raising of trees for the reforestation of private land is also conducted by the commission. For this purpose six nurseries are maintained, having a total capacity of 30,000,000 trees and an annual production of 10,000,000. Approximately 5,000 acres of State land are reforested each year. Trees are sold to private landowners at the cost of production, to municipalities at 50 cents per thousand, and are furnished to State institutions without charge.

The sections of the Adirondack and Catskill Mountains upon which it is most important for the State to insure the maintenance of a continuous forest cover have been defined by law and are known as the Adirondack and Catskill Parks. They are bounded by a line called the blue line. Within these parks approximately one-half of the land is still privately owned. Part of the land of the Forest Preserve lies outside of the park lines, and thus the park lines, which run through both State and private land, are simply lines to designate the most vital sections of the mountain regions. Extensive lumbering operations upon much of the land within the park lines are endangering the water sheds, and this led to a referendum vote in 1916 for the authorization of a bond issue of $7,500,000 for purchase of additional land to be added to the Forest Preserve. The proposition passed by a large majority and the Conservation Commission is now engaged upon the expenditure of this sum. The Legislature in 1917 appropriated $2,500,000 of the bond issue for immediate use. The recommendations of the Conservation Commission are submitted to the Commissioners of the Land Office, who act with the Conservation Commission in finally deciding on purchases.

It is conservatively estimated that the Forest Preserve is now worth, if it should be placed on the market, at least $40,000,000, thus showing an increase in value of approximately 800 per cent. over its cost to the State.

Investigations made by the Conservation Commission indicate that investment in hotels, boarding houses and other facilities for the care of Summer visitors in the Forest Preserve regions, the amount of money annually expended in caring for these people, the money spent by vacationists, and the number of persons actually engaged in the business of caring for Summer visitors, far exceed in amount similar figures for the lumber industry, thus indicating that the chief business in the Forest Preserve regions has now come to be that of caring for vacationists.

For such a business the Adirondack and Catskill Mountains are incomparable. They are covered almost everywhere with the native trees of North America—pine spruce, hemlock, balsam, cedar, tamarack, beech, birch, maple, and the other less important deciduous trees. Even on many of these areas that have been devastated in the past, these trees are returning.

Under a careful system of game protection the fauna native to the woods is preserved, and in many respects is increasing. Chief among the large animals are deer and bears. Beaver, which had become extinct, were reintroduced to the Adirondacks in 1905 and have since spread over every section of the woods. They have also been introduced in the Catskills and are becoming more abundant there. In 1915, through co-operation with the Benevolent and Protective Order of Elks, a carload of elk from Yellowstone Park were liberated in the Adirondacks. Among other common animals, many of which furnish a large amount of fur, should be mentioned the fox, mink, otter, marten, weasel, fisher, coon, and muskrat.

The lakes and streams, which are annually stocked by the Conservation Commission, contain brook trout, lake trout, rainbow trout, brown trout, largemouth and smallmouth black bass, great northern pike pickerel, perch, bullheads, and many of the other coarser fishes.

NEW YORK STATE MUSEUM.

(Prepared by the Museum for the Almanac.)

The title, New York State Museum, is the statutory name of a scientific research organization. Historically it is the outcome of the great Natural History Survey of the State of New York organized in 1836. The nucleus of these now extensive collections are the scientific materials brought together during the existence of that survey. Under the present statute the "New York State Museum" includes the work of the State Geologist and his associates, who together form the Geological Survey of the State of New York; that of the State Botanist and his staff; of the State Entomologist and his staff; the Zoologist and the Archaeologist. The museum collections, as such, originate partly from the materials acquired for the researches of these officials and partly from special additions made to exemplify the resources of the State of New York. The State Museum is alternately known as the Department of Science of the University of the State of New York, and, as such, is under the administrative control of that university. The collections of the museum are arranged on a floor space of about 100,000 square feet on the upper floors of the State Education Building at Albany. These collections form what has been planned and worked out as an essentially State or provincial museum exhibiting the natural resources of animal and plant life, the mineral wealth, geological history, and aboriginal culture of New York State. It has not planned to receive, nor does it especially welcome, material from outside the State, unless this is adapted to illuminate the scientific problems of the State itself. The collections are open free on every week day, 9 A. M. to 5 P. M., and on Sundays, October 1 to May 1, 2 to 5 P. M.

Hall of Minerals—The general collection of about 5,000 specimens is supplemented by a very extensive and complete collection of minerals from New York State, probably the best in existence. There are probably in this hall about 14,000 specimens on exhibition.

Hall of Geology—The collections here illustrate the rock structure and the mineral wealth of the State, especially the application of minerals, ores and rocks to commerce and the industrial arts.

Hall of Fossils—This hall includes vertebrates and invertebrates and the long continued researches of the Geological Survey have made the collection of invertebrate fossils, and the corresponding classification of the rocks of New York, the standard of comparison for the world. The use of restorations of extinct animal life, with relief maps, reconstructions, &c., has helped to visualize the appearance of these.

Hall of Zoology—The animal life of New York is exhibited in this hall, the larger mammals in habitat groups and the smaller mammals, birds, fishes, reptiles and mollusks in extensive series of well-mounted specimens. The collection of birds eggs is one of the largest in America. This section also contains a representative gathering of insects, arranged to illustrate their economic relations to agriculture and forestry. The section of Botany maintains an herbarium of upward of 100,000 specimens of New York plants.

Halls of Archaeology and Ethnology—These contain six large groups representing the customs and habits of the Iroquois Indians in their natural state, before the advent of the white man. These figures have been cast from the best available representatives among the surviving Iroquois and mounted amid actual accessories and against painted backgrounds. They depict the hunt, warfare, council ceremony, industries and agriculture of the New York aborigines. The collections of relics of Indian life in New York are the most extensive in existence, and these collections, with the groups referred to, fill the mezzanine floors.

Publications:—The museum issues general and special publications on the natural resources of th State, in the form of bulletins, memoirs and annual reports. These now number about 350 and each can be obtained on payment of a small fee.

The museum owns three parcels of real estate, presented by citizens for preserving their geological interest: 1—The Clark Reservation near Syracuse, a tract of 104 acres characterized by its extraordinary display of abandoned cataracts and gorges produced by the flow of the post-glacial waters; 2—Stark's Knob Reservation, or Volcano, near Schuylerville; 3—The Lester Park, or Cryptozoon Ledge in the town of Greenfield, west of Saratoga Springs. The Legislature grants $55,000 a year for maintenance.

LAKES IN NEW YORK STATE.

The great northern lakes, viz.: Ontario, Erie and Champlain, are partly in this State. Lake George, south of Lake Champlain, communicates with it by a short outlet. It is 37 miles long, and from one to seven broad, and embosoms more than 200 islets. Its waters are so clear and transparent that the bottom is visible at almost any depth; and on each side it is skirted with mountains, abounding in romantic scenery. There are numerous small lakes in the western part of the State which discharge their waters into Lake Ontario, either directly or indirectly through the Seneca and Oswego Rivers, and being connected by canals and railroads, afford facilities to transportation. These, with their extent, &c., are as follows:

LAKE.	Length Miles.	Breadth Miles.	LAKE.	Length Miles.	Breadth Miles.	LAKE.	Length Miles.	Breadth Miles.

DAILY CAPACITY OF ARTIFICIAL ICE PLANTS IN NEW YORK CITY.

Manhattan, 5,515 tons; Bronx, 1,950 tons; Brooklyn, 5,435 tons; Queens, 1,820 tons; Richmond, 265 tons; total for City, 14,985 tons.

According to H. W. Cole, Secretary-Treasurer of the Natural Ice Association of America: "No ice has been harvested on the rivers of Maine for other than local use during the past ten years. The cost of transportation from Maine to New York and Philadelphia forbids the use of the ice in those places."

Government of the City of New York.

MAYORS OF THE CITY OF NEW YORK.

BEFORE the Revolution the Mayor was appointed by the Governor of the Province; and from 1784 to 1820 by the Appointing Board of the State of New York, of which the Governor was the chief member. From 1820 to the amendment of the Charter, in 1830, the Mayor was appointed by the Common Council. In 1898 the term of the first Mayor of Greater New York (Van Wyck) began.

THE PALISADES INTERSTATE PARK.

The Palisades Interstate Park comprises 36,000 acres (1,000 acres in the State of New Jersey and 35,000 in New York State). The park embraces the Palisades cliffs and runs for twelve miles on the west bank of the Hudson River from a point north of Fort Lee to Palisades, N. Y. The Harriman Park, which is the highlands region of the Palisades system, runs from Bear Mountain, N. Y., five miles south of West Point, for fifteen miles to Tuxedo, N. Y. The Commission also owns the State Rifle Range at Blauvelt, N. Y., and the Hook Mountain quarries. In the creation of the Palisades Park, the State of New York has appropriated in money and lands $5,963,525. New Jersey has appropriated $727,984, including $500,000 for the Henry Hudson Drive. In addition, the Commission has received private contributions of $4,735,144 in cash, and lands valued at $1,692,765. All these contributions and appropriations, together with value of land donations, aggregate $13,119,419.

In the Palisades section of the park, the Commission maintains pavilions for picnic parties; bath houses and beaches; canoe beach for camping, and facilities for Winter storage of canoes; motor boat basin for small pleasure craft; week-end camps for working boys; hundreds of individual camps are established here under permit. In the Harriman Park and Bear Mountain section of the Palisades system there is maintained by the Commission the Bear Mountain Inn, which is a restaurant, built by private funds and operated by the Commissioners for the sale of food at reasonable prices; a lawn plateau for baseball, tennis, running meets, and other organized athletic sports; a large grove on the side of Hessian Lake for picnic parties, benches and tables being scattered through this area, and swings for the children; the free use of rowboats is permitted for a limited period on Hessian Lake; sightseeing automobiles take visitors into the park, which plunges into the woodland for fifteen miles; parking places for automobiles have been developed; seven lakes have been either entirely made or artificially enlarged.

The Commission maintains the largest civil encampment in the world. In 1920 over 52,000 individuals, mostly tenement children and mothers, averaged eight consecutive days' vacation each. Camps for working girls are maintained at cost. During the summer over 625,000 visitors were at Bear Mountain, nearly 200,000 of whom came by automobile. Over 1,100,000 sales were made at the Bear Mountain Inn. Nearly 200,000 people were carried in the Commission automobiles. Over 800,000 people visited the Palisades section of the park. No concessions are let in the Palisades Park. This park is under the jurisdiction of a Joint Commission, appointed by the Governors of New York and New Jersey.

George W. Perkins was the President of the New York Commission for nearly twenty years until his death in 1920. The Commission consists of: New York State — — — — — , President; Franklin W. Hopkins, Vice-President; J. Du Pratt White, Secretary; Edward L. Partridge, Treasurer; Richard V. Lindabury. New Jersey—Richard V. Lindabury, President; Edward L. Partridge, Vice-President; J. Du Pratt White, Secretary; Frederick C. Sutro, Treasurer.

AMERICAN AUTOMOBILE ASSOCIATION.

Organized in 1902. *President*—David Jameson, Pa.; *Vice Presidents*—Ralph W. Smith, Col.; P. J. Walker, Cal.; H. J. Clark, Minn.; Mrs. Robert Lee Morrell, N. Y.; Clifford Ireland, Ill.; George H. Kile, Ohio; Dr. R. R. Elmore, Ky.; Preston Belvin, Va.; *Treasurer*—H. A. Bonnell, N. J.; *Secretary*—John N. Brooks, Conn.; *Chairmen of Boards:* Executive—A. G. Batchelder, Riggs Building, Washington, D. C.; Good Roads—George C. Diehl, Ellicott Square, Buffalo, N. Y.; Touring—Carl G. Fisher, Indianapolis, Ind.; Legislative—Percy E. Towne, 1628 Van Ness Ave., San Francisco, Cal.; Contest—Richard Kennerdell, 501 Fifth Ave., N. Y.

The American Automobile Association has over 250,000 members. Its main objects are—To unite in one body all the automobile clubs and individual motorists of the country; to secure reasonable and just legislation and to aid in proper enforcement of automobile laws and ordinances; to obtain local, State, and Federal aid in the construction and maintenance of good roads; to encourage road travel and transportation, and to secure, prepare, and disseminate information relative thereto; to support sportsmanlike contests and other movements that will advance motoring interests.

Members of the American Automobile Association can obtain exact and detailed information from the national bureaus of the Touring Information Board in Washington, D. C., and New York City, and also from the 450 local clubs, in some of which they have guest privileges. These touring bureaus keep a list of hotels and garages which guarantee to give fair treatment to automobilists. Through its Legislative Board, the American Automobile Association has exerted influence on automobile legislation.

ASSOCIATION OF THE BAR CITY OF NEW YORK.

THE association maintains its own building at 42 West 44th Street; law library of 130,000 volumes, strong collections of foreign law. The association has frequent meetings and lectures, and gives receptions to well known persons. *President*—John G. Milburn; *Vice Presidents*—Lewis L. Delafield, E. Henry Lacombe, Francis M. Scott, Edward W. Sheldon, S. Sidney Smith; *Recording Secretary*—Charles H. Strong; *Corresponding Secretary*—William V. Rowe; *Treasurer*—Wilson M. Powell. The Grievance Committee receives and investigates charges against attorneys and institutes disciplinary proceedings in the courts against attorneys when charges are found to be substantiated. Active members are those who dwell or have offices within the City of New York. The initiation fee is $100 for attorneys of more than ten years' standing at the bar, and for others $50. The annual dues of active members of more than ten years' standing at the bar are $60 if they dwell in the city and $35 if they dwell outside. The annual dues of active members of less than ten years' standing at the bar are $25. Associate members are those who neither dwell nor have offices within the city. There is no initiation fee for associate members. The annual dues are $20 for all associate members who dwell or have offices within fifty miles of the association's building and $10 for all other associate members.

JURY DUTY IN THE CITY OF NEW YORK.

To be qualified to serve, a person must be not less than 21 nor more than 70 years of age, and he must be a male citizen of the United States, and a resident of the County of New York; and he is a resident within the meaning of the jury law if he dwells or lodges here the greater part of the time between the first day of October and the last day of June. He must be the owner, in his own right, of real or personal property of the value of $250; or the husband of a woman who is the owner, in her own right, of real or personal property of that value. He must also be in the possession of his natural faculties, and not be infirm or decrepit; intelligent, of good character, and able to read and write the English language understandingly.

A clergyman, minister of any religion officiating as such and not following any other calling. A practising physician, surgeon, surgeon-dentist, or veterinary surgeon not following any other calling, and a licensed pharmaceutist or pharmacist, or a duly licensed embalmer, while actually engaged in his profession as a means of livelihood. An attorney or counsellor-at-law regularly engaged in the practice of law as a means of livelihood. A professor or teacher in a college, academy, or public school, not following any other calling. Editor, editorial writer, or reporter of a daily newspaper or press association regularly employed as such and not following any other vocation. The holder of an office under the United States, or the State, or City or County of New York, whose official duties, at the time, prevent his attendance as a juror. A Consul of a foreign nation. A captain, engineer, or other officer actually employed upon a vessel making regular trips; a licensed pilot, actually following that calling. A superintendent, conductor, or engineer employed by a railroad company other than a street railroad company, or a telegraph operator employed by a press association or telegraph company who is actually doing duty in an office or along the railroad or telegraph line of the company or association by which he is employed. Honorably discharged firemen. Active and honorably discharged militiamen and active members of the Old Guard. A duly licensed engineer of steam boilers actually employed as such. Inspectors, poll clerks, and ballot clerks, or a person who is physically incapable. Grand, Sheriff's, Special, and Municipal Court Jurors.

The law of the County of the Bronx, recently created, is the same as Manhattan.

BOUNDARIES OF JUDICIAL DISTRICTS.

Judicial Districts comprise counties as follows: (3)—Columbia, Rensselaer, Sullivan, Ulster, Albany, Greene, and Schoharie Counties. (4)—Warren, Saratoga, St. Lawrence, Washington, Essex, Franklin, Clinton, Montgomery, Hamilton, Fulton, and Schenectady Counties. (5)—Onondaga, Jefferson, Oneida, Oswego, Herkimer, and Lewis Counties. (6)—Otsego, Delaware, Madison, Chenango, Tompkins, Broome, Chemung, Schuyler, Tioga, and Cortland Counties. (7)—Livingston, Ontario, Wayne, Yates, Steuben, Seneca, Cayuga, and Monroe Counties. (8)—Erie, Chautauqua, Cattaraugus, Orleans, Niagara, Genesee, Allegany, and Wyoming Counties. (9)—Westchester, Putnam, Dutchess, Orange, and Rockland Counties.

JUDICIARY OF THE CITY OF NEW YORK.

FEDERAL COURTS.

Circuit Court of Appeals (Second District)—Has jurisdiction in Federal cases over Connecticut, Vermont, and the whole of New York State. Sits at Federal Building, Manhattan. *Judges* ($8,500 a year)—Henry G. Ward, Henry Wade Rogers, Charles M. Hough, Martin T. Manton. *Clerk*—William Parkin, $3,500.

District (Southern of New York)—Headquarters, Federal Building, Manhattan. *Judges* ($7,500 a year)—Learned Hand, Julius M. Mayer, Augustus N. Hand, John C. Knox. *Clerk*—Alexander Gilchrist jr. (fees).

District (Eastern of New York)—Headquarters, Federal Building, Brooklyn. *Judges* ($7,500 a year)—Thomas Ives Chatfield and Edwin L. Garvin. *Clerk*—Percy G. B. Gilkes (fees).

The Second Circuit is under the jurisdiction of Justice Louis D. Brandeis, of the Supreme Court of the United States. Each Justice of that tribunal is assigned to a Federal Circuit and to him are made any motions or applications touching matters as to which a single United States Supreme Court Justice may act, arising in his respective circuit.

STATE, COUNTY AND CITY COURTS.

Supreme (Appellate Division)—*First Judicial Department*, Madison Avenue and Twenty-fifth Street. *Clerk*—Alfred Wagstaff.

Second Judicial Department, Borough Hall, Brooklyn. *Clerk*—John B. Byrne.

First Judicial District, County Court House, 51 Chambers Street, Manhattan. *Clerk*—William F. Schneider.

Second Judicial District, 503 Fulton Street, Brooklyn. *Clerk*—Joseph H. De Bragga.

2d District, Village Hall, Stapleton, Arnold J. B. Wedemeyer.

BANKS IN MANHATTAN AND BRONX.

THE New York Clearing House at 77 Cedar Street is composed of banks and trust companies associated for exchanging checks and bills they hold against one another. The Federal Reserve Bank of New York and the Assistant Treasurer of the United States at New York also clear. Other banks, not members of the association, clear through members. The representatives of the members appear at the Clearing House at 10 o'clock every business day, with the checks and drafts to be exchanged. The resulting balances are ascertained in about an hour, and before 1.30 o'clock those indebted pay their balances, and after that hour the other banks receive the amounts due them. The Clearing House has been in operation since 1853.

Elsewhere in the ALMANAC will be found statistics as to the capital, profits, loans, gold holdings, and deposits of most institutions named in this table.

Banks are open from 10 A. M. to 3 P. M., and on Saturdays from 10 A. M. to 12 noon.

Yale, of N.Y.C., 44th St. and Vanderbilt Ave. (1897); 4,900; Pres., M. N. Buckner; Sec., L. Platt.

INSTITUTIONAL CARE FOR N. Y. CITY'S TUBERCULOUS.

PERSONS suffering from tuberculosis suitable for and desiring institutional care, are received in hospitals and sanatoria belonging to the city, or are accepted as proper public charges in those under private management which have the certificate of the State Board of Charities that they comply with its rules and regulations, after they have been accepted by the Commissioners of the Department of Public Welfare through the Tuberculosis Hospital Admission Bureau, at 124 E. 59th Street, Manhattan, or (for Otisville Sanatorium and Riverside Hospital) by the Department of Health's Hospital Diagnosis Station, at 128 Prince Street, Manhattan. Patients are examined at the Tuberculosis Hospital Admission Bureau on Monday, Wednesday and Friday, between 9 A. M. and 12 o'clock noon; children, for preventoria, on Tuesdays and Thursdays from 9 to 10.30 A. M. The hours of the Department of Health's Hospital Diagnosis Station are 2 to 4 P. M. Monday, Wednesday and Friday. Applications for Ray Brook, Otisville, and Bedford sanatoria and Farmingdale and St. Agatha's preventoria are to be written out in duplicate, on special forms, by the patients' physicians or by the Tuberculosis Clinic of the district wherein the patcint resides.

In the case of applicants for admission to these sanatoria, it is required that temperature and pulse and respiration rates be taken on three different days and be recorded on the record card, together with the result of sputum and urine examinations, and that the stage of the disease be given and shown by appropriate chest markings on the record. Cards must be sent promptly to the Tuberculosis Hospital Admission Bureau or to the Hospital Diagnosis Station, according to the institution desired. Patients are usually admitted to sanatoria from one to three weeks after cards are received. All are subject to a final examination at one of the two above mentioned stations, by the physician designated by the institution in question. Physicians desiring application cards for tubercular patients for admission to hospital or sanatoria, or for children of tubercular parents for admission to preventoria, may obtain them from the Tuberculosis Hospital Admission Bureau, 145 Worth Street, Manhattan, or from the Hospital Diagnosis Station, 128 Prince Street, Manhattan. In all the institutions in question patients are received free of charge, if unable to pay, but if able to do so they must pay part or all of the cost. A representative of the Department of Public Welfare or of the Department of Health verifies a patient's residence, and investigates the ability to pay of those legally responsible.

New York State Hospital for Incipient Tuberculosis, Ray Brook, N. Y.—This institution receives about 85 incipient cases, without complications, from New York City, who are citizens of the United States and over 16 years of age. Foreign born women, in the country over six years, although not citizens, are eligible. All applicants must have resided in New York at least one year. High temperature or rapid pulse is cause for rejection.

Municipal Sanatorium, Otisville, N. Y.—The sanatorium has a capacity of 599. Ambulant early favorable cases that are residents of the city are admitted. Males and females up to 50 years of age and children between 4 and 14 years are received. Reasons for rejection are, a daily temperature of 100 degrees F., unless all other features of case are favorable, occasional high temperature (103 degrees or more), habitual rapid pulse (110 or more).

Laws Governing Free Treatment.—The laws of the State and city place certain restrictions upon the extension of relief by the City of New York. These are as follows:

Financial Condition.—Persons who are without means to pay for their treatment, and whose relatives, legally responsible, are unable to do so, are entitled to care at city expense.

Residence.—One year's residence in Greater New York is required for all hospital, sanatoria and preventoria cases. Applicants for Ray Brook Sanatorium must have been citizens of the United States for at least one year, and residents of the city for one year.

Aliens.—These are persons who have resided in the United States for less than five years, and are not citizens. If sick, they are entitled to hospital care, pending arrangement for their deportation to the country from which they emigrated.

Non-Residents.—Persons coming from another State, where they have a legal residence, and who have been in Greater New York for less than one year come under this classification. These persons, if sick, are entitled to hospital care, but must be referred to the State Board of Charities for transportation back to the town of their last legal settlement. The State Department of Public Charities cares for cases in New York State.

State Poor.—These are those who have not resided in any county of the State of New York for 60 days within the last year. They are entitled to hospital care, and are referred to the State Board of Charities, the State paying for their care and treatment until such time as they can be transferred to the place of their last legal settlement. In the case of all patients coming from out of town, it is important to show whether they have received previous treatment in an institution as public charges, in the town or city where they came from. When they have been public charges elsewhere they cannot gain a legal settlement in New York City. In the case of aliens, non-residents, and State poor, the necessary papers for reference to the State Board of Charities are prepared by representatives of the Department of Public Welfare, after such patients have been admitted to a suitable institution.

NEW LAW AS TO CARE OF TUBERCULOSIS.

A New York law (chapter 900, approved May 21, 1920) provides for the listing and recommendation by the State Commissioner of Health of private institutions and dwellings found suitable for the board and lodging of tuberculous patients, and further provides for State aid to tuberculous patients, not bedridden, who are unable to pay either in whole or in part for such board and lodging. A fixed and uniform rate of payment for board and lodging is prescribed by the State Department of Health, except that the rate of payment is determined by the City Department of Health and the Commissioner of Health as to patients residing in cities of the first class. The health officer of the city, town, or village monthly, in advance, collects from each person residing within their respective districts who is boarded and lodged hereunder, except such whom the health officer of the city town or village shall find to be financially unable to pay such expense, one-third of the expense of boarding and lodging of each such patient and pay the same into the county treasury.

PUBLIC BATHS AND COMFORT STATIONS, MANHATTAN.
